MANAGEMENT OPERATING REVIEW - RECORD 023

Helioscope Robotics, Inc. - diligence file reference OPERATING_REVIEWS-023

Monthly Business Review for February 2026: purpose and attendance

Timekeeping was enforced by the chief of staff rather than by the chair, which worked better than expected. Notes were circulated on 2026-03-05. The next session is set for 2026-04-09. The oldest fleet units turned two. Battery replacement planning began here. Sunil Achterberg, Director of Field Service, presented the operations section. Owen Castellanos attended as VP Customer Success. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Pre-read materials went out three business days ahead, and the review started from questions rather than from a walkthrough. The Monthly Business Review convened for February 2026. Sunil Achterberg, Director of Field Service, presented the operations section. The oldest fleet units turned two. Battery replacement planning began here. Notes were circulated on 2026-03-05. Owen Castellanos attended as VP Customer Success. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

One function submitted its pre-read late, and the section was taken last rather than allowed to shorten the discussion of others. Sunil Achterberg, Director of Field Service, presented the operations section. One function submitted its pre-read late. The oldest fleet units turned two. Battery replacement planning began here. Pre-reads went out ahead of the 2026-03-05 session. The Monthly Business Review convened for February 2026. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Data definitions were attached to the packet for the first time, and two functions discovered they were counting differently. One function submitted its pre-read late. The Monthly Business Review convened for February 2026. The oldest fleet units turned two. Battery replacement planning began here. Notes were circulated on 2026-03-05. Owen Castellanos attended as VP Customer Success. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Bookings against the operating plan

Bookings quality, measured by how much of the signed volume has a named site and a readiness date, improved without any change in headline volume. Havering Logistics accounted for the largest single order. Open pursuits number 171, up from 163. The oldest fleet units turned two. Battery replacement planning began here. Signed volume: 103 units, win rate 36 percent. Discount depth peaked on the Tenmile Freight multi-site award. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Two of the three regions carried the number this period, and the third missed on a single account that moved its own board meeting. Havering Logistics accounted for the largest single order. Open pursuits number 171, up from 163. The oldest fleet units turned two. Battery replacement planning began here. Intake closed at 103 units for February 2026. Signed volume: 103 units, win rate 36 percent. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Our win rate improved on new logos and weakened on expansions, an inversion of last period that nobody in the room could yet explain. Intake closed at 103 units for February 2026. Win rate held at 36 percent on 171 live opportunities. The oldest fleet units turned two. Battery replacement planning began here. Havering Logistics accounted for the largest single order. Signed volume: 103 units, win rate 36 percent. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Regional coverage remains uneven, with one seller carrying a territory that the coverage model says needs two. Signed volume: 103 units, win rate 36 percent. The book took 103 units, against 291 last period. The oldest fleet units turned two. Battery replacement planning began here. Havering Logistics accounted for the largest single order. Win rate held at 36 percent on 171 live opportunities. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Nobody in commercial believes the current forecast discipline is good enough, and the review agreed to inspect deal-level notes rather than roll-ups. Open pursuits number 171, up from 163. The book took 103 units, against 291 last period. The oldest fleet units turned two. Battery replacement planning began here. Discount depth peaked on the Tenmile Freight multi-site award. Intake closed at 103 units for February 2026. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

The competitive picture shifted, with two losses attributed to a rival that had not appeared in a deal review for three periods. Havering Logistics accounted for the largest single order. The book took 103 units, against 291 last period. The oldest fleet units turned two. Battery replacement planning began here. Intake closed at 103 units for February 2026. Signed volume: 103 units, win rate 36 percent. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Supplier delivery and lead time, February 2026

Supplier	Commodity	On-time delivery %	Quoted lead weeks	Actual lead weeks	Watch status
Kestrel Drive Systems	Drive units	92	8	9	no action
Brightwater Motion	Lidar assemblies	99	10	10	watch
Halverson Optics	Battery packs	94	12	14	escalated
Penrose Castings	Castings	100	14	14	cleared
Ironbark Sheet Metal	Sheet metal	90	15	19	second source in qualification
Calder Battery Works	Wire harness	98	11	11	on scorecard review
Tessellate Controls	Controllers	93	12	18	no action
Ryemoor Wire Harness	Caster and wheel sets	100	13	13	watch
Kestrel Drive Systems	Lidar assemblies	91	14	17	escalated
Brightwater Motion	Battery packs	96	15	15	cleared
Halverson Optics	Castings	89	11	16	second source in qualification
Penrose Castings	Sheet metal	97	12	12	on scorecard review
Ironbark Sheet Metal	Wire harness	92	13	14	no action
Calder Battery Works	Controllers	99	14	14	watch
Tessellate Controls	Caster and wheel sets	94	15	17	escalated
Ryemoor Wire Harness	Drive units	100	11	11	cleared

Pipeline and stage conversion

Slippage this period was not random: the deals that moved had a common feature, which is that the customer had no internal project owner. Conversion into commercial close remains the weak stage. Two losses went to the same competitor. The oldest fleet units turned two. Battery replacement planning began here. The Alder & Vance Retail pursuit re-dated again. Sunil Achterberg owns the re-qualification pass. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

The largest pursuit in the book carries a dependency on the customer finishing a racking project that has already been delayed twice. Sunil Achterberg owns the re-qualification pass. Weighted coverage sits near 171 open pursuits. The oldest fleet units turned two. Battery replacement planning began here. Conversion into commercial close remains the weak stage. The Alder & Vance Retail pursuit re-dated again. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Procurement cycles at the grocery accounts run longer than the model assumes, and the model has not been updated since it was written. The Alder & Vance Retail pursuit re-dated again. Deals leaving the period: 10, most still dated. The oldest fleet units turned two. Battery replacement planning began here. Weighted coverage sits near 171 open pursuits. Slippage totalled 10 opportunities against 18 before. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

One displacement pursuit has consumed more engineering support hours than the next four combined, with no commitment in return. The Alder & Vance Retail pursuit re-dated again. Conversion into commercial close remains the weak stage. The oldest fleet units turned two. Battery replacement planning began here. Two losses went to the same competitor. Weighted coverage sits near 171 open pursuits. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

The team agreed to stop reporting weighted pipeline in this meeting, on the grounds that nobody had ever acted on the number. Two losses went to the same competitor. Sunil Achterberg owns the re-qualification pass. The oldest fleet units turned two. Battery replacement planning began here. Deals leaving the period: 10, most still dated. Slippage totalled 10 opportunities against 18 before. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Of the opportunities that left the quarter, most remain live and dated, and only a minority were lost to a competitor outright. The Alder & Vance Retail pursuit re-dated again. Deals leaving the period: 10, most still dated. The oldest fleet units turned two. Battery replacement planning began here. Weighted coverage sits near 171 open pursuits. Slippage totalled 10 opportunities against 18 before. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Expedite and premium freight log, February 2026

Part number	Supplier	Reason	Freight mode	Added cost USD thousands
4253-5	Ryemoor Wire Harness	engineering change cut-in	standard road with premium	19
4258-6	Kestrel Drive Systems	customer date brought forward	courier	15
4263-7	Brightwater Motion	build plan pull-in	expedited road	13
4268-8	Halverson Optics	supplier missed commit date	air	19
4273-0	Penrose Castings	yield loss replacement	standard road with premium	17
4278-1	Ironbark Sheet Metal	spares depot backorder	courier	11
4283-2	Calder Battery Works	engineering change cut-in	expedited road	21
4288-3	Tessellate Controls	customer date brought forward	air	13
4293-4	Ryemoor Wire Harness	build plan pull-in	standard road with premium	15
4298-5	Kestrel Drive Systems	supplier missed commit date	courier	17
4303-6	Brightwater Motion	yield loss replacement	expedited road	11
4308-7	Halverson Optics	spares depot backorder	air	21
4313-8	Penrose Castings	engineering change cut-in	standard road with premium	19
4318-0	Ironbark Sheet Metal	customer date brought forward	courier	15
4323-1	Calder Battery Works	build plan pull-in	expedited road	13
4328-2	Tessellate Controls	supplier missed commit date	air	19
4333-3	Ryemoor Wire Harness	yield loss replacement	standard road with premium	17

Site queue and go-live performance

The deployment playbook was rewritten mid-period after a crew found that the network prerequisites section was three revisions out of date. Go-live cycle: 38 days, from 39. The queue carries 34 sites, 35 a period ago. The oldest fleet

units turned two. Battery replacement planning began here. Chandler South and Kennesaw both cleared acceptance testing. Queue depth reached 34 sites. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Crew travel days per site came down, largely because two regional hubs now hold enough tooling to avoid shipping kit ahead of each job. Owen Castellanos sequenced the queue by readiness. The queue carries 34 sites, 35 a period ago. The oldest fleet units turned two. Battery replacement planning began here. Go-live cycle: 38 days, from 39. Queue depth reached 34 sites. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Acceptance testing found more integration defects than mechanical ones, and the defects clustered in the warehouse-management adapter. Contract to go-live averaged 38 days. Chandler South and Kennesaw both cleared acceptance testing. The oldest fleet units turned two. Battery replacement planning began here. The queue carries 34 sites, 35 a period ago. Owen Castellanos sequenced the queue by readiness. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Installer utilisation is high enough to be a risk rather than an achievement, because there is no slack for rework travel. The queue carries 34 sites, 35 a period ago. Chandler South and Kennesaw both cleared acceptance testing. The oldest fleet units turned two. Battery replacement planning began here. Owen Castellanos sequenced the queue by readiness. Contract to go-live averaged 38 days. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Every site that slipped this period slipped for a reason on the customer side, which is a better position than last year and still not good enough. Tulsa was held at the readiness gate. Owen Castellanos sequenced the queue by readiness. The oldest fleet units turned two. Battery replacement planning began here. Contract to go-live averaged 38 days. Queue depth reached 34 sites. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Sequencing the queue by contractual date rather than by readiness produced two expensive standstills, and the rule has been reversed. Tulsa was held at the readiness gate. Queue depth reached 34 sites. The oldest fleet units turned two. Battery replacement planning began here. Owen Castellanos sequenced the queue by readiness. Go-live cycle: 38 days, from 39. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Installation capacity

Weekend and holiday work is filling gaps that the capacity model does not show, which makes the model look better than reality. Certified crew count trails the site queue of 34. Installer utilisation ran at 83 percent. The oldest fleet units turned two. Battery replacement planning began here. Utilisation was 83 percent against 86 percent. Crew leads remain the gating resource. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Crew composition changed this period, with more integration skill and less mechanical assembly skill in each team. Crew leads remain the gating resource. Utilisation was 83 percent against 86 percent. The oldest fleet units turned two. Battery replacement planning began here. Certified crew count trails the site queue of 34. Travel days per site fell again. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Scheduling crews more than six weeks out has proved futile, because customer readiness dates move inside that window. Utilisation was 83 percent against 86 percent. Hollis Bramwell covered two regions this period. The oldest fleet units turned two. Battery replacement planning began here. Installer utilisation ran at 83 percent. Crew leads remain the gating resource. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Training throughput limits how fast the crew grows, because each certifying lead can supervise one trainee per site without degrading the job. Installer utilisation ran at 83 percent. Crew leads remain the gating resource. The oldest fleet units turned two. Battery replacement planning began here. Travel days per site fell again. Utilisation was 83 percent against 86 percent. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

A crew lead shortage in one region was covered by borrowing from another, which worked once and cannot be the plan. Hollis Bramwell covered two regions this period. Certified crew count trails the site queue of 34. The oldest fleet units turned two. Battery replacement planning began here. Crew leads remain the gating resource. Redlands needed a second crew visit. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Contractor quality varied by firm rather than by individual, and the sourcing decision now reflects that. Redlands needed a second crew visit. Utilisation was 83 percent against 86 percent. The oldest fleet units turned two. Battery replacement planning began here. Travel days per site fell again. Installer utilisation ran at 83 percent. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Second-source qualification progress reviewed in February 2026

Qualification step	Candidate source	Owner	Planned date	Actual date	Result
Request for quotation issued	Brightwater Motion drive unit	Emil Farkas	2025-12-25	2025-12-23	in progress
Sample order placed	Brightwater Motion drive unit	Hollis Bramwell	2026-01-08	2026-01-09	pass
First article dimensional inspection	Brightwater Motion drive unit	Emil Farkas	2026-01-22	2026-01-26	fail, two of eight samples
Thermal soak test	Brightwater Motion drive unit	Marcus Peil	2026-02-05	2026-02-12	pass with observation
Endurance run to two thousand hours	Brightwater Motion drive unit	Tobias Nkemdirim	2026-02-19	2026-02-18	retest scheduled
Process audit at supplier	Brightwater Motion drive unit	Emil Farkas	2026-03-05	2026-03-07	complete
Production part approval	Brightwater Motion drive unit	Emil Farkas	2026-03-19	2026-03-24	in progress
First production lot	Brightwater Motion drive unit	Emil Farkas	2026-04-02	2026-04-10	pass
Request for quotation issued	Penrose Castings frame	Marcus Peil	2025-12-30	2025-12-30	fail, two of eight samples
Sample order placed	Penrose Castings frame	Hollis Bramwell	2026-01-13	2026-01-16	pass with observation
First article dimensional inspection	Penrose Castings frame	Hollis Bramwell	2026-01-27	2026-02-02	retest scheduled
Thermal soak test	Penrose Castings frame	Emil Farkas	2026-02-10	2026-02-08	complete
Endurance run to two thousand hours	Penrose Castings frame	Hollis Bramwell	2026-02-24	2026-02-25	in progress
Process audit at supplier	Penrose Castings frame	Marcus Peil	2026-03-10	2026-03-14	pass
Production part approval	Penrose Castings frame	Emil Farkas	2026-03-24	2026-03-31	fail, two of eight samples
First production lot	Penrose Castings frame	Hollis Bramwell	2026-04-07	2026-04-06	pass with observation

Plant performance

Work instructions were re-photographed for the revised sensor head, ending a period where operators worked from a printout with a pen annotation. Tobias Nkemdirim owns the line rebalance. Plan was 106 units; the line delivered 104. The oldest fleet units turned two. Battery replacement planning began here. Attainment gap: 2 units short of plan. Output reached 104 units, from 99. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Rebalancing the two assembly cells lifted output without adding people, mostly by moving the harness dress-up operation upstream. Output reached 104 units, from 99. Overtime carried the closing two weeks. The oldest fleet units turned two. Battery replacement planning began here. Tobias Nkemdirim owns the line rebalance. Work in process ended at 41 units. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Cycle time on the pallet mover remains longer than the tote handler by more than the work content justifies. Output reached 104 units, from 99. The Beacon WMS adapter drove most of the changeover time. The oldest fleet units turned two. Battery replacement planning began here. Overtime carried the closing two weeks. Plan was 106 units; the line delivered 104. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Kitting accuracy improved after the pick-to-light change, and the number of build starts held for missing parts fell accordingly. Plan was 106 units; the line delivered 104. Tobias Nkemdirim owns the line rebalance. The oldest fleet units turned two. Battery replacement planning began here. Output reached 104 units, from 99. The Beacon WMS adapter drove most of the changeover time. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Configuration variety on the order book has grown faster than the line was designed for, and changeover time shows it. Plan was 106 units; the line delivered 104. Overtime carried the closing two weeks. The oldest fleet units turned two. Battery replacement planning began here. Tobias Nkemdirim owns the line rebalance. Work in process ended at 41 units. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Build attainment against plan was short again, and the shortfall traces to component availability rather than to line throughput. Tobias Nkemdirim owns the line rebalance. The Beacon WMS adapter drove most of the changeover time. The oldest fleet units turned two. Battery replacement planning began here. Attainment gap: 2 units short of plan. Plan was 106 units; the line delivered 104. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Carried constraints

Constraint under review: field engineering capacity, at the attrition watch stage as of this session. Two certified engineers resigned in the same month, both citing travel load, so the capacity measure is back under watch even though the headcount plan is nominally met. Attrition 14 percent annualised in West. Go-live cycle 38 days at Kennesaw.

The harness supplier improved after a site visit, and the improvement is real enough to move them off the watch list. Tessellate Controls improved after a site visit. Coverage weeks on long-lead parts were extended. The oldest fleet units turned two. Battery replacement planning began here. Supplier on-time delivery came in at 95 percent. Sunil Achterberg issued the first supplier scorecards. Win rate 36 percent, best in West. Utilisation 83 percent, Crew Bravo fully committed. Attrition 14 percent annualised in West. Work in process 41 units, mostly Lidar assemblies.

Sharing a rolling forecast with the top suppliers cost nothing and moved two commit dates within a fortnight. Calder Battery Works missed two consecutive commit dates. Coverage weeks on long-lead parts were extended. The oldest fleet units turned two. Battery replacement planning began here. Tessellate Controls improved after a site visit. Supplier on-time delivery came in at 95 percent. Sensor head assembly ran 96 percent first pass. Build plan 106, actual 104, Lidar assemblies short. The HS-200 tote handler took most of the test cell time. Go-live cycle 38 days at Kennesaw.

Inventory coverage by commodity and stocking point, February 2026

Commodity	Stocking point	On hand units	Coverage weeks	Policy weeks	Action agreed
Drive units	Plant stockroom	55	12	4	disposition required
Lidar assemblies	Plant stockroom	44	1	6	raise buffer
Battery packs	Plant stockroom	40	9	8	hold policy
Castings	Plant stockroom	36	4	4	reduce to policy
Sheet metal	Plant stockroom	29	11	6	expedite inbound
Wire harness	Plant stockroom	25	2	8	review with supplier

Commodity	Stocking point	On hand units	Coverage weeks	Policy weeks	Action agreed
Controllers	Plant stockroom	81	7	4	disposition required
Caster and wheel sets	Plant stockroom	59	1	6	raise buffer
Drive units	Regional depots	27	10	8	hold policy
Lidar assemblies	Regional depots	22	5	4	reduce to policy
Battery packs	Regional depots	20	12	6	expedite inbound
Castings	Regional depots	18	7	8	review with supplier
Sheet metal	Regional depots	14	14	4	disposition required
Wire harness	Regional depots	12	3	6	raise buffer
Controllers	Regional depots	40	11	8	hold policy
Caster and wheel sets	Regional depots	29	6	4	reduce to policy

First-pass yield and rework

Containment held: nothing built in the affected window left the plant without a hundred percent inspection record attached. First-pass yield finished at 96 percent. Rework hours concentrated in the sensor cell. The oldest fleet units turned two. Battery replacement planning began here. Ironbark Sheet Metal changed a process without notice. Nadia Oyelaran signed the corrective action. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Escapes to the field are the measure that matters, and this period produced a number that the service team could absorb. Yield was 96 percent against 97 percent. Nadia Oyelaran signed the corrective action. The oldest fleet units turned two. Battery replacement planning began here. Ironbark Sheet Metal changed a process without notice. Scrap ran 16 thousand, from 14 thousand. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

A supplier process change arrived without notification and produced a yield loss that took five weeks to attribute correctly. Ironbark Sheet Metal changed a process without notice. First-pass yield finished at 96 percent. The oldest fleet units turned two. Battery replacement planning began here. Yield was 96 percent against 97 percent. Nadia Oyelaran signed the corrective action. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Warranty claims lag the build date by months, so the yield excursion will keep appearing in service data after the plant has moved on. Ironbark Sheet Metal changed a process without notice. Scrap totalled 16 thousand dollars. The oldest fleet units turned two. Battery replacement planning began here. Nadia Oyelaran signed the corrective action. Scrap ran 16 thousand, from 14 thousand. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

First-pass yield is the metric that moved most this period, and the movement is confined to one cell rather than spread across the line. Scrap totalled 16 thousand dollars. Ironbark Sheet Metal changed a process without notice. The oldest fleet units turned two. Battery replacement planning began here. Yield was 96 percent against 97 percent. First-pass yield finished at 96 percent. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Root cause work took longer than the containment did, which is the correct order and still frustrating to watch. Ironbark Sheet Metal changed a process without notice. Rework hours concentrated in the sensor cell. The oldest fleet units turned two. Battery replacement planning began here. Nadia Oyelaran signed the corrective action. First-pass yield finished at 96 percent. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Inbound supply position

Supplier scorecards were issued for the first time with delivery, quality and responsiveness weighted, and the ranking surprised nobody. Supplier on-time delivery came in at 95 percent. Expedite activity rose with the build plan of 106. The oldest fleet units turned two. Battery replacement planning began here. On-time delivery was 95 percent, from 94 percent. Coverage weeks on long-lead parts were extended. Burn 3520 thousand, runway 18 months. Crew Bravo

closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

The harness supplier improved after a site visit, and the improvement is real enough to move them off the watch list. On-time delivery was 95 percent, from 94 percent. Supplier on-time delivery came in at 95 percent. The oldest fleet units turned two. Battery replacement planning began here. Coverage weeks on long-lead parts were extended. Calder Battery Works missed two consecutive commit dates. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Sharing a rolling forecast with the top suppliers cost nothing and moved two commit dates within a fortnight. Supplier on-time delivery came in at 95 percent. Expedite activity rose with the build plan of 106. The oldest fleet units turned two. Battery replacement planning began here. On-time delivery was 95 percent, from 94 percent. Coverage weeks on long-lead parts were extended. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Supplier on-time delivery deteriorated across the board rather than at a single vendor, which points at demand signal quality on our side. Supplier on-time delivery came in at 95 percent. Sunil Achterberg issued the first supplier scorecards. The oldest fleet units turned two. Battery replacement planning began here. Calder Battery Works missed two consecutive commit dates. Expedite activity rose with the build plan of 106. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Second-source qualification is slow, unglamorous work that removes the only single point of failure left in the drive train. Calder Battery Works missed two consecutive commit dates. Sunil Achterberg issued the first supplier scorecards. The oldest fleet units turned two. Battery replacement planning began here. Supplier on-time delivery came in at 95 percent. Expedite activity rose with the build plan of 106. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Component cost movement was mild, and the review spent its time on availability instead because that is what is hurting. Calder Battery Works missed two consecutive commit dates. On-time delivery was 95 percent, from 94 percent. The oldest fleet units turned two. Battery replacement planning began here. Expedite activity rose with the build plan of 106. Sunil Achterberg issued the first supplier scorecards. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Work in process ageing at the February 2026 cut-off

Build lot	Units	Days in work in process	Held for	Expected release
LOT-2301	10	17	controller firmware load	2026-03-10
LOT-2302	6	8	customer configuration decision	2026-03-14
LOT-2303	5	23	test cell slot	2026-03-18
LOT-2304	5	6	harness rework	2026-03-22
LOT-2305	3	13	nothing, awaiting ship date	2026-03-26
LOT-2306	3	2	drive unit	2026-03-30
LOT-2307	1	17	lidar window assembly	2026-04-03

Build lot	Units	Days in work in process	Held for	Expected release
LOT-2318	4	2	harness rework	2026-05-17

Work in process and buffers

Spare-part inventory and production inventory are competing for the same components, and production keeps winning by default. Kit shortages were concentrated in low-value parts. Work in process moved from 44 to 41 units. The oldest fleet units turned two. Battery replacement planning began here. Work in process closed at 41 units. Excess exposure sits in the superseded sensor head. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

The stockroom is holding parts for a configuration that has not been ordered in three quarters, and no one had noticed. Buffer stock on the drive unit was raised deliberately. Floor space in staging is now the binding limit. The oldest fleet units turned two. Battery replacement planning began here. Kit shortages were concentrated in low-value parts. Work in process moved from 44 to 41 units. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Long-lead buying decisions made two quarters ago are what the stockroom looks like today, for better and worse. Floor space in staging is now the binding limit. Owen Castellanos owns the disposition decision. The oldest fleet units turned two. Battery replacement planning began here. Work in process closed at 41 units. Kit shortages were concentrated in low-value parts. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Work in process climbed because units are being held for a single missing part rather than because the line slowed down. Work in process closed at 41 units. Owen Castellanos owns the disposition decision. The oldest fleet units turned two. Battery replacement planning began here. Kit shortages were concentrated in low-value parts. Floor space in staging is now the binding limit. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Excess and obsolete exposure sits almost entirely in the superseded sensor head, and the disposition decision has been deferred twice. Floor space in staging is now the binding limit. Work in process closed at 41 units. The oldest fleet units turned two. Battery replacement planning began here. Excess exposure sits in the superseded sensor head. Buffer stock on the drive unit was raised deliberately. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Consignment terms with two suppliers would change the cash picture more than any other inventory action available. Kit shortages were concentrated in low-value parts. Excess exposure sits in the superseded sensor head. The oldest fleet units turned two. Battery replacement planning began here. Floor space in staging is now the binding limit. Work in process closed at 41 units. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Fleet uptime by live site, February 2026

Site	Fleet units	Uptime %	Contract floor %	Service credit exposure
Ashland Park	22	98.4	96.0	none
Riverbend	18	99.1	97.0	none
Kennesaw	16	98.0	97.0	none
Fort Dodge	22	98.8	96.0	none
Salinas Valley	20	98.3	97.0	none
Chandler South	14	99.0	97.0	none
Elk Grove	24	98.1	96.0	none
Cedar Bluff	16	98.6	97.0	none
Norfolk	18	97.9	97.0	none
Tulsa	20	98.7	96.0	none
Redlands	14	98.2	97.0	none
Grand Forks	24	98.9	97.0	none
Waukegan	22	98.4	96.0	none
Mesquite	18	99.1	97.0	none

Site	Fleet units	Uptime %	Contract floor %	Service credit exposure
Ashland Park (phase two)	16	97.7	97.0	none
Riverbend (phase two)	22	98.5	96.0	none
Kennesaw (phase two)	20	98.0	97.0	none
Fort Dodge (phase two)	14	98.7	97.0	none
Salinas Valley (phase two)	24	97.8	96.0	none
Chandler South (phase two)	16	98.3	97.0	none

Roadmap against commitments

Engineering capacity allocation between new sites and installed base was reset toward the installed base this period. Adapter work crowded out platform work again. Field data now sets the reliability backlog order. The oldest fleet units turned two. Battery replacement planning began here. Owen Castellanos brought the decision to stop one feature. Release staging across sites is now standard. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Integration variety across warehouse hosts is the tax the roadmap pays every quarter. Field data now sets the reliability backlog order. Adapter work crowded out platform work again. The oldest fleet units turned two. Battery replacement planning began here. Release staging across sites is now standard. Documentation lags the current release. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

The warehouse-management adapter absorbed more engineering effort than any other item, and integration variety is the reason. Field data now sets the reliability backlog order. Release staging across sites is now standard. The oldest fleet units turned two. Battery replacement planning began here. Adapter work crowded out platform work again. Documentation lags the current release. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Customer-specific work is crowding out platform work, and the review asked for the ratio to be measured rather than debated. Documentation lags the current release. Field data now sets the reliability backlog order. The oldest fleet units turned two. Battery replacement planning began here. The HS-200 tote handler absorbed most of the engineering effort. Adapter work crowded out platform work again. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Product management brought a decision to stop building one feature, and the review supported stopping it. The HS-200 tote handler absorbed most of the engineering effort. Release staging across sites is now standard. The oldest fleet units turned two. Battery replacement planning began here. Field data now sets the reliability backlog order. Owen Castellanos brought the decision to stop one feature. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Simulation coverage before release improved, and the last two releases produced fewer field regressions as a result. Documentation lags the current release. Field data now sets the reliability backlog order. The oldest fleet units turned two. Battery replacement planning began here. The HS-200 tote handler absorbed most of the engineering effort. Owen Castellanos brought the decision to stop one feature. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Unresolved positions

The stricter uptime definition won on the argument that a customer will use it whether we do or not. The objection was noted against the decision. Sunil Achterberg and Owen Castellanos read the data differently. The oldest fleet units turned two. Battery replacement planning began here. The minority view is preserved in the record. Nadia Oyelaran asked for the decision to be revisited. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

Operations and commercial did not reach agreement on how the site queue should be sequenced, and the chair decided. The minority view is preserved in the record. Nadia Oyelaran asked for the decision to be revisited. The oldest fleet units turned two. Battery replacement planning began here. A further test was added because of the dissent. No consensus was reached; the Chief Operating Officer decided. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

One participant asked for the decision to be revisited with better data, and the request was granted with a date attached. A further test was added because of the dissent. Nadia Oyelaran asked for the decision to be revisited. The oldest fleet units turned two. Battery replacement planning began here. The minority view is preserved in the record. The objection was noted against the decision. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

A minority view held that the second-source qualification was being rushed, and a further test was added because of it. A further test was added because of the dissent. Sunil Achterberg and Owen Castellanos read the data differently. The oldest fleet units turned two. Battery replacement planning began here. The objection was noted against the decision. Nadia Oyelaran asked for the decision to be revisited. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

The plant manager objected to another plan revision inside the month and asked for a freeze window, which was granted in part. A further test was added because of the dissent. Nadia Oyelaran asked for the decision to be revisited. The oldest fleet units turned two. Battery replacement planning began here. The minority view is preserved in the record. Sunil Achterberg and Owen Castellanos read the data differently. Work in process 41 units, mostly Lidar assemblies. Alder & Vance Retail asked for the Beacon WMS adapter configuration. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Whether a deferral saves money depends on which function is counting, and both counts were tabled. No consensus was reached; the Chief Operating Officer decided. The disagreement is recorded rather than resolved. The oldest fleet units turned two. Battery replacement planning began here. Nadia Oyelaran asked for the decision to be revisited. A further test was added because of the dissent. Uptime 98.5 percent, interventions every 421 hours. Queue depth 34 sites, Chandler South at the front. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Depot fill 96 percent at Atlanta depot.

Intervention causes across the fleet, February 2026

Cause category	Site band	Interventions	Share of total %	Accountable party	Trend
Floor marking and facility	ten largest sites	4	3.3	Product	flat
Operator intervention	ten largest sites	19	15.8	Customer facility team	worsening
Navigation software	ten largest sites	14	11.7	Customer operations	improving sharply
Drive unit hardware	ten largest sites	11	9.2	Engineering	first period measured
Sensor head hardware	ten largest sites	8	6.7	Manufacturing	improving
Warehouse management interface	ten largest sites	7	5.8	Field service	flat
Battery and charging	ten largest sites	5	4.2	Product	worsening
Unclassified	ten largest sites	4	3.3	Customer facility team	improving sharply
Floor marking and facility	remaining sites	2	1.7	Customer operations	first period measured
Operator intervention	remaining sites	11	9.2	Engineering	improving
Navigation software	remaining sites	7	5.8	Manufacturing	flat
Drive unit hardware	remaining sites	6	5.0	Field service	worsening
Sensor head hardware	remaining sites	5	4.2	Product	improving sharply
Warehouse management interface	remaining sites	4	3.3	Customer facility team	first period measured
Battery and charging	remaining sites	3	2.5	Customer operations	improving
Unclassified	remaining sites	2	1.7	Engineering	flat

Decisions, owners and dates recorded in February 2026

Escalation out of this forum happens on capital and on customer commitments, and on nothing else. One item closed with measured evidence. Owners were named and dates set against 2026-04-09. The oldest fleet units turned two. Battery replacement planning began here. Hollis Bramwell, Director of Supply Chain, took the largest open item. Three items carried forward into 2026-04-09. Burn 3520 thousand, runway 18 months. Crew Bravo closed Redlands without a second visit. Days outstanding 42, Havering Logistics the largest balance. Capital spend 330 thousand this period.

An item that had rolled twice was closed by decision rather than by completion, with the rationale written down. Two due dates were changed in the room. The oldest item dates from two sessions back. The oldest fleet units turned two. Battery replacement planning began here. Three items carried forward into 2026-04-09. One item closed with measured evidence. On-time delivery 95 percent, Ironbark Sheet Metal the outlier. Crew Bravo closed Redlands without a second visit. Requisitions open 24, Owen Castellanos holding the list. Tobias Nkemdirim and Nadia Oyelaran disagreed on sequencing.

Due dates were set against the next meeting rather than against a vague month end, which improved follow-through visibly. Three items carried forward into 2026-04-09. Hollis Bramwell, Director of Supply Chain, took the largest open item. The oldest fleet units turned two. Battery replacement planning began here. Two due dates were changed in the room. Owners were named and dates set against 2026-04-09. Queue depth 34 sites, Chandler South at the front. Crew Bravo closed Redlands without a second visit. Utilisation 83 percent, Crew Bravo fully committed. Headcount 269 of 281, Sunil Achterberg reporting.

Two owners pushed back on dates they had not been consulted about, and the dates were changed in the room. Tobias Nkemdirim inherited an item after a role change. The oldest item dates from two sessions back. The oldest fleet units turned two. Battery replacement planning began here. Hollis Bramwell, Director of Supply Chain, took the largest open item. Owners were named and dates set against 2026-04-09. Capital spend 330 thousand this period. Requisitions open 24, Owen Castellanos holding the list. Tulsa carries 34 of the queued fleet. Attrition 14 percent annualised in West.

Action register as it stood after the February 2026 session

Action	Accountable owner	First raised	Revised due date	State	Note
OR-1803 Stand up crew lead certification pipeline	Sunil Achterberg	2025-09-04	2026-04-02	Closed	certified crew-weeks report replacing requisition count
OR-2201 Make floor-marking survey a pre-install readiness gate	Griffin Tasse	2026-02-04	2026-03-29	Open, date revised	partial
OR-2320 Bring deal-level notes for the top ten pursuits	Marguerite Do	2026-02-24	2026-03-16	Closed by decision	measured result attached
OR-2323 Complete process capability study on the bond operation	Emil Farkas	2026-02-20	2026-03-22	Open, date revised	outstanding
OR-2326 Publish the supplier scorecard with weighted criteria	Hollis Bramwell	2026-02-16	2026-03-28	Blocked	outstanding
OR-2329 Read the tooling ownership clauses on four part numbers	Hollis Bramwell	2026-02-12	2026-04-03	Closed by decision	decision recorded
OR-2332 Refresh compensation bands for field engineering	Renata Voss	2026-02-08	2026-04-09	Open, date revised	outstanding
OR-2335 Split the reliability backlog by build vintage	Tobias Nkemdirim	2026-02-04	2026-04-15	Blocked	outstanding
OR-2338 Re-cut the stage definitions in the pipeline report	Marguerite Do	2026-01-31	2026-04-21	Closed by decision	report filed
OR-2341 Move collections calls to the account teams	Lucia Mbeki-Hart	2026-01-27	2026-04-27	Open, date revised	outstanding
OR-2344 Measure onboarding time to	Renata Voss	2026-01-23	2026-05-03	Blocked	outstanding

Action	Accountable owner	First raised	Revised due date	State	Note
productivity for crews					
OR-2347 Draft deposit terms for multi-site commitments	Ingrid Solberg	2026-01-19	2026-05-09	Closed by decision	report filed
OR-2350 Stage software releases across sites rather than at once	Griffin Tasse	2026-01-15	2026-05-15	Open, date revised	outstanding
OR-2353 Decide disposition of the superseded sensor head stock	Marcus Peil	2026-01-11	2026-05-21	Blocked	outstanding
OR-2356 Rebuild the site cost model separating retrofit from greenfield	Marcus Peil	2026-01-07	2026-05-27	Closed by decision	memo circulated
OR-2359 Reissue the deployment playbook network section	Priya Ramanathan	2026-01-03	2026-06-02	Open, date revised	outstanding
OR-2362 Set a plan freeze window inside the build month	Emil Farkas	2025-12-30	2026-06-08	Blocked	outstanding
