MANAGEMENT OPERATING REVIEW - RECORD 022

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-022

Quarterly Business Review for Q4 2025: purpose and attendance

The packet now carries a single page of exceptions, and everything else is available on request rather than presented. Pre-reads went out ahead of the 2026-02-04 session. Marguerite Do attended as Director of Sales Operations. A customer executive review preceded this session. An executive review preceded the packet. Dana Whitlock, Chief Operating Officer, presented the operations section. The next session is set for 2026-02-26. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Owners who could not attend sent written positions, and those were read into the record verbatim. The next session is set for 2026-02-26. Marguerite Do attended as Director of Sales Operations. A customer executive review preceded this session. An executive review preceded the packet. Notes were circulated on 2026-02-04. Dana Whitlock, Chief Operating Officer, presented the operations section. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Guests were limited to the sections that concern them, ending a habit of full attendance for its own sake. Pre-reads went out ahead of the 2026-02-04 session. Notes were circulated on 2026-02-04. A customer executive review preceded this session. An executive review preceded the packet. Marguerite Do attended as Director of Sales Operations. The next session is set for 2026-02-26. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

The packet was shortened after a complaint that the previous edition buried the decisions behind twenty pages of charts. The next session is set for 2026-02-26. Notes were circulated on 2026-02-04. A customer executive review preceded this session. An executive review preceded the packet. Dana Whitlock, Chief Operating Officer, presented the operations section. Marguerite Do attended as Director of Sales Operations. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Bookings and order intake

A single reseller relationship produced more qualified volume than the whole outbound programme, which raises an uncomfortable question about channel mix. Signed volume: 291 units, win rate 38 percent. Win rate held at 38 percent on 163 live opportunities. A customer executive review preceded this session. An executive review preceded the packet. Intake closed at 291 units for Q4 2025. Discount depth peaked on the Tenmile Freight multi-site award. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Pricing exceptions ran above the standing threshold this period, mostly on multi-site commitments where the customer wanted a single unit price. The book took 291 units, against 88 last period. Win rate held at 38 percent on 163 live opportunities. A customer executive review preceded this session. An executive review preceded the packet. Discount depth peaked on the Tenmile Freight multi-site award. Pinebank Distribution accounted for the largest single order. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Field feedback contradicted the commercial narrative on one account, and the review chose to believe the field. Discount depth peaked on the Tenmile Freight multi-site award. Signed volume: 291 units, win rate 38 percent. A customer executive review preceded this session. An executive review preceded the packet. The book took 291 units, against 88 last period. Win rate held at 38 percent on 163 live opportunities. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

The order book now holds enough signed volume to fill the build plan through the next two build cycles without new intake. Open pursuits number 163, up from 149. Signed volume: 291 units, win rate 38 percent. A customer

executive review preceded this session. An executive review preceded the packet. Discount depth peaked on the Tenmile Freight multi-site award. Intake closed at 291 units for Q4 2025. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Sales operations rebuilt the stage definitions after a review found three deals sitting in a proof-of-concept stage with no active pilot. The book took 291 units, against 88 last period. Win rate held at 38 percent on 163 live opportunities. A customer executive review preceded this session. An executive review preceded the packet. Signed volume: 291 units, win rate 38 percent. Pinebank Distribution accounted for the largest single order. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Enterprise accounts moved more slowly than the mid-market this period, and the difference sits almost entirely in procurement and security review. Open pursuits number 163, up from 149. Pinebank Distribution accounted for the largest single order. A customer executive review preceded this session. An executive review preceded the packet. Intake closed at 291 units for Q4 2025. Discount depth peaked on the Tenmile Freight multi-site award. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Pricing exceptions granted, Q4 2025

Award	Account	Units	Exception type	Approved by
AWD-388	Havering Logistics	37	installation credit	Chief Executive Officer
AWD-389	Quillon Home Supply	43	extended warranty at no charge	VP Operations
AWD-390	Tenmile Freight	40	payment terms extension	Chief Operating Officer
AWD-391	Bexley Pharmaceutical Wholesale	42	spares kit included	Chief Financial Officer
AWD-392	Marrowfield Grocers	44	training days added	Chief Executive Officer
AWD-393	Pinebank Distribution	42	multi-site unit price	VP Operations
AWD-394	Alder & Vance Retail	48	software attach waiver	Chief Operating Officer
AWD-395	Northstar Cold Chain	48	installation credit	Chief Financial Officer
AWD-396	Havering Logistics - second site	47	extended warranty at no charge	Chief Executive Officer
AWD-397	Quillon Home Supply - second site	47	payment terms extension	VP Operations
AWD-398	Tenmile Freight - second site	51	spares kit included	Chief Operating Officer
AWD-399	Bexley Pharmaceutical Wholesale - second site	51	training days added	Chief Financial Officer
AWD-400	Marrowfield Grocers - second site	49	multi-site unit price	Chief Executive Officer
AWD-401	Pinebank Distribution - second site	55	software attach waiver	VP Operations
AWD-402	Alder & Vance Retail - second site	52	installation credit	Chief Operating Officer
AWD-403	Northstar Cold Chain - second site	54	extended warranty at no charge	Chief Financial Officer

Pursuit review

One displacement pursuit has consumed more engineering support hours than the next four combined, with no commitment in return. Dana Whitlock owns the re-qualification pass. Deals leaving the period: 18, most still dated. A customer executive review preceded this session. An executive review preceded the packet. The Northstar Cold Chain pursuit re-dated again. Weighted coverage sits near 163 open pursuits. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

The team agreed to stop reporting weighted pipeline in this meeting, on the grounds that nobody had ever acted on the number. Conversion into commercial close remains the weak stage. The Northstar Cold Chain pursuit re-dated again. A customer executive review preceded this session. An executive review preceded the packet. Slippage totalled 18 opportunities against 12 before. Two losses went to the same competitor. Bookings 291 units across 163 pursuits.

Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Of the opportunities that left the quarter, most remain live and dated, and only a minority were lost to a competitor outright. Conversion into commercial close remains the weak stage. Slippage totalled 18 opportunities against 12 before. A customer executive review preceded this session. An executive review preceded the packet. The Northstar Cold Chain pursuit re-dated again. Dana Whitlock owns the re-qualification pass. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Two accounts that were treated as sure things at the last review have gone quiet, and neither seller has escalated. Conversion into commercial close remains the weak stage. Slippage totalled 18 opportunities against 12 before. A customer executive review preceded this session. An executive review preceded the packet. Weighted coverage sits near 163 open pursuits. Deals leaving the period: 18, most still dated. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Where a pilot converted, the common thread was an operations sponsor who owned a throughput target rather than a technology budget. Conversion into commercial close remains the weak stage. Dana Whitlock owns the re-qualification pass. A customer executive review preceded this session. An executive review preceded the packet. Slippage totalled 18 opportunities against 12 before. The Northstar Cold Chain pursuit re-dated again. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Forecast accuracy at the regional level was worse than the aggregate, meaning two regions cancelled each other's errors out. Deals leaving the period: 18, most still dated. The Northstar Cold Chain pursuit re-dated again. A customer executive review preceded this session. An executive review preceded the packet. Dana Whitlock owns the re-qualification pass. Two losses went to the same competitor. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Deployment site queue as read in the Q4 2025 session

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
Norfolk	Alder & Vance Retail	6	Network gap open	2026-02-22	Acceptance testing
Tulsa	Northstar Cold Chain	25	Customer dock date unconfirmed	2026-03-11	Held at gate
Redlands	Havering Logistics	12	Floor marking outstanding	2026-03-28	Stabilising
Grand Forks	Quillon Home Supply	29	Survey complete	2026-04-14	Signed off
Waukegan	Tenmile Freight	10	Racking works pending	2026-05-01	Rescheduled
Mesquite	Bexley Pharmaceutical Wholesale	27	Ready for crew	2026-05-18	Scheduled
Ashland Park	Marrowfield Grocers	6	Power works pending	2026-06-04	Crew on site
Riverbend	Pinebank Distribution	34	Network gap open	2026-06-21	Acceptance testing
Kennesaw	Alder & Vance Retail - second site	21	Customer dock date unconfirmed	2026-07-08	Held at gate
Fort Dodge	Northstar Cold Chain - second site	26	Floor marking outstanding	2026-07-25	Stabilising
Salinas Valley	Havering Logistics - second site	31	Survey complete	2026-08-11	Signed off
Chandler South	Quillon Home Supply - second site	54	Racking works pending	2026-08-28	Rescheduled
Elk Grove	Tenmile Freight - second site	6	Ready for crew	2026-09-14	Scheduled
Cedar Bluff	Bexley Pharmaceutical Wholesale - second site	49	Power works pending	2026-10-01	Crew on site
Norfolk (phase two)	Marrowfield Grocers - second site	36	Network gap open	2026-10-18	Acceptance testing
Tulsa (phase two)	Pinebank Distribution	29	Customer dock date	2026-11-04	Held at gate

Site	Customer	Fleet size	Readiness position	Go-live target	Queue status
	- second site		unconfirmed		
Redlands (phase two)	Alder & Vance Retail - follow-on scope	34	Floor marking outstanding	2026-11-21	Stabilising
Grand Forks (phase two)	Northstar Cold Chain - follow-on scope	51	Survey complete	2026-12-08	Signed off
Waukegan (phase two)	Havering Logistics - follow-on scope	6	Racking works pending	2026-12-25	Rescheduled
Mesquite (phase two)	Quillon Home Supply - follow-on scope	58	Ready for crew	2027-01-11	Scheduled
Ashland Park (phase two)	Tenmile Freight - follow-on scope	45	Power works pending	2027-01-28	Crew on site
Riverbend (phase two)	Bexley Pharmaceutical Wholesale - follow-on scope	26	Network gap open	2027-02-14	Acceptance testing

Installation programme

Installer utilisation is high enough to be a risk rather than an achievement, because there is no slack for rework travel. Marguerite Do sequenced the queue by readiness. Queue depth reached 35 sites. A customer executive review preceded this session. An executive review preceded the packet. Contract to go-live averaged 39 days. Kennesaw was held at the readiness gate. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Every site that slipped this period slipped for a reason on the customer side, which is a better position than last year and still not good enough. Queue depth reached 35 sites. Contract to go-live averaged 39 days. A customer executive review preceded this session. An executive review preceded the packet. Kennesaw was held at the readiness gate. Elk Grove and Tulsa both cleared acceptance testing. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Sequencing the queue by contractual date rather than by readiness produced two expensive standstills, and the rule has been reversed. Queue depth reached 35 sites. Elk Grove and Tulsa both cleared acceptance testing. A customer executive review preceded this session. An executive review preceded the packet. Contract to go-live averaged 39 days. The queue carries 35 sites, 32 a period ago. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

A retrofit site behaved nothing like a greenfield site, and the estimate model still treats them as the same class of work. The queue carries 35 sites, 32 a period ago. Marguerite Do sequenced the queue by readiness. A customer executive review preceded this session. An executive review preceded the packet. Queue depth reached 35 sites. Kennesaw was held at the readiness gate. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Post-go-live stabilisation periods are running longer than the plan allows, so crews are being pulled back to sites already signed off. Contract to go-live averaged 39 days. Elk Grove and Tulsa both cleared acceptance testing. A customer executive review preceded this session. An executive review preceded the packet. The queue carries 35 sites, 32 a period ago. Queue depth reached 35 sites. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Site queue depth grew again, and the queue is now long enough that sequencing decisions have commercial consequences rather than just scheduling ones. Go-live cycle: 39 days, from 43. Contract to go-live averaged 39 days. A customer executive review preceded this session. An executive review preceded the packet. Queue depth reached 35 sites. Kennesaw was held at the readiness gate. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Installer utilisation

Training throughput limits how fast the crew grows, because each certifying lead can supervise one trainee per site without degrading the job. Utilisation was 86 percent against 88 percent. Crew leads remain the gating resource. A customer executive review preceded this session. An executive review preceded the packet. Salinas Valley needed a second crew visit. Ingrid Solberg covered two regions this period. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

A crew lead shortage in one region was covered by borrowing from another, which worked once and cannot be the plan. Salinas Valley needed a second crew visit. Installer utilisation ran at 86 percent. A customer executive review preceded this session. An executive review preceded the packet. Ingrid Solberg covered two regions this period. Utilisation was 86 percent against 88 percent. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Contractor quality varied by firm rather than by individual, and the sourcing decision now reflects that. Travel days per site fell again. Salinas Valley needed a second crew visit. A customer executive review preceded this session. An executive review preceded the packet. Installer utilisation ran at 86 percent. Crew leads remain the gating resource. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

The apprenticeship route produced its first fully certified engineer, which took longer than planned and cost less than lateral hiring. Certified crew count trails the site queue of 35. Crew leads remain the gating resource. A customer executive review preceded this session. An executive review preceded the packet. Ingrid Solberg covered two regions this period. Installer utilisation ran at 86 percent. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Deployment capacity is a function of certified crew leads, not of headcount, and the certification pipeline is the part nobody was watching. Installer utilisation ran at 86 percent. Utilisation was 86 percent against 88 percent. A customer executive review preceded this session. An executive review preceded the packet. Ingrid Solberg covered two regions this period. Travel days per site fell again. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Travel load on the crew has become a retention issue, and the two most recent resignations both named it in an exit conversation. Certified crew count trails the site queue of 35. Utilisation was 86 percent against 88 percent. A customer executive review preceded this session. An executive review preceded the packet. Travel days per site fell again. Ingrid Solberg covered two regions this period. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Contract to go-live decomposition, sites accepted in Q4 2025

Site	Contract to survey days	Survey to install days	Install to acceptance days	Total elapsed days	Site class
Salinas Valley	14	25	15	54	greenfield
Chandler South	18	31	8	57	greenfield
Elk Grove	18	25	16	59	retrofit
Cedar Bluff	16	23	11	50	greenfield

two)					
Chandler South (phase two)	16	23	11	50	greenfield
Elk Grove (phase two)	18	25	18	61	greenfield
Cedar Bluff (phase two)	15	25	13	53	retrofit

Spares, depots and warranty

First-generation controllers are heading for obsolescence, and the spares buy has to be decided before the line stops making them. Depot fill rate was 95 percent. Hollis Bramwell approved the critical spares increase. A customer executive review preceded this session. An executive review preceded the packet. Warranty cost per fleet unit is falling. Return material flow remains slow. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Warranty accrual assumptions were set before the yield excursion and have not been revisited since. Tulsa took the planned sensor head replacements. Vehicle stock is masking the true fill rate. A customer executive review preceded this session. An executive review preceded the packet. Return material flow remains slow. Warranty cost per fleet unit is falling. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Return material flow is slow, and the returned parts that could be reworked are sitting in a corner of receiving. Fill rate ran 95 percent against 97 percent. Return material flow remains slow. A customer executive review preceded this session. An executive review preceded the packet. Warranty cost per fleet unit is falling. Vehicle stock is masking the true fill rate. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Critical spares coverage for the drive unit was raised deliberately while the supply constraint was live. Hollis Bramwell approved the critical spares increase. Vehicle stock is masking the true fill rate. A customer executive review preceded this session. An executive review preceded the packet. Return material flow remains slow. Depot fill rate was 95 percent. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Depot technicians closed the repair backlog for the first time in five periods, which frees vehicle stock. Depot fill rate was 95 percent. Return material flow remains slow. A customer executive review preceded this session. An executive review preceded the packet. Fill rate ran 95 percent against 97 percent. Vehicle stock is masking the true fill rate. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Courier spend tells the story that the fill rate hides, because the parts are moving from the wrong place. Return material flow remains slow. Warranty cost per fleet unit is falling. A customer executive review preceded this session. An executive review preceded the packet. Hollis Bramwell approved the critical spares increase. Fill rate ran 95 percent against 97 percent. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

The problems we are still working

Constraint under review: large-account uptime, at the pattern generalised stage as of this session. The floor-marking finding from Cedar Bluff became a pre-install site readiness gate, and the four sites that went through the gate show a materially better first-month intervention rate. Uptime 98.3 percent, interventions every 398 hours. Hollis Bramwell and Griffin Tasse disagreed on sequencing.

Forecast sharing with the top five suppliers began this period, and two of them immediately improved their commit dates. Dana Whitlock issued the first supplier scorecards. On-time delivery was 94 percent, from 96 percent. A customer executive review preceded this session. An executive review preceded the packet. Supplier on-time delivery came in at 94 percent. Expedite activity rose with the build plan of 102. Capital spend 860 thousand this period. On-time delivery 94

percent, Ryemoor Wire Harness the outlier. Hollis Bramwell and Griffin Tasse disagreed on sequencing. Utilisation 86 percent, Crew Bravo fully committed.

Dual sourcing costs more per unit during the overlap period, and the review accepted that cost with its eyes open. Dana Whitlock issued the first supplier scorecards. Coverage weeks on long-lead parts were extended. A customer executive review preceded this session. An executive review preceded the packet. On-time delivery was 94 percent, from 96 percent. Expedite activity rose with the build plan of 102. Vehicle stock cleared its repair backlog. Functional test ran 97 percent first pass. Crew Bravo closed Salinas Valley without a second visit. The HS-200 tote handler took most of the test cell time.

Installation crew loading, Q4 2025

Crew	Home region	Certified leads	Field engineers	Utilisation %	Weeks committed forward
Crew Alpha	Southwest	2	5	88	7
Crew Bravo	Great Lakes	2	3	83	15
Crew Charlie	Southeast	2	8	90	5
Crew Delta	Northeast	2	3	85	14
Crew Echo	Ontario	1	8	92	10
Crew Foxtrot	Channel and reseller	1	6	81	13
Crew Gulf	West	1	8	89	5
Crew Hotel	Southwest	1	3	84	11
Contract crew Northfield	Great Lakes	1	8	91	5
Contract crew Verrado	Southeast	1	4	82	14
Contract crew Ellingham	Northeast	1	8	87	5
Commissioning bench	Ontario	1	5	80	13
Crew Alpha (night rotation)	Channel and reseller	1	5	88	9
Crew Bravo (night rotation)	West	1	3	83	17
Crew Charlie (night rotation)	Southwest	1	8	90	7
Crew Delta (night rotation)	Great Lakes	1	3	85	11
Crew Echo (night rotation)	Southeast	1	8	92	7
Crew Foxtrot (night rotation)	Northeast	1	6	81	15

People and hiring

Time to fill improved for engineering roles and worsened for field roles, which is the opposite of what the plan needed. The headcount gap is 11 roles. Annualised attrition sits at 10 percent. A customer executive review preceded this session. An executive review preceded the packet. Headcount stood at 261 against a plan of 272. Time to fill improved from 52 to 47 days. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

The recruiting funnel converts poorly at the on-site stage for field roles, and the loop design is the likely reason. Annualised attrition sits at 10 percent. The headcount gap is 11 roles. A customer executive review preceded this session. An executive review preceded the packet. Open requisitions number 21. Headcount stood at 261 against a plan of 272. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Internal mobility filled two roles this period, which is cheaper and faster than external hiring and creates a backfill. The headcount gap is 11 roles. Open requisitions number 21. A customer executive review preceded this session. An executive review preceded the packet. Headcount stood at 261 against a plan of 272. Median time to fill was 47 days. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Performance calibration ran across all functions for the first time, and the distribution differed sharply between engineering and operations. Requisitions fell from 15 to 21. Median time to fill was 47 days. A customer executive review preceded this session. An executive review preceded the packet. Time to fill improved from 52 to 47 days. Headcount stood at 261 against a plan of 272. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Recruiting moved to a regional pipeline model with standing phone screens, which changed time to fill more than any sourcing spend did. Time to fill improved from 52 to 47 days. Open requisitions number 21. A customer executive review preceded this session. An executive review preceded the packet. Headcount stood at 261 against a plan of 272. Annualised attrition sits at 10 percent. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Attrition is low in aggregate and uncomfortable in specifics, because the leavers include two people the company cannot easily replace. The headcount gap is 11 roles. Requisitions fell from 15 to 21. A customer executive review preceded this session. An executive review preceded the packet. Open requisitions number 21. Median time to fill was 47 days. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Cash conversion

Two large receivables aged past ninety days, and both trace to a purchase order number mismatch rather than to unwillingness to pay. Receipts of 9880 thousand outpaced invoicing. Outstanding days improved from 41 to 40. A customer executive review preceded this session. An executive review preceded the packet. Tenmile Freight requires a separate submission path. Days sales outstanding closed at 40 days. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Payment terms granted in commercial negotiation were never visible to the finance team until invoicing, and that has been fixed. Collections totalled 9880 thousand dollars. Receipts of 9880 thousand outpaced invoicing. A customer executive review preceded this session. An executive review preceded the packet. Two receivables aged past ninety days. Griffin Tasse moved collections calls to the account teams. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Bad debt remains immaterial, and the review noted that this is a function of customer quality rather than of credit discipline. Tenmile Freight requires a separate submission path. Days sales outstanding closed at 40 days. A customer executive review preceded this session. An executive review preceded the packet. Griffin Tasse moved collections calls to the account teams. Collections totalled 9880 thousand dollars. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Getting the acceptance document signed on the day of go-live is worth more to cash than any collections call. Griffin Tasse moved collections calls to the account teams. Outstanding days improved from 41 to 40. A customer executive review preceded this session. An executive review preceded the packet. Tenmile Freight requires a separate submission path. Collections totalled 9880 thousand dollars. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Collections outpaced invoicing this period, which flatters the cash number and does not repeat. Collections totalled 9880 thousand dollars. Griffin Tasse moved collections calls to the account teams. A customer executive review preceded this session. An executive review preceded the packet. Tenmile Freight requires a separate submission path. Outstanding days improved from 41 to 40. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Cash conversion for a deployment now takes weeks fewer than it did a year ago, entirely through process changes. Days sales outstanding closed at 40 days. Collections totalled 9880 thousand dollars. A customer executive review

preceded this session. An executive review preceded the packet. Two receivables aged past ninety days. Receipts of 9880 thousand outpaced invoicing. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Build attainment by week and line, Q4 2025

Week	Product line	Plan units	Actual units	Variance units	Primary constraint
W37	HS-200 tote handler	8	9	1	fixture failure
W37	HS-400 pallet mover	4	5	1	plan revision mid-week
W38	HS-200 tote handler	3	5	2	sensor head rework
W38	HS-400 pallet mover	2	3	1	operator absence
W39	HS-200 tote handler	3	5	2	harness shortage
W39	HS-400 pallet mover	2	3	1	none
W40	HS-200 tote handler	4	6	2	plan revision mid-week
W40	HS-400 pallet mover	2	3	1	drive unit shortage
W41	HS-200 tote handler	4	6	2	operator absence
W41	HS-400 pallet mover	2	3	1	test cell queue
W42	HS-200 tote handler	4	2	-2	none
W42	HS-400 pallet mover	3	1	-2	fixture failure
W43	HS-200 tote handler	4	2	-2	drive unit shortage
W43	HS-400 pallet mover	3	1	-2	sensor head rework
W44	HS-200 tote handler	5	3	-2	test cell queue
W44	HS-400 pallet mover	3	1	-2	harness shortage
W45	HS-200 tote handler	5	3	-2	fixture failure
W45	HS-400 pallet mover	3	1	-2	plan revision mid-week
W46	HS-200 tote handler	6	3	-3	sensor head rework
W46	HS-400 pallet mover	3	2	-1	operator absence
W47	HS-200 tote handler	6	4	-2	harness shortage
W47	HS-400 pallet mover	3	2	-1	none
W48	HS-200 tote handler	2	4	2	plan revision mid-week
W48	HS-400 pallet mover	1	2	1	drive unit shortage
W49	HS-200 tote handler	3	4	1	operator absence
W49	HS-400 pallet mover	1	3	2	test cell queue

Runway and triggers

The downside trigger was armed after two large bookings left the quarter, and nine requisitions were paused within a week. Spending ran 10480 thousand against 3410 thousand. Test-cell capital was deferred again. A customer executive review preceded this session. An executive review preceded the packet. Runway moved from 16 to 17 months. Capital spend was 860 thousand dollars. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Fixed cost per period has grown with facilities and tooling commitments that cannot be unwound inside a quarter. Runway moved from 16 to 17 months. Capital spend was 860 thousand dollars. A customer executive review preceded this session. An executive review preceded the packet. Test-cell capital was deferred again. Spending ran 10480 thousand against 3410 thousand. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Every scenario assumes the deployment cost per site keeps falling, and that assumption deserves more scrutiny than it has had. Dana Whitlock holds the trigger list. Runway moved from 16 to 17 months. A customer executive review preceded this session. An executive review preceded the packet. Capital spend was 860 thousand dollars. Test-cell capital was deferred again. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Fixed commitments have grown to the point where the fastest lever left is contract labour. Spending ran 10480 thousand against 3410 thousand. Runway moved from 16 to 17 months. A customer executive review preceded this session. An executive review preceded the packet. Test-cell capital was deferred again. Capital spend was 860 thousand

dollars. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Runway under the middle scenario extended, and the review chose to plan against that case while holding triggers for the downside. Burn for the period was 10480 thousand dollars. Test-cell capital was deferred again. A customer executive review preceded this session. An executive review preceded the packet. Runway moved from 16 to 17 months. Dana Whitlock holds the trigger list. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Scenario planning is only useful if the triggers are specific, so each scenario now names the observable that fires it. Test-cell capital was deferred again. Spending ran 10480 thousand against 3410 thousand. A customer executive review preceded this session. An executive review preceded the packet. Capital spend was 860 thousand dollars. Runway stands at 17 months on the middle case. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Assembly cell performance by shift, Q4 2025

Cell	Shift	Units processed	First-pass yield %	Rework hours	Scrap USD thousands
Frame and drive assembly	first shift	20	99	4	4
Sensor head assembly	first shift	15	92	100	1
Harness and electrical	first shift	20	98	15	1
Final assembly	first shift	20	99	50	1
Functional test	first shift	19	97	25	1
Pack and ship	first shift	19	99	60	1
Frame and drive assembly	second shift	11	97	5	2
Sensor head assembly	second shift	8	90	105	1
Harness and electrical	second shift	11	96	20	1
Final assembly	second shift	11	97	55	1
Functional test	second shift	10	97	10	1
Pack and ship	second shift	10	95	35	1
Frame and drive assembly	weekend cover	3	99	4	1
Sensor head assembly	weekend cover	2	92	100	1
Harness and electrical	weekend cover	3	98	15	1
Final assembly	weekend cover	3	99	50	1
Functional test	weekend cover	3	97	25	1
Pack and ship	weekend cover	3	99	60	1

Release and roadmap review

The next controller revision closes an obsolescence exposure and requires a re-validation cycle that has to be planned now. Adapter work crowded out platform work again. Field data now sets the reliability backlog order. A customer executive review preceded this session. An executive review preceded the packet. Documentation lags the current release. The HS-200 tote handler absorbed most of the engineering effort. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Documentation and training material lag every release, and the lag is now a deployment risk rather than a nuisance. Documentation lags the current release. Release staging across sites is now standard. A customer executive review preceded this session. An executive review preceded the packet. The HS-200 tote handler absorbed most of the engineering effort. Field data now sets the reliability backlog order. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Committed customer dates and internal roadmap dates were put on the same page for the first time, and they did not match. Documentation lags the current release. Two roadmap checkpoints cleared; one slipped. A customer executive review preceded this session. An executive review preceded the packet. Adapter work crowded out platform work again.

Marguerite Do brought the decision to stop one feature. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Release quality improved once simulation coverage became a gate rather than a report. Marguerite Do brought the decision to stop one feature. Field data now sets the reliability backlog order. A customer executive review preceded this session. An executive review preceded the packet. Two roadmap checkpoints cleared; one slipped. The HS-200 tote handler absorbed most of the engineering effort. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Fleet orchestration release slipped a milestone, and the slip was accepted in exchange for keeping the docking regression fix on schedule. Marguerite Do brought the decision to stop one feature. Adapter work crowded out platform work again. A customer executive review preceded this session. An executive review preceded the packet. Release staging across sites is now standard. Documentation lags the current release. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand, runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

Field data now drives the reliability backlog, which is a change from prioritising by the loudest account. Field data now sets the reliability backlog order. Marguerite Do brought the decision to stop one feature. A customer executive review preceded this session. An executive review preceded the packet. Adapter work crowded out platform work again. The HS-200 tote handler absorbed most of the engineering effort. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Unresolved positions

Product and sales disagreed on whether the pilot feature should be committed to a customer date, and the answer was no. The minority view is preserved in the record. Griffin Tasse asked for the decision to be revisited. A customer executive review preceded this session. An executive review preceded the packet. A further test was added because of the dissent. Dana Whitlock and Marguerite Do read the data differently. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

Two owners left the room unconvinced, and the record says so rather than pretending otherwise. The disagreement is recorded rather than resolved. A further test was added because of the dissent. A customer executive review preceded this session. An executive review preceded the packet. No consensus was reached; the Chief Executive Officer decided. The objection was noted against the decision. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

A request to revisit the sequencing rule was granted, with a date and a named piece of evidence attached. A further test was added because of the dissent. The minority view is preserved in the record. A customer executive review preceded this session. An executive review preceded the packet. No consensus was reached; the Chief Executive Officer decided. Dana Whitlock and Marguerite Do read the data differently. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

The engineering view is that the deferral saves less than it costs, and that view is noted in full. The disagreement is recorded rather than resolved. A further test was added because of the dissent. A customer executive review preceded this session. An executive review preceded the packet. The objection was noted against the decision. The minority view is preserved in the record. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

There was no consensus on the hiring pause, and the pause proceeded with the dissent recorded against it. The objection was noted against the decision. Griffin Tasse asked for the decision to be revisited. A customer executive review preceded this session. An executive review preceded the packet. A further test was added because of the dissent. The minority view is preserved in the record. Ingrid Solberg owns the Battery packs recovery. Burn 10480 thousand,

runway 17 months. Headcount 261 of 272, Dana Whitlock reporting. Scrap 14 thousand, Brightwater Motion contributing.

The customer success position, that credits should be offered before they are claimed, did not carry the room. Dana Whitlock and Marguerite Do read the data differently. The objection was noted against the decision. A customer executive review preceded this session. An executive review preceded the packet. The disagreement is recorded rather than resolved. The minority view is preserved in the record. Northstar Cold Chain asked for the Orchestrator fleet software configuration. Go-live cycle 39 days at Tulsa. Queue depth 35 sites, Elk Grove at the front. Days outstanding 40, Pinebank Distribution the largest balance.

Yield excursion and containment log, Q4 2025

Week	Cell	First-pass yield %	Units affected	Containment in force	Disposition
W37	Harness and electrical	99	7	full inspection reinstated	hold pending study
W38	Final assembly	96	6	standard sampling	rework and release
W39	Sensor head assembly	99	9	100 percent bond-line inspection	scrap
W40	Harness and electrical	92	8	sample one in ten	use as is with concession
W41	Final assembly	99	5	shipments held	return to supplier
W42	Sensor head assembly	95	10	inspection lifted, trigger armed	hold pending study
W43	Harness and electrical	99	6	full inspection reinstated	rework and release
W44	Final assembly	93	7	standard sampling	scrap
W45	Sensor head assembly	98	8	100 percent bond-line inspection	use as is with concession
W46	Harness and electrical	91	5	sample one in ten	return to supplier
W47	Final assembly	99	10	shipments held	hold pending study
W48	Sensor head assembly	94	9	inspection lifted, trigger armed	rework and release
W49	Harness and electrical	99	7	full inspection reinstated	scrap
W50	Final assembly	96	6	standard sampling	use as is with concession
W51	Sensor head assembly	99	9	100 percent bond-line inspection	return to supplier
W52	Harness and electrical	92	8	sample one in ten	hold pending study
W01	Final assembly	99	5	shipments held	rework and release
W02	Sensor head assembly	95	10	inspection lifted, trigger armed	scrap
W03	Harness and electrical	99	6	full inspection reinstated	use as is with concession
W04	Final assembly	93	7	standard sampling	return to supplier

Decisions, owners and dates recorded in Q4 2025

Nothing was recorded as decided unless somebody in the room owned it and a date was attached to it. Owners were named and dates set against 2026-02-26. The oldest item dates from two sessions back. A customer executive review preceded this session. An executive review preceded the packet. Two due dates were changed in the room. Ingrid Solberg, Chief Financial Officer, took the largest open item. Headcount 261 of 272, Dana Whitlock reporting. Win rate 38 percent, best in Great Lakes. On-time delivery 94 percent, Ryemoor Wire Harness the outlier. Bookings 291 units across 163 pursuits.

An item was killed rather than rolled a fourth time, and the reasoning is in the record. Owners were named and dates set against 2026-02-26. One item closed with measured evidence. A customer executive review preceded this session. An executive review preceded the packet. Two due dates were changed in the room. Three items carried forward into 2026-02-26. Bookings 291 units across 163 pursuits. Headcount 261 of 272, Dana Whitlock reporting. The HS-200 tote handler took most of the test cell time. Build plan 102, actual 99, Battery packs short.

Decisions were recorded with a named owner and a date, and items without both were explicitly not recorded as decisions. Owners were named and dates set against 2026-02-26. Hollis Bramwell inherited an item after a role change. A customer executive review preceded this session. An executive review preceded the packet. Two due dates were changed

in the room. The oldest item dates from two sessions back. Functional test ran 97 percent first pass. Kennesaw carries 35 of the queued fleet. Work in process 44 units, mostly Battery packs. Uptime 98.3 percent, interventions every 398 hours.

Owners were asked to bring evidence of closure rather than a status colour, and two items failed that test. Hollis Bramwell inherited an item after a role change. Three items carried forward into 2026-02-26. A customer executive review preceded this session. An executive review preceded the packet. Two due dates were changed in the room. The oldest item dates from two sessions back. Burn 10480 thousand, runway 17 months. Days outstanding 40, Pinebank Distribution the largest balance. Headcount 261 of 272, Dana Whitlock reporting. Attrition 10 percent annualised in Great Lakes.

Action items reviewed and recorded, Q4 2025

Item	Description	Owner	Opened	Due	Status	Closing evidence
OR-2201	Make floor-marking survey a pre-install readiness gate	Priya Ramanathan	2026-02-04	2026-02-24	Open	none yet
OR-2220	Decide disposition of the superseded sensor head stock	Marcus Peil	2026-01-26	2026-02-15	Closed	memo circulated
OR-2223	Draft deposit terms for multi-site commitments	Ingrid Solberg	2026-01-22	2026-02-21	Open	outstanding
OR-2226	Set a plan freeze window inside the build month	Emil Farkas	2026-01-18	2026-02-27	In progress	outstanding
OR-2229	Split the reliability backlog by build vintage	Tobias Nkemdirim	2026-01-14	2026-03-05	Closed	report filed
OR-2232	Measure onboarding time to productivity for crews	Renata Voss	2026-01-10	2026-03-11	Open	outstanding
OR-2235	Cost the second-shift ramp against overtime	Marcus Peil	2026-01-06	2026-03-17	In progress	outstanding
OR-2238	Bring deal-level notes for the top ten pursuits	Marguerite Do	2026-01-02	2026-03-23	Closed	measured result attached
OR-2241	Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2025-12-29	2026-03-29	Open	outstanding
OR-2244	Publish the supplier scorecard with weighted criteria	Hollis Bramwell	2025-12-25	2026-04-04	In progress	outstanding
OR-2247	Complete process capability study on the bond operation	Emil Farkas	2025-12-21	2026-04-10	Closed	decision recorded
OR-2250	Re-cut the stage definitions in the pipeline report	Marguerite Do	2025-12-17	2026-04-16	Open	outstanding
OR-2253	Reconcile the two uptime definitions with the customer	Owen Castellanos	2025-12-13	2026-04-22	In progress	outstanding
OR-2256	Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2025-12-09	2026-04-28	Closed	report filed
OR-2259	Move collections calls to the account teams	Lucia Mbeki-Hart	2025-12-05	2026-05-04	Open	outstanding
