MANAGEMENT OPERATING REVIEW - RECORD 006

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-006

Quarterly Business Review for Q2 2024: purpose and attendance

Meeting discipline held: sections that had no decision to make were noted as read and skipped in the room. Pre-reads went out ahead of the 2024-07-24 session. Nadia Oyelaran attended as Chief of Staff. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell, Director of Supply Chain, presented the operations section. Notes were circulated on 2024-07-24. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Notes were captured live and circulated the same day, which ended a habit of arguing about what was decided. The Quarterly Business Review convened for Q2 2024. Notes were circulated on 2024-07-24. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell, Director of Supply Chain, presented the operations section. Pre-reads went out ahead of the 2024-07-24 session. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Guests from the deployment crews attended by video and contributed the only new information in the operations section. One function submitted its pre-read late. Nadia Oyelaran attended as Chief of Staff. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. The next session is set for 2024-08-15. Pre-reads went out ahead of the 2024-07-24 session. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Reading the packet aloud was abandoned two sessions ago and nobody has asked for it back. Pre-reads went out ahead of the 2024-07-24 session. The Quarterly Business Review convened for Q2 2024. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell, Director of Supply Chain, presented the operations section. Nadia Oyelaran attended as Chief of Staff. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

First-pass yield and rework

Scrap dollars tell a different story from scrap units, because the units being scrapped are the expensive ones. Yield was 87 percent against 92 percent. Emil Farkas signed the corrective action. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. First-pass yield finished at 87 percent. Rework hours concentrated in the sensor cell. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

The corrective action closed with evidence rather than with an assertion, and the evidence was three weeks of clean sampling data. Rework hours concentrated in the sensor cell. Emil Farkas signed the corrective action. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Scrap ran 41 thousand, from 29 thousand. Scrap totalled 41 thousand dollars. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Inspection sampling reverted to the standard plan with a documented trigger, so the next excursion will be caught earlier. Scrap totalled 41 thousand dollars. Emil Farkas signed the corrective action. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Scrap ran 41 thousand, from 29 thousand. Tessellate Controls changed a process without notice. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Quality engineering asked for one more headcount and got a re-prioritisation instead, which the review acknowledged as a real trade. Yield was 87 percent against 92 percent. Rework hours concentrated in the sensor cell. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Scrap totalled 41

thousand dollars. Tessellate Controls changed a process without notice. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Process capability studies were completed on the two operations that had never had one, and one of them failed. Rework hours concentrated in the sensor cell. Scrap ran 41 thousand, from 29 thousand. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Emil Farkas signed the corrective action. Scrap totalled 41 thousand dollars. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Containment held: nothing built in the affected window left the plant without a hundred percent inspection record attached. Scrap ran 41 thousand, from 29 thousand. Tessellate Controls changed a process without notice. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Rework hours concentrated in the sensor cell. Yield was 87 percent against 92 percent. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Build attainment by week and line, Q2 2024

Week	Product line	Plan units	Actual units	Variance units	Primary constraint
W25	HS-200 tote handler	5	6	1	fixture failure
W25	HS-400 pallet mover	3	4	1	plan revision mid-week
W26	HS-200 tote handler	2	3	1	sensor head rework
W26	HS-400 pallet mover	1	1	0	operator absence
W27	HS-200 tote handler	2	3	1	harness shortage
W27	HS-400 pallet mover	1	1	0	none
W28	HS-200 tote handler	2	3	1	plan revision mid-week
W28	HS-400 pallet mover	1	2	1	drive unit shortage
W29	HS-200 tote handler	2	1	-1	operator absence
W29	HS-400 pallet mover	1	1	0	test cell queue
W30	HS-200 tote handler	3	1	-2	none
W30	HS-400 pallet mover	1	1	0	fixture failure
W31	HS-200 tote handler	3	1	-2	drive unit shortage
W31	HS-400 pallet mover	1	1	0	sensor head rework
W32	HS-200 tote handler	3	1	-2	test cell queue
W32	HS-400 pallet mover	1	1	0	harness shortage
W33	HS-200 tote handler	3	1	-2	fixture failure
W33	HS-400 pallet mover	2	1	-1	plan revision mid-week
W34	HS-200 tote handler	3	2	-1	sensor head rework
W34	HS-400 pallet mover	2	1	-1	operator absence
W35	HS-200 tote handler	1	2	1	harness shortage
W35	HS-400 pallet mover	1	1	0	none
W36	HS-200 tote handler	1	2	1	plan revision mid-week
W36	HS-400 pallet mover	1	1	0	drive unit shortage
W37	HS-200 tote handler	1	3	2	operator absence
W37	HS-400 pallet mover	1	1	0	test cell queue

Supply base performance

Buyers are chasing acknowledgements on a fixed cadence now, and the cadence has already caught two silent date pushes. Ryemoor Wire Harness improved after a site visit. Coverage weeks on long-lead parts were extended. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell issued the first supplier scorecards. On-time delivery was 82 percent, from 79 percent. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Freight mode is a planning outcome rather than a logistics choice, and the air spend proves it. On-time delivery was 82 percent, from 79 percent. Halverson Optics missed two consecutive commit dates. Half-year reforecasting borrowed

this data pack. Reforecast assumptions were tabled alongside. Ryemoor Wire Harness improved after a site visit. Expedite activity rose with the build plan of 60. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Expedite spend is the honest measure of how well planning is working, and it went the wrong way this period. Expedite activity rose with the build plan of 60. Ryemoor Wire Harness improved after a site visit. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Supplier on-time delivery came in at 82 percent. On-time delivery was 82 percent, from 79 percent. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

One casting supplier has become a constraint on the pallet mover, and the tooling is theirs rather than ours. Coverage weeks on long-lead parts were extended. Ryemoor Wire Harness improved after a site visit. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell issued the first supplier scorecards. Supplier on-time delivery came in at 82 percent. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

A battery cell allocation notice arrived with thirty days of warning, and the planning team had inventory to absorb it. Ryemoor Wire Harness improved after a site visit. On-time delivery was 82 percent, from 79 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Coverage weeks on long-lead parts were extended. Hollis Bramwell issued the first supplier scorecards. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Inbound freight mode shifted toward air on two part numbers, which protected the build plan and shows up in cost per unit. On-time delivery was 82 percent, from 79 percent. Expedite activity rose with the build plan of 60. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Supplier on-time delivery came in at 82 percent. Hollis Bramwell issued the first supplier scorecards. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Assembly cell performance by shift, Q2 2024

Cell	Shift	Units processed	First-pass yield %	Rework hours	Scrap USD thousands
Frame and drive assembly	first shift	12	88	40	4
Sensor head assembly	first shift	10	82	75	4
Harness and electrical	first shift	8	89	50	3
Final assembly	first shift	11	87	25	1
Functional test	first shift	11	90	60	2
Pack and ship	first shift	11	89	5	7
Frame and drive assembly	second shift	7	86	45	2
Sensor head assembly	second shift	5	80	80	2
Harness and electrical	second shift	4	87	55	1
Final assembly	second shift	6	87	10	1
Functional test	second shift	6	85	35	1
Pack and ship	second shift	6	88	4	4
Frame and drive assembly	weekend cover	2	88	40	1
Sensor head assembly	weekend cover	1	82	75	1
Harness and electrical	weekend cover	1	89	50	1
Final assembly	weekend cover	2	87	25	1
Functional test	weekend cover	2	90	60	1
Pack and ship	weekend cover	1	89	5	1

Work in process and buffers

Finished-goods staging is now constrained by floor space, which is an odd problem to have while missing the build plan. Work in process moved from 34 to 38 units. Nadia Oyelaran owns the disposition decision. Half-year reforecasting

borrowed this data pack. Reforecast assumptions were tabled alongside. Floor space in staging is now the binding limit. Buffer stock on the drive unit was raised deliberately. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Cycle counting accuracy improved after the bin relabelling, and the count variance is now small enough to trust the system quantity. Excess exposure sits in the superseded sensor head. Nadia Oyelaran owns the disposition decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Work in process closed at 38 units. Buffer stock on the drive unit was raised deliberately. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Kit shortages are concentrated in low-value parts, which is the most annoying possible failure mode. Kit shortages were concentrated in low-value parts. Floor space in staging is now the binding limit. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Excess exposure sits in the superseded sensor head. Buffer stock on the drive unit was raised deliberately. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Coverage weeks by commodity is the only inventory number this meeting has ever acted on, so the others were dropped from the packet. Floor space in staging is now the binding limit. Nadia Oyelaran owns the disposition decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Work in process closed at 38 units. Buffer stock on the drive unit was raised deliberately. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

A stock count in the sensor cage found more usable material than the system said, which is welcome and still a control failure. Kit shortages were concentrated in low-value parts. Buffer stock on the drive unit was raised deliberately. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Work in process moved from 34 to 38 units. Floor space in staging is now the binding limit. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Safety stock policy was set when lead times were shorter, and nobody has revisited the parameters since. Buffer stock on the drive unit was raised deliberately. Nadia Oyelaran owns the disposition decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Work in process moved from 34 to 38 units. Kit shortages were concentrated in low-value parts. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Installed base performance

A single navigation parameter set improved intervention rates at every site it was applied to, which is now the standard configuration. Uptime reached 95.8 percent, from 96.6 percent. Bexley Pharmaceutical Wholesale measures uptime on a stricter basis. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Norfolk remains the weakest site on interventions. Fleet uptime averaged 95.8 percent. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Intervention causes split roughly evenly between the robot, the facility and the operator, and only one of those three is ours to fix. Priya Ramanathan leads the joint remediation plan. Interventions spaced 278 hours apart on the fleet median. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Mean time between interventions was 278 hours. Bexley Pharmaceutical Wholesale measures uptime on a stricter basis. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Software releases are now staged across sites rather than pushed at once, after a release regressed docking behaviour at two accounts. Uptime reached 95.8 percent, from 96.6 percent. Interventions spaced 278 hours apart on the

fleet median. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Priya Ramanathan leads the joint remediation plan. Norfolk remains the weakest site on interventions. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Remote diagnostics closed more incidents without a visit than in any prior period, which is where the cost curve bends. Priya Ramanathan leads the joint remediation plan. Norfolk remains the weakest site on interventions. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Uptime reached 95.8 percent, from 96.6 percent. Fleet uptime averaged 95.8 percent. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Reliability engineering split the top failure modes by build vintage and found that one of them is entirely a legacy population problem. Bexley Pharmaceutical Wholesale measures uptime on a stricter basis. Fleet uptime averaged 95.8 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Norfolk remains the weakest site on interventions. Priya Ramanathan leads the joint remediation plan. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Fleet uptime across all live sites improved, and the improvement is broad rather than driven by one recovering account. Interventions spaced 278 hours apart on the fleet median. Uptime reached 95.8 percent, from 96.6 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Bexley Pharmaceutical Wholesale measures uptime on a stricter basis. Priya Ramanathan leads the joint remediation plan. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Yield excursion and containment log, Q2 2024

Week	Cell	First-pass yield %	Units affected	Containment in force	Disposition
W25	Sensor head assembly	85	10	100 percent bond-line inspection	use as is with concession
W26	Harness and electrical	92	6	sample one in ten	return to supplier
W27	Final assembly	83	7	shipments held	hold pending study
W28	Sensor head assembly	88	8	inspection lifted, trigger armed	rework and release
W29	Harness and electrical	81	5	full inspection reinstated	scrap
W30	Final assembly	89	10	standard sampling	use as is with concession
W31	Sensor head assembly	84	9	100 percent bond-line inspection	return to supplier
W32	Harness and electrical	91	7	sample one in ten	hold pending study
W33	Final assembly	86	6	shipments held	rework and release
W34	Sensor head assembly	93	9	inspection lifted, trigger armed	scrap
W35	Harness and electrical	82	8	full inspection reinstated	use as is with concession
W36	Final assembly	90	5	standard sampling	return to supplier
W37	Sensor head assembly	85	10	100 percent bond-line inspection	hold pending study
W38	Harness and electrical	92	6	sample one in ten	rework and release
W39	Final assembly	83	7	shipments held	scrap
W40	Sensor head assembly	88	8	inspection lifted, trigger armed	use as is with concession
W41	Harness and electrical	81	5	full inspection reinstated	return to supplier
W42	Final assembly	89	10	standard sampling	hold pending study
W43	Sensor head assembly	84	9	100 percent bond-line inspection	rework and release
W44	Harness and electrical	91	7	sample one in ten	scrap

Spares, depots and warranty

First-generation controllers are heading for obsolescence, and the spares buy has to be decided before the line stops making them. Redlands took the planned sensor head replacements. Fill rate ran 84 percent against 91 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Return material flow remains slow. Vehicle stock is masking the true fill rate. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Warranty accrual assumptions were set before the yield excursion and have not been revisited since. Redlands took the planned sensor head replacements. Fill rate ran 84 percent against 91 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Vehicle stock is masking the true fill rate. Ingrid Solberg approved the critical spares increase. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Return material flow is slow, and the returned parts that could be reworked are sitting in a corner of receiving. Redlands took the planned sensor head replacements. Vehicle stock is masking the true fill rate. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Depot fill rate was 84 percent. Warranty cost per fleet unit is falling. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Critical spares coverage for the drive unit was raised deliberately while the supply constraint was live. Redlands took the planned sensor head replacements. Fill rate ran 84 percent against 91 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Return material flow remains slow. Depot fill rate was 84 percent. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Depot technicians closed the repair backlog for the first time in five periods, which frees vehicle stock. Redlands took the planned sensor head replacements. Vehicle stock is masking the true fill rate. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Warranty cost per fleet unit is falling. Ingrid Solberg approved the critical spares increase. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Courier spend tells the story that the fill rate hides, because the parts are moving from the wrong place. Ingrid Solberg approved the critical spares increase. Vehicle stock is masking the true fill rate. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Fill rate ran 84 percent against 91 percent. Warranty cost per fleet unit is falling. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Standing constraints and how they moved

Constraint under review: sensor assembly yield, at the first signal stage as of this session. Sensor assembly first-pass yield slid from ninety-four to eighty-seven percent over six weeks, and the pattern points at the lidar window bond rather than the electronics stack. Depot fill 84 percent at Reno depot. The HS-400 pallet mover took most of the test cell time.

Constraint under review: large-account uptime, at the credit exposure stage as of this session. Cedar Bluff crossed into service-credit territory for one week in May, and the commercial team chose to disclose it rather than let the customer find it in their own reporting. Utilisation 89 percent, Contract crew Northfield fully committed. Yield 87 percent, scrap 41 thousand in Final assembly.

Expedite spend is the honest measure of how well planning is working, and it went the wrong way this period. Ryemoor Wire Harness improved after a site visit. On-time delivery was 82 percent, from 79 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Coverage weeks on long-lead parts were extended. Supplier on-time delivery came in at 82 percent. Tulsa carries 13 of the queued fleet. Bookings 171 units across 97 pursuits. Reno depot cleared its repair backlog. Ingrid Solberg and Emil Farkas disagreed on sequencing.

Supplier delivery and lead time, Q2 2024

Supplier	Commodity	On-time delivery %	Quoted lead weeks	Actual lead weeks	Watch status
Kestrel Drive Systems	Drive units	84	8	12	watch
Brightwater Motion	Lidar assemblies	79	10	11	escalated
Halverson Optics	Battery packs	86	12	12	cleared
Penrose Castings	Castings	81	14	16	second source in qualification
Ironbark Sheet Metal	Sheet metal	88	15	15	on scorecard review
Calder Battery Works	Wire harness	77	11	15	no action
Tessellate Controls	Controllers	85	12	12	watch
Ryemoor Wire Harness	Caster and wheel sets	80	13	19	escalated
Kestrel Drive Systems	Lidar assemblies	87	14	14	cleared
Brightwater Motion	Battery packs	78	15	18	second source in qualification
Halverson Optics	Castings	83	11	11	on scorecard review
Penrose Castings	Sheet metal	76	12	17	no action
Ironbark Sheet Metal	Wire harness	84	13	13	watch
Calder Battery Works	Controllers	79	14	15	escalated
Tessellate Controls	Caster and wheel sets	86	15	15	cleared
Ryemoor Wire Harness	Drive units	81	11	13	second source in qualification

Headcount and recruiting

Compensation bands for field engineering were refreshed after three offers were declined on base salary. Median time to fill was 74 days. Headcount stood at 144 against a plan of 152. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. The headcount gap is 8 roles. Open requisitions number 20. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Onboarding time to productivity for field engineers is measured now, and the number is longer than anyone assumed. Open requisitions number 20. Annualised attrition sits at 13 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Time to fill improved from 86 to 74 days. Requisitions fell from 24 to 20. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Contractor-to-employee conversion is the cheapest source of certified crew, and the process for it does not exist yet. Headcount stood at 144 against a plan of 152. Median time to fill was 74 days. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Open requisitions number 20. Time to fill improved from 86 to 74 days. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Headcount against plan closed part of its gap, and the remaining gap is concentrated in the two functions that gate deployment capacity. Time to fill improved from 86 to 74 days. Requisitions fell from 24 to 20. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Open requisitions number 20. Headcount stood at 144 against a plan of 152. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Open requisitions were re-ranked against the operating plan, and four were closed rather than left to age quietly. The headcount gap is 8 roles. Time to fill improved from 86 to 74 days. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Annualised attrition sits at 13 percent. Requisitions fell from 24 to 20. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Manager span of control has grown past what the review considers sustainable in two functions. The headcount gap is 8 roles. Annualised attrition sits at 13 percent. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Requisitions fell from 24 to 20. Headcount stood at 144 against a plan of 152. Yield 87 percent,

scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Collections and receivables

Two large receivables aged past ninety days, and both trace to a purchase order number mismatch rather than to unwillingness to pay. Collections totalled 6740 thousand dollars. Two receivables aged past ninety days. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Marrowfield Grocers requires a separate submission path. Days sales outstanding closed at 62 days. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Payment terms granted in commercial negotiation were never visible to the finance team until invoicing, and that has been fixed. Two receivables aged past ninety days. Receipts of 6740 thousand outpaced invoicing. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Emil Farkas moved collections calls to the account teams. Days sales outstanding closed at 62 days. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Bad debt remains immaterial, and the review noted that this is a function of customer quality rather than of credit discipline. Two receivables aged past ninety days. Outstanding days improved from 59 to 62. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Collections totalled 6740 thousand dollars. Emil Farkas moved collections calls to the account teams. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Getting the acceptance document signed on the day of go-live is worth more to cash than any collections call. Marrowfield Grocers requires a separate submission path. Outstanding days improved from 59 to 62. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Collections totalled 6740 thousand dollars. Two receivables aged past ninety days. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Collections outpaced invoicing this period, which flatters the cash number and does not repeat. Outstanding days improved from 59 to 62. Emil Farkas moved collections calls to the account teams. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Two receivables aged past ninety days. Days sales outstanding closed at 62 days. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Cash conversion for a deployment now takes weeks fewer than it did a year ago, entirely through process changes. Collections totalled 6740 thousand dollars. Outstanding days improved from 59 to 62. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Receipts of 6740 thousand outpaced invoicing. Marrowfield Grocers requires a separate submission path. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Expedite and premium freight log, Q2 2024

Part number	Supplier	Reason	Freight mode	Added cost USD thousands
4066-6	Tessellate Controls	build plan pull-in	courier	21
4071-7	Ryemoor Wire Harness	supplier missed commit date	expedited road	13
4076-8	Kestrel Drive Systems	yield loss replacement	air	15
4081-0	Brightwater Motion	spares depot backorder	standard road with premium	17
4086-1	Halverson Optics	engineering change cut-in	courier	11
4091-2	Penrose Castings	customer date brought forward	expedited road	21
4096-3	Ironbark Sheet Metal	build plan pull-in	air	19

Part number	Supplier	Reason	Freight mode	Added cost USD thousands
4101-4	Calder Battery Works	supplier missed commit date	standard road with premium	15
4106-5	Tessellate Controls	yield loss replacement	courier	13
4111-6	Ryemoor Wire Harness	spares depot backorder	expedited road	19
4116-7	Kestrel Drive Systems	engineering change cut-in	air	17
4121-8	Brightwater Motion	customer date brought forward	standard road with premium	11
4126-0	Halverson Optics	build plan pull-in	courier	21
4131-1	Penrose Castings	supplier missed commit date	expedited road	13
4136-2	Ironbark Sheet Metal	yield loss replacement	air	15
4141-3	Calder Battery Works	spares depot backorder	standard road with premium	17
4146-4	Tessellate Controls	engineering change cut-in	courier	11

Runway and triggers

The downside trigger was armed after two large bookings left the quarter, and nine requisitions were paused within a week. Runway stands at 21 months on the middle case. Spending ran 8140 thousand against 2688 thousand. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Capital spend was 1180 thousand dollars. Test-cell capital was deferred again. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Fixed cost per period has grown with facilities and tooling commitments that cannot be unwound inside a quarter. Test-cell capital was deferred again. Runway moved from 22 to 21 months. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Runway stands at 21 months on the middle case. Spending ran 8140 thousand against 2688 thousand. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Every scenario assumes the deployment cost per site keeps falling, and that assumption deserves more scrutiny than it has had. Runway moved from 22 to 21 months. Hollis Bramwell holds the trigger list. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Spending ran 8140 thousand against 2688 thousand. Test-cell capital was deferred again. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Fixed commitments have grown to the point where the fastest lever left is contract labour. Runway moved from 22 to 21 months. Capital spend was 1180 thousand dollars. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Test-cell capital was deferred again. Runway stands at 21 months on the middle case. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Runway under the middle scenario extended, and the review chose to plan against that case while holding triggers for the downside. Spending ran 8140 thousand against 2688 thousand. Capital spend was 1180 thousand dollars. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Runway stands at 21 months on the middle case. Burn for the period was 8140 thousand dollars. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Scenario planning is only useful if the triggers are specific, so each scenario now names the observable that fires it. Test-cell capital was deferred again. Spending ran 8140 thousand against 2688 thousand. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Runway moved from 22 to 21 months. Burn for the period was 8140 thousand dollars. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Second-source qualification progress reviewed in Q2 2024

Qualification step	Candidate source	Owner	Planned date	Actual date	Result
Request for quotation issued	Brightwater Motion drive unit	Hollis Bramwell	2024-05-15	2024-05-13	pass
Sample order placed	Brightwater Motion drive unit	Tobias Nkemdirim	2024-05-29	2024-05-30	fail, two of eight samples
First article dimensional inspection	Brightwater Motion drive unit	Marcus Peil	2024-06-12	2024-06-16	pass with observation
Thermal soak test	Brightwater Motion drive unit	Marcus Peil	2024-06-26	2024-07-03	retest scheduled
Endurance run to two thousand hours	Brightwater Motion drive unit	Tobias Nkemdirim	2024-07-10	2024-07-09	complete
Process audit at supplier	Brightwater Motion drive unit	Marcus Peil	2024-07-24	2024-07-26	in progress
Production part approval	Brightwater Motion drive unit	Hollis Bramwell	2024-08-07	2024-08-12	pass
First production lot	Brightwater Motion drive unit	Marcus Peil	2024-08-21	2024-08-29	fail, two of eight samples
Request for quotation issued	Penrose Castings frame	Hollis Bramwell	2024-05-20	2024-05-20	pass with observation
Sample order placed	Penrose Castings frame	Tobias Nkemdirim	2024-06-03	2024-06-06	retest scheduled
First article dimensional inspection	Penrose Castings frame	Marcus Peil	2024-06-17	2024-06-23	complete
Thermal soak test	Penrose Castings frame	Emil Farkas	2024-07-01	2024-06-29	in progress
Endurance run to two thousand hours	Penrose Castings frame	Emil Farkas	2024-07-15	2024-07-16	pass
Process audit at supplier	Penrose Castings frame	Marcus Peil	2024-07-29	2024-08-02	fail, two of eight samples
Production part approval	Penrose Castings frame	Emil Farkas	2024-08-12	2024-08-19	pass with observation
First production lot	Penrose Castings frame	Emil Farkas	2024-08-26	2024-08-25	retest scheduled

Engineering roadmap

The next controller revision closes an obsolescence exposure and requires a re-validation cycle that has to be planned now. Two roadmap checkpoints cleared; one slipped. Field data now sets the reliability backlog order. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Documentation lags the current release. Release staging across sites is now standard. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Documentation and training material lag every release, and the lag is now a deployment risk rather than a nuisance. The HS-400 pallet mover absorbed most of the engineering effort. Adapter work crowded out platform work again. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Nadia Oyelaran brought the decision to stop one feature. Field data now sets the reliability backlog order. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Committed customer dates and internal roadmap dates were put on the same page for the first time, and they did not match. The HS-400 pallet mover absorbed most of the engineering effort. Nadia Oyelaran brought the decision to stop one feature. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Field data now sets the reliability backlog order. Documentation lags the current release. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Release quality improved once simulation coverage became a gate rather than a report. Adapter work crowded out platform work again. Release staging across sites is now standard. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Two roadmap checkpoints cleared; one slipped. Field data now sets the reliability backlog order. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding

the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Fleet orchestration release slipped a milestone, and the slip was accepted in exchange for keeping the docking regression fix on schedule. Adapter work crowded out platform work again. Release staging across sites is now standard. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Field data now sets the reliability backlog order. Documentation lags the current release. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

Field data now drives the reliability backlog, which is a change from prioritising by the loudest account. The HS-400 pallet mover absorbed most of the engineering effort. Adapter work crowded out platform work again. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Release staging across sites is now standard. Field data now sets the reliability backlog order. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Where the room did not agree

Product and sales disagreed on whether the pilot feature should be committed to a customer date, and the answer was no. No consensus was reached; the Chief Executive Officer decided. The objection was noted against the decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. A further test was added because of the dissent. The minority view is preserved in the record. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Two owners left the room unconvinced, and the record says so rather than pretending otherwise. The minority view is preserved in the record. No consensus was reached; the Chief Executive Officer decided. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. A further test was added because of the dissent. Emil Farkas asked for the decision to be revisited. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

A request to revisit the sequencing rule was granted, with a date and a named piece of evidence attached. The disagreement is recorded rather than resolved. The objection was noted against the decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. A further test was added because of the dissent. No consensus was reached; the Chief Executive Officer decided. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

The engineering view is that the deferral saves less than it costs, and that view is noted in full. No consensus was reached; the Chief Executive Officer decided. The objection was noted against the decision. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. A further test was added because of the dissent. The disagreement is recorded rather than resolved. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

There was no consensus on the hiring pause, and the pause proceeded with the dissent recorded against it. The minority view is preserved in the record. No consensus was reached; the Chief Executive Officer decided. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Hollis Bramwell and Nadia Oyelaran read the data differently. The disagreement is recorded rather than resolved. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time. Uptime 95.8 percent, interventions every 278 hours. Alder & Vance Retail asked for the HS-400 pallet mover configuration.

The customer success position, that credits should be offered before they are claimed, did not carry the room. Hollis Bramwell and Nadia Oyelaran read the data differently. Emil Farkas asked for the decision to be revisited. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. A further test was added because of

the dissent. The objection was noted against the decision. Yield 87 percent, scrap 41 thousand in Final assembly. Priya Ramanathan owns the Battery packs recovery. Scrap 41 thousand, Ryemoor Wire Harness contributing. Build plan 60, actual 57, Battery packs short.

Inventory coverage by commodity and stocking point, Q2 2024

Commodity	Stocking point	On hand units	Coverage weeks	Policy weeks	Action agreed
Drive units	Plant stockroom	45	11	4	raise buffer
Lidar assemblies	Plant stockroom	37	2	6	hold policy
Battery packs	Plant stockroom	34	7	8	reduce to policy
Castings	Plant stockroom	27	1	4	expedite inbound
Sheet metal	Plant stockroom	23	8	6	review with supplier
Wire harness	Plant stockroom	75	3	8	disposition required
Controllers	Plant stockroom	54	10	4	raise buffer
Caster and wheel sets	Plant stockroom	47	5	6	hold policy
Drive units	Regional depots	22	14	8	reduce to policy
Lidar assemblies	Regional depots	18	3	4	expedite inbound
Battery packs	Regional depots	17	11	6	review with supplier
Castings	Regional depots	13	6	8	disposition required
Sheet metal	Regional depots	11	13	4	raise buffer
Wire harness	Regional depots	37	4	6	hold policy
Controllers	Regional depots	27	9	8	reduce to policy
Caster and wheel sets	Regional depots	23	2	4	expedite inbound

Decisions, owners and dates recorded in Q2 2024

The action list was pruned deliberately, because a list nobody believes is worse than a shorter list that gets done. Three items carried forward into 2024-08-15. Two due dates were changed in the room. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. One item closed with measured evidence. The oldest item dates from two sessions back. The HS-400 pallet mover took most of the test cell time. Scrap 41 thousand, Ryemoor Wire Harness contributing. Uptime 95.8 percent, interventions every 278 hours. Depot fill 84 percent at Reno depot.

Items closed this period were closed with named evidence: a report, a signed document or a measured result. Priya Ramanathan, VP Deployment, took the largest open item. Two due dates were changed in the room. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. One item closed with measured evidence. Three items carried forward into 2024-08-15. Build plan 60, actual 57, Battery packs short. Go-live cycle 63 days at Redlands. On-time delivery 82 percent, Tessellate Controls the outlier. The HS-400 pallet mover took most of the test cell time.

Cross-functional items were given a single owner rather than two, after a period where shared ownership meant no ownership. Two due dates were changed in the room. Owners were named and dates set against 2024-08-15. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Three items carried forward into 2024-08-15. The oldest item dates from two sessions back. Work in process 38 units, mostly Battery packs. Priya Ramanathan owns the Battery packs recovery. Win rate 28 percent, best in Southwest. Build plan 60, actual 57, Battery packs short.

Evidence of closure means a document, a measurement or a signature, and status colours no longer qualify. Ingrid Solberg inherited an item after a role change. One item closed with measured evidence. Half-year reforecasting borrowed this data pack. Reforecast assumptions were tabled alongside. Owners were named and dates set against 2024-08-15. Priya Ramanathan, VP Deployment, took the largest open item. Work in process 38 units, mostly Battery packs. Requisitions open 20, Nadia Oyelaran holding the list. Days outstanding 62, Bexley Pharmaceutical Wholesale the largest balance. Build plan 60, actual 57, Battery packs short.

Open and closed actions carried through Q2 2024

Reference	Item	Owner	Original due	Current due	Disposition
OR-0611	Root cause the sensor head bond-line yield loss	Emil Farkas	2024-07-17	2024-08-07	Open; none yet
OR-0409	Agree joint remediation plan with the Cedar Bluff account	Owen Castellanos	2024-07-31	2024-08-21	Open, date revised; partial

Reference	Item	Owner	Original due	Current due	Disposition
OR-0620	Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2024-07-14	2024-08-04	Open; outstanding
OR-0623	Draft deposit terms for multi-site commitments	Ingrid Solberg	2024-07-20	2024-08-10	In progress; outstanding
OR-0626	Re-cut the stage definitions in the pipeline report	Marguerite Do	2024-07-26	2024-08-16	Closed; report filed
OR-0629	Measure onboarding time to productivity for crews	Renata Voss	2024-08-01	2024-08-22	Open; outstanding
OR-0632	Stage software releases across sites rather than at once	Griffin Tasse	2024-08-07	2024-08-28	In progress; outstanding
OR-0635	Refresh compensation bands for field engineering	Renata Voss	2024-08-13	2024-09-03	Closed; report filed
OR-0638	Publish the supplier scorecard with weighted criteria	Hollis Bramwell	2024-08-19	2024-09-09	Open; outstanding
OR-0641	Bring deal-level notes for the top ten pursuits	Marguerite Do	2024-08-25	2024-09-15	In progress; outstanding
OR-0644	Complete process capability study on the bond operation	Emil Farkas	2024-08-31	2024-09-21	Closed; memo circulated
OR-0647	Decide disposition of the superseded sensor head stock	Marcus Peil	2024-09-06	2024-09-27	Open; outstanding
OR-0650	Reissue the deployment playbook network section	Priya Ramanathan	2024-09-12	2024-10-03	In progress; outstanding
OR-0653	Cost the second-shift ramp against overtime	Marcus Peil	2024-09-18	2024-10-09	Closed; decision recorded
OR-0656	Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2024-09-24	2024-10-15	Open; outstanding
OR-0659	Split the reliability backlog by build vintage	Tobias Nkemdirim	2024-09-30	2024-10-21	In progress; outstanding
