MANAGEMENT OPERATING REVIEW - RECORD 021

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-021

Cash and Runway Operating Review for November 2025: purpose and attendance

Notes were captured live and circulated the same day, which ended a habit of arguing about what was decided. The Cash and Runway Operating Review convened for November 2025. Nadia Oyelaran, Chief of Staff, presented the operations section. The model had just been rebuilt bottom-up. The model now starts from the queue. Notes were circulated on 2025-12-04. One function submitted its pre-read late. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Guests from the deployment crews attended by video and contributed the only new information in the operations section. The next session is set for 2026-01-08. Nadia Oyelaran, Chief of Staff, presented the operations section. The model had just been rebuilt bottom-up. The model now starts from the queue. Pre-reads went out ahead of the 2025-12-04 session. One function submitted its pre-read late. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Reading the packet aloud was abandoned two sessions ago and nobody has asked for it back. The next session is set for 2026-01-08. Nadia Oyelaran, Chief of Staff, presented the operations section. The model had just been rebuilt bottom-up. The model now starts from the queue. The Cash and Runway Operating Review convened for November 2025. One function submitted its pre-read late. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Data definitions travel with the packet now, because two functions were counting the same thing differently. Nadia Oyelaran, Chief of Staff, presented the operations section. Pre-reads went out ahead of the 2025-12-04 session. The model had just been rebuilt bottom-up. The model now starts from the queue. The next session is set for 2026-01-08. The Cash and Runway Operating Review convened for November 2025. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Escapes, containment and corrective action

Rework hours in the sensor cell exceeded the assembly hours for two weeks, which is the clearest signal the process was out of control. Ryemoor Wire Harness changed a process without notice. Scrap totalled 15 thousand dollars. The model had just been rebuilt bottom-up. The model now starts from the queue. Hollis Bramwell signed the corrective action. First-pass yield finished at 96 percent. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Defect Pareto shifted after the bond-line fix, and the new top category is a connector seating issue with a simple tooling answer. Rework hours concentrated in the sensor cell. Hollis Bramwell signed the corrective action. The model had just been rebuilt bottom-up. The model now starts from the queue. Ryemoor Wire Harness changed a process without notice. First-pass yield finished at 96 percent. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Nobody wanted to hold shipments, and the review held them anyway on eleven units that had incomplete bond-line records. Scrap ran 15 thousand, from 17 thousand. Rework hours concentrated in the sensor cell. The model had just been rebuilt bottom-up. The model now starts from the queue. Yield was 96 percent against 95 percent. Hollis Bramwell signed the corrective action. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Scrap dollars tell a different story from scrap units, because the units being scrapped are the expensive ones. First-pass yield finished at 96 percent. Hollis Bramwell signed the corrective action. The model had just been rebuilt bottom-up. The model now starts from the queue. Scrap ran 15 thousand, from 17 thousand. Rework hours concentrated in the

sensor cell. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

The corrective action closed with evidence rather than with an assertion, and the evidence was three weeks of clean sampling data. Ryemoor Wire Harness changed a process without notice. Hollis Bramwell signed the corrective action. The model had just been rebuilt bottom-up. The model now starts from the queue. First-pass yield finished at 96 percent. Scrap totalled 15 thousand dollars. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Inspection sampling reverted to the standard plan with a documented trigger, so the next excursion will be caught earlier. Scrap totalled 15 thousand dollars. Hollis Bramwell signed the corrective action. The model had just been rebuilt bottom-up. The model now starts from the queue. Rework hours concentrated in the sensor cell. Yield was 96 percent against 95 percent. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Runway scenarios tabled in the November 2025 review

Scenario	Horizon	Monthly burn USD thousands	Hiring posture	Runway months	Arming trigger
Upside	next quarter	3620	plan plus eight roles	14	two multi-site awards signed by quarter end
Upside	two quarters out	3760	plan plus eight roles	13	two multi-site awards signed by quarter end
Upside	four quarters out	3940	plan plus eight roles	12	two multi-site awards signed by quarter end
Middle, planning case	next quarter	3410	plan as approved	16	bookings within ten percent of plan
Middle, planning case	two quarters out	3550	plan as approved	15	bookings within ten percent of plan
Middle, planning case	four quarters out	3730	plan as approved	14	bookings within ten percent of plan
Downside	next quarter	3230	hiring pause on internal roles	19	two large awards leave the quarter
Downside	two quarters out	3370	hiring pause on internal roles	18	two large awards leave the quarter
Downside	four quarters out	3550	hiring pause on internal roles	17	two large awards leave the quarter
Severe	next quarter	3070	pause plus contract labour reduction	22	site queue shorter than nine sites
Severe	two quarters out	3210	pause plus contract labour reduction	21	site queue shorter than nine sites
Severe	four quarters out	3390	pause plus contract labour reduction	20	site queue shorter than nine sites

Inbound supply position

Freight mode is a planning outcome rather than a logistics choice, and the air spend proves it. Nadia Oyelaran issued the first supplier scorecards. Brightwater Motion missed two consecutive commit dates. The model had just been rebuilt bottom-up. The model now starts from the queue. Coverage weeks on long-lead parts were extended. Kestrel Drive Systems improved after a site visit. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Expedite spend is the honest measure of how well planning is working, and it went the wrong way this period. Expedite activity rose with the build plan of 90. On-time delivery was 96 percent, from 95 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran issued the first supplier scorecards. Coverage weeks on long-lead parts were extended. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

One casting supplier has become a constraint on the pallet mover, and the tooling is theirs rather than ours. On-time delivery was 96 percent, from 95 percent. Brightwater Motion missed two consecutive commit dates. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran issued the first supplier scorecards. Supplier on-time delivery came in at 96 percent. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent,

Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

A battery cell allocation notice arrived with thirty days of warning, and the planning team had inventory to absorb it. Expedite activity rose with the build plan of 90. Kestrel Drive Systems improved after a site visit. The model had just been rebuilt bottom-up. The model now starts from the queue. Brightwater Motion missed two consecutive commit dates. Nadia Oyelaran issued the first supplier scorecards. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Inbound freight mode shifted toward air on two part numbers, which protected the build plan and shows up in cost per unit. On-time delivery was 96 percent, from 95 percent. Coverage weeks on long-lead parts were extended. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran issued the first supplier scorecards. Expedite activity rose with the build plan of 90. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Buyers are chasing acknowledgements on a fixed cadence now, and the cadence has already caught two silent date pushes. Nadia Oyelaran issued the first supplier scorecards. Brightwater Motion missed two consecutive commit dates. The model had just been rebuilt bottom-up. The model now starts from the queue. Kestrel Drive Systems improved after a site visit. On-time delivery was 96 percent, from 95 percent. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Roadmap checkpoints against customer commitments, November 2025

Checkpoint	Product line	Committed date	Status	Dependency
Fleet orchestration release candidate	HS-400 pallet mover	2025-12-25	at risk on dependency	test cell availability
Warehouse management adapter for the grocery host	Orchestrator fleet software	2026-01-16	on track	certification of crew leads
Docking regression fix	Beacon WMS adapter	2026-02-07	at risk on dependency	customer test window
Controller revision B	HS-200 tote handler	2026-03-01	on track	customer test window
Battery health telemetry	HS-400 pallet mover	2026-03-23	at risk on dependency	field data volume
Simulation coverage target	Orchestrator fleet software	2026-04-14	on track	supplier firmware
Operator training module	Beacon WMS adapter	2026-05-06	at risk on dependency	test cell availability
Navigation parameter standardisation	HS-200 tote handler	2026-05-28	on track	supplier firmware
Fleet orchestration release candidate - second increment	HS-400 pallet mover	2026-06-19	at risk on dependency	none
Warehouse management adapter for the grocery host - second increment	Orchestrator fleet software	2026-07-11	on track	customer test window
Docking regression fix - second increment	Beacon WMS adapter	2026-08-02	at risk on dependency	test cell availability
Controller revision B - second increment	HS-200 tote handler	2026-08-24	on track	customer test window
Battery health telemetry - second increment	HS-400 pallet mover	2026-09-15	at risk on dependency	field data volume
Simulation coverage target - second increment	Orchestrator fleet software	2026-10-07	on track	field data volume
Operator training module - second increment	Beacon WMS adapter	2026-10-29	at risk on dependency	customer test window
Navigation parameter standardisation - second increment	HS-200 tote handler	2026-11-20	on track	test cell availability

Stock coverage and ageing

Long-lead buying decisions made two quarters ago are what the stockroom looks like today, for better and worse. Kit shortages were concentrated in low-value parts. Renata Voss owns the disposition decision. The model had just been rebuilt bottom-up. The model now starts from the queue. Work in process closed at 37 units. Excess exposure sits in the

superseded sensor head. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Work in process climbed because units are being held for a single missing part rather than because the line slowed down. Kit shortages were concentrated in low-value parts. Buffer stock on the drive unit was raised deliberately. The model had just been rebuilt bottom-up. The model now starts from the queue. Renata Voss owns the disposition decision. Excess exposure sits in the superseded sensor head. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Excess and obsolete exposure sits almost entirely in the superseded sensor head, and the disposition decision has been deferred twice. Work in process closed at 37 units. Excess exposure sits in the superseded sensor head. The model had just been rebuilt bottom-up. The model now starts from the queue. Floor space in staging is now the binding limit. Renata Voss owns the disposition decision. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Consignment terms with two suppliers would change the cash picture more than any other inventory action available. Renata Voss owns the disposition decision. Work in process closed at 37 units. The model had just been rebuilt bottom-up. The model now starts from the queue. Excess exposure sits in the superseded sensor head. Work in process moved from 39 to 37 units. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Inventory turns are a poor metric while the company is scaling, so the review looked at coverage weeks by commodity instead. Work in process closed at 37 units. Excess exposure sits in the superseded sensor head. The model had just been rebuilt bottom-up. The model now starts from the queue. Work in process moved from 39 to 37 units. Buffer stock on the drive unit was raised deliberately. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Receiving is holding returned parts that could be reworked, and nobody owns the decision to rework them. Excess exposure sits in the superseded sensor head. Kit shortages were concentrated in low-value parts. The model had just been rebuilt bottom-up. The model now starts from the queue. Floor space in staging is now the binding limit. Renata Voss owns the disposition decision. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Fleet reliability

Facility conditions explain more of the intervention rate than any hardware factor, which took a year of data to establish convincingly. Chandler South remains the weakest site on interventions. Interventions spaced 412 hours apart on the fleet median. The model had just been rebuilt bottom-up. The model now starts from the queue. Alder & Vance Retail measures uptime on a stricter basis. Lucia Mbeki-Hart leads the joint remediation plan. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Service credits remain the sharpest feedback loop the company has, and the review looked at exposure rather than at incurred credits alone. Uptime reached 98.4 percent, from 98.2 percent. Fleet uptime averaged 98.4 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Interventions spaced 412 hours apart on the fleet median. Mean time between interventions was 412 hours. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Intervention data is only as good as what the operators record, and two sites have stopped recording anything useful. Alder & Vance Retail measures uptime on a stricter basis. Interventions spaced 412 hours apart on the fleet median. The model had just been rebuilt bottom-up. The model now starts from the queue. Chandler South remains the weakest site on interventions. Uptime reached 98.4 percent, from 98.2 percent. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

A single navigation parameter set improved intervention rates at every site it was applied to, which is now the standard configuration. Lucia Mbeki-Hart leads the joint remediation plan. Uptime reached 98.4 percent, from 98.2 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Chandler South remains the weakest site on interventions. Interventions spaced 412 hours apart on the fleet median. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Intervention causes split roughly evenly between the robot, the facility and the operator, and only one of those three is ours to fix. Alder & Vance Retail measures uptime on a stricter basis. Uptime reached 98.4 percent, from 98.2 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Chandler South remains the weakest site on interventions. Mean time between interventions was 412 hours. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Software releases are now staged across sites rather than pushed at once, after a release regressed docking behaviour at two accounts. Uptime reached 98.4 percent, from 98.2 percent. Lucia Mbeki-Hart leads the joint remediation plan. The model had just been rebuilt bottom-up. The model now starts from the queue. Mean time between interventions was 412 hours. Alder & Vance Retail measures uptime on a stricter basis. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Attendance and pre-read submission, November 2025

Attendee	Function	Section owned	Pre-read submitted
Dana Whitlock	Chief Operating Officer	people	yes
Marcus Peil	VP Operations	product checkpoints	yes
Priya Ramanathan	VP Deployment	none, attending for context	yes
Owen Castellanos	VP Customer Success	bookings and pipeline	yes
Ingrid Solberg	Chief Financial Officer	manufacturing and supply	late
Tobias Nkemdirim	VP Engineering	deployment operations	yes
Renata Voss	VP People	field reliability	yes
Hollis Bramwell	Director of Supply Chain	cash and runway	yes
Sunil Achterberg	Director of Field Service	people	yes
Marguerite Do	Director of Sales Operations	product checkpoints	late
Emil Farkas	Director of Manufacturing Engineering	none, attending for context	yes
Nadia Oyelaran	Chief of Staff	bookings and pipeline	yes
Griffin Tasse	Head of Product	manufacturing and supply	yes
Lucia Mbeki-Hart	Controller	deployment operations	yes
Site lead, Cedar Bluff	Customer success, by video	none, attending for context	not required
Crew lead, southern region	Deployment, by video	none, attending for context	not required
Controller's analyst	Finance	none, attending for context	not required
Plant supervisor, second shift	Manufacturing	none, attending for context	not required

Depot fill and warranty

Repair-versus-replace decisions are being made in the field without guidance, and the outcomes vary by engineer. Vehicle stock is masking the true fill rate. Elk Grove took the planned sensor head replacements. The model had just been rebuilt bottom-up. The model now starts from the queue. Depot fill rate was 97 percent. Priya Ramanathan approved the critical spares increase. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Every field incident that waited on a part this period waited on one of four part numbers. Priya Ramanathan approved the critical spares increase. Return material flow remains slow. The model had just been rebuilt bottom-up. The model now starts from the queue. Warranty cost per fleet unit is falling. Elk Grove took the planned sensor head replacements. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Engineers are quietly building their own vehicle stock, which means the depot numbers describe a system nobody uses. Warranty cost per fleet unit is falling. Fill rate ran 97 percent against 96 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Return material flow remains slow. Elk Grove took the planned sensor

head replacements. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Depot placement was reconsidered, because half of the courier spend goes to sites within a day's drive of a hub. Return material flow remains slow. Warranty cost per fleet unit is falling. The model had just been rebuilt bottom-up. The model now starts from the queue. Priya Ramanathan approved the critical spares increase. Depot fill rate was 97 percent. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

The recall-style replacement of affected sensor heads is proceeding on a planned schedule rather than on failure. Warranty cost per fleet unit is falling. Return material flow remains slow. The model had just been rebuilt bottom-up. The model now starts from the queue. Priya Ramanathan approved the critical spares increase. Depot fill rate was 97 percent. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Service parts pricing has never been reviewed, and two parts are being sold below their landed cost. Depot fill rate was 97 percent. Return material flow remains slow. The model had just been rebuilt bottom-up. The model now starts from the queue. Vehicle stock is masking the true fill rate. Fill rate ran 97 percent against 96 percent. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Constraint tracking since the last session

Constraint under review: drive-unit lead time, at the steady state stage as of this session. Drive-unit supply has held two sources for four consecutive months, and the constraint has been retired from the standing risk register after a documented review of expedite history. Quillon Home Supply asked for the HS-400 pallet mover configuration. Slipped deals 12, including Tenmile Freight.

Constraint under review: cash and collections, at the trigger armed stage as of this session. The downside trigger was armed in November when two large bookings slipped out of the quarter, which paused nine requisitions without touching any customer-facing role. Requisitions open 15, Renata Voss holding the list. Salinas Valley carries 32 of the queued fleet.

One casting supplier has become a constraint on the pallet mover, and the tooling is theirs rather than ours. Expedite activity rose with the build plan of 90. Brightwater Motion missed two consecutive commit dates. The model had just been rebuilt bottom-up. The model now starts from the queue. Supplier on-time delivery came in at 96 percent. Kestrel Drive Systems improved after a site visit. Atlanta depot cleared its repair backlog. Win rate 32 percent, best in Southeast. On-time delivery 96 percent, Ryemoor Wire Harness the outlier. Crew Bravo closed Redlands without a second visit.

Items deferred from the November 2025 agenda

Item	Reason for deferral	Revisit at	Requested by
Measure onboarding time to productivity for crews	depends on an open qualification result	2026-02-02	Renata Voss
Re-cut the stage definitions in the pipeline report	customer conversation not yet held	2026-01-08	Marguerite Do
Reissue the deployment playbook network section	wants a second quarter of evidence	2026-03-04	Priya Ramanathan
Publish the supplier scorecard with weighted criteria	data not good enough to decide	2026-01-08	Hollis Bramwell
Read the tooling ownership clauses on four part numbers	owner absent from the session	2026-04-03	Hollis Bramwell
Size the buffer stock on long-lead commodities	commits capital beyond the delegated threshold	2026-01-08	Hollis Bramwell
Reconcile the two uptime definitions with the customer	depends on an open qualification result	2026-05-03	Owen Castellanos
Cost the second-shift ramp against overtime	customer conversation not yet held	2026-01-08	Marcus Peil
Set a plan freeze window inside the build month	wants a second quarter of evidence	2026-06-02	Emil Farkas
Bring deal-level notes for the top	data not good enough to decide	2026-01-08	Marguerite Do

Item	Reason for deferral	Revisit at	Requested by
ten pursuits			
Complete process capability study on the bond operation	owner absent from the session	2026-07-02	Emil Farkas
Split the reliability backlog by build vintage	commits capital beyond the delegated threshold	2026-01-08	Tobias Nkemdirim
Stage software releases across sites rather than at once	depends on an open qualification result	2026-08-01	Griffin Tasse
Refresh compensation bands for field engineering	customer conversation not yet held	2026-01-08	Renata Voss

Headcount and recruiting

Performance calibration ran across all functions for the first time, and the distribution differed sharply between engineering and operations. Open requisitions number 15. Annualised attrition sits at 12 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Headcount stood at 256 against a plan of 264. Requisitions fell from 17 to 15. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Recruiting moved to a regional pipeline model with standing phone screens, which changed time to fill more than any sourcing spend did. Median time to fill was 52 days. The headcount gap is 8 roles. The model had just been rebuilt bottom-up. The model now starts from the queue. Annualised attrition sits at 12 percent. Requisitions fell from 17 to 15. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Attrition is low in aggregate and uncomfortable in specifics, because the leavers include two people the company cannot easily replace. Headcount stood at 256 against a plan of 264. Median time to fill was 52 days. The model had just been rebuilt bottom-up. The model now starts from the queue. Annualised attrition sits at 12 percent. Open requisitions number 15. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Compensation bands for field engineering were refreshed after three offers were declined on base salary. Open requisitions number 15. Annualised attrition sits at 12 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. The headcount gap is 8 roles. Headcount stood at 256 against a plan of 264. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Onboarding time to productivity for field engineers is measured now, and the number is longer than anyone assumed. Time to fill improved from 49 to 52 days. Annualised attrition sits at 12 percent. The model had just been rebuilt bottom-up. The model now starts from the queue. Median time to fill was 52 days. Open requisitions number 15. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Contractor-to-employee conversion is the cheapest source of certified crew, and the process for it does not exist yet. Median time to fill was 52 days. Headcount stood at 256 against a plan of 264. The model had just been rebuilt bottom-up. The model now starts from the queue. Open requisitions number 15. Requisitions fell from 17 to 15. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Invoicing and days outstanding

Terms granted in negotiation are cash decisions made by people who do not carry the cash number. Days sales outstanding closed at 41 days. Hollis Bramwell moved collections calls to the account teams. The model had just been rebuilt bottom-up. The model now starts from the queue. Tenmile Freight requires a separate submission path. Two receivables aged past ninety days. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Milestone invoicing depends on a signed acceptance document, and the document was the bottleneck rather than the milestone. Hollis Bramwell moved collections calls to the account teams. Receipts of 3260 thousand outpaced invoicing. The model had just been rebuilt bottom-up. The model now starts from the queue. Two receivables aged past

ninety days. Collections totalled 3260 thousand dollars. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Deposit terms on new multi-site commitments materially change the working capital profile of the site queue. Two receivables aged past ninety days. Tenmile Freight requires a separate submission path. The model had just been rebuilt bottom-up. The model now starts from the queue. Outstanding days improved from 42 to 41. Collections totalled 3260 thousand dollars. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Customer-side accounts payable portals are a real source of delay, and three accounts require a different submission path. Two receivables aged past ninety days. Tenmile Freight requires a separate submission path. The model had just been rebuilt bottom-up. The model now starts from the queue. Days sales outstanding closed at 41 days. Receipts of 3260 thousand outpaced invoicing. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Progress billing on long deployments would smooth the cash profile, and the commercial team has resisted it for good reasons. Outstanding days improved from 42 to 41. Two receivables aged past ninety days. The model had just been rebuilt bottom-up. The model now starts from the queue. Receipts of 3260 thousand outpaced invoicing. Hollis Bramwell moved collections calls to the account teams. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Aged balances were read out account by account, which took ten minutes and closed two of them the same week. Tenmile Freight requires a separate submission path. Collections totalled 3260 thousand dollars. The model had just been rebuilt bottom-up. The model now starts from the queue. Hollis Bramwell moved collections calls to the account teams. Receipts of 3260 thousand outpaced invoicing. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Capital projects and decisions, November 2025

Project	Approved USD thousands	Spent to date USD thousands	Status	Decision this review
Second functional test cell	29	0	deferred	release next tranche
South-west regional hub	111	89	approved, not started	re-scope
Bond-line inspection station	93	60	in progress	proceed
Endurance test rig	68	24	complete	release next tranche
Depot tooling refresh	55	44	complete	proceed
Assembly cell rebalance fixtures	49	0	approved, not started	proceed
Kitting pick-to-light installation	49	0	deferred	proceed
Environmental chamber for battery testing	43	10	approved, not started	release next tranche
Crew vehicle fit-out, four vans	37	15	on hold	re-scope
Plant network segmentation	31	0	complete	proceed
Training mock aisle	31	0	complete	defer one quarter
Calibration standards for lidar bench	24	13	deferred	proceed

Burn and runway

Burn by category matters more than burn in total, because the total has been flat while its composition changed twice. Burn for the period was 3410 thousand dollars. Capital spend was 310 thousand dollars. The model had just been rebuilt bottom-up. The model now starts from the queue. Runway moved from 15 to 16 months. Runway stands at 16 months on the middle case. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Headcount is the largest lever on burn and the slowest to act, which is why the trigger list is written in advance. Test-cell capital was deferred again. Runway stands at 16 months on the middle case. The model had just been rebuilt

bottom-up. The model now starts from the queue. Runway moved from 15 to 16 months. Nadia Oyelaran holds the trigger list. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Contract labour in deployment is the fastest lever available and the one with the most direct customer consequence. Spending ran 3410 thousand against 10120 thousand. Runway stands at 16 months on the middle case. The model had just been rebuilt bottom-up. The model now starts from the queue. Capital spend was 310 thousand dollars. Nadia Oyelaran holds the trigger list. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Cash discipline this year came two-thirds from collections and one-third from deferred capital, which is a better mix than cutting people. Spending ran 3410 thousand against 10120 thousand. Runway stands at 16 months on the middle case. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran holds the trigger list. Test-cell capital was deferred again. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Runway is not a single number, and presenting it as one has caused more confusion than it has prevented. Nadia Oyelaran holds the trigger list. Spending ran 3410 thousand against 10120 thousand. The model had just been rebuilt bottom-up. The model now starts from the queue. Test-cell capital was deferred again. Runway stands at 16 months on the middle case. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Each scenario was read against a named observable, so nobody has to interpret whether a trigger has fired. Nadia Oyelaran holds the trigger list. Runway stands at 16 months on the middle case. The model had just been rebuilt bottom-up. The model now starts from the queue. Test-cell capital was deferred again. Capital spend was 310 thousand dollars. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Bookings by region, November 2025

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
West - new logos	5	27	31	0	in line with plan
Southwest - new logos	3	24	27	1	ahead on expansions
Great Lakes - new logos	2	19	30	2	reseller led the quarter
Southeast - new logos	12	13	28	3	carried the number
Northeast - new logos	9	10	26	4	ahead on expansions
Ontario - new logos	7	6	29	5	reseller led the quarter
Channel and reseller - new logos	5	35	31	0	one award slipped a week
West - expansion	3	17	33	1	carried the number
Southwest - expansion	1	15	34	2	single seller territory
Great Lakes - expansion	1	12	36	3	reseller led the quarter
Southeast - expansion	7	8	38	4	one award slipped a week
Northeast - expansion	5	6	35	5	one award slipped a week
Ontario - expansion	4	4	37	0	carried the number
Channel and reseller - expansion	3	22	33	1	coverage gap showing
West - renewal attach	1	7	27	2	best conversion in the book
Southwest - renewal attach	1	7	30	3	single seller territory
Great Lakes - renewal attach	1	5	28	4	reseller led the quarter
Southeast - renewal attach	3	3	26	5	coverage gap showing
Northeast - renewal attach	2	3	29	0	carried the number

Region	Units booked	Prior period units	Win rate %	Deals slipped	Regional commentary
Ontario - renewal attach	2	1	31	1	no new logos this period
Channel and reseller - renewal attach	1	10	27	2	carried the number

Release and roadmap review

The warehouse-management adapter absorbed more engineering effort than any other item, and integration variety is the reason. Documentation lags the current release. Two roadmap checkpoints cleared; one slipped. The model had just been rebuilt bottom-up. The model now starts from the queue. Field data now sets the reliability backlog order. Release staging across sites is now standard. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Customer-specific work is crowding out platform work, and the review asked for the ratio to be measured rather than debated. Release staging across sites is now standard. Documentation lags the current release. The model had just been rebuilt bottom-up. The model now starts from the queue. Renata Voss brought the decision to stop one feature. The Orchestrator fleet software absorbed most of the engineering effort. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Product management brought a decision to stop building one feature, and the review supported stopping it. Adapter work crowded out platform work again. Documentation lags the current release. The model had just been rebuilt bottom-up. The model now starts from the queue. The Orchestrator fleet software absorbed most of the engineering effort. Field data now sets the reliability backlog order. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Simulation coverage before release improved, and the last two releases produced fewer field regressions as a result. Two roadmap checkpoints cleared; one slipped. Adapter work crowded out platform work again. The model had just been rebuilt bottom-up. The model now starts from the queue. The Orchestrator fleet software absorbed most of the engineering effort. Renata Voss brought the decision to stop one feature. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Stopping work is harder than starting it, and this session stopped one thing on purpose. Field data now sets the reliability backlog order. Adapter work crowded out platform work again. The model had just been rebuilt bottom-up. The model now starts from the queue. Renata Voss brought the decision to stop one feature. The Orchestrator fleet software absorbed most of the engineering effort. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Roadmap checkpoints were reviewed against the commitments made to customers rather than against the internal plan, which is a harder test. Release staging across sites is now standard. The Orchestrator fleet software absorbed most of the engineering effort. The model had just been rebuilt bottom-up. The model now starts from the queue. Documentation lags the current release. Two roadmap checkpoints cleared; one slipped. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Dissent and minority views

One participant asked for the decision to be revisited with better data, and the request was granted with a date attached. A further test was added because of the dissent. Hollis Bramwell asked for the decision to be revisited. The model had just been rebuilt bottom-up. The model now starts from the queue. No consensus was reached; the Chief Financial Officer decided. The disagreement is recorded rather than resolved. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

A minority view held that the second-source qualification was being rushed, and a further test was added because of it. Nadia Oyelaran and Renata Voss read the data differently. The minority view is preserved in the record. The model had just been rebuilt bottom-up. The model now starts from the queue. The objection was noted against the decision. A further test was added because of the dissent. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

The plant manager objected to another plan revision inside the month and asked for a freeze window, which was granted in part. The minority view is preserved in the record. No consensus was reached; the Chief Financial Officer decided. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran and Renata Voss read the data differently. The objection was noted against the decision. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Whether a deferral saves money depends on which function is counting, and both counts were tabled. Nadia Oyelaran and Renata Voss read the data differently. The disagreement is recorded rather than resolved. The model had just been rebuilt bottom-up. The model now starts from the queue. A further test was added because of the dissent. Hollis Bramwell asked for the decision to be revisited. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Disagreement was recorded rather than smoothed over, because the two positions rest on different readings of the same data. A further test was added because of the dissent. Hollis Bramwell asked for the decision to be revisited. The model had just been rebuilt bottom-up. The model now starts from the queue. The objection was noted against the decision. Nadia Oyelaran and Renata Voss read the data differently. Go-live cycle 43 days at Elk Grove. Salinas Valley carries 32 of the queued fleet. Win rate 32 percent, best in Southeast. Pack and ship ran 96 percent first pass.

Finance and deployment disagreed about whether contract labour should be treated as a fixed or variable commitment. The minority view is preserved in the record. No consensus was reached; the Chief Financial Officer decided. The model had just been rebuilt bottom-up. The model now starts from the queue. Nadia Oyelaran and Renata Voss read the data differently. Hollis Bramwell asked for the decision to be revisited. Depot fill 97 percent at Atlanta depot. Days outstanding 41, Alder & Vance Retail the largest balance. Build plan 90, actual 88, Sheet metal short. Salinas Valley carries 32 of the queued fleet.

Top pursuits under inspection, November 2025

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1347	Havering Logistics	Verbal commitment	10	2025-12-30	brought forward
PUR-1350	Quillon Home Supply	Qualified	25	2026-01-12	second re-date
PUR-1353	Tenmile Freight	Commercial close	8	2026-01-25	moved one week
PUR-1356	Bexley Pharmaceutical Wholesale	Procurement queue	19	2026-02-07	moved one week
PUR-1359	Marrowfield Grocers	Technical validation	6	2026-02-20	second re-date
PUR-1362	Pinebank Distribution	Legal review	23	2026-03-05	moved one week
PUR-1365	Alder & Vance Retail	Re-qualifying	14	2026-03-18	moved four weeks
PUR-1368	Northstar Cold Chain	Pilot running	29	2026-03-31	brought forward
PUR-1371	Havering Logistics - second site	Verbal commitment	20	2026-04-13	date held
PUR-1374	Quillon Home Supply - second site	Qualified	35	2026-04-26	moved one week
PUR-1377	Tenmile Freight - second site	Commercial close	14	2026-05-09	moved one week
PUR-1380	Bexley Pharmaceutical Wholesale - second site	Procurement queue	31	2026-05-22	brought forward
PUR-1383	Marrowfield Grocers - second site	Technical validation	22	2026-06-04	brought forward
PUR-1386	Pinebank Distribution - second site	Legal review	37	2026-06-17	brought forward

Pursuit reference	Account	Stage	Units in scope	Current close date	Movement since last review
PUR-1389	Alder & Vance Retail - second site	Re-qualifying	20	2026-06-30	no change since last review
PUR-1392	Northstar Cold Chain - second site	Pilot running	31	2026-07-13	date held
PUR-1395	Havering Logistics - follow-on scope	Verbal commitment	18	2026-07-26	moved four weeks
PUR-1398	Quillon Home Supply - follow-on scope	Qualified	35	2026-08-08	brought forward
PUR-1401	Tenmile Freight - follow-on scope	Commercial close	26	2026-08-21	moved four weeks
PUR-1404	Bexley Pharmaceutical Wholesale - follow-on scope	Procurement queue	41	2026-09-03	brought forward

Decisions, owners and dates recorded in November 2025

Items closed this period were closed with named evidence: a report, a signed document or a measured result. Three items carried forward into 2026-01-08. Owners were named and dates set against 2026-01-08. The model had just been rebuilt bottom-up. The model now starts from the queue. One item closed with measured evidence. Priya Ramanathan inherited an item after a role change. Headcount 256 of 264, Nadia Oyelaran reporting. Go-live cycle 43 days at Elk Grove. Yield 96 percent, scrap 15 thousand in Pack and ship. Utilisation 88 percent, Crew Bravo fully committed.

Cross-functional items were given a single owner rather than two, after a period where shared ownership meant no ownership. Three items carried forward into 2026-01-08. Lucia Mbeki-Hart, Controller, took the largest open item. The model had just been rebuilt bottom-up. The model now starts from the queue. Priya Ramanathan inherited an item after a role change. Two due dates were changed in the room. Utilisation 88 percent, Crew Bravo fully committed. Requisitions open 15, Renata Voss holding the list. Yield 96 percent, scrap 15 thousand in Pack and ship. Atlanta depot cleared its repair backlog.

Evidence of closure means a document, a measurement or a signature, and status colours no longer qualify. The oldest item dates from two sessions back. Lucia Mbeki-Hart, Controller, took the largest open item. The model had just been rebuilt bottom-up. The model now starts from the queue. Priya Ramanathan inherited an item after a role change. Two due dates were changed in the room. Lucia Mbeki-Hart owns the Sheet metal recovery. Utilisation 88 percent, Crew Bravo fully committed. Queue depth 32 sites, Chandler South at the front. Salinas Valley carries 32 of the queued fleet.

Dates were negotiated with the owners present, which removed the usual round of silent renegotiation afterwards. Three items carried forward into 2026-01-08. Two due dates were changed in the room. The model had just been rebuilt bottom-up. The model now starts from the queue. Owners were named and dates set against 2026-01-08. Lucia Mbeki-Hart, Controller, took the largest open item. Headcount 256 of 264, Nadia Oyelaran reporting. Lucia Mbeki-Hart owns the Sheet metal recovery. Queue depth 32 sites, Chandler South at the front. Work in process 37 units, mostly Sheet metal.

Open and closed actions carried through November 2025

Reference	Item	Owner	Original due	Current due	Disposition
OR-1204	Qualify Brightwater Motion as second drive-unit source	Marcus Peil	2025-12-03	2025-12-24	Closed; qualification report and four months of dual supply
OR-1508	Publish runway triggers with named observables	Lucia Mbeki-Hart	2025-11-29	2025-12-20	Open, date revised; partial
OR-2120	Cost the second-shift ramp against overtime	Marcus Peil	2025-11-24	2025-12-15	Blocked; outstanding
OR-2123	Draft deposit terms for multi-site commitments	Ingrid Solberg	2025-11-30	2025-12-21	Closed by decision; report filed
OR-2126	Reconcile the two uptime definitions with the customer	Owen Castellanos	2025-12-06	2025-12-27	Open, date revised; outstanding
OR-2129	Measure onboarding	Renata Voss	2025-12-12	2026-01-02	Blocked; outstanding

Reference	Item	Owner	Original due	Current due	Disposition
	time to productivity for crews				
OR-2132	Decide disposition of the superseded sensor head stock	Marcus Peil	2025-12-18	2026-01-08	Closed by decision; measured result attached
OR-2135	Bring deal-level notes for the top ten pursuits	Marguerite Do	2025-12-24	2026-01-14	Open, date revised; outstanding
OR-2138	Split the reliability backlog by build vintage	Tobias Nkemdirim	2025-12-30	2026-01-20	Blocked; outstanding
OR-2141	Stage software releases across sites rather than at once	Griffin Tasse	2026-01-05	2026-01-26	Closed by decision; report filed
OR-2144	Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2026-01-11	2026-02-01	Open, date revised; outstanding
OR-2147	Reissue the deployment playbook network section	Priya Ramanathan	2026-01-17	2026-02-07	Blocked; outstanding
OR-2150	Move collections calls to the account teams	Lucia Mbeki-Hart	2026-01-23	2026-02-13	Closed by decision; measured result attached
OR-2153	Size the buffer stock on long-lead commodities	Hollis Bramwell	2026-01-29	2026-02-19	Open, date revised; outstanding
OR-2156	Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2026-02-04	2026-02-25	Blocked; outstanding
OR-2159	Refresh compensation bands for field engineering	Renata Voss	2026-02-10	2026-03-03	Closed by decision; report filed
