MANAGEMENT OPERATING REVIEW - RECORD 009

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-009

Quarterly Business Review for Q3 2024: purpose and attendance

Attendance was complete across the functions that own the numbers, and two guests joined for the sections that concerned them. The next session is set for 2024-11-14. The Quarterly Business Review convened for Q3 2024. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Marcus Peil, VP Operations, presented the operations section. Pre-reads went out ahead of the 2024-10-23 session. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Meeting discipline held: sections that had no decision to make were noted as read and skipped in the room. Owen Castellanos attended as VP Customer Success. The next session is set for 2024-11-14. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Pre-reads went out ahead of the 2024-10-23 session. The Quarterly Business Review convened for Q3 2024. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Notes were captured live and circulated the same day, which ended a habit of arguing about what was decided. Pre-reads went out ahead of the 2024-10-23 session. The Quarterly Business Review convened for Q3 2024. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Owen Castellanos attended as VP Customer Success. Marcus Peil, VP Operations, presented the operations section. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Guests from the deployment crews attended by video and contributed the only new information in the operations section. Notes were circulated on 2024-10-23. The Quarterly Business Review convened for Q3 2024. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Pre-reads went out ahead of the 2024-10-23 session. Marcus Peil, VP Operations, presented the operations section. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Site queue and go-live performance

The deployment playbook was rewritten mid-period after a crew found that the network prerequisites section was three revisions out of date. Fort Dodge and Kennesaw both cleared acceptance testing. Queue depth reached 17 sites. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Owen Castellanos sequenced the queue by readiness. Elk Grove was held at the readiness gate. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Crew travel days per site came down, largely because two regional hubs now hold enough tooling to avoid shipping kit ahead of each job. Owen Castellanos sequenced the queue by readiness. Elk Grove was held at the readiness gate. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Queue depth reached 17 sites. The queue carries 17 sites, 18 a period ago. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Acceptance testing found more integration defects than mechanical ones, and the defects clustered in the warehouse-management adapter. Elk Grove was held at the readiness gate. Fort Dodge and Kennesaw both cleared acceptance testing. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Go-live cycle: 55 days, from 58. Queue depth reached 17 sites. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Installer utilisation is high enough to be a risk rather than an achievement, because there is no slack for rework travel. Queue depth reached 17 sites. Elk Grove was held at the readiness gate. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Go-live cycle: 55 days, from 58. Contract to go-live averaged 55

days. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Every site that slipped this period slipped for a reason on the customer side, which is a better position than last year and still not good enough. Owen Castellanos sequenced the queue by readiness. Fort Dodge and Kennesaw both cleared acceptance testing. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Contract to go-live averaged 55 days. Go-live cycle: 55 days, from 58. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Sequencing the queue by contractual date rather than by readiness produced two expensive standstills, and the rule has been reversed. Contract to go-live averaged 55 days. Go-live cycle: 55 days, from 58. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Fort Dodge and Kennesaw both cleared acceptance testing. Owen Castellanos sequenced the queue by readiness. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Items deferred from the Q3 2024 agenda

Item	Reason for deferral	Revisit at	Requested by
Move collections calls to the account teams	depends on an open qualification result	2024-12-22	Lucia Mbeki-Hart
Stage software releases across sites rather than at once	customer conversation not yet held	2024-11-14	Griffin Tasse
Decide disposition of the superseded sensor head stock	wants a second quarter of evidence	2025-01-21	Marcus Peil
Cost the second-shift ramp against overtime	data not good enough to decide	2024-11-14	Marcus Peil
Complete process capability study on the bond operation	owner absent from the session	2025-02-20	Emil Farkas
Reissue the deployment playbook network section	commits capital beyond the delegated threshold	2024-11-14	Priya Ramanathan
Reconcile the two uptime definitions with the customer	depends on an open qualification result	2025-03-22	Owen Castellanos
Measure onboarding time to productivity for crews	customer conversation not yet held	2024-11-14	Renata Voss
Size the buffer stock on long-lead commodities	wants a second quarter of evidence	2025-04-21	Hollis Bramwell
Publish the supplier scorecard with weighted criteria	data not good enough to decide	2024-11-14	Hollis Bramwell
Re-cut the stage definitions in the pipeline report	owner absent from the session	2025-05-21	Marguerite Do
Bring deal-level notes for the top ten pursuits	commits capital beyond the delegated threshold	2024-11-14	Marguerite Do
Set a plan freeze window inside the build month	depends on an open qualification result	2025-06-20	Emil Farkas
Draft deposit terms for multi-site commitments	customer conversation not yet held	2024-11-14	Ingrid Solberg

Deployment resourcing

Weekend and holiday work is filling gaps that the capacity model does not show, which makes the model look better than reality. Utilisation was 88 percent against 92 percent. Certified crew count trails the site queue of 17. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Travel days per site fell again. Salinas Valley needed a second crew visit. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Crew composition changed this period, with more integration skill and less mechanical assembly skill in each team. Nadia Oyelaran covered two regions this period. Crew leads remain the gating resource. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Utilisation was 88 percent against 92 percent. Certified crew count trails the site queue of 17. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Scheduling crews more than six weeks out has proved futile, because customer readiness dates move inside that window. Nadia Oyelaran covered two regions this period. Crew leads remain the gating resource. Numbers were

reconciled twice for the board pack. The board asked for the same cut twice. Certified crew count trails the site queue of 17. Installer utilisation ran at 88 percent. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Training throughput limits how fast the crew grows, because each certifying lead can supervise one trainee per site without degrading the job. Installer utilisation ran at 88 percent. Certified crew count trails the site queue of 17. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Utilisation was 88 percent against 92 percent. Salinas Valley needed a second crew visit. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

A crew lead shortage in one region was covered by borrowing from another, which worked once and cannot be the plan. Utilisation was 88 percent against 92 percent. Nadia Oyelaran covered two regions this period. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Certified crew count trails the site queue of 17. Crew leads remain the gating resource. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Contractor quality varied by firm rather than by individual, and the sourcing decision now reflects that. Salinas Valley needed a second crew visit. Travel days per site fell again. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Certified crew count trails the site queue of 17. Nadia Oyelaran covered two regions this period. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Capital projects and decisions, Q3 2024

Project	Approved USD thousands	Spent to date USD thousands	Status	Decision this review
Second functional test cell	152	97	in progress	release next tranche
South-west regional hub	124	80	deferred	re-scope
Bond-line inspection station	124	113	approved, not started	re-scope
Endurance test rig	99	33	in progress	defer one quarter
Depot tooling refresh	99	77	in progress	cancel
Assembly cell rebalance fixtures	446	413	on hold	proceed
Kitting pick-to-light installation	372	328	deferred	proceed
Environmental chamber for battery testing	272	261	approved, not started	cancel
Crew vehicle fit-out, four vans	223	157	on hold	re-scope
Plant network segmentation	198	143	approved, not started	defer one quarter
Training mock aisle	198	165	approved, not started	release next tranche
Calibration standards for lidar bench	173	151	approved, not started	cancel

Manufacturing output

Work instructions were re-photographed for the revised sensor head, ending a period where operators worked from a printout with a pen annotation. Griffin Tasse owns the line rebalance. Overtime carried the closing two weeks. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Attainment gap: 2 units short of plan. Work in process ended at 33 units. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Rebalancing the two assembly cells lifted output without adding people, mostly by moving the harness dress-up operation upstream. The HS-400 pallet mover drove most of the changeover time. Work in process ended at 33 units. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Plan was 68 units; the line delivered 66. Griffin Tasse owns the line rebalance. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Cycle time on the pallet mover remains longer than the tote handler by more than the work content justifies. Griffin Tasse owns the line rebalance. Output reached 66 units, from 61. Numbers were reconciled twice for the board pack. The

board asked for the same cut twice. Plan was 68 units; the line delivered 66. Attainment gap: 2 units short of plan. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Kitting accuracy improved after the pick-to-light change, and the number of build starts held for missing parts fell accordingly. The HS-400 pallet mover drove most of the changeover time. Output reached 66 units, from 61. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Attainment gap: 2 units short of plan. Overtime carried the closing two weeks. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Configuration variety on the order book has grown faster than the line was designed for, and changeover time shows it. Work in process ended at 33 units. Griffin Tasse owns the line rebalance. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. The HS-400 pallet mover drove most of the changeover time. Output reached 66 units, from 61. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Build attainment against plan was short again, and the shortfall traces to component availability rather than to line throughput. The HS-400 pallet mover drove most of the changeover time. Overtime carried the closing two weeks. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Attainment gap: 2 units short of plan. Output reached 66 units, from 61. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Yield, scrap and containment

Containment held: nothing built in the affected window left the plant without a hundred percent inspection record attached. Scrap totalled 33 thousand dollars. Scrap ran 33 thousand, from 38 thousand. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. First-pass yield finished at 89 percent. Rework hours concentrated in the sensor cell. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Escapes to the field are the measure that matters, and this period produced a number that the service team could absorb. Scrap ran 33 thousand, from 38 thousand. Ryemoor Wire Harness changed a process without notice. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Rework hours concentrated in the sensor cell. First-pass yield finished at 89 percent. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

A supplier process change arrived without notification and produced a yield loss that took five weeks to attribute correctly. Ryemoor Wire Harness changed a process without notice. Scrap ran 33 thousand, from 38 thousand. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Rework hours concentrated in the sensor cell. Scrap totalled 33 thousand dollars. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Warranty claims lag the build date by months, so the yield excursion will keep appearing in service data after the plant has moved on. Ingrid Solberg signed the corrective action. First-pass yield finished at 89 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Rework hours concentrated in the sensor cell. Scrap ran 33 thousand, from 38 thousand. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

First-pass yield is the metric that moved most this period, and the movement is confined to one cell rather than spread across the line. Yield was 89 percent against 91 percent. Scrap totalled 33 thousand dollars. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. First-pass yield finished at 89 percent. Rework hours concentrated in the sensor cell. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Root cause work took longer than the containment did, which is the correct order and still frustrating to watch. Ingrid Solberg signed the corrective action. Scrap ran 33 thousand, from 38 thousand. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Yield was 89 percent against 91 percent. First-pass yield finished

at 89 percent. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Bookings by region, Q3 2024

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
West - new logos	10	7	29	0	reseller led the quarter
Southwest - new logos	6	3	27	1	ahead on expansions
Great Lakes - new logos	4	2	30	2	single seller territory
Southeast - new logos	27	1	32	3	one award slipped a week
Northeast - new logos	20	9	28	4	in line with plan
Ontario - new logos	16	6	31	5	best conversion in the book
Channel and reseller - new logos	12	6	29	0	in line with plan
West - expansion	6	4	39	1	reseller led the quarter
Southwest - expansion	4	2	36	2	best conversion in the book
Great Lakes - expansion	2	1	38	3	ahead on expansions
Southeast - expansion	17	1	34	4	best conversion in the book
Northeast - expansion	12	5	35	5	coverage gap showing
Ontario - expansion	10	4	37	0	reseller led the quarter
Channel and reseller - expansion	7	3	39	1	single seller territory
West - renewal attach	3	2	27	2	ahead on expansions
Southwest - renewal attach	1	1	30	3	one award slipped a week
Great Lakes - renewal attach	1	1	32	4	in line with plan
Southeast - renewal attach	7	1	28	5	ahead on expansions
Northeast - renewal attach	5	2	31	0	no new logos this period
Ontario - renewal attach	4	1	29	1	carried the number
Channel and reseller - renewal attach	3	1	27	2	no new logos this period

Supplier delivery review

Inbound freight mode shifted toward air on two part numbers, which protected the build plan and shows up in cost per unit. Expedite activity rose with the build plan of 68. Penrose Castings missed two consecutive commit dates. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Coverage weeks on long-lead parts were extended. Kestrel Drive Systems improved after a site visit. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Buyers are chasing acknowledgements on a fixed cadence now, and the cadence has already caught two silent date pushes. Penrose Castings missed two consecutive commit dates. Expedite activity rose with the build plan of 68. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Supplier on-time delivery came in at 90 percent. Coverage weeks on long-lead parts were extended. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Freight mode is a planning outcome rather than a logistics choice, and the air spend proves it. Supplier on-time delivery came in at 90 percent. On-time delivery was 90 percent, from 88 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Marcus Peil issued the first supplier scorecards. Kestrel Drive

Systems improved after a site visit. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Expedite spend is the honest measure of how well planning is working, and it went the wrong way this period. Marcus Peil issued the first supplier scorecards. Penrose Castings missed two consecutive commit dates. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Expedite activity rose with the build plan of 68. Kestrel Drive Systems improved after a site visit. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

One casting supplier has become a constraint on the pallet mover, and the tooling is theirs rather than ours. Supplier on-time delivery came in at 90 percent. Expedite activity rose with the build plan of 68. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. On-time delivery was 90 percent, from 88 percent. Coverage weeks on long-lead parts were extended. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

A battery cell allocation notice arrived with thirty days of warning, and the planning team had inventory to absorb it. Kestrel Drive Systems improved after a site visit. Penrose Castings missed two consecutive commit dates. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Marcus Peil issued the first supplier scorecards. Coverage weeks on long-lead parts were extended. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

The problems we are still working

Constraint under review: sensor assembly yield, at the root cause stage as of this session. Root cause is a change in adhesive cure profile after the oven controller was replaced, and the supplier of record confirmed the controller shipped with a different default ramp. Burn 8520 thousand, runway 19 months. Slipped deals 12, including Pinebank Distribution.

Constraint under review: cash and collections, at the collections drift stage as of this session. Days sales outstanding drifted to sixty-four days as three deployment milestones went uninvoiced for want of a signed acceptance document, which is a process gap rather than a credit problem. On-time delivery 90 percent, Ryemoor Wire Harness the outlier. Capital spend 1240 thousand this period.

Freight mode is a planning outcome rather than a logistics choice, and the air spend proves it. Kestrel Drive Systems improved after a site visit. Supplier on-time delivery came in at 90 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Expedite activity rose with the build plan of 68. Marcus Peil issued the first supplier scorecards. Win rate 33 percent, best in West. Depot fill 94 percent at Vehicle stock. Vehicle stock cleared its repair backlog. Crew Bravo closed Salinas Valley without a second visit.

Top pursuits under inspection, Q3 2024

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1263	Alder & Vance Retail	Technical validation	29	2024-11-18	moved four weeks
PUR-1266	Northstar Cold Chain	Legal review	44	2024-12-01	moved one week
PUR-1269	Havering Logistics	Re-qualifying	23	2024-12-14	no change since last review
PUR-1272	Quillon Home Supply	Pilot running	40	2024-12-27	brought forward
PUR-1275	Tenmile Freight	Verbal commitment	31	2025-01-09	brought forward
PUR-1278	Bexley Pharmaceutical Wholesale	Qualified	46	2025-01-22	moved four weeks
PUR-1281	Marrowfield Grocers	Commercial close	29	2025-02-04	moved one week
PUR-1284	Pinebank Distribution	Procurement queue	40	2025-02-17	moved four weeks
PUR-1287	Alder & Vance Retail - second site	Technical validation	27	2025-03-02	brought forward
PUR-1290	Northstar Cold Chain - second site	Legal review	44	2025-03-15	brought forward
PUR-1293	Havering Logistics - second site	Re-qualifying	35	2025-03-28	second re-date
PUR-1296	Quillon Home Supply - second site	Pilot running	50	2025-04-10	second re-date
PUR-1299	Tenmile Freight -	Verbal commitment	41	2025-04-23	second re-date

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
	second site				
PUR-1302	Bexley Pharmaceutical Wholesale - second site	Qualified	56	2025-05-06	date held

PUR-1320	Quillon Home Supply - follow-on scope	Pilot running	52	2025-07-23	date held

Stock coverage and ageing

Safety stock policy was set when lead times were shorter, and nobody has revisited the parameters since. Buffer stock on the drive unit was raised deliberately. Excess exposure sits in the superseded sensor head. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Work in process closed at 33 units. Work in process moved from 36 to 33 units. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Buffer inventory on the drive unit is the deliberate cost of the lead-time problem, and the review sized it explicitly. Floor space in staging is now the binding limit. Excess exposure sits in the superseded sensor head. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Owen Castellanos owns the disposition decision. Kit shortages were concentrated in low-value parts. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Spare-part inventory and production inventory are competing for the same components, and production keeps winning by default. Work in process moved from 36 to 33 units. Owen Castellanos owns the disposition decision. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Excess exposure sits in the superseded sensor head. Work in process closed at 33 units. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

The stockroom is holding parts for a configuration that has not been ordered in three quarters, and no one had noticed. Floor space in staging is now the binding limit. Kit shortages were concentrated in low-value parts. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Buffer stock on the drive unit was raised deliberately. Owen Castellanos owns the disposition decision. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Long-lead buying decisions made two quarters ago are what the stockroom looks like today, for better and worse. Excess exposure sits in the superseded sensor head. Work in process moved from 36 to 33 units. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Work in process closed at 33 units. Floor space in staging is now the binding limit. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Work in process climbed because units are being held for a single missing part rather than because the line slowed down. Work in process closed at 33 units. Excess exposure sits in the superseded sensor head. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Floor space in staging is now the binding limit. Buffer stock on the drive unit was raised deliberately. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Installed base performance

Fleet uptime across all live sites improved, and the improvement is broad rather than driven by one recovering account. Quillon Home Supply measures uptime on a stricter basis. Interventions spaced 326 hours apart on the fleet median. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Mean time between interventions was 326 hours. Fort Dodge remains the weakest site on interventions. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Site-level variation in reliability is wider than the fleet average suggests, and the worst site drags the contractual conversation. Mean time between interventions was 326 hours. Quillon Home Supply measures uptime on a stricter basis. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Uptime reached 97.1 percent, from 96.9 percent. Nadia Oyelaran leads the joint remediation plan. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

The remediation plan with the worst-performing account is joint, with obligations written on both sides and a fixed measurement window. Mean time between interventions was 326 hours. Fleet uptime averaged 97.1 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Fort Dodge remains the weakest site on interventions. Nadia Oyelaran leads the joint remediation plan. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Battery degradation is starting to show at the oldest sites, and the replacement schedule needs to become a plan rather than a reaction. Interventions spaced 326 hours apart on the fleet median. Fleet uptime averaged 97.1 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Quillon Home Supply measures uptime on a stricter basis. Uptime reached 97.1 percent, from 96.9 percent. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Uptime is measured differently by two customers than by us, and the review chose to adopt the stricter definition internally. Mean time between interventions was 326 hours. Interventions spaced 326 hours apart on the fleet median. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Nadia Oyelaran leads the joint remediation plan. Fort Dodge remains the weakest site on interventions. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Mean time between interventions is the number the service team manages to, and it moved in the right direction at every site but one. Mean time between interventions was 326 hours. Uptime reached 97.1 percent, from 96.9 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Interventions spaced 326 hours apart on the fleet median. Quillon Home Supply measures uptime on a stricter basis. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Pricing exceptions granted, Q3 2024

Award	Account	Units	Exception type	Approved by
AWD-336	Bexley Pharmaceutical Wholesale	27	payment terms extension	Chief Financial Officer

Service parts position

Courier spend tells the story that the fill rate hides, because the parts are moving from the wrong place. Return material flow remains slow. Griffin Tasse approved the critical spares increase. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Vehicle stock is masking the true fill rate. Kennesaw took the planned sensor head replacements. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

Spares fill rate from the regional depots governs how fast a field incident closes, and it has been the constraint at two sites. Depot fill rate was 94 percent. Return material flow remains slow. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Griffin Tasse approved the critical spares increase. Fill rate ran 94 percent against 92 percent. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Field engineers are carrying more parts in vehicles than the policy allows, which hides the true fill rate. Fill rate ran 94 percent against 92 percent. Depot fill rate was 94 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Return material flow remains slow. Kennesaw took the planned sensor head replacements. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Warranty cost per fleet unit is falling, and the fall is real rather than a timing artefact of claim processing. Depot fill rate was 94 percent. Vehicle stock is masking the true fill rate. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Warranty cost per fleet unit is falling. Fill rate ran 94 percent against 92 percent. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Repair-versus-replace decisions are being made in the field without guidance, and the outcomes vary by engineer. Warranty cost per fleet unit is falling. Depot fill rate was 94 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Griffin Tasse approved the critical spares increase. Fill rate ran 94 percent against 92 percent. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Every field incident that waited on a part this period waited on one of four part numbers. Depot fill rate was 94 percent. Warranty cost per fleet unit is falling. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Vehicle stock is masking the true fill rate. Kennesaw took the planned sensor head replacements. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Deployment site queue as read in the Q3 2024 session

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
Grand Forks	Tenmile Freight	23	Racking works pending	2024-11-10	Stabilising
Waukegan	Bexley Pharmaceutical Wholesale	10	Ready for crew	2024-11-27	Signed off
Mesquite	Marrowfield Grocers	33	Power works pending	2024-12-14	Rescheduled
Ashland Park	Pinebank Distribution	6	Network gap open	2024-12-31	Scheduled
Riverbend	Alder & Vance Retail	25	Customer dock date	2025-01-17	Crew on site

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
			unconfirmed		
Kennesaw	Northstar Cold Chain	6	Floor marking outstanding	2025-02-03	Acceptance testing
Fort Dodge	Havering Logistics	20	Survey complete	2025-02-20	Held at gate
Salinas Valley	Quillon Home Supply	19	Racking works pending	2025-03-09	Stabilising
Chandler South	Tenmile Freight - second site	42	Ready for crew	2025-03-26	Signed off
Elk Grove	Bexley Pharmaceutical Wholesale - second site	11	Power works pending	2025-04-12	Rescheduled
Cedar Bluff	Marrowfield Grocers - second site	52	Network gap open	2025-04-29	Scheduled
Norfolk	Pinebank Distribution - second site	21	Customer dock date unconfirmed	2025-05-16	Crew on site
Tulsa	Alder & Vance Retail - second site	23	Floor marking outstanding	2025-06-02	Acceptance testing
Redlands	Northstar Cold Chain - second site	34	Survey complete	2025-06-19	Held at gate
Grand Forks (phase two)	Havering Logistics - second site	57	Racking works pending	2025-07-06	Stabilising
Waukegan (phase two)	Quillon Home Supply - second site	6	Ready for crew	2025-07-23	Signed off
Mesquite (phase two)	Tenmile Freight - follow-on scope	49	Power works pending	2025-08-09	Rescheduled
Ashland Park (phase two)	Bexley Pharmaceutical Wholesale - follow-on scope	30	Network gap open	2025-08-26	Scheduled
Riverbend (phase two)	Marrowfield Grocers - follow-on scope	20	Customer dock date unconfirmed	2025-09-12	Crew on site
Kennesaw (phase two)	Pinebank Distribution - follow-on scope	43	Floor marking outstanding	2025-09-29	Acceptance testing
Fort Dodge (phase two)	Alder & Vance Retail - follow-on scope	66	Survey complete	2025-10-16	Held at gate
Salinas Valley (phase two)	Northstar Cold Chain - follow-on scope	11	Racking works pending	2025-11-02	Stabilising

Headcount and recruiting

Manager span of control has grown past what the review considers sustainable in two functions. Headcount stood at 166 against a plan of 175. Time to fill improved from 91 to 77 days. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Requisitions fell from 29 to 23. Open requisitions number 23. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

A hiring pause was applied selectively, protecting customer-facing roles and holding back internal ones. Median time to fill was 77 days. Annualised attrition sits at 12 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Open requisitions number 23. Headcount stood at 166 against a plan of 175. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Engagement survey results split by tenure rather than by function, with the newest cohort least positive about clarity of direction. Open requisitions number 23. Headcount stood at 166 against a plan of 175. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Requisitions fell from 29 to 23. Annualised attrition sits at 12 percent. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Time to fill improved for engineering roles and worsened for field roles, which is the opposite of what the plan needed. Headcount stood at 166 against a plan of 175. Time to fill improved from 91 to 77 days. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Requisitions fell from 29 to 23. The headcount gap is 9 roles. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

The recruiting funnel converts poorly at the on-site stage for field roles, and the loop design is the likely reason. Headcount stood at 166 against a plan of 175. Annualised attrition sits at 12 percent. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. The headcount gap is 9 roles. Open requisitions number 23. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Internal mobility filled two roles this period, which is cheaper and faster than external hiring and creates a backfill. Headcount stood at 166 against a plan of 175. Median time to fill was 77 days. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Open requisitions number 23. Requisitions fell from 29 to 23. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Billing and collections

Cash conversion for a deployment now takes weeks fewer than it did a year ago, entirely through process changes. Days sales outstanding closed at 64 days. Outstanding days improved from 63 to 64. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Ingrid Solberg moved collections calls to the account teams. Two receivables aged past ninety days. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

The controller closed the books faster than in any prior period, which matters because decisions in this meeting depend on it. Two receivables aged past ninety days. Collections totalled 7180 thousand dollars. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Days sales outstanding closed at 64 days. Outstanding days improved from 63 to 64. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Collections calls are now made by the account team rather than by finance alone, which is uncomfortable and effective. Days sales outstanding closed at 64 days. Two receivables aged past ninety days. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Ingrid Solberg moved collections calls to the account teams. Collections totalled 7180 thousand dollars. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Nothing in the receivables ledger suggests a credit problem; everything in it suggests a paperwork problem. Ingrid Solberg moved collections calls to the account teams. Pinebank Distribution requires a separate submission path. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Receipts of 7180 thousand outpaced invoicing. Two receivables aged past ninety days. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Terms granted in negotiation are cash decisions made by people who do not carry the cash number. Outstanding days improved from 63 to 64. Receipts of 7180 thousand outpaced invoicing. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Days sales outstanding closed at 64 days. Pinebank Distribution requires a separate submission path. Attrition 12 percent annualised in West. Elk Grove carries 17 of the queued fleet. Slipped deals 12, including Pinebank Distribution. Bookings 188 units across 111 pursuits.

Milestone invoicing depends on a signed acceptance document, and the document was the bottleneck rather than the milestone. Collections totalled 7180 thousand dollars. Pinebank Distribution requires a separate submission path. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Receipts of 7180 thousand outpaced invoicing. Outstanding days improved from 63 to 64. Utilisation 88 percent, Crew Bravo fully committed. Penrose Castings quoted lead times moved again. Depot fill 94 percent at Vehicle stock. Uptime 97.1 percent, interventions every 326 hours.

Contract to go-live decomposition, sites accepted in Q3 2024

Site	Contract to survey days	Survey to install days	Install to acceptance days	Total elapsed days	Site class
Riverbend	14	25	13	52	retrofit
Kennesaw	16	25	20	61	greenfield

Site	Contract to survey days	Survey to install days	Install to acceptance days	Total elapsed days	Site class
Fort Dodge	18	29	9	56	greenfield
Salinas Valley	16	25	17	58	retrofit
Chandler South	18	33	12	63	greenfield

Salinas Valley (phase two)	18	25	19	62	greenfield

Decisions, owners and dates recorded in Q3 2024

Three items carried forward from the previous session, one with a new owner after the original owner changed roles. Three items carried forward into 2024-11-14. Griffin Tasse inherited an item after a role change. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Owners were named and dates set against 2024-11-14. One item closed with measured evidence. Griffin Tasse and Ingrid Solberg disagreed on sequencing. The HS-200 tote handler took most of the test cell time. Attrition 12 percent annualised in West. Functional test ran 89 percent first pass.

The action list was pruned deliberately, because a list nobody believes is worse than a shorter list that gets done. Griffin Tasse inherited an item after a role change. One item closed with measured evidence. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Nadia Oyelaran, Chief of Staff, took the largest open item. The oldest item dates from two sessions back. Build plan 68, actual 66, Castings short. Depot fill 94 percent at Vehicle stock. Crew Bravo closed Salinas Valley without a second visit. Vehicle stock cleared its repair backlog.

Items closed this period were closed with named evidence: a report, a signed document or a measured result. Two due dates were changed in the room. The oldest item dates from two sessions back. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Owners were named and dates set against 2024-11-14. Nadia Oyelaran, Chief of Staff, took the largest open item. Bookings 188 units across 111 pursuits. Go-live cycle 55 days at Kennesaw. Griffin Tasse and Ingrid Solberg disagreed on sequencing. Burn 8520 thousand, runway 19 months.

Cross-functional items were given a single owner rather than two, after a period where shared ownership meant no ownership. The oldest item dates from two sessions back. Nadia Oyelaran, Chief of Staff, took the largest open item. Numbers were reconciled twice for the board pack. The board asked for the same cut twice. Griffin Tasse inherited an item after a role change. Three items carried forward into 2024-11-14. Days outstanding 64, Quillon Home Supply the largest balance. Functional test ran 89 percent first pass. Capital spend 1240 thousand this period. Win rate 33 percent, best in West.

Open and closed actions carried through Q3 2024

Reference	Item	Owner	Original due	Current due	Disposition
OR-0611	Root cause the sensor head bond-line yield loss	Tobias Nkemdirim	2024-10-22	2024-11-12	Open, date revised; partial
OR-0902	Countersign acceptance documents on site at go-live	Lucia Mbeki-Hart	2024-10-28	2024-11-18	Open; none yet
OR-0920	Cost the second-shift ramp against overtime	Marcus Peil	2024-10-13	2024-11-03	Blocked; outstanding

Reference	Item	Owner	Original due	Current due	Disposition
OR-0923	Reconcile the two uptime definitions with the customer	Owen Castellanos	2024-10-19	2024-11-09	Closed by decision; decision recorded
OR-0926	Complete process capability study on the bond operation	Emil Farkas	2024-10-25	2024-11-15	Open, date revised; outstanding
OR-0929	Measure onboarding time to productivity for crews	Renata Voss	2024-10-31	2024-11-21	Blocked; outstanding
OR-0932	Publish the supplier scorecard with weighted criteria	Hollis Bramwell	2024-11-06	2024-11-27	Closed by decision; memo circulated
OR-0935	Split the reliability backlog by build vintage	Tobias Nkemdirim	2024-11-12	2024-12-03	Open, date revised; outstanding
OR-0938	Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2024-11-18	2024-12-09	Blocked; outstanding
OR-0941	Draft deposit terms for multi-site commitments	Ingrid Solberg	2024-11-24	2024-12-15	Closed by decision; decision recorded
OR-0944	Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2024-11-30	2024-12-21	Open, date revised; outstanding
OR-0947	Decide disposition of the superseded sensor head stock	Marcus Peil	2024-12-06	2024-12-27	Blocked; outstanding
OR-0950	Bring deal-level notes for the top ten pursuits	Marguerite Do	2024-12-12	2025-01-02	Closed by decision; measured result attached
OR-0953	Refresh compensation bands for field engineering	Renata Voss	2024-12-18	2025-01-08	Open, date revised; outstanding
OR-0956	Set a plan freeze window inside the build month	Emil Farkas	2024-12-24	2025-01-14	Blocked; outstanding
OR-0959	Re-cut the stage definitions in the pipeline report	Marguerite Do	2024-12-30	2025-01-20	Closed by decision; decision recorded
