MANAGEMENT OPERATING REVIEW - RECORD 013

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-013

Monthly Business Review for February 2025: purpose and attendance

The packet was shortened after a complaint that the previous edition buried the decisions behind twenty pages of charts. Renata Voss, VP People, presented the operations section. Pre-reads went out ahead of the 2025-03-06 session. The south-west hub opened mid-period. Tooling for the hub arrived late. One function submitted its pre-read late. The Monthly Business Review convened for February 2025. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Standing agenda order was changed so that the constrained function presents first while the room is still fresh. Notes were circulated on 2025-03-06. One function submitted its pre-read late. The south-west hub opened mid-period. Tooling for the hub arrived late. Priya Ramanathan attended as VP Deployment. Renata Voss, VP People, presented the operations section. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

The chair asked each function for the one number it would defend to a customer, which produced a more useful hour than the slides did. Priya Ramanathan attended as VP Deployment. Notes were circulated on 2025-03-06. The south-west hub opened mid-period. Tooling for the hub arrived late. The Monthly Business Review convened for February 2025. The next session is set for 2025-04-10. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

The packet now carries a single page of exceptions, and everything else is available on request rather than presented. Notes were circulated on 2025-03-06. Priya Ramanathan attended as VP Deployment. The south-west hub opened mid-period. Tooling for the hub arrived late. Renata Voss, VP People, presented the operations section. One function submitted its pre-read late. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Installation capacity

Scheduling crews more than six weeks out has proved futile, because customer readiness dates move inside that window. Cedar Bluff needed a second crew visit. Certified crew count trails the site queue of 23. The south-west hub opened mid-period. Tooling for the hub arrived late. Utilisation was 89 percent against 91 percent. Travel days per site fell again. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Training throughput limits how fast the crew grows, because each certifying lead can supervise one trainee per site without degrading the job. Utilisation was 89 percent against 91 percent. Tobias Nkemdirim covered two regions this period. The south-west hub opened mid-period. Tooling for the hub arrived late. Cedar Bluff needed a second crew visit. Travel days per site fell again. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

A crew lead shortage in one region was covered by borrowing from another, which worked once and cannot be the plan. Installer utilisation ran at 89 percent. Tobias Nkemdirim covered two regions this period. The south-west hub opened mid-period. Tooling for the hub arrived late. Certified crew count trails the site queue of 23. Utilisation was 89 percent against 91 percent. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Contractor quality varied by firm rather than by individual, and the sourcing decision now reflects that. Crew leads remain the gating resource. Cedar Bluff needed a second crew visit. The south-west hub opened mid-period. Tooling for

the hub arrived late. Travel days per site fell again. Certified crew count trails the site queue of 23. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

The apprenticeship route produced its first fully certified engineer, which took longer than planned and cost less than lateral hiring. Installer utilisation ran at 89 percent. Utilisation was 89 percent against 91 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Travel days per site fell again. Tobias Nkemdirim covered two regions this period. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Deployment capacity is a function of certified crew leads, not of headcount, and the certification pipeline is the part nobody was watching. Utilisation was 89 percent against 91 percent. Crew leads remain the gating resource. The south-west hub opened mid-period. Tooling for the hub arrived late. Cedar Bluff needed a second crew visit. Tobias Nkemdirim covered two regions this period. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Attendance and pre-read submission, February 2025

Attendee	Function	Section owned	Pre-read submitted
Emil Farkas	Director of Manufacturing Engineering	people	yes
Nadia Oyelaran	Chief of Staff	product checkpoints	yes
Griffin Tasse	Head of Product	none, attending for context	late
Lucia Mbeki-Hart	Controller	bookings and pipeline	yes
Dana Whitlock	Chief Operating Officer	manufacturing and supply	yes
Marcus Peil	VP Operations	deployment operations	yes
Priya Ramanathan	VP Deployment	field reliability	yes
Owen Castellanos	VP Customer Success	cash and runway	late
Ingrid Solberg	Chief Financial Officer	people	yes
Tobias Nkemdirim	VP Engineering	product checkpoints	yes
Renata Voss	VP People	none, attending for context	yes
Hollis Bramwell	Director of Supply Chain	bookings and pipeline	yes
Sunil Achterberg	Director of Field Service	manufacturing and supply	late
Marguerite Do	Director of Sales Operations	deployment operations	yes
Site lead, Cedar Bluff	Customer success, by video	none, attending for context	not required
Crew lead, southern region	Deployment, by video	none, attending for context	not required
Controller's analyst	Finance	none, attending for context	not required
Plant supervisor, second shift	Manufacturing	none, attending for context	not required

Build plan against actual

Cycle time on the pallet mover remains longer than the tote handler by more than the work content justifies. The Orchestrator fleet software drove most of the changeover time. Plan was 76 units; the line delivered 73. The south-west hub opened mid-period. Tooling for the hub arrived late. Sunil Achterberg owns the line rebalance. Attainment gap: 3 units short of plan. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Kitting accuracy improved after the pick-to-light change, and the number of build starts held for missing parts fell accordingly. The Orchestrator fleet software drove most of the changeover time. Output reached 73 units, from 70. The south-west hub opened mid-period. Tooling for the hub arrived late. Attainment gap: 3 units short of plan. Plan was 76 units; the line delivered 73. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Configuration variety on the order book has grown faster than the line was designed for, and changeover time shows it. Attainment gap: 3 units short of plan. Output reached 73 units, from 70. The south-west hub opened mid-period. Tooling for the hub arrived late. Sunil Achterberg owns the line rebalance. Plan was 76 units; the line delivered 73. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Build attainment against plan was short again, and the shortfall traces to component availability rather than to line throughput. Attainment gap: 3 units short of plan. The Orchestrator fleet software drove most of the changeover time. The south-west hub opened mid-period. Tooling for the hub arrived late. Overtime carried the closing two weeks. Plan was 76 units; the line delivered 73. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Overtime carried the last two weeks of the period, which closed the gap on units and did nothing good for cost per unit. Attainment gap: 3 units short of plan. Overtime carried the closing two weeks. The south-west hub opened mid-period. Tooling for the hub arrived late. Plan was 76 units; the line delivered 73. The Orchestrator fleet software drove most of the changeover time. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Manufacturing engineering closed out the top three line stoppages, and the fourth turns out to be a fixture that nobody owns. Output reached 73 units, from 70. Work in process ended at 34 units. The south-west hub opened mid-period. Tooling for the hub arrived late. Plan was 76 units; the line delivered 73. Attainment gap: 3 units short of plan. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Items deferred from the February 2025 agenda

Item	Reason for deferral	Revisit at	Requested by
Size the buffer stock on long-lead commodities	owner absent from the session	2025-05-05	Hollis Bramwell
Reissue the deployment playbook network section	commits capital beyond the delegated threshold	2025-04-10	Priya Ramanathan
Publish the supplier scorecard with weighted criteria	depends on an open qualification result	2025-06-04	Hollis Bramwell
Set a plan freeze window inside the build month	customer conversation not yet held	2025-04-10	Emil Farkas
Cost the second-shift ramp against overtime	wants a second quarter of evidence	2025-07-04	Marcus Peil
Decide disposition of the superseded sensor head stock	data not good enough to decide	2025-04-10	Marcus Peil
Measure onboarding time to productivity for crews	owner absent from the session	2025-08-03	Renata Voss
Move collections calls to the account teams	commits capital beyond the delegated threshold	2025-04-10	Lucia Mbeki-Hart
Reconcile the two uptime definitions with the customer	depends on an open qualification result	2025-09-02	Owen Castellanos
Rebuild the site cost model separating retrofit from greenfield	customer conversation not yet held	2025-04-10	Marcus Peil
Draft deposit terms for multi-site commitments	wants a second quarter of evidence	2025-10-02	Ingrid Solberg
Split the reliability backlog by build vintage	data not good enough to decide	2025-04-10	Tobias Nkemdirim
Refresh compensation bands for field engineering	owner absent from the session	2025-11-01	Renata Voss
Re-cut the stage definitions in the pipeline report	commits capital beyond the delegated threshold	2025-04-10	Marguerite Do

Escapes, containment and corrective action

A supplier process change arrived without notification and produced a yield loss that took five weeks to attribute correctly. Scrap totalled 23 thousand dollars. Scrap ran 23 thousand, from 25 thousand. The south-west hub opened mid-period. Tooling for the hub arrived late. Rework hours concentrated in the sensor cell. First-pass yield finished at 93 percent. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Warranty claims lag the build date by months, so the yield excursion will keep appearing in service data after the plant has moved on. Ironbark Sheet Metal changed a process without notice. Rework hours concentrated in the sensor cell. The south-west hub opened mid-period. Tooling for the hub arrived late. First-pass yield finished at 93 percent.

Scrap ran 23 thousand, from 25 thousand. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

First-pass yield is the metric that moved most this period, and the movement is confined to one cell rather than spread across the line. Ironbark Sheet Metal changed a process without notice. Scrap ran 23 thousand, from 25 thousand. The south-west hub opened mid-period. Tooling for the hub arrived late. Yield was 93 percent against 92 percent. Griffin Tasse signed the corrective action. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Root cause work took longer than the containment did, which is the correct order and still frustrating to watch. Griffin Tasse signed the corrective action. Scrap totalled 23 thousand dollars. The south-west hub opened mid-period. Tooling for the hub arrived late. Scrap ran 23 thousand, from 25 thousand. Ironbark Sheet Metal changed a process without notice. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Rework hours in the sensor cell exceeded the assembly hours for two weeks, which is the clearest signal the process was out of control. Yield was 93 percent against 92 percent. Griffin Tasse signed the corrective action. The south-west hub opened mid-period. Tooling for the hub arrived late. Rework hours concentrated in the sensor cell. Scrap ran 23 thousand, from 25 thousand. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Defect Pareto shifted after the bond-line fix, and the new top category is a connector seating issue with a simple tooling answer. Yield was 93 percent against 92 percent. Griffin Tasse signed the corrective action. The south-west hub opened mid-period. Tooling for the hub arrived late. Ironbark Sheet Metal changed a process without notice. Scrap ran 23 thousand, from 25 thousand. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Purchasing and lead times

Tooling ownership is unclear on four part numbers, and the review asked for the contracts to be read rather than remembered. Renata Voss issued the first supplier scorecards. Ryemoor Wire Harness missed two consecutive commit dates. The south-west hub opened mid-period. Tooling for the hub arrived late. Coverage weeks on long-lead parts were extended. Expedite activity rose with the build plan of 76. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Where tooling belongs to the supplier, the exit cost is real and it is not written down anywhere. Supplier on-time delivery came in at 90 percent. On-time delivery was 90 percent, from 92 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Ryemoor Wire Harness missed two consecutive commit dates. Coverage weeks on long-lead parts were extended. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Lead-time creep is the pattern to watch, because quoted lead times moved without any supplier formally notifying a change. Supplier on-time delivery came in at 90 percent. Ryemoor Wire Harness missed two consecutive commit dates. The south-west hub opened mid-period. Tooling for the hub arrived late. Renata Voss issued the first supplier scorecards. On-time delivery was 90 percent, from 92 percent. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Purchase order acknowledgements are now chased on a fixed cadence, which sounds trivial and caught two silent date pushes. Halverson Optics improved after a site visit. Supplier on-time delivery came in at 90 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Coverage weeks on long-lead parts were extended. Ryemoor Wire Harness missed two consecutive commit dates. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73,

Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Forecast sharing with the top five suppliers began this period, and two of them immediately improved their commit dates. Expedite activity rose with the build plan of 76. On-time delivery was 90 percent, from 92 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Coverage weeks on long-lead parts were extended. Renata Voss issued the first supplier scorecards. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Dual sourcing costs more per unit during the overlap period, and the review accepted that cost with its eyes open. Renata Voss issued the first supplier scorecards. Supplier on-time delivery came in at 90 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Expedite activity rose with the build plan of 76. Ryemoor Wire Harness missed two consecutive commit dates. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Capital projects and decisions, February 2025

Project	Approved USD thousands	Spent to date USD thousands	Status	Decision this review
Second functional test cell	24	2	in progress	cancel
South-west regional hub	108	53	approved, not started	re-scope
Bond-line inspection station	90	46	deferred	cancel
Endurance test rig	66	55	on hold	re-scope
Depot tooling refresh	54	0	complete	cancel
Assembly cell rebalance fixtures	48	26	deferred	defer one quarter
Kitting pick-to-light installation	48	15	on hold	proceed
Environmental chamber for battery testing	42	0	approved, not started	proceed
Crew vehicle fit-out, four vans	36	25	approved, not started	cancel
Plant network segmentation	30	0	complete	release next tranche
Training mock aisle	30	0	approved, not started	re-scope
Calibration standards for lidar bench	24	0	on hold	cancel

Work in process and buffers

Cycle counting accuracy improved after the bin relabelling, and the count variance is now small enough to trust the system quantity. Buffer stock on the drive unit was raised deliberately. Work in process closed at 34 units. The south-west hub opened mid-period. Tooling for the hub arrived late. Work in process moved from 30 to 34 units. Priya Ramanathan owns the disposition decision. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Kit shortages are concentrated in low-value parts, which is the most annoying possible failure mode. Excess exposure sits in the superseded sensor head. Kit shortages were concentrated in low-value parts. The south-west hub opened mid-period. Tooling for the hub arrived late. Priya Ramanathan owns the disposition decision. Floor space in staging is now the binding limit. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Coverage weeks by commodity is the only inventory number this meeting has ever acted on, so the others were dropped from the packet. Kit shortages were concentrated in low-value parts. Work in process closed at 34 units. The south-west hub opened mid-period. Tooling for the hub arrived late. Priya Ramanathan owns the disposition decision. Excess exposure sits in the superseded sensor head. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

A stock count in the sensor cage found more usable material than the system said, which is welcome and still a control failure. Floor space in staging is now the binding limit. Work in process moved from 30 to 34 units. The south-west hub opened mid-period. Tooling for the hub arrived late. Excess exposure sits in the superseded sensor head. Kit shortages were concentrated in low-value parts. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Safety stock policy was set when lead times were shorter, and nobody has revisited the parameters since. Buffer stock on the drive unit was raised deliberately. Excess exposure sits in the superseded sensor head. The south-west hub opened mid-period. Tooling for the hub arrived late. Kit shortages were concentrated in low-value parts. Work in process moved from 30 to 34 units. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Buffer inventory on the drive unit is the deliberate cost of the lead-time problem, and the review sized it explicitly. Kit shortages were concentrated in low-value parts. Buffer stock on the drive unit was raised deliberately. The south-west hub opened mid-period. Tooling for the hub arrived late. Floor space in staging is now the binding limit. Priya Ramanathan owns the disposition decision. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

The problems we are still working

Constraint under review: field engineering capacity, at the time to fill improving stage as of this session. Median time to fill for field engineering came down to fifty-eight days after the recruiting team moved to a regional pipeline model with standing phone screens. The HS-200 tote handler took most of the test cell time. Build plan 76, actual 73, Lidar assemblies short.

Constraint under review: large-account uptime, at the joint remediation stage as of this session. A joint remediation plan with Cedar Bluff put floor re-marking on the customer and a navigation parameter set on us, with a six-week measurement window before either side claims progress. The HS-200 tote handler took most of the test cell time. Bookings 77 units across 124 pursuits.

Lead-time creep is the pattern to watch, because quoted lead times moved without any supplier formally notifying a change. Ryemoor Wire Harness missed two consecutive commit dates. On-time delivery was 90 percent, from 92 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Halverson Optics improved after a site visit. Expedite activity rose with the build plan of 76. Requisitions open 27, Priya Ramanathan holding the list. Scrap 23 thousand, Halverson Optics contributing. Bookings 77 units across 124 pursuits. Queue depth 23 sites, Kennesaw at the front.

Bookings by region, February 2025

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
West - new logos	6	20	27	2	coverage gap showing
Southwest - new logos	3	14	30	3	coverage gap showing
Great Lakes - new logos	2	10	28	4	coverage gap showing
Southeast - new logos	1	8	26	5	missed on one account
Northeast - new logos	10	5	29	0	reseller led the quarter
Ontario - new logos	8	27	31	1	in line with plan
Channel and reseller - new logos	6	19	27	2	best conversion in the book
West - expansion	4	12	34	3	one award slipped a week
Southwest - expansion	1	9	36	4	ahead on expansions

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
Great Lakes - expansion	1	6	38	5	single seller territory
Southeast - expansion	1	5	35	0	reseller led the quarter
Northeast - expansion	6	3	37	1	reseller led the quarter
Ontario - expansion	5	17	33	2	ahead on expansions
Channel and reseller - expansion	4	12	34	3	in line with plan
West - renewal attach	1	5	30	4	best conversion in the book
Southwest - renewal attach	1	4	28	5	best conversion in the book
Great Lakes - renewal attach	1	3	26	0	reseller led the quarter
Southeast - renewal attach	1	2	29	1	one award slipped a week
Northeast - renewal attach	3	1	31	2	reseller led the quarter
Ontario - renewal attach	2	7	27	3	no new logos this period
Channel and reseller - renewal attach	1	5	30	4	reseller led the quarter

Service performance across the fleet

The remediation plan with the worst-performing account is joint, with obligations written on both sides and a fixed measurement window. Kennesaw remains the weakest site on interventions. Fleet uptime averaged 97.2 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Mean time between interventions was 352 hours. Quillon Home Supply measures uptime on a stricter basis. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Battery degradation is starting to show at the oldest sites, and the replacement schedule needs to become a plan rather than a reaction. Kennesaw remains the weakest site on interventions. Quillon Home Supply measures uptime on a stricter basis. The south-west hub opened mid-period. Tooling for the hub arrived late. Interventions spaced 352 hours apart on the fleet median. Tobias Nkemdirim leads the joint remediation plan. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Uptime is measured differently by two customers than by us, and the review chose to adopt the stricter definition internally. Quillon Home Supply measures uptime on a stricter basis. Kennesaw remains the weakest site on interventions. The south-west hub opened mid-period. Tooling for the hub arrived late. Uptime reached 97.2 percent, from 97.3 percent. Interventions spaced 352 hours apart on the fleet median. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Mean time between interventions is the number the service team manages to, and it moved in the right direction at every site but one. Kennesaw remains the weakest site on interventions. Uptime reached 97.2 percent, from 97.3 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Fleet uptime averaged 97.2 percent. Tobias Nkemdirim leads the joint remediation plan. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Facility conditions explain more of the intervention rate than any hardware factor, which took a year of data to establish convincingly. Kennesaw remains the weakest site on interventions. Uptime reached 97.2 percent, from 97.3 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Mean time between interventions was 352 hours. Fleet uptime averaged 97.2 percent. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Service credits remain the sharpest feedback loop the company has, and the review looked at exposure rather than at incurred credits alone. Interventions spaced 352 hours apart on the fleet median. Tobias Nkemdirim leads the joint remediation plan. The south-west hub opened mid-period. Tooling for the hub arrived late. Uptime reached 97.2 percent, from 97.3 percent. Mean time between interventions was 352 hours. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Warranty and returns

Warranty accrual assumptions were set before the yield excursion and have not been revisited since. Return material flow remains slow. Warranty cost per fleet unit is falling. The south-west hub opened mid-period. Tooling for the hub arrived late. Fill rate ran 92 percent against 95 percent. Depot fill rate was 92 percent. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Return material flow is slow, and the returned parts that could be reworked are sitting in a corner of receiving. Depot fill rate was 92 percent. Vehicle stock is masking the true fill rate. The south-west hub opened mid-period. Tooling for the hub arrived late. Fort Dodge took the planned sensor head replacements. Warranty cost per fleet unit is falling. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Critical spares coverage for the drive unit was raised deliberately while the supply constraint was live. Return material flow remains slow. Depot fill rate was 92 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Fort Dodge took the planned sensor head replacements. Vehicle stock is masking the true fill rate. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Depot technicians closed the repair backlog for the first time in five periods, which frees vehicle stock. Vehicle stock is masking the true fill rate. Depot fill rate was 92 percent. The south-west hub opened mid-period. Tooling for the hub arrived late. Sunil Achterberg approved the critical spares increase. Fort Dodge took the planned sensor head replacements. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Courier spend tells the story that the fill rate hides, because the parts are moving from the wrong place. Warranty cost per fleet unit is falling. Sunil Achterberg approved the critical spares increase. The south-west hub opened mid-period. Tooling for the hub arrived late. Fort Dodge took the planned sensor head replacements. Fill rate ran 92 percent against 95 percent. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Spares fill rate from the regional depots governs how fast a field incident closes, and it has been the constraint at two sites. Warranty cost per fleet unit is falling. Vehicle stock is masking the true fill rate. The south-west hub opened mid-period. Tooling for the hub arrived late. Fort Dodge took the planned sensor head replacements. Fill rate ran 92 percent against 95 percent. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Top pursuits under inspection, February 2025

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1291	Marrowfield Grocers	Verbal commitment	22	2025-04-01	second re-date
PUR-1294	Pinebank Distribution	Qualified	5	2025-04-14	second re-date
PUR-1297	Alder & Vance Retail	Commercial close	16	2025-04-27	moved one week
PUR-1300	Northstar Cold Chain	Procurement queue	4	2025-05-10	second re-date
PUR-1303	Havering Logistics	Technical validation	20	2025-05-23	moved four weeks
PUR-1306	Quillon Home Supply	Legal review	11	2025-06-05	no change since last review
PUR-1309	Tenmile Freight	Re-qualifying	26	2025-06-18	moved one week
PUR-1312	Bexley Pharmaceutical Wholesale	Pilot running	17	2025-07-01	no change since last review

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1315	Marrowfield Grocers - second site	Verbal commitment	32	2025-07-14	moved four weeks
PUR-1318	Pinebank Distribution - second site	Qualified	11	2025-07-27	second re-date
PUR-1321	Alder & Vance Retail - second site	Commercial close	28	2025-08-09	second re-date
PUR-1324	Northstar Cold Chain - second site	Procurement queue	19	2025-08-22	date held

PUR-1339	Marrowfield Grocers - follow-on scope	Verbal commitment	32	2025-10-26	date held
PUR-1342	Pinebank Distribution - follow-on scope	Qualified	23	2025-11-08	brought forward
PUR-1345	Alder & Vance Retail - follow-on scope	Commercial close	38	2025-11-21	moved one week
PUR-1348	Northstar Cold Chain - follow-on scope	Procurement queue	29	2025-12-04	moved four weeks

Headcount and recruiting

Engagement survey results split by tenure rather than by function, with the newest cohort least positive about clarity of direction. Time to fill improved from 74 to 58 days. Median time to fill was 58 days. The south-west hub opened mid-period. Tooling for the hub arrived late. The headcount gap is 12 roles. Requisitions fell from 25 to 27. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Time to fill improved for engineering roles and worsened for field roles, which is the opposite of what the plan needed. Annualised attrition sits at 9 percent. Open requisitions number 27. The south-west hub opened mid-period. Tooling for the hub arrived late. The headcount gap is 12 roles. Median time to fill was 58 days. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

The recruiting funnel converts poorly at the on-site stage for field roles, and the loop design is the likely reason. Open requisitions number 27. Median time to fill was 58 days. The south-west hub opened mid-period. Tooling for the hub arrived late. Headcount stood at 191 against a plan of 203. The headcount gap is 12 roles. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Internal mobility filled two roles this period, which is cheaper and faster than external hiring and creates a backfill. Headcount stood at 191 against a plan of 203. Median time to fill was 58 days. The south-west hub opened mid-period. Tooling for the hub arrived late. Requisitions fell from 25 to 27. The headcount gap is 12 roles. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Performance calibration ran across all functions for the first time, and the distribution differed sharply between engineering and operations. Time to fill improved from 74 to 58 days. Open requisitions number 27. The south-west hub opened mid-period. Tooling for the hub arrived late. The headcount gap is 12 roles. Requisitions fell from 25 to 27. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Recruiting moved to a regional pipeline model with standing phone screens, which changed time to fill more than any sourcing spend did. Time to fill improved from 74 to 58 days. The headcount gap is 12 roles. The south-west hub

opened mid-period. Tooling for the hub arrived late. Headcount stood at 191 against a plan of 203. Median time to fill was 58 days. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Pricing exceptions granted, February 2025

Award	Account	Units	Exception type	Approved by
AWD-352	Pinebank Distribution	11	spares kit included	Chief Financial Officer
AWD-353	Alder & Vance Retail	15	training days added	Chief Executive Officer
AWD-354	Northstar Cold Chain	15	multi-site unit price	VP Operations
AWD-355	Havering Logistics	13	software attach waiver	Chief Operating Officer

Working capital

Payment terms granted in commercial negotiation were never visible to the finance team until invoicing, and that has been fixed. Collections totalled 2740 thousand dollars. Receipts of 2740 thousand outpaced invoicing. The south-west hub opened mid-period. Tooling for the hub arrived late. Two receivables aged past ninety days. Outstanding days improved from 51 to 49. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Bad debt remains immaterial, and the review noted that this is a function of customer quality rather than of credit discipline. Alder & Vance Retail requires a separate submission path. Two receivables aged past ninety days. The south-west hub opened mid-period. Tooling for the hub arrived late. Griffin Tasse moved collections calls to the account teams. Collections totalled 2740 thousand dollars. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Getting the acceptance document signed on the day of go-live is worth more to cash than any collections call. Outstanding days improved from 51 to 49. Two receivables aged past ninety days. The south-west hub opened mid-period. Tooling for the hub arrived late. Days sales outstanding closed at 49 days. Griffin Tasse moved collections calls to the account teams. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Collections outpaced invoicing this period, which flatters the cash number and does not repeat. Two receivables aged past ninety days. Receipts of 2740 thousand outpaced invoicing. The south-west hub opened mid-period. Tooling for the hub arrived late. Outstanding days improved from 51 to 49. Alder & Vance Retail requires a separate submission path. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Cash conversion for a deployment now takes weeks fewer than it did a year ago, entirely through process changes. Alder & Vance Retail requires a separate submission path. Days sales outstanding closed at 49 days. The south-west hub

opened mid-period. Tooling for the hub arrived late. Griffin Tasse moved collections calls to the account teams. Collections totalled 2740 thousand dollars. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

The controller closed the books faster than in any prior period, which matters because decisions in this meeting depend on it. Two receivables aged past ninety days. Griffin Tasse moved collections calls to the account teams. The south-west hub opened mid-period. Tooling for the hub arrived late. Outstanding days improved from 51 to 49. Receipts of 2740 thousand outpaced invoicing. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Cash burn by category

Fixed cost per period has grown with facilities and tooling commitments that cannot be unwound inside a quarter. Renata Voss holds the trigger list. Capital spend was 300 thousand dollars. The south-west hub opened mid-period. Tooling for the hub arrived late. Spending ran 3040 thousand against 8910 thousand. Burn for the period was 3040 thousand dollars. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

Every scenario assumes the deployment cost per site keeps falling, and that assumption deserves more scrutiny than it has had. Runway stands at 17 months on the middle case. Renata Voss holds the trigger list. The south-west hub opened mid-period. Tooling for the hub arrived late. Spending ran 3040 thousand against 8910 thousand. Test-cell capital was deferred again. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

Fixed commitments have grown to the point where the fastest lever left is contract labour. Runway moved from 18 to 17 months. Test-cell capital was deferred again. The south-west hub opened mid-period. Tooling for the hub arrived late. Burn for the period was 3040 thousand dollars. Spending ran 3040 thousand against 8910 thousand. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Runway under the middle scenario extended, and the review chose to plan against that case while holding triggers for the downside. Capital spend was 300 thousand dollars. Runway moved from 18 to 17 months. The south-west hub opened mid-period. Tooling for the hub arrived late. Renata Voss holds the trigger list. Burn for the period was 3040 thousand dollars. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Scenario planning is only useful if the triggers are specific, so each scenario now names the observable that fires it. Burn for the period was 3040 thousand dollars. Test-cell capital was deferred again. The south-west hub opened mid-period. Tooling for the hub arrived late. Runway stands at 17 months on the middle case. Capital spend was 300 thousand dollars. Sensor head assembly ran 93 percent first pass. Days outstanding 49, Quillon Home Supply the largest balance. Requisitions open 27, Priya Ramanathan holding the list. Chandler South carries 23 of the queued fleet.

Gross margin per deployed unit is improving slowly, and the improvement is in installation labour rather than in bill of materials. Test-cell capital was deferred again. Runway moved from 18 to 17 months. The south-west hub opened mid-period. Tooling for the hub arrived late. Spending ran 3040 thousand against 8910 thousand. Renata Voss holds the trigger list. Tobias Nkemdirim owns the Lidar assemblies recovery. Sunil Achterberg and Griffin Tasse disagreed on sequencing. Bookings 77 units across 124 pursuits. Crew Echo closed Cedar Bluff without a second visit.

Deployment site queue as read in the February 2025 session

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
Grand Forks	Alder & Vance Retail	17	Power works pending	2025-03-24	Signed off
Waukegan	Northstar Cold Chain	6	Network gap open	2025-04-10	Rescheduled
Mesquite	Havering Logistics	24	Customer dock date unconfirmed	2025-04-27	Scheduled
Ashland Park	Quillon Home Supply	6	Floor marking	2025-05-14	Crew on site

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
			outstanding		
Riverbend	Tenmile Freight	34	Survey complete	2025-05-31	Acceptance testing
Kennesaw	Bexley Pharmaceutical Wholesale	21	Racking works pending	2025-06-17	Held at gate
Fort Dodge	Marrowfield Grocers	32	Ready for crew	2025-07-04	Stabilising
Salinas Valley	Pinebank Distribution	13	Power works pending	2025-07-21	Signed off
Chandler South	Alder & Vance Retail - second site	39	Network gap open	2025-08-07	Rescheduled
Elk Grove	Northstar Cold Chain - second site	8	Customer dock date unconfirmed	2025-08-24	Scheduled
Cedar Bluff	Havering Logistics - second site	49	Floor marking outstanding	2025-09-10	Crew on site
Norfolk	Quillon Home Supply - second site	24	Survey complete	2025-09-27	Acceptance testing
Tulsa	Tenmile Freight - second site	17	Racking works pending	2025-10-14	Held at gate
Redlands	Bexley Pharmaceutical Wholesale - second site	22	Ready for crew	2025-10-31	Stabilising
Grand Forks (phase two)	Marrowfield Grocers - second site	48	Power works pending	2025-11-17	Signed off
Waukegan (phase two)	Pinebank Distribution - second site	6	Network gap open	2025-12-04	Rescheduled
Mesquite (phase two)	Alder & Vance Retail - follow-on scope	58	Customer dock date unconfirmed	2025-12-21	Scheduled
Ashland Park (phase two)	Northstar Cold Chain - follow-on scope	45	Floor marking outstanding	2026-01-07	Crew on site
Riverbend (phase two)	Havering Logistics - follow-on scope	32	Survey complete	2026-01-24	Acceptance testing
Kennesaw (phase two)	Quillon Home Supply - follow-on scope	37	Racking works pending	2026-02-10	Held at gate
Fort Dodge (phase two)	Tenmile Freight - follow-on scope	63	Ready for crew	2026-02-27	Stabilising
Salinas Valley (phase two)	Bexley Pharmaceutical Wholesale - follow-on scope	8	Power works pending	2026-03-16	Signed off

Decisions, owners and dates recorded in February 2025

Owners were asked to bring evidence of closure rather than a status colour, and two items failed that test. The oldest item dates from two sessions back. One item closed with measured evidence. The south-west hub opened mid-period. Tooling for the hub arrived late. Two due dates were changed in the room. Owners were named and dates set against 2025-04-10. Tobias Nkemdirim owns the Lidar assemblies recovery. Uptime 97.2 percent, interventions every 352 hours. Vehicle stock cleared its repair backlog. Win rate 32 percent, best in Great Lakes.

One decision was escalated out of this forum because it commits capital beyond the delegated threshold. Three items carried forward into 2025-04-10. Sunil Achterberg inherited an item after a role change. The south-west hub opened mid-period. Tooling for the hub arrived late. Two due dates were changed in the room. Tobias Nkemdirim, VP Engineering, took the largest open item. Work in process 34 units, mostly Lidar assemblies. Yield 93 percent, scrap 23 thousand in Sensor head assembly. Ryemoor Wire Harness quoted lead times moved again. The HS-200 tote handler took most of the test cell time.

The oldest open item on the list dates from three sessions ago, and its owner was asked to either finish it or kill it. Tobias Nkemdirim, VP Engineering, took the largest open item. The oldest item dates from two sessions back. The south-west hub opened mid-period. Tooling for the hub arrived late. Sunil Achterberg inherited an item after a role change. Owners were named and dates set against 2025-04-10. Uptime 97.2 percent, interventions every 352 hours. Slipped deals 8, including Alder & Vance Retail. Scrap 23 thousand, Halverson Optics contributing. Chandler South carries 23 of the queued fleet.

Nothing was recorded as decided unless somebody in the room owned it and a date was attached to it. Sunil Achterberg inherited an item after a role change. The oldest item dates from two sessions back. The south-west hub

opened mid-period. Tooling for the hub arrived late. Owners were named and dates set against 2025-04-10. Three items carried forward into 2025-04-10. Win rate 32 percent, best in Great Lakes. Build plan 76, actual 73, Lidar assemblies short. Chandler South carries 23 of the queued fleet. Pinebank Distribution asked for the Orchestrator fleet software configuration.

Action items reviewed and recorded, February 2025

Item	Description	Owner	Opened	Due	Status	Closing evidence
OR-0409	Agree joint remediation plan with the Cedar Bluff account	Owen Castellanos	2024-06-06	2025-04-05	Open, date revised	partial
OR-0902	Countersign acceptance documents on site at go-live	Lucia Mbeki-Hart	2024-10-23	2025-03-21	Closed	invoicing lag report, six days from go-live
OR-1320	Split the reliability backlog by build vintage	Tobias Nkemdirim	2025-02-25	2025-03-17	Open, date revised	outstanding
OR-1323	Size the buffer stock on long-lead commodities	Hollis Bramwell	2025-02-21	2025-03-23	Blocked	outstanding
OR-1326	Cost the second-shift ramp against overtime	Marcus Peil	2025-02-17	2025-03-29	Closed by decision	measured result attached
OR-1329	Re-cut the stage definitions in the pipeline report	Marguerite Do	2025-02-13	2025-04-04	Open, date revised	outstanding
OR-1332	Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2025-02-09	2025-04-10	Blocked	outstanding
OR-1335	Reissue the deployment playbook network section	Priya Ramanathan	2025-02-05	2025-04-16	Closed by decision	measured result attached
OR-1338	Bring deal-level notes for the top ten pursuits	Marguerite Do	2025-02-01	2025-04-22	Open, date revised	outstanding
OR-1341	Complete process capability study on the bond operation	Emil Farkas	2025-01-28	2025-04-28	Blocked	outstanding
OR-1344	Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2025-01-24	2025-05-04	Closed by decision	measured result attached
OR-1347	Draft deposit terms for multi-site commitments	Ingrid Solberg	2025-01-20	2025-05-10	Open, date revised	outstanding
OR-1350	Move collections calls to the account teams	Lucia Mbeki-Hart	2025-01-16	2025-05-16	Blocked	outstanding
OR-1353	Publish the supplier scorecard with weighted criteria	Hollis Bramwell	2025-01-12	2025-05-22	Closed by decision	memo circulated
OR-1356	Set a plan freeze window inside the build month	Emil Farkas	2025-01-08	2025-05-28	Open, date revised	outstanding
OR-1359	Refresh compensation bands for field engineering	Renata Voss	2025-01-04	2025-06-03	Blocked	outstanding
