Quarterly Business Review for Q2 2025: purpose and attendance

One function submitted its pre-read late, and the section was taken last rather than allowed to shorten the discussion of others. The Quarterly Business Review convened for Q2 2025. Tobias Nkemdirim attended as VP Engineering. Compensation review overlapped the people section. Band changes were held until quarter end. One function submitted its pre-read late. Assembly output and attainment

Configuration variety on the order book has grown faster than the line was designed for, and changeover time shows it. The HS-200 tote handler drove most of the changeover time. The problems we are still working

Constraint under review: drive-unit lead time, at the partial resolution stage as of this session.
