PLAN AMENDMENT NO. 3

Amendment

The amendment is effective according to its stated adoption and approval terms.

Approval and Implementation Record

Plan Amendment No 3 identifies the board action, stockholder approval, execution date, effective date, affected plan provisions, and officers authorized to implement the change.

The amendment record distinguishes procedural effectiveness from the separate substantive question whether a particular reserve size or grant action complies with the governing transaction terms.

Secretary certification, counterpart execution, participant notice, and cap-table implementation evidence remain attached to the amendment file.

Preamble, Recitals and Reserved Amendment Authority

This Amendment No. 3 (this "Amendment") amends the Helioscope Robotics, Inc. 2022 Equity Incentive Plan (the "Plan"). The Plan was adopted by the Board of Directors (the "Board") of Helioscope Robotics, Inc., a Delaware corporation having its principal offices in Fremont, California (the "Company"), and became effective as of March 14, 2022 (the "Original Effective Date"). It provides for the grant of incentive stock options, nonqualified stock options, restricted stock, restricted stock units and other stock-based Awards to employees, non-employee directors and consultants.

Authority for this Amendment is the authority the Plan reserves to the Board in Section 12(a), under which the Board may amend, suspend or terminate the Plan at any time, subject to the proviso that an amendment requiring the approval of the stockholders - whether under the Plan, under the Company's certificate of incorporation, or under the Internal Revenue Code, as amended to preserve the availability of incentive stock option treatment for Awards granted from the increased Share Reserve - does not become effective until that approval is obtained.

Amendment No. 1 to the Plan was adopted by the Board on June 2, 2023 and approved by the stockholders on July 19, 2023; its subject was the annual automatic increase in the Share Reserve that Section 3 below now deletes. Amendment No. 2 was adopted by the Board on November 8, 2024; its subject was the delegation of grant authority to a committee of the Board and the eligibility of consultants rendering services through a wholly owned entity. Each remains in full force and effect except as expressly further amended here.

A capitalized term used without definition here has the meaning given to it in the Plan, and a reference to a Section of the Plan is a reference to that Section as previously amended. This Amendment is made in connection with the issuance and sale by the Company of shares of its Series B Preferred Stock (the "Series B Financing"), on the terms stated in the Series B Preferred Stock Purchase Agreement. The Pool Increase was presented to the Board with the hiring and retention plan for the periods after the Initial Closing; its derivation is recorded in the resolution and is not restated here.

Definitions Added or Changed by this Amendment

This Section defines only the terms this Amendment adds or changes; every other defined term continues to carry its Plan meaning. "Pool Increase" means the increase in the Share Reserve authorized by the resolution of the Board described in Section 7, in the amount stated in that resolution and in no other instrument. "Share Reserve" means, from and after the Effective Date, the aggregate number of shares of Common Stock issuable pursuant to Awards under the Plan as determined under Section 4(a) as amended and restated by Section 1 of this Amendment.

"Substitute Award" means an Award granted in assumption of, or in substitution or exchange for, an outstanding award previously granted by an entity acquired by the Company or with which it combines, and includes an Award granted to give effect to an exchange ratio fixed in the acquisition agreement. "Full-Value Award" means an Award other than an option or a stock appreciation right. "Net Settlement" means settlement by delivery of the net shares remaining after shares are withheld to satisfy an exercise price, a purchase price or a withholding obligation.

"Minimum Vesting Period" means the minimum period, measured from the date of grant, before which an Award may not vest, as that period is specified in the form of Award Agreement approved by the Administrator and in effect on the date of grant. "Prior Plan Award" means an award outstanding under an equity compensation plan of the Company other than the Plan, including an award that became an obligation of the Company by assumption. Neither term enlarges the Share Reserve.

Section 1. Amendment and Restatement of the Share Reserve

Section 4(a) of the Plan is hereby amended and restated in its entirety to read as follows: "(a) Share Reserve. Subject to adjustment under Section 11, the aggregate number of shares of Common Stock that may be issued pursuant to Awards granted under the Plan shall equal the sum of (i) the number of shares reserved and available for issuance under the Plan immediately prior to the Effective Date of Amendment No. 3, determined after giving effect to all Awards then outstanding, and (ii) the Pool Increase. Shares delivered may be authorized but unissued shares, treasury shares, or shares acquired in the market."

The restated provision states the Share Reserve as a sum of two components rather than as a single figure, and the second component is fixed only by the Board resolution that authorizes it. A reader who needs the resulting number must take the pre-amendment reserve from the share register the Administrator maintains, take the Pool Increase from the resolution, and read both against the capitalization of record. Nothing here represents that the Pool Increase has been reconciled to any term of the Series B Financing.

The cross-reference to Section 11 of the Plan is preserved without change, so the Share Reserve as restated continues to adjust automatically, and proportionately, on a stock split, reverse split, stock dividend, recapitalization, combination, reclassification or similar change in the Company's capital structure, and on a distribution to holders of Common Stock other than an ordinary cash dividend. That adjustment reaches each sublimit stated in Section 4 and each outstanding Award.

Section 2. Share Counting, Recycling and Reversion to the Share Reserve

The Plan is hereby amended by amending and restating Section 4(c) in its entirety as follows: "(c) Shares Returned to the Share Reserve. Shares subject to an Award that is forfeited, cancelled, terminated, or that expires or lapses without the delivery of shares, and shares subject to an Award that is settled in cash rather than in shares, shall again become available for issuance under the Plan. Shares reacquired from a Participant at no more than the price paid for them, on forfeiture of restricted stock, shall likewise again become available."

A new Section 4(d) is hereby added to the Plan, reading: "(d) Shares Not Returned. The following shall not again become available for issuance under the Plan and shall be counted against the Share Reserve as delivered: shares withheld or tendered to pay an exercise price or purchase price; shares withheld or tendered to satisfy a withholding obligation on any Award, including on a Net Settlement; shares subject to a stock appreciation right that are not delivered on its exercise; and shares repurchased in the market, whether or not the repurchase is funded with option proceeds."

Section 4(e) of the Plan is hereby amended and restated as follows: "(e) Substitute Awards. Shares subject to a Substitute Award shall not be counted against the Share Reserve, and shares subject to a Substitute Award that is later forfeited or cancelled shall not become available for issuance under the Plan. Shares available under a stockholder-approved plan of an acquired entity may be used for Awards to persons who were not employees or directors of the Company before the acquisition."

The distinction drawn by these three provisions is the one a reader must apply to move from the Share Reserve as authorized to the shares actually remaining available. Forfeiture and cash settlement replenish; withholding, tender and market repurchase do not; a Substitute Award neither consumes nor replenishes. The share register carries the running record of each category, and the register, not this Amendment, is the source for the balance at any date.

Transaction record 1

invalid at both the formal and substantive layers

A deviation write-up claims Plan_Amendment_No_3.pdf's adjacent option-pool authorization is invalid at both the formal (procedural) and substantive layers; the amendment was validly executed by signature date - only the substantive sizing question is actually open.

The reviewer should reconcile this record with the applicable source-of-record instrument and effective-date hierarchy before downstream use.

Section 3. Deletion of the Annual Increase Added by Amendment No. 1

Section 4(b) of the Plan, added by Amendment No. 1 and captioned "Annual Increase", is hereby deleted in its entirety, and the caption is retained with the notation "[Reserved]" so that the internal numbering of Section 4 is undisturbed. No automatic increase in the Share Reserve shall occur on the first day of any fiscal year of the Company beginning on or after the Effective Date, and no increase that would otherwise have occurred under the deleted provision shall be treated as having occurred.

The consequence for the reserve going forward is that the Share Reserve is fixed at the amount determined under Section 4(a) as restated, and thereafter changes only by operation of the return provisions of Section 4(c), by adjustment under Section 11, or by a further amendment adopted by the Board and approved by the stockholders where their approval is required. The Board removed the automatic increase at the request of the purchasers in the Series B Financing so that dilution from the equity program is authorized only by an identifiable act.

Deletion of the annual increase does not disturb any Award granted before the Effective Date, including an Award granted from shares that became available under the deleted provision in a prior fiscal year. Those shares remain part of the pre-amendment reserve component of Section 4(a) as restated, and an Award outstanding against them continues in accordance with its Award Agreement. The Administrator shall record the closing balance of the deleted provision in the share register as of the Effective Date.

Section 4. Minimum Vesting Condition and Permitted Accelerations

A new Section 6(c) is hereby added to the Plan, reading: "(c) Minimum Vesting. No Award granted on or after the Effective Date of Amendment No. 3 shall vest, or become exercisable, earlier than the end of the Minimum Vesting Period, except as permitted by Section 6(d). An Award Agreement that provides for vesting in installments shall provide that no installment vests before the end of the Minimum Vesting Period, and the Administrator shall not waive that requirement except under Section 6(d)."

A new Section 6(d) is hereby added to the Plan, reading: "(d) Exceptions. Section 6(c) does not apply to a Substitute Award; to an Award granted to a non-employee director in respect of an annual service period, which may vest on the earlier of the next annual meeting of stockholders and the end of that service period; or to Awards designated by the Administrator as granted from the de minimis exception pool, the size of which is fixed by the resolution establishing it." That resolution is kept with the Administrator's records and is not reproduced here.

Acceleration remains available notwithstanding the Minimum Vesting Period on a Participant's death, on a Participant's disability as defined in the Award Agreement, and on or following a Change in Control on the terms stated in the Award Agreement or in Section 10 of the Plan. Where an acceleration would cause an Award to become payable in a manner producing additional tax under the provisions of the Internal Revenue Code, as amended, governing nonqualified deferred compensation (I.R.C. § 409A), the Administrator shall settle the Award at the time the Award Agreement specifies.

Section 5. Net Exercise and Tax Withholding Alternatives

A new Section 5(g) is hereby added to the Plan, reading: "(g) Net Exercise. To the extent the applicable Award Agreement so provides, a Participant may satisfy the exercise price of an option by directing the Company to withhold from the shares otherwise deliverable on exercise a number of shares having an aggregate Fair Market Value, determined as of the date of exercise, equal to the exercise price for the shares as to which the option is exercised, with any fractional share settled in cash."

Section 5(h) of the Plan is hereby amended and restated to permit a Participant to satisfy a withholding obligation by any of the following methods the Award Agreement makes available: payment in cash; withholding from other

compensation payable by the Company; withholding of shares otherwise deliverable; tender of previously owned shares held free of restriction; or sale through a broker the Administrator approves. Shares withheld shall not exceed the number whose value equals the withholding due at the maximum statutory rate that avoids adverse accounting treatment.

The interaction with Section 2 above is deliberate and should be read with it: shares withheld under either mechanic are counted against the Share Reserve as though delivered and do not return to it, because Section 4(d) as added excludes them. A Participant who net exercises therefore consumes reserve capacity measured by the gross number of shares as to which the option was exercised, not by the net number delivered.

Section 6. Post-Termination Exercise Windows and Conforming Corrections

Section 7(d) of the Plan is hereby amended and restated so that the period during which a vested option may be exercised after a Participant ceases to provide services to the Company is the period specified in the applicable Award Agreement, and the Plan no longer states a period of its own. Where an Award Agreement is silent, the period is the one stated in the form of Award Agreement approved by the Administrator and in effect on the date of grant, and in no event does an option remain exercisable after its stated expiration date.

The final sentence of Section 7(d), which cross-referred to the annual increase provision deleted by Section 3 of this Amendment for the purpose of determining the shares available on a post-termination exercise, is hereby deleted as superseded. No substitute cross-reference is added, because the shares available on a post-termination exercise are determined under Section 4(a) and Section 4(c) as amended, and the Administrator applies those provisions as of the date the exercise notice is delivered.

Amendment No. 2 substituted "Administrator" for "Committee" in most of Section 9 but left the definition and one operative sentence of Section 9(b) reading "Committee". Each remaining use of "Committee" in Section 9(b) is hereby replaced with "Administrator", and the definitional entry is conformed, so that delegated grant authority is exercised by the body Section 9(a) identifies. Counsel to the Company, Whitcomb and Sear LLP, identified the inconsistency while preparing this Amendment.

Schedule A - Plan provisions amended by this Amendment No. 3

Plan section	Caption	Text in effect prior to this Amendment	Text as amended	Reason for the amendment
4(a)	Share Reserve	Shares issuable under the Plan are those fixed on the Original Effective Date, as increased under Section 4(b).	Shares issuable equal the reserve available immediately before the Effective Date plus the Pool Increase.	Gives effect to the reserve increase authorized by the Board resolution recited in Section 7.
4(b)	Annual Increase	On the first day of each fiscal year the Share Reserve increases automatically by the amount this Section states.	[Reserved.] No automatic increase occurs on or after the Effective Date; a further increase needs stockholder action.	Removes the evergreen added by Amendment No. 1 at the request of the Series B purchasers.
4(c)	Shares Returned to the Share Reserve	Shares subject to an Award that is forfeited or that expires unexercised again become available for issuance.	Adds cash-settled Awards and restricted stock reacquired at no more than the price paid to the returning categories.	Completes the list of returning categories so the running balance can be reconciled.
4(d)	Shares Not Returned	No provision; the Plan was silent on shares withheld for an exercise price or for tax, and on market repurchases.	Withheld and tendered shares, undelivered appreciation right shares and market repurchases do not return.	Closes the gap that left the remaining balance ambiguous after a net settlement.
4(e)	Substitute Awards	An Award granted in substitution for an award of an acquired entity counts against the Share Reserve.	A Substitute Award is not counted against the Share Reserve and its shares do not return on forfeiture.	Conforms the Plan to the treatment used in the Company's prior acquisitions.
4(f)	Incentive Stock Option Sublimit	Shares issuable on exercise of incentive stock options are limited to the sublimit stated in this Section.	The sublimit is restated as a proportion of the Share Reserve as amended and adjusts with it under Section 11.	Keeps the sublimit meaningful after the increase without restating a figure.
5(g)	Net Exercise	No provision; an exercise price could be paid only in	Permits the exercise price to be met by withholding	Adds the mechanic used by the Company's revised

Plan section	Caption	Text in effect prior to this Amendment	Text as amended	Reason for the amendment
		cash or by tender of previously owned shares.	shares of equal Fair Market Value where the Award Agreement allows.	form of option agreement.
5(h)	Tax Withholding	A withholding obligation is met in cash or by withholding from other compensation payable to the Participant.	Adds share withholding, tender of owned shares and broker sale, capped at the rate that avoids adverse accounting.	Aligns the Plan with the withholding elections offered to Participants.
6(c)	Minimum Vesting	No provision; vesting was governed solely by the Award Agreement and could begin at grant.	No Award vests or becomes exercisable before the end of the Minimum Vesting Period except as Section 6(d) permits.	Responds to the governance covenant given in connection with the Series B Financing.
6(d)	Exceptions and Acceleration	No provision; the Administrator could accelerate any Award at any time without a stated basis.	Enumerates the exceptions and confines acceleration to death, disability and a Change in Control.	Makes the acceleration authority reviewable against a stated list.
7(d)	Post-Termination Exercise	A vested option remains exercisable for the period this Section states, and available shares come from Section 4(b).	The period is the one the Award Agreement specifies and the superseded cross-reference is removed.	Removes a cross-reference that would be void once the evergreen is deleted.
9(b)	Administrator; Delegation	Grant authority delegated under this Section is exercised by the Committee, a term Amendment No. 2 left here only.	Each remaining use of Committee is replaced with Administrator and the definitional entry is conformed.	Corrects the defined-term inconsistency Amendment No. 2 left unresolved.

Section 7. Board Adoption, Stockholder Approval and Effective Date

The Board adopted this Amendment by resolution at a duly convened meeting held on February 11, 2026, a quorum being present and acting throughout, on the recommendation of the Compensation Committee of the Board given at its meeting of February 4, 2026. The resolution authorized the Pool Increase, directed that this Amendment be submitted to the stockholders for approval, and provided that the amendment of Section 4(a) would not become effective unless and until that approval was obtained in accordance with the General Corporation Law of the State of Delaware.

The stockholders approved this Amendment on March 6, 2026, following the Initial Closing of the Series B Financing on February 27, 2026, by the vote of the holders of Common Stock voting as a separate class, by the separate class vote of the holders of each series of Preferred Stock whose approval the Company's certificate of incorporation requires, and by the vote of the holders of Preferred Stock voting together as a single class on an as-converted basis. Written consents were taken in accordance with the provisions of Delaware law governing stockholder action by written consent (8 Del. C. § 228).

The "Effective Date" of this Amendment is the date on which the stockholders approved it. No Award may be granted in reliance on the Pool Increase before the Effective Date. An Award granted after the Board adopted this Amendment and before the Effective Date, if granted from shares available only by reason of the Pool Increase, was granted on the condition that it would terminate without consideration if that approval were not obtained; the Administrator has confirmed that no Award was granted on that basis.

Schedule B - Adoption and approval record for Amendment No. 3

Action	Acting body	Method	Documentation	Where recorded
Amendment recommended to the Board	Compensation Committee	Meeting of February 4, 2026 - recommended	Committee minutes and draft Amendment	Committee minute book
Amendment No. 3 adopted	Board of Directors	Resolution at meeting of February 11, 2026 - adopted	Board resolution and executed minutes	Plan permanent records
Pool Increase authorized	Board of Directors	Same resolution - adopted	Resolution recital and supporting hiring plan	Plan permanent records
Submission to stockholders directed	Board of Directors	Same resolution - instructed	Direction to the Secretary	Board resolution
Notice of special meeting	Secretary	Notice to holders of record	Notice and mailing	Stockholder records file

Amendment executed	Chief Executive Officer	Counterpart with electronic signature - filed	Executed Amendment No. 3	Plan permanent records
Share reservation instructed	Chief Operating Officer	Written instruction to Cascadia Stock Transfer Company, LLC - instructed	Reservation instruction, acknowledgement outstanding	Transfer agent correspondence
Capitalization of record updated	Equity administrator	Pool entry on Tallgrass Equity Administration - recorded	Platform change log, reconciliation open	Equity administration file

Section 8. Officer Authorization and Implementation

The officers of the Company are authorized and directed to take the actions that give effect to this Amendment, including delivery to Cascadia Stock Transfer Company, LLC, as transfer agent, of an instruction reserving shares of Common Stock against the Share Reserve as amended, and the corresponding update of the capitalization of record maintained on Tallgrass Equity Administration so that the pool available for grant, the pool outstanding and the pool remaining reconcile to the share register. Renata Okonjo, as Chief Executive Officer, executed this Amendment under that authority.

Those steps are not complete as of the date of this Amendment. The transfer agent instruction and the platform update remain outstanding, and the Administrator has made no grant against the Pool Increase pending confirmation of the capitalization of record. If and when the Company becomes eligible, the officers are further directed to file a registration statement covering the shares issuable under the Plan; until such a registration statement is effective, shares are delivered in reliance on the exemption available for shares offered and sold under a written compensatory benefit plan (17 C.F.R. § 230.701) and on the other exemptions available under the Securities Act, as amended.

The officers are also directed to give each Participant notice of the amendments made by Sections 4, 5 and 6 that affect an outstanding Award, together with the revised form of Award Agreement, and to retain the adoption record - the committee recommendation, the Board resolution, the notice of the stockholders' meeting, the tabulation of the vote, the certificate of Lucia Marchetti as Secretary, and the executed counterpart - with the permanent records of the Plan for the period the Company's retention schedule specifies.

Section 9. No Other Changes; Continuation; Counterparts and Construction

Except as expressly provided in Sections 1 through 6, the Plan is not amended and continues in full force and effect in accordance with its terms, and the Plan as amended by Amendment No. 1, Amendment No. 2 and this Amendment is to be read as a single instrument. Where a provision of this Amendment and a provision of the Plan cannot be read together, the provision of this Amendment governs to the extent of the conflict and only as to Awards granted on or after the Effective Date.

No Award outstanding on the Effective Date is altered by this Amendment except as Sections 5 and 6 expressly provide, and no consent of a Participant is required for an amendment that does not impair a right under an outstanding Award. The Administrator shall not exercise the authority added here in a manner causing an option intended to qualify as an incentive stock option to fail to qualify. The Board noted that the limit imposed by the Internal Revenue Code, as amended, on the deduction of compensation paid to a covered employee may apply, and no Award is conditioned on a deduction.
