# CORPORATE RECORD - RECORD 006

Helioscope Robotics, Inc. - diligence file reference LEGAL_HISTORY-006

## 1. What Acceptance by the State Does Not Establish

The subject here is the board-size amendment filed in June 2020, the Common class vote that was still incomplete when it took effect, and the validation certificate the corporation lodged in October 2024 to ratify the underlying board action. Board Composition Amendments and the Ratification of a Defective Act. The corporate secretary compiled these papers, which set out the board-size amendment, the missing class vote, and the validation certificate. The account is retrospective throughout, and a reader should attribute each number to its own instrument and not to the transaction under negotiation.

The ratification path was chosen because the underlying action had been relied upon for years, and unwinding it would have unsettled records that third parties had accepted. The analysis records for each instrument whether it is effective, effective subject to an open approval item, or superseded, and it does not collapse those states into a single label. A refiling was considered and rejected, since refiling would have created a second instrument with a later effective time and disturbed the reconciliation of authorized totals.

Ratification of a defective corporate act is a procedure the General Corporation Law of the State of Delaware (8 Del. C. § 204) contemplates, and the corporation followed the notice and filing steps that procedure entails. The analysis records for each instrument whether it is effective, effective subject to an open approval item, or superseded, and it does not collapse those states into a single label. The file records that no stockholder brought a challenge within the period during which one might have been brought, though that is not offered as a legal conclusion.

## 2. Stockholder and Board Approvals

Because written consents were solicited in counterparts, the register tracks how many counterparts were received against how many were sought for each matter. The board resolutions authorizing a filing and the stockholder consent approving the underlying action are indexed separately, since each answers a different question about authority. A trustee signature was accepted only after the trust certificate had been produced, and the register notes the date the certificate arrived.

One matter was approved by a threshold expressed as two thirds of a series, and counsel confirmed that the shares counted were held of record rather than beneficially. The board resolutions authorizing a filing and the stockholder consent approving the underlying action are indexed separately, since each answers a different question about authority. The corporation obtained one approval by unanimous consent of all holders of record, which removed any question about the notice that a partial consent would have required.

## 2. Stockholder and Board Approvals - part 4 of 4

Where the 2. Stockholder and Board Approvals was interrupted by the page, it picks up again below, and the numbering is continuous throughout the schedule. No row is omitted at the join.

Nothing in this part varies how the 2. Stockholder and Board Approvals was compiled, and the headings given at the start remain the operative ones. Nothing is restated from the earlier part.

## 3. Instrument Chronology

Chronology is stated by effective time rather than by execution date: two instruments lodged on one afternoon took effect minutes apart, and that order governs the share reconciliation. One certificate of correction appears in the sequence; it altered no approval and operates only against the factual error in the instrument it corrects. Where an instrument bears an effective time later than the hour of filing, the delay was requested in the cover letter and that request sits in the batch materials.

A short amendment touching only the forum article sits between two restatements, and it is easy to overlook precisely because it altered no economic term. One certificate of correction appears in the sequence; it altered no approval and operates only against the factual error in the instrument it corrects. No merger or conversion instrument appears, so the entity has remained throughout a corporation organized under the original Delaware certificate.

## 4. Minute Book Organization

The registered office address is a matter of public record, and the file holds the state-stamped instrument that established the current address. Two board consents in the minute book are unsigned by one director, and the index records that rather than presenting the set as complete. The secretary's certificate delivered for this process certifies the minute book as complete subject to the exceptions the index lists.

Opinion letters delivered at each financing are retained with their qualifications, and the index does not summarize those qualifications away. Two board consents in the minute book are unsigned by one director, and the index records that rather than presenting the set as complete. Materials relating to the current financing are held outside the historical tabs and are not indexed here.

## 4. Minute Book Organization - part 2 of 4

Where the 4. Minute Book Organization was interrupted by the page, it picks up again below, and the numbering is continuous throughout the schedule.

Everything stated about how the 4. Minute Book Organization was assembled continues to hold, and the break carries no substantive meaning. The sequence is unbroken either side of it.

## 4. Minute Book Organization - part 3 of 4

For length, the 4. Minute Book Organization is presented in 4 parts; this is the next of them, and the rows continue the same sequence. Pagination alone determines where it falls.

No basis of compilation changes at this break; whatever the 4. Minute Book Organization recorded about scope and method at its head continues to apply. Nothing is restated from the earlier part.

## 4. Minute Book Organization - part 4 of 4

The 4. Minute Book Organization begun above continues from this point, and its row references run consecutively across the parts rather than restarting.

Because the basis of the 4. Minute Book Organization is unchanged, figures in this part may be compared directly with those already given. Pagination alone determines where it falls.

## 5. Lodgement Record, Rejections, and Refilings

A third submission was accepted with a clerk annotation, which the log preserves because the annotation affects how the stamped copy reads. Stamped copies as returned by the state are indexed separately from counsel's execution copies, so the two cannot be confused in the file. One document was lodged by facsimile with the original following by courier, a practice the log notes has not been used since.

Fees paid are recorded per batch rather than per document, since the state assesses several instruments lodged together as one transaction. Stamped copies as returned by the state are indexed separately from counsel's execution copies, so the two cannot be confused in the file. Where the state's response date differs from the effective time of the instrument, both dates appear so the interval is visible.

## 6. Definitional Framework

Capital stock, preferred stock, and each series are separate defined terms, and the charter avoids using the general term where a series is meant. A defined term for the transfer agent's register makes that register the reference point for notices and for measuring holders of record. Where a term is used only once, the charter defines it inline rather than in the definitions subsection, and the conformance review lists those instances.

Where a definition was relocated during a restatement, the conformance schedule records the move so an old cross-reference can be followed. A defined term for the transfer agent's register makes that register the reference point for notices and for measuring holders of record. The construction clause provides that a reference to a statute is to that statute as amended, which affects how the older instruments should be read today.

**Schedule 6.3 - Register of waivers, terms, and lapse dates**

## 7. Certificate and Ledger Records

The transfer agent holds the ledger of record, and instruction letters from the corporation are indexed against the entries they produced. Election receipts for restricted stock are filed behind the corresponding stub, and the register flags the single grant for which the receipt has not been produced. One reissued certificate bears a legend that its predecessor did not, because the holder's circumstances changed between the two issuances.

Where a holder returned a certificate for re-registration in the name of a nominee, the register names both the former holder and the nominee. Election receipts for restricted stock are filed behind the corresponding stub, and the register flags the single grant for which the receipt has not been produced. The corporation issues certificates only against a completed subscription or grant record, and the register names that record for each issuance.

## 8. Waiver Register and Notice Practice

The register distinguishes a waiver granted by the corporation from one granted by holders, since the two require different authority. The longest waiver in the register ran a full year and concerned a board observer seat that was left unfilled throughout. The effect column states what the waiver actually enabled, not merely which clause it addressed, so a reader can see the transaction behind it.

A waiver of an information-rights deadline had the practical effect of deferring three quarterly deliveries, and the register says which deliveries were affected. The longest waiver in the register ran a full year and concerned a board observer seat that was left unfilled throughout. Waivers were circulated to the full holder group even where only one holder's right was affected, and the register records that practice.

**Schedule 6.4 - Recorded transfers and the rights engaged**

| Transfer ref. | Certificate affected | Parties | Nature of transfer | Shares | Recorded | Waiver or consent relied on | Status |
|---|---|---|---|---|---|---|---|
| T-2025-06 | C-0107 issuance | Sandor Wyeth | restricted stock award | 58,900 | 2025-11-05 | not applicable | open - election receipt outstanding |
| T-2026-01 | inquiry only | unnamed existing holder | proposed secondary purchase | - | 2026-02-02 | W-2026-01 pending | open - standstill under review |
| T-2021-01 | C-0001 partial | Aurelia Vance | internal repurchase at cost | 250,000 | 2021-03-02 | W-2021-01 | closed |
| T-2021-07 | C-0031 | Dorsey Lin to Marisol Ferreira | permitted family transfer | 96,500 | 2021-12-01 | not required | closed |
| T-2022-03 | C-0019 pledge release | Halloran Family Trust | release of a lender pledge | 185,000 | 2022-08-11 | not required | closed |
| T-2023-02 | C-0012 | Tessellate to Cortlandt Secondary | negotiated secondary sale | 592,456 | 2023-05-19 | W-2022-05 | closed |

| T-2025-02 | C-0064 | Piotr Salamon to Ravensworth Nominees | nominee re-registration | 42,750 | 2025-04-22 | ROFR lapsed by non-exercise | closed |

## 9. Plan Records and Evergreen Mechanics

Each reserve increase after the first preferred designation required a class approval, and the history names the class that gave it. One increase was approved conditionally, taking effect only on the closing of the financing then in progress, and the condition is recorded. A quarterly certification of the reserve balance was waived once and delivered on the lapse date, which the history cross-references to the waiver register.

Two restatements changed no reserve amount, and the history shows a zero delta for them rather than omitting them. One increase was approved conditionally, taking effect only on the closing of the financing then in progress, and the condition is recorded. The plan's administration provisions were amended to allow delegation to a committee, and the delegation resolution is filed with the plan documents.

## 10. Joinder Records and Notice Maintenance

The warrant holder joined for information rights only, and its joinder is drafted so that no voting obligation attaches to it. Counsel checked whether each party holding rights under the agreements has in fact joined them, and the check found no holder exercising a right it had not joined. One entity changed its legal name after joining, and the register carries the former and current names against a single entry.

The register distinguishes a permitted transferee that joined by operation of the transfer provisions from an investor that joined as a purchaser in a financing. Counsel checked whether each party holding rights under the agreements has in fact joined them, and the check found no holder exercising a right it had not joined. The corporation has not required a joinder from holders of vested options, and the register explains why on its face.

## 11. Franchise Tax and Annual Reports

The annual report identifies the directors and the principal place of business, and the log flags the year in which that information lagged an actual change. The log records who filed each report, which was the registered agent in the early years and the controller thereafter. The log carries the tax year rather than the filing year in its first column, because the two differ for every entry.

Because a franchise tax showing is required for certain filings, one amendment was rejected until the prior year's payment could be evidenced. The log records who filed each report, which was the registered agent in the early years and the controller thereafter. One year's report was filed before the directors' slate had been updated, and the following year's report corrected the listing.

## 12. Matters Left Outstanding

A lapse notice for one waiver was never circulated to a holder who was entitled to receive it, and the holder's later acknowledgement does not cure the omission on the record. Each open item is stated with the date it arose, so a reader can see how long it has been outstanding. The file distinguishes an open item from a qualification, since a qualification limits a statement while an open item describes work remaining.

The standstill question raised in the most recent secondary inquiry remains open, and no waiver has yet been granted or refused. Each open item is stated with the date it arose, so a reader can see how long it has been outstanding. Counsel expects most of the listed items to close before signing, but the file makes no commitment on the reader's behalf.
