Manufacturing Operating Review for August 2024: purpose and attendance

The chair asked each function for the one number it would defend to a customer, which produced a more useful hour than the slides did. One function submitted its pre-read late. Tobias Nkemdirim attended as VP Engineering. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Pre-reads went out ahead of the 2024-09-05 session. The next session is set for 2024-10-03. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

The packet now carries a single page of exceptions, and everything else is available on request rather than presented. Marcus Peil, VP Operations, presented the operations section. Notes were circulated on 2024-09-05. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. The next session is set for 2024-10-03. The Manufacturing Operating Review convened for August 2024. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Owners who could not attend sent written positions, and those were read into the record verbatim. Marcus Peil, VP Operations, presented the operations section. Tobias Nkemdirim attended as VP Engineering. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Notes were circulated on 2024-09-05. Pre-reads went out ahead of the 2024-09-05 session. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Guests were limited to the sections that concern them, ending a habit of full attendance for its own sake. Marcus Peil, VP Operations, presented the operations section. Pre-reads went out ahead of the 2024-09-05 session. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Tobias Nkemdirim attended as VP Engineering. Notes were circulated on 2024-09-05. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Sales intake review

Bookings quality, measured by how much of the signed volume has a named site and a readiness date, improved without any change in headline volume. Win rate held at 25 percent on 94 live opportunities. Discount depth peaked on the Northstar Cold Chain multi-site award. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Intake closed at 49 units for August 2024. The book took 49 units, against 171 last period. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Two of the three regions carried the number this period, and the third missed on a single account that moved its own board meeting. Win rate held at 25 percent on 94 live opportunities. Signed volume: 49 units, win rate 25 percent. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Havering Logistics accounted for the largest single order. The book took 49 units, against 171 last period. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Our win rate improved on new logos and weakened on expansions, an inversion of last period that nobody in the room could yet explain. Signed volume: 49 units, win rate 25 percent. Intake closed at 49 units for August 2024. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Discount depth peaked on the Northstar Cold Chain multi-site award. The book took 49 units, against 171 last period. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Regional coverage remains uneven, with one seller carrying a territory that the coverage model says needs two. Win rate held at 25 percent on 94 live opportunities. Discount depth peaked on the Northstar Cold Chain multi-site award. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Havering Logistics accounted for the largest single order. Intake closed at 49 units for August 2024. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Nobody in commercial believes the current forecast discipline is good enough, and the review agreed to inspect deal-level notes rather than roll-ups. Open pursuits number 94, up from 97. The book took 49 units, against 171 last period. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Win rate held at 25 percent on 94 live opportunities. Intake closed at 49 units for August 2024. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

The competitive picture shifted, with two losses attributed to a rival that had not appeared in a deal review for three periods. Signed volume: 49 units, win rate 25 percent. Intake closed at 49 units for August 2024. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Havering Logistics accounted for the largest single order. The book took 49 units, against 171 last period. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Pursuit review

Two accounts that were treated as sure things at the last review have gone quiet, and neither seller has escalated. Conversion into commercial close remains the weak stage. Weighted coverage sits near 94 open pursuits. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Deals leaving the period: 8, most still dated. Slippage totalled 8 opportunities against 11 before. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Where a pilot converted, the common thread was an operations sponsor who owned a throughput target rather than a technology budget. Weighted coverage sits near 94 open pursuits. Two losses went to the same competitor. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. The Marrowfield Grocers pursuit re-dated again. Deals leaving the period: 8, most still dated. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Forecast accuracy at the regional level was worse than the aggregate, meaning two regions cancelled each other's errors out. Weighted coverage sits near 94 open pursuits. Slippage totalled 8 opportunities against 11 before. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Conversion into commercial close remains the weak stage. Deals leaving the period: 8, most still dated. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Stage conversion tells a cleaner story than the headline number does, because the drop is concentrated between technical validation and commercial close. Two losses went to the same competitor. The Marrowfield Grocers pursuit re-dated again. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Slippage totalled 8 opportunities against 11 before. Marcus Peil owns the re-qualification pass. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Deal inspection surfaced a habit of re-dating rather than re-qualifying, and the review asked for a hard rule on how many times a close date can move. Marcus Peil owns the re-qualification pass. Slippage totalled 8 opportunities against 11 before. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Conversion into commercial close remains the weak stage. The Marrowfield Grocers pursuit re-dated again. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Qualification notes on the top ten pursuits were read aloud, which took most of the meeting and was the most useful thing in it. Two losses went to the same competitor. Weighted coverage sits near 94 open pursuits. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. The Marrowfield Grocers pursuit re-dated again. Conversion into commercial close remains the weak stage. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Deployment throughput

A retrofit site behaved nothing like a greenfield site, and the estimate model still treats them as the same class of work. Contract to go-live averaged 66 days. Waukegan and Elk Grove both cleared acceptance testing. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Go-live cycle: 66 days, from 63. Queue depth reached 16 sites. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Post-go-live stabilisation periods are running longer than the plan allows, so crews are being pulled back to sites already signed off. Go-live cycle: 66 days, from 63. Contract to go-live averaged 66 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Tobias Nkemdirim sequenced the queue by readiness. Waukegan and Elk Grove both cleared acceptance testing. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Site queue depth grew again, and the queue is now long enough that sequencing decisions have commercial consequences rather than just scheduling ones. Contract to go-live averaged 66 days. Ashland Park was held at the readiness gate. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Queue depth reached 16 sites. Go-live cycle: 66 days, from 63. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Readiness surveys are now a hard gate, and two sites were held at the gate rather than allowed to start with known network gaps. Contract to go-live averaged 66 days. Waukegan and Elk Grove both cleared acceptance testing. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Tobias Nkemdirim sequenced the queue by readiness. Go-live cycle: 66 days, from 63. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Customer-side readiness remains the single largest determinant of go-live date, and it is the variable the company controls least. Waukegan and Elk Grove both cleared acceptance testing. Contract to go-live averaged 66 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Ashland Park was held at the readiness gate. Tobias Nkemdirim sequenced the queue by readiness. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Parallel deployment at two sites in the same region worked for the first time, which changes what the queue can absorb. Waukegan and Elk Grove both cleared acceptance testing. Tobias Nkemdirim sequenced the queue by readiness. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Contract to go-live averaged 66 days. Ashland Park was held at the readiness gate. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Deployment resourcing

The apprenticeship route produced its first fully certified engineer, which took longer than planned and cost less than lateral hiring. Dana Whitlock covered two regions this period. Travel days per site fell again. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Crew leads remain the gating resource. Installer utilisation ran at 93 percent. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Deployment capacity is a function of certified crew leads, not of headcount, and the certification pipeline is the part nobody was watching. Installer utilisation ran at 93 percent. Utilisation was 93 percent against 89 percent. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Travel days per site fell again. Crew leads remain the gating resource. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Travel load on the crew has become a retention issue, and the two most recent resignations both named it in an exit conversation. Travel days per site fell again. Crew leads remain the gating resource. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Installer utilisation ran at 93 percent. Utilisation was 93 percent against 89 percent. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Certification standards were tightened rather than relaxed under schedule pressure, and the review recorded that choice deliberately. Utilisation was 93 percent against 89 percent. Travel days per site fell again. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Crew leads remain the gating resource. Dana Whitlock covered two regions this period. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Utilisation above ninety percent leaves nothing for the unplanned second visit, and the second visit happens on roughly one site in four. Crew leads remain the gating resource. Travel days per site fell again. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Utilisation was 93 percent against 89 percent. Chandler South needed a second crew visit. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Handover from crew to service is still informal, and two accounts have complained about who to call after go-live. Certified crew count trails the site queue of 16. Crew leads remain the gating resource. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Utilisation was 93 percent against 89 percent. Installer utilisation ran at 93 percent. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Intervention causes across the fleet, August 2024

Warranty and returns

Field engineers are carrying more parts in vehicles than the policy allows, which hides the true fill rate. Elk Grove took the planned sensor head replacements. Return material flow remains slow. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Vehicle stock is masking the true fill rate. Renata Voss approved the critical spares increase. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Warranty cost per fleet unit is falling, and the fall is real rather than a timing artefact of claim processing. Renata Voss approved the critical spares increase. Warranty cost per fleet unit is falling. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Vehicle stock is masking the true fill rate. Return material flow remains slow. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Repair-versus-replace decisions are being made in the field without guidance, and the outcomes vary by engineer. Elk Grove took the planned sensor head replacements. Return material flow remains slow. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Fill rate ran 89 percent against 84 percent. Warranty cost per fleet unit is falling. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Every field incident that waited on a part this period waited on one of four part numbers. Return material flow remains slow. Warranty cost per fleet unit is falling. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Fill rate ran 89 percent against 84 percent. Vehicle stock is masking the true fill rate. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Engineers are quietly building their own vehicle stock, which means the depot numbers describe a system nobody uses. Fill rate ran 89 percent against 84 percent. Renata Voss approved the critical spares increase. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Elk Grove took the planned sensor head replacements. Depot fill rate was 89 percent. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Depot placement was reconsidered, because half of the courier spend goes to sites within a day's drive of a hub. Warranty cost per fleet unit is falling. Fill rate ran 89 percent against 84 percent. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Vehicle stock is masking the true fill rate. Return material flow remains slow. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Carried constraints

Constraint under review: field engineering capacity, at the requisition escalation stage as of this session. Six field engineering requisitions have been open beyond seventy days, and the hiring committee agreed to raise the geographic radius rather than continue to reject on relocation grounds. Go-live cycle 66 days at Elk Grove. Queue depth 16 sites, Waukegan at the front.

Constraint under review: sensor assembly yield, at the containment stage as of this session. Containment is in place: every sensor head now gets a hundred percent bond-line inspection before it leaves the cell, which costs throughput but stops escapes to the field. Build plan 58, actual 50, Controllers short. Utilisation 93 percent, Crew Delta fully committed.

Forecast sharing with the top five suppliers began this period, and two of them immediately improved their commit dates. Expedite activity rose with the build plan of 58. Coverage weeks on long-lead parts were extended. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Supplier on-time delivery came in at 85 percent. Brightwater Motion missed two consecutive commit dates. Slipped deals 8, including Northstar Cold Chain. Queue depth 16 sites, Waukegan at the front. Marrowfield Grocers asked for the HS-200 tote handler configuration. Win rate 25 percent, best in Northeast.

People plan against actual

Performance calibration ran across all functions for the first time, and the distribution differed sharply between engineering and operations. The headcount gap is 11 roles. Annualised attrition sits at 11 percent. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Time to fill improved from 74 to 88 days. Open requisitions number 26. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Recruiting moved to a regional pipeline model with standing phone screens, which changed time to fill more than any sourcing spend did. Median time to fill was 88 days. Time to fill improved from 74 to 88 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Open requisitions number 26. The headcount gap is 11 roles. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Attrition is low in aggregate and uncomfortable in specifics, because the leavers include two people the company cannot easily replace. The headcount gap is 11 roles. Time to fill improved from 74 to 88 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Annualised attrition sits at 11 percent. Headcount stood at 147 against a plan of 158. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Compensation bands for field engineering were refreshed after three offers were declined on base salary. Annualised attrition sits at 11 percent. Median time to fill was 88 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Time to fill improved from 74 to 88 days. Open requisitions number 26. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Onboarding time to productivity for field engineers is measured now, and the number is longer than anyone assumed. Annualised attrition sits at 11 percent. Time to fill improved from 74 to 88 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. The headcount gap is 11 roles. Median time to fill was 88 days. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Contractor-to-employee conversion is the cheapest source of certified crew, and the process for it does not exist yet. Requisitions fell from 20 to 26. Open requisitions number 26. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Headcount stood at 147 against a plan of 158. Median time to fill was 88 days. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Cash conversion

Collections calls are now made by the account team rather than by finance alone, which is uncomfortable and effective. Days sales outstanding closed at 60 days. Receipts of 2320 thousand outpaced invoicing. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Hollis Bramwell moved collections calls to the account teams. Collections totalled 2320 thousand dollars. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Nothing in the receivables ledger suggests a credit problem; everything in it suggests a paperwork problem. Two receivables aged past ninety days. Collections totalled 2320 thousand dollars. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Hollis Bramwell moved collections calls to the account teams. Northstar Cold Chain requires a separate submission path. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Terms granted in negotiation are cash decisions made by people who do not carry the cash number. Collections totalled 2320 thousand dollars. Days sales outstanding closed at 60 days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Northstar Cold Chain requires a separate submission path. Hollis Bramwell moved collections calls to the account teams. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Milestone invoicing depends on a signed acceptance document, and the document was the bottleneck rather than the milestone. Hollis Bramwell moved collections calls to the account teams. Two receivables aged past ninety days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Days sales outstanding closed at 60 days. Collections totalled 2320 thousand dollars. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Deposit terms on new multi-site commitments materially change the working capital profile of the site queue. Outstanding days improved from 62 to 60. Hollis Bramwell moved collections calls to the account teams. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Receipts of 2320 thousand outpaced invoicing. Two receivables aged past ninety days. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Customer-side accounts payable portals are a real source of delay, and three accounts require a different submission path. Collections totalled 2320 thousand dollars. Two receivables aged past ninety days. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Receipts of 2320 thousand outpaced invoicing. Northstar Cold Chain requires a separate submission path. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Financial posture

The finance team rebuilt the model bottom-up from the site queue, and the new version disagrees with the old one on timing rather than on total. Marcus Peil holds the trigger list. Capital spend was 470 thousand dollars. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Burn for the period was 2790 thousand dollars. Test-cell capital was deferred again. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Cutting capital spend buys months now and costs build capacity later, which is a trade this meeting keeps making. Capital spend was 470 thousand dollars. Burn for the period was 2790 thousand dollars. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Runway moved from 21 to 20 months. Runway stands at 20 months on the middle case. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

Burn by category matters more than burn in total, because the total has been flat while its composition changed twice. Test-cell capital was deferred again. Runway moved from 21 to 20 months. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Marcus Peil holds the trigger list. Spending ran 2790 thousand against 8140 thousand. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Headcount is the largest lever on burn and the slowest to act, which is why the trigger list is written in advance. Test-cell capital was deferred again. Capital spend was 470 thousand dollars. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Marcus Peil holds the trigger list. Runway moved from 21 to 20 months. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Contract labour in deployment is the fastest lever available and the one with the most direct customer consequence. Spending ran 2790 thousand against 8140 thousand. Burn for the period was 2790 thousand dollars. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Runway stands at 20 months on the middle case. Test-cell capital was deferred again. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Cash discipline this year came two-thirds from collections and one-third from deferred capital, which is a better mix than cutting people. Burn for the period was 2790 thousand dollars. Runway moved from 21 to 20 months. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Runway stands at 20 months on the middle case. Test-cell capital was deferred again. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Roadmap against commitments

Engineering capacity allocation between new sites and installed base was reset toward the installed base this period. Adapter work crowded out platform work again. Two roadmap checkpoints cleared; one slipped. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Release staging across sites is now standard. Field data now sets the reliability backlog order. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Integration variety across warehouse hosts is the tax the roadmap pays every quarter. The Beacon WMS adapter absorbed most of the engineering effort. Field data now sets the reliability backlog order. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Documentation lags the current release. Adapter work crowded out platform work again. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

The warehouse-management adapter absorbed more engineering effort than any other item, and integration variety is the reason. Field data now sets the reliability backlog order. Release staging across sites is now standard. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Documentation lags the current release. The Beacon WMS adapter absorbed most of the engineering effort. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Customer-specific work is crowding out platform work, and the review asked for the ratio to be measured rather than debated. Tobias Nkemdirim brought the decision to stop one feature. Documentation lags the current release. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Two roadmap checkpoints cleared; one slipped. Field data now sets the reliability backlog order. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

Product management brought a decision to stop building one feature, and the review supported stopping it. Adapter work crowded out platform work again. Release staging across sites is now standard. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. The Beacon WMS adapter absorbed most of the engineering effort. Documentation lags the current release. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Simulation coverage before release improved, and the last two releases produced fewer field regressions as a result. The Beacon WMS adapter absorbed most of the engineering effort. Documentation lags the current release. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Tobias Nkemdirim brought the decision to stop one feature. Adapter work crowded out platform work again. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Points of disagreement

The stricter uptime definition won on the argument that a customer will use it whether we do or not. The disagreement is recorded rather than resolved. The minority view is preserved in the record. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Marcus Peil and Tobias Nkemdirim read the data differently. No consensus was reached; the VP Operations decided. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Operations and commercial did not reach agreement on how the site queue should be sequenced, and the chair decided. Marcus Peil and Tobias Nkemdirim read the data differently. The disagreement is recorded rather than resolved. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. A further test was added because of the dissent. The objection was noted against the decision. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

One participant asked for the decision to be revisited with better data, and the request was granted with a date attached. The minority view is preserved in the record. The objection was noted against the decision. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. No consensus was reached; the VP Operations decided. Hollis Bramwell asked for the decision to be revisited. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

A minority view held that the second-source qualification was being rushed, and a further test was added because of it. A further test was added because of the dissent. The minority view is preserved in the record. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Marcus Peil and Tobias Nkemdirim read the data differently. The objection was noted against the decision. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.

The plant manager objected to another plan revision inside the month and asked for a freeze window, which was granted in part. The minority view is preserved in the record. Marcus Peil and Tobias Nkemdirim read the data differently. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Hollis Bramwell asked for the decision to be revisited. The objection was noted against the decision. Depot fill 89 percent at Toronto depot. Win rate 25 percent, best in Northeast. Crew Delta closed Chandler South without a second visit. On-time delivery 85 percent, Ryemoor Wire Harness the outlier.

Whether a deferral saves money depends on which function is counting, and both counts were tabled. The minority view is preserved in the record. A further test was added because of the dissent. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Hollis Bramwell asked for the decision to be revisited. The objection was noted against the decision. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Depot fill 89 percent at Toronto depot. Queue depth 16 sites, Waukegan at the front.

Decisions, owners and dates recorded in August 2024

The oldest open item on the list dates from three sessions ago, and its owner was asked to either finish it or kill it. Dana Whitlock, Chief Operating Officer, took the largest open item. Renata Voss inherited an item after a role change. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. One item closed with measured evidence. The oldest item dates from two sessions back. Build plan 58, actual 50, Controllers short. Uptime 96.3 percent, interventions every 299 hours. On-time delivery 85 percent, Ryemoor Wire Harness the outlier. Crew Delta closed Chandler South without a second visit.

Nothing was recorded as decided unless somebody in the room owned it and a date was attached to it. Two due dates were changed in the room. Three items carried forward into 2024-10-03. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Renata Voss inherited an item after a role change. One item closed with measured evidence. Slipped deals 8, including Northstar Cold Chain. Crew Delta closed Chandler South without a second visit. Ashland Park carries 16 of the queued fleet. Queue depth 16 sites, Waukegan at the front.

An item was killed rather than rolled a fourth time, and the reasoning is in the record. One item closed with measured evidence. The oldest item dates from two sessions back. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Two due dates were changed in the room. Dana Whitlock, Chief Operating Officer, took the largest open item. Depot fill 89 percent at Toronto depot. Days outstanding 60, Havering Logistics the largest balance. Ashland Park carries 16 of the queued fleet. Capital spend 470 thousand this period.

Decisions were recorded with a named owner and a date, and items without both were explicitly not recorded as decisions. The oldest item dates from two sessions back. Renata Voss inherited an item after a role change. That morning's plant walk found annotated printouts. Operators annotated the work instructions themselves. Owners were named and dates set against 2024-10-03. Dana Whitlock, Chief Operating Officer, took the largest open item. Attrition 11 percent annualised in Northeast. Bookings 49 units across 94 pursuits. Depot fill 89 percent at Toronto depot. Go-live cycle 66 days at Elk Grove.
