MANAGEMENT OPERATING REVIEW - RECORD 005

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-005

Monthly Business Review for June 2024: purpose and attendance

Timekeeping was enforced by the chief of staff rather than by the chair, which worked better than expected. One function submitted its pre-read late. Pre-reads went out ahead of the 2024-07-11 session. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Sunil Achterberg attended as Director of Field Service. The Monthly Business Review convened for June 2024. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Pre-read materials went out three business days ahead, and the review started from questions rather than from a walkthrough. The Monthly Business Review convened for June 2024. Pre-reads went out ahead of the 2024-07-11 session. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Notes were circulated on 2024-07-11. Lucia Mbeki-Hart, Controller, presented the operations section. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

One function submitted its pre-read late, and the section was taken last rather than allowed to shorten the discussion of others. The next session is set for 2024-08-08. Notes were circulated on 2024-07-11. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Pre-reads went out ahead of the 2024-07-11 session. One function submitted its pre-read late. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Data definitions were attached to the packet for the first time, and two functions discovered they were counting differently. Notes were circulated on 2024-07-11. The next session is set for 2024-08-08. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Lucia Mbeki-Hart, Controller, presented the operations section. The Monthly Business Review convened for June 2024. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Deal inspection

Multi-year commitments are becoming the norm in this segment, which stabilises the site queue and complicates the revenue phasing. The Northstar Cold Chain pursuit re-dated again. Slippage totalled 7 opportunities against 5 before. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Two losses went to the same competitor. Lucia Mbeki-Hart owns the re-qualification pass. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Late-stage legal review has become a recurring source of slip, and the general counsel asked for the pattern rather than the anecdotes. Slippage totalled 7 opportunities against 5 before. The Northstar Cold Chain pursuit re-dated again. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Lucia Mbeki-Hart owns the re-qualification pass. Deals leaving the period: 7, most still dated. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Slippage this period was not random: the deals that moved had a common feature, which is that the customer had no internal project owner. Conversion into commercial close remains the weak stage. Deals leaving the period: 7, most still dated. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Two losses went to the same competitor. The Northstar Cold Chain pursuit re-dated again. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

The largest pursuit in the book carries a dependency on the customer finishing a racking project that has already been delayed twice. Deals leaving the period: 7, most still dated. Two losses went to the same competitor. Two regions had just been reorganised. Territory maps were redrawn that fortnight. The Northstar Cold Chain pursuit re-dated again. Conversion into commercial close remains the weak stage. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Procurement cycles at the grocery accounts run longer than the model assumes, and the model has not been updated since it was written. Two losses went to the same competitor. Slippage totalled 7 opportunities against 5 before. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Weighted coverage sits near 91 open pursuits. Deals leaving the period: 7, most still dated. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

One displacement pursuit has consumed more engineering support hours than the next four combined, with no commitment in return. Lucia Mbeki-Hart owns the re-qualification pass. The Northstar Cold Chain pursuit re-dated again. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Weighted coverage sits near 91 open pursuits. Two losses went to the same competitor. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Capital projects and decisions, June 2024

Project	Approved USD thousands	Spent to date USD thousands	Status	Decision this review
Second functional test cell	46	24	complete	proceed
South-west regional hub	42	0	deferred	release next tranche
Bond-line inspection station	33	0	deferred	defer one quarter
Endurance test rig	33	22	deferred	release next tranche
Depot tooling refresh	151	85	in progress	re-scope
Assembly cell rebalance fixtures	126	104	in progress	defer one quarter
Kitting pick-to-light installation	92	59	on hold	defer one quarter
Environmental chamber for battery testing	75	31	complete	cancel
Crew vehicle fit-out, four vans	67	56	on hold	release next tranche
Plant network segmentation	67	1	complete	release next tranche
Training mock aisle	58	3	in progress	release next tranche
Calibration standards for lidar bench	50	17	complete	defer one quarter

Go-live schedule review

The queue holds three sites with no confirmed dock date from the customer, and the review declined to schedule crews against hope. The queue carries 14 sites, 12 a period ago. Sunil Achterberg sequenced the queue by readiness. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Go-live cycle: 68 days, from 71. Queue depth reached 14 sites. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Days from contract to go-live improved, but the improvement came from the front of the process rather than from anything the installation crews changed. Go-live cycle: 68 days, from 71. Queue depth reached 14 sites. Two regions had just been reorganised. Territory maps were redrawn that fortnight. The queue carries 14 sites, 12 a period ago. Sunil Achterberg sequenced the queue by readiness. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

The deployment playbook was rewritten mid-period after a crew found that the network prerequisites section was three revisions out of date. Go-live cycle: 68 days, from 71. Sunil Achterberg sequenced the queue by readiness. Two

regions had just been reorganised. Territory maps were redrawn that fortnight. Queue depth reached 14 sites. Kennesaw and Waukegan both cleared acceptance testing. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Crew travel days per site came down, largely because two regional hubs now hold enough tooling to avoid shipping kit ahead of each job. Contract to go-live averaged 68 days. Riverbend was held at the readiness gate. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Queue depth reached 14 sites. Sunil Achterberg sequenced the queue by readiness. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Acceptance testing found more integration defects than mechanical ones, and the defects clustered in the warehouse-management adapter. Riverbend was held at the readiness gate. Go-live cycle: 68 days, from 71. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Sunil Achterberg sequenced the queue by readiness. Kennesaw and Waukegan both cleared acceptance testing. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Installer utilisation is high enough to be a risk rather than an achievement, because there is no slack for rework travel. The queue carries 14 sites, 12 a period ago. Kennesaw and Waukegan both cleared acceptance testing. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Contract to go-live averaged 68 days. Go-live cycle: 68 days, from 71. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Bookings by region, June 2024

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
West - new logos	7	7	37	1	ahead on expansions
Southwest - new logos	5	4	34	2	reseller led the quarter
Great Lakes - new logos	3	3	36	3	ahead on expansions
Southeast - new logos	2	2	32	4	carried the number
Northeast - new logos	2	2	33	5	best conversion in the book
Ontario - new logos	1	1	35	0	best conversion in the book
Channel and reseller - new logos	8	7	37	1	in line with plan
West - expansion	4	4	25	2	coverage gap showing
Southwest - expansion	3	2	28	3	coverage gap showing
Great Lakes - expansion	2	2	30	4	coverage gap showing
Southeast - expansion	1	1	26	5	in line with plan
Northeast - expansion	1	1	29	0	ahead on expansions
Ontario - expansion	1	1	27	1	one award slipped a week
Channel and reseller - expansion	5	4	25	2	one award slipped a week
West - renewal attach	2	2	34	3	coverage gap showing
Southwest - renewal attach	1	1	36	4	best conversion in the book
Great Lakes - renewal attach	1	1	32	5	best conversion in the book
Southeast - renewal attach	1	1	33	0	no new logos this period
Northeast - renewal attach	1	1	35	1	best conversion in the book
Ontario - renewal attach	1	1	37	2	ahead on expansions
Channel and reseller -	2	2	34	3	coverage gap

Field crew capacity

Contractor coverage buys schedule protection at a cost per site that the review agreed to carry for a bounded number of jobs. Travel days per site fell again. Certified crew count trails the site queue of 14. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Priya Ramanathan covered two regions this period. Installer utilisation ran at 87 percent. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Regional crew hubs changed the utilisation picture more than any hiring decision made in the same period. Installer utilisation ran at 87 percent. Certified crew count trails the site queue of 14. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Travel days per site fell again. Tulsa needed a second crew visit. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Weekend and holiday work is filling gaps that the capacity model does not show, which makes the model look better than reality. Tulsa needed a second crew visit. Travel days per site fell again. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Certified crew count trails the site queue of 14. Installer utilisation ran at 87 percent. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Crew composition changed this period, with more integration skill and less mechanical assembly skill in each team. Certified crew count trails the site queue of 14. Installer utilisation ran at 87 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Tulsa needed a second crew visit. Utilisation was 87 percent against 91 percent. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Scheduling crews more than six weeks out has proved futile, because customer readiness dates move inside that window. Crew leads remain the gating resource. Priya Ramanathan covered two regions this period. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Travel days per site fell again. Certified crew count trails the site queue of 14. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Training throughput limits how fast the crew grows, because each certifying lead can supervise one trainee per site without degrading the job. Crew leads remain the gating resource. Certified crew count trails the site queue of 14. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Travel days per site fell again. Installer utilisation ran at 87 percent. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Build plan against actual

Second-shift ramp is going more slowly than planned because training the new operators takes line time from the first shift. The HS-200 tote handler drove most of the changeover time. Ingrid Solberg owns the line rebalance. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Output reached 51 units, from 49. Work in process ended at 34 units. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Test-cell capacity will bind before assembly capacity does, and the capital request to fix that has already been deferred once. The HS-200 tote handler drove most of the changeover time. Overtime carried the closing two weeks. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Work in process ended at 34 units. Attainment gap: 5 units short of plan. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Work instructions were re-photographed for the revised sensor head, ending a period where operators worked from a printout with a pen annotation. Work in process ended at 34 units. Attainment gap: 5 units short of plan. Two regions had just been reorganised. Territory maps were redrawn that fortnight. The HS-200 tote handler drove most of the changeover time. Output reached 51 units, from 49. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Rebalancing the two assembly cells lifted output without adding people, mostly by moving the harness dress-up operation upstream. Attainment gap: 5 units short of plan. Work in process ended at 34 units. Two regions had just been reorganised. Territory maps were redrawn that fortnight. The HS-200 tote handler drove most of the changeover time. Overtime carried the closing two weeks. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Cycle time on the pallet mover remains longer than the tote handler by more than the work content justifies. Overtime carried the closing two weeks. Work in process ended at 34 units. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Attainment gap: 5 units short of plan. Output reached 51 units, from 49. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Kitting accuracy improved after the pick-to-light change, and the number of build starts held for missing parts fell accordingly. The HS-200 tote handler drove most of the changeover time. Overtime carried the closing two weeks. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Attainment gap: 5 units short of plan. Plan was 56 units; the line delivered 51. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Top pursuits under inspection, June 2024

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1235	Bexley Pharmaceutical Wholesale	Verbal commitment	22	2024-08-06	no change since last review
PUR-1238	Marrowfield Grocers	Qualified	4	2024-08-19	moved one week
PUR-1241	Pinebank Distribution	Commercial close	18	2024-09-01	moved four weeks
PUR-1244	Alder & Vance Retail	Procurement queue	9	2024-09-14	no change since last review
PUR-1247	Northstar Cold Chain	Technical validation	24	2024-09-27	second re-date
PUR-1250	Havering Logistics	Legal review	7	2024-10-10	moved four weeks
PUR-1253	Quillon Home Supply	Re-qualifying	18	2024-10-23	moved one week
PUR-1256	Tenmile Freight	Pilot running	5	2024-11-05	date held
PUR-1259	Bexley Pharmaceutical Wholesale - second site	Verbal commitment	22	2024-11-18	brought forward
PUR-1262	Marrowfield Grocers - second site	Qualified	13	2024-12-01	no change since last review
PUR-1265	Pinebank Distribution - second site	Commercial close	28	2024-12-14	no change since last review
PUR-1268	Alder & Vance Retail - second site	Procurement queue	19	2024-12-27	date held
PUR-1271	Northstar Cold Chain - second site	Technical validation	34	2025-01-09	moved one week
PUR-1274	Havering Logistics - second site	Legal review	13	2025-01-22	date held
PUR-1277	Quillon Home Supply - second site	Re-qualifying	30	2025-02-04	second re-date
PUR-1280	Tenmile Freight - second site	Pilot running	21	2025-02-17	moved one week
PUR-1283	Bexley Pharmaceutical Wholesale - follow-on scope	Verbal commitment	36	2025-03-02	moved four weeks
PUR-1286	Marrowfield Grocers - follow-on scope	Qualified	19	2025-03-15	second re-date

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1289	Pinebank Distribution - follow-on scope	Commercial close	30	2025-03-28	no change since last review
PUR-1292	Alder & Vance Retail - follow-on scope	Procurement queue	17	2025-04-10	date held

Quality performance

Quality engineering asked for one more headcount and got a re-prioritisation instead, which the review acknowledged as a real trade. First-pass yield finished at 92 percent. Scrap totalled 29 thousand dollars. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Rework hours concentrated in the sensor cell. Scrap ran 29 thousand, from 24 thousand. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Process capability studies were completed on the two operations that had never had one, and one of them failed. Scrap totalled 29 thousand dollars. Dana Whitlock signed the corrective action. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Rework hours concentrated in the sensor cell. First-pass yield finished at 92 percent. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Containment held: nothing built in the affected window left the plant without a hundred percent inspection record attached. Yield was 92 percent against 94 percent. Rework hours concentrated in the sensor cell. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Scrap totalled 29 thousand dollars. First-pass yield finished at 92 percent. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Escapes to the field are the measure that matters, and this period produced a number that the service team could absorb. Dana Whitlock signed the corrective action. First-pass yield finished at 92 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Scrap ran 29 thousand, from 24 thousand. Yield was 92 percent against 94 percent. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

A supplier process change arrived without notification and produced a yield loss that took five weeks to attribute correctly. Scrap ran 29 thousand, from 24 thousand. Rework hours concentrated in the sensor cell. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Calder Battery Works changed a process without notice. Scrap totalled 29 thousand dollars. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Warranty claims lag the build date by months, so the yield excursion will keep appearing in service data after the plant has moved on. Scrap ran 29 thousand, from 24 thousand. Scrap totalled 29 thousand dollars. Two regions had just been reorganised. Territory maps were redrawn that fortnight. First-pass yield finished at 92 percent. Yield was 92 percent against 94 percent. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Carried constraints

Constraint under review: drive-unit lead time, at the build plan cut stage as of this session. Two hundred and forty DU-4 units were pulled out of the June build plan because Kestrel could not confirm dock dates, and the shortfall was absorbed by shifting the Tulsa configuration later in the queue. On-time delivery 79 percent, Calder Battery Works the outlier. Riverbend carries 14 of the queued fleet.

The harness supplier improved after a site visit, and the improvement is real enough to move them off the watch list. Lucia Mbeki-Hart issued the first supplier scorecards. Kestrel Drive Systems missed two consecutive commit dates. Two regions had just been reorganised. Territory maps were redrawn that fortnight. On-time delivery was 79 percent, from 83 percent. Coverage weeks on long-lead parts were extended. Days outstanding 59, Quillon Home Supply the

largest balance. Queue depth 14 sites, Kennesaw at the front. Scrap 29 thousand, Penrose Castings contributing. The Orchestrator fleet software took most of the test cell time.

Sharing a rolling forecast with the top suppliers cost nothing and moved two commit dates within a fortnight. On-time delivery was 79 percent, from 83 percent. Coverage weeks on long-lead parts were extended. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Kestrel Drive Systems missed two consecutive commit dates. Supplier on-time delivery came in at 79 percent. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Requisitions open 24, Sunil Achterberg holding the list. Burn 2688 thousand, runway 22 months. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Pricing exceptions granted, June 2024

Award	Account	Units	Exception type	Approved by
AWD-320	Quillon Home Supply	13	extended warranty at no charge	Chief Financial Officer
AWD-321	Tenmile Freight	10	payment terms extension	Chief Executive Officer
AWD-322	Bexley Pharmaceutical Wholesale	12	spares kit included	VP Operations
AWD-323	Marrowfield Grocers	14	training days added	Chief Operating Officer

Supply and supplier performance

Supplier scorecards were issued for the first time with delivery, quality and responsiveness weighted, and the ranking surprised nobody. On-time delivery was 79 percent, from 83 percent. Lucia Mbeki-Hart issued the first supplier scorecards. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Penrose Castings improved after a site visit. Kestrel Drive Systems missed two consecutive commit dates. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

The harness supplier improved after a site visit, and the improvement is real enough to move them off the watch list. Supplier on-time delivery came in at 79 percent. Penrose Castings improved after a site visit. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Coverage weeks on long-lead parts were extended. Lucia Mbeki-Hart issued the first supplier scorecards. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Sharing a rolling forecast with the top suppliers cost nothing and moved two commit dates within a fortnight. Kestrel Drive Systems missed two consecutive commit dates. Penrose Castings improved after a site visit. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Lucia Mbeki-Hart issued the first supplier scorecards. Expedite activity rose with the build plan of 56. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Supplier on-time delivery deteriorated across the board rather than at a single vendor, which points at demand signal quality on our side. Kestrel Drive Systems missed two consecutive commit dates. Penrose Castings improved after a site visit. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Lucia Mbeki-Hart issued the first supplier scorecards. Coverage weeks on long-lead parts were extended. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Second-source qualification is slow, unglamorous work that removes the only single point of failure left in the drive train. Lucia Mbeki-Hart issued the first supplier scorecards. Supplier on-time delivery came in at 79 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Kestrel Drive Systems missed two consecutive commit dates. Penrose Castings improved after a site visit. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Component cost movement was mild, and the review spent its time on availability instead because that is what is hurting. Lucia Mbeki-Hart issued the first supplier scorecards. Kestrel Drive Systems missed two consecutive commit dates. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Penrose Castings improved after a site visit. Expedite activity rose with the build plan of 56. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Material position

Long-lead buying decisions made two quarters ago are what the stockroom looks like today, for better and worse. Floor space in staging is now the binding limit. Sunil Achterberg owns the disposition decision. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Excess exposure sits in the superseded sensor head. Work in process closed at 34 units. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Work in process climbed because units are being held for a single missing part rather than because the line slowed down. Work in process moved from 29 to 34 units. Buffer stock on the drive unit was raised deliberately. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Work in process closed at 34 units. Sunil Achterberg owns the disposition decision. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Excess and obsolete exposure sits almost entirely in the superseded sensor head, and the disposition decision has been deferred twice. Floor space in staging is now the binding limit. Work in process moved from 29 to 34 units. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Excess exposure sits in the superseded sensor head. Sunil Achterberg owns the disposition decision. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Consignment terms with two suppliers would change the cash picture more than any other inventory action available. Work in process closed at 34 units. Excess exposure sits in the superseded sensor head. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Buffer stock on the drive unit was raised deliberately. Work in process moved from 29 to 34 units. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Inventory turns are a poor metric while the company is scaling, so the review looked at coverage weeks by commodity instead. Work in process moved from 29 to 34 units. Kit shortages were concentrated in low-value parts. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Sunil Achterberg owns the disposition decision. Excess exposure sits in the superseded sensor head. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Receiving is holding returned parts that could be reworked, and nobody owns the decision to rework them. Kit shortages were concentrated in low-value parts. Work in process moved from 29 to 34 units. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Work in process closed at 34 units. Sunil Achterberg owns the disposition decision. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Deployment site queue as read in the June 2024 session

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
Grand Forks	Marrowfield Grocers	29	Floor marking outstanding	2024-07-29	Held at gate
Waukegan	Pinebank Distribution	6	Survey complete	2024-08-15	Stabilising
Mesquite	Alder & Vance Retail	21	Racking works pending	2024-09-01	Signed off
Ashland Park	Northstar Cold Chain	6	Ready for crew	2024-09-18	Rescheduled
Riverbend	Havering Logistics	28	Power works pending	2024-10-05	Scheduled
Kennesaw	Quillon Home Supply	15	Network gap open	2024-10-22	Crew on site
Fort Dodge	Tenmile Freight	26	Customer dock date unconfirmed	2024-11-08	Acceptance testing
Salinas Valley	Bexley Pharmaceutical Wholesale	25	Floor marking outstanding	2024-11-25	Held at gate
Chandler South	Marrowfield Grocers - second site	48	Survey complete	2024-12-12	Stabilising
Elk Grove	Pinebank Distribution - second site	6	Racking works pending	2024-12-29	Signed off
Cedar Bluff	Alder & Vance Retail - second site	43	Ready for crew	2025-01-15	Rescheduled
Norfolk	Northstar Cold Chain - second site	30	Power works pending	2025-02-01	Scheduled
Tulsa	Havering Logistics - second site	29	Network gap open	2025-02-18	Crew on site
Redlands	Quillon Home Supply - second site	28	Customer dock date unconfirmed	2025-03-07	Acceptance testing
Grand Forks (phase two)	Tenmile Freight - second site	45	Floor marking outstanding	2025-03-24	Held at gate
Waukegan (phase two)	Bexley Pharmaceutical Wholesale - second site	6	Survey complete	2025-04-10	Stabilising
Mesquite (phase two)	Marrowfield Grocers - follow-on scope	52	Racking works pending	2025-04-27	Signed off
Ashland Park (phase two)	Pinebank Distribution - follow-on scope	39	Ready for crew	2025-05-14	Rescheduled
Riverbend (phase two)	Alder & Vance Retail - follow-on scope	26	Power works pending	2025-05-31	Scheduled
Kennesaw (phase two)	Northstar Cold Chain - follow-on scope	49	Network gap open	2025-06-17	Crew on site
Fort Dodge (phase two)	Havering Logistics - follow-on scope	72	Customer dock date unconfirmed	2025-07-04	Acceptance testing
Salinas Valley (phase two)	Quillon Home Supply - follow-on scope	6	Floor marking outstanding	2025-07-21	Held at gate

Field reliability review

Remote diagnostics closed more incidents without a visit than in any prior period, which is where the cost curve bends. Priya Ramanathan leads the joint remediation plan. Fleet uptime averaged 96.6 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Quillon Home Supply measures uptime on a stricter basis. Mean time between interventions was 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Reliability engineering split the top failure modes by build vintage and found that one of them is entirely a legacy population problem. Fleet uptime averaged 96.6 percent. Interventions spaced 290 hours apart on the fleet median. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Kennesaw remains the weakest site on interventions. Quillon Home Supply measures uptime on a stricter basis. Depot fill 91 percent at Reno depot. Go-live

cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Fleet uptime across all live sites improved, and the improvement is broad rather than driven by one recovering account. Quillon Home Supply measures uptime on a stricter basis. Fleet uptime averaged 96.6 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Priya Ramanathan leads the joint remediation plan. Uptime reached 96.6 percent, from 96.0 percent. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Site-level variation in reliability is wider than the fleet average suggests, and the worst site drags the contractual conversation. Quillon Home Supply measures uptime on a stricter basis. Uptime reached 96.6 percent, from 96.0 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Mean time between interventions was 290 hours. Interventions spaced 290 hours apart on the fleet median. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

The remediation plan with the worst-performing account is joint, with obligations written on both sides and a fixed measurement window. Quillon Home Supply measures uptime on a stricter basis. Mean time between interventions was 290 hours. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Kennesaw remains the weakest site on interventions. Priya Ramanathan leads the joint remediation plan. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Battery degradation is starting to show at the oldest sites, and the replacement schedule needs to become a plan rather than a reaction. Priya Ramanathan leads the joint remediation plan. Fleet uptime averaged 96.6 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Uptime reached 96.6 percent, from 96.0 percent. Mean time between interventions was 290 hours. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Contract to go-live decomposition, sites accepted in June 2024

Site	Contract to survey days	Survey to install days	Install to acceptance days	Total elapsed days	Site class
Ashland Park	15	25	20	60	greenfield
Riverbend	17	29	9	55	retrofit
Kennesaw	15	25	17	57	greenfield
Fort Dodge	21	33	12	66	greenfield
Salinas Valley	17	25	19	61	retrofit
Chandler South	16	27	10	53	greenfield
Elk Grove	16	25	15	56	greenfield
Cedar Bluff	20	31	8	59	retrofit
Norfolk	16	25	16	57	greenfield
Tulsa	14	23	11	48	greenfield
Redlands	20	25	18	63	retrofit
Grand Forks	17	25	13	55	greenfield
Waukegan	15	25	20	60	greenfield
Mesquite	17	29	9	55	retrofit
Ashland Park (phase two)	15	25	17	57	greenfield
Riverbend (phase two)	21	33	12	66	greenfield
Kennesaw (phase two)	17	25	19	61	retrofit
Fort Dodge (phase two)	16	27	10	53	greenfield

Service parts position

Repair-versus-replace decisions are being made in the field without guidance, and the outcomes vary by engineer. Ingrid Solberg approved the critical spares increase. Vehicle stock is masking the true fill rate. Two regions had just been

reorganised. Territory maps were redrawn that fortnight. Return material flow remains slow. Warranty cost per fleet unit is falling. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Every field incident that waited on a part this period waited on one of four part numbers. Return material flow remains slow. Ingrid Solberg approved the critical spares increase. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Warranty cost per fleet unit is falling. Waukegan took the planned sensor head replacements. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Engineers are quietly building their own vehicle stock, which means the depot numbers describe a system nobody uses. Depot fill rate was 91 percent. Vehicle stock is masking the true fill rate. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Warranty cost per fleet unit is falling. Return material flow remains slow. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Depot placement was reconsidered, because half of the courier spend goes to sites within a day's drive of a hub. Ingrid Solberg approved the critical spares increase. Fill rate ran 91 percent against 87 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Vehicle stock is masking the true fill rate. Return material flow remains slow. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

The recall-style replacement of affected sensor heads is proceeding on a planned schedule rather than on failure. Return material flow remains slow. Vehicle stock is masking the true fill rate. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Fill rate ran 91 percent against 87 percent. Warranty cost per fleet unit is falling. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Service parts pricing has never been reviewed, and two parts are being sold below their landed cost. Return material flow remains slow. Depot fill rate was 91 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Ingrid Solberg approved the critical spares increase. Warranty cost per fleet unit is falling. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Hiring and attrition

Headcount against plan closed part of its gap, and the remaining gap is concentrated in the two functions that gate deployment capacity. Median time to fill was 86 days. The headcount gap is 10 roles. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Headcount stood at 136 against a plan of 146. Time to fill improved from 79 to 86 days. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

Open requisitions were re-ranked against the operating plan, and four were closed rather than left to age quietly. The headcount gap is 10 roles. Open requisitions number 24. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Headcount stood at 136 against a plan of 146. Requisitions fell from 22 to 24. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Manager span of control has grown past what the review considers sustainable in two functions. Requisitions fell from 22 to 24. Time to fill improved from 79 to 86 days. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Open requisitions number 24. Median time to fill was 86 days. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

A hiring pause was applied selectively, protecting customer-facing roles and holding back internal ones. Annualised attrition sits at 8 percent. The headcount gap is 10 roles. Two regions had just been reorganised. Territory

maps were redrawn that fortnight. Open requisitions number 24. Requisitions fell from 22 to 24. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Engagement survey results split by tenure rather than by function, with the newest cohort least positive about clarity of direction. Median time to fill was 86 days. Time to fill improved from 79 to 86 days. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Headcount stood at 136 against a plan of 146. The headcount gap is 10 roles. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier. Utilisation 87 percent, Crew Delta fully committed. Priya Ramanathan owns the Controllers recovery.

Time to fill improved for engineering roles and worsened for field roles, which is the opposite of what the plan needed. Headcount stood at 136 against a plan of 146. Annualised attrition sits at 8 percent. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Median time to fill was 86 days. Requisitions fell from 22 to 24. Uptime 96.6 percent, interventions every 290 hours. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Build plan 56, actual 51, Controllers short. Priya Ramanathan owns the Controllers recovery.

Installation crew loading, June 2024

Crew	Home region	Certified leads	Field engineers	Utilisation %	Weeks committed forward
Crew Alpha	Ontario	2	7	93	6
Crew Bravo	Channel and reseller	2	5	82	14
Crew Charlie	West	2	10	90	6
Crew Delta	Southwest	2	2	85	12
Crew Echo	Great Lakes	1	7	92	6
Crew Foxtrot	Southeast	1	6	83	10
Crew Gulf	Northeast	1	7	88	6
Crew Hotel	Ontario	1	4	81	14
Contract crew Northfield	Channel and reseller	1	7	89	10
Contract crew Verrado	West	1	2	84	18
Contract crew Ellingham	Southwest	1	7	91	3
Commissioning bench	Great Lakes	1	5	86	12
Crew Alpha (night rotation)	Southeast	1	7	93	8
Crew Bravo (night rotation)	Northeast	1	5	82	16
Crew Charlie (night rotation)	Ontario	1	10	90	8
Crew Delta (night rotation)	Channel and reseller	1	2	85	9
Crew Echo (night rotation)	West	1	7	92	3
Crew Foxtrot (night rotation)	Southwest	1	6	83	12

Decisions, owners and dates recorded in June 2024

Escalation out of this forum happens on capital and on customer commitments, and on nothing else. One item closed with measured evidence. The oldest item dates from two sessions back. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Three items carried forward into 2024-08-08. Owners were named and dates set against 2024-08-08. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Northstar Cold Chain asked for the HS-200 tote handler configuration. Slipped deals 7, including Pinebank Distribution. Win rate 31 percent, best in Channel and reseller.

An item that had rolled twice was closed by decision rather than by completion, with the rationale written down. Three items carried forward into 2024-08-08. The oldest item dates from two sessions back. Two regions had just been reorganised. Territory maps were redrawn that fortnight. One item closed with measured evidence. Two due dates were changed in the room. Depot fill 91 percent at Reno depot. Go-live cycle 68 days at Waukegan. Days outstanding 59, Quillon Home Supply the largest balance. Build plan 56, actual 51, Controllers short.

Due dates were set against the next meeting rather than against a vague month end, which improved follow-through visibly. Owners were named and dates set against 2024-08-08. One item closed with measured evidence. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Priya Ramanathan, VP Deployment, took the largest open item. Ingrid Solberg inherited an item after a role change. Work in process 34 units, mostly Controllers. Northstar Cold Chain asked for the HS-200 tote handler configuration. Queue depth 14 sites, Kennesaw at the front. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

Two owners pushed back on dates they had not been consulted about, and the dates were changed in the room. Two due dates were changed in the room. One item closed with measured evidence. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Ingrid Solberg inherited an item after a role change. The oldest item dates from two sessions back. Riverbend carries 14 of the queued fleet. Depot fill 91 percent at Reno depot. Ingrid Solberg and Dana Whitlock disagreed on sequencing. Headcount 136 of 146, Lucia Mbeki-Hart reporting.

The controller's memorandum on invoicing changes is summarised here and the original is filed with the finance records. This detail was not read into the June 2024 session. It concerns Kennesaw and, in part, Waukegan. Two regions had just been reorganised. Territory maps were redrawn that fortnight. The chair reviewed it before 2024-08-08. The material was retained after the 2024-07-11 meeting closed. Yield 92 percent, scrap 29 thousand in Final assembly. Reno depot cleared its repair backlog. Crew Delta closed Tulsa without a second visit. On-time delivery 79 percent, Calder Battery Works the outlier.

Marginal notes made by the chair on the circulated copy are transcribed at the end of this section. It concerns Kennesaw and, in part, Waukegan. Northstar Cold Chain is named only in the working file. Two regions had just been reorganised. Territory maps were redrawn that fortnight. Priya Ramanathan asked for the note to be kept. This detail was not read into the June 2024 session. Depot fill 91 percent at Reno depot. Crew Delta closed Tulsa without a second visit. Bookings 61 units across 91 pursuits. Go-live cycle 68 days at Waukegan.

Action register as it stood after the June 2024 session

Action	Accountable owner	First raised	Revised due date	State	Note
OR-0214 Obtain written lead-time commitment from Kestrel on DU-4	Hollis Bramwell	2024-04-10	2024-08-04	Open, date revised	partial
OR-0520 Stage software releases across sites rather than at once	Griffin Tasse	2024-07-02	2024-07-22	Closed by decision	measured result attached
OR-0523 Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2024-06-28	2024-07-28	Open, date revised	outstanding
OR-0526 Decide disposition of the superseded sensor head stock	Marcus Peil	2024-06-24	2024-08-03	Blocked	outstanding
OR-0529 Draft deposit terms for multi-site commitments	Ingrid Solberg	2024-06-20	2024-08-09	Closed by decision	report filed
OR-0532 Size the buffer stock on long-lead commodities	Hollis Bramwell	2024-06-16	2024-08-15	Open, date revised	outstanding
OR-0535 Bring deal-level notes for the top ten pursuits	Marguerite Do	2024-06-12	2024-08-21	Blocked	outstanding
OR-0538 Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2024-06-08	2024-08-27	Closed by decision	measured result attached
OR-0541 Move collections calls to the account teams	Lucia Mbeki-Hart	2024-06-04	2024-09-02	Open, date revised	outstanding
OR-0544 Split the reliability backlog by build vintage	Tobias Nkemdirim	2024-05-31	2024-09-08	Blocked	outstanding

Action	Accountable owner	First raised	Revised due date	State	Note
OR-0547 Cost the second-shift ramp against overtime	Marcus Peil	2024-05-27	2024-09-14	Closed by decision	report filed
OR-0550 Measure onboarding time to productivity for crews	Renata Voss	2024-05-23	2024-09-20	Open, date revised	outstanding
OR-0553 Re-cut the stage definitions in the pipeline report	Marguerite Do	2024-05-19	2024-09-26	Blocked	outstanding
OR-0556 Refresh compensation bands for field engineering	Renata Voss	2024-05-15	2024-10-02	Closed by decision	memo circulated
OR-0559 Set a plan freeze window inside the build month	Emil Farkas	2024-05-11	2024-10-08	Open, date revised	outstanding
OR-0562 Reconcile the two uptime definitions with the customer	Owen Castellanos	2024-05-07	2024-10-14	Blocked	outstanding
