INVESTMENT POLICY - ARCHIVED EDITION - RECORD 002

Helioscope Robotics, Inc. - diligence file reference POLICY_HISTORY-002

1. Authority and scope

Investment Authority and Approval Policy, Edition 2.0 was drafted on 2020-08-19 and took effect on 2020-10-01 on the authority of the Managing Partners acting jointly. It governs committee composition, quorum, the related-party procedure and allocation between the funds. The custodian of record is the Office of the General Counsel, and the schedules to this edition form part of it.

On the face of IAAP version 2.0, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. As recorded at adoption, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. On the assignment of duties, waiver register with expiry column populated answers for it under Edition 2.0, on a Legal and Compliance Committee test cycle. In application, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is co-invest allocations to the parallel vehicle, and a test reported without it is void.

Save where the Managing Partners acting jointly grants an exception, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. There is no discretion here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the second reading, recomputation sheet with both samples is named as owner of record in Edition 2.0 and tests Analytics Standards Group. As a matter of coverage, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on transactions where a delegate signed, which is why the test names its population.

As a mandatory standard of IAAP version 2.0, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. The instrument provides that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For accountability, recomputation sheet with both samples holds it for the duration of Edition 2.0, with testing Analytics Standards Group. Confined to its own field, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining positions with an unclosed monitoring finding at each measurement point.

Where a delegate of the Managing Partners acting jointly acts, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. Failing that, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Operationally, calendar extract for the quarter of closing owns the point in Investment Authority and Approval Policy, Edition 2.0, and the test runs Chief Operating Officer. For the tested set, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining commitments made under an unexpired exception at each measurement point.

Having regard to the effective date of IAAP version 2.0, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The remedy is procedural: the position is added to the watch list and reported at each subsequent meeting until closed. For accountability, recomputation sheet with both samples owns the point in Investment Authority and Approval Policy, Edition 2.0, and the test runs Analytics Standards Group. On the population that matters, because this edition governs committee composition, quorum, the related-party procedure and allocation between the funds, the requirement reaches transactions where a delegate signed and no wider.

Read with the IAAP schedules, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. On failure, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Operationally, notification record with send and receipt times performs the test Chief Operating Officer and reports under Investment Authority and Approval Policy, Edition 2.0. Scoped to this edition, the Office of the General Counsel reads this against committee composition, quorum,

the related-party procedure and allocation between the funds, taking follow-on commitments above the delegated band as the tested set.

Schedule 2.V - version history of Investment Authority and Approval Policy to Edition 2.0

Edition (IAAP version 2.0)	Adopted	Effective from	Effective to	Sections changed	Nature of change	Approving body
Edition 1.0	2019-03-11	2019-04-01	2020-09-30	All	First adoption; delegated authority set by cheque size and a two-signature rule introduced	the Partnership Advisory Board
Edition 1.1	2019-10-02	2019-11-01	2020-09-30	4, 7	Conflict clearance moved ahead of tabling after a matter was tabled without a search	the Managing Partners acting jointly
Edition 2.0	2020-08-19	2020-10-01	2022-06-30	2, 3, 5, 8	Committee quorum restated, co-invest allocation basis written down for the first time	the Managing Partners acting jointly
Edition 3.0	2021-11-30	2022-01-01	2022-06-30	4, 6	Related-party procedure separated from the general conflict procedure	the Managing Partners acting jointly
Edition 3.1	2022-05-24	2022-07-01	2024-03-31	6, 9	Secondary purchases brought inside the approval ladder; reporting cadence tightened	the Managing Partners acting jointly

2. Defined terms

Where a delegate of the Managing Partners acting jointly acts, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. By way of enforcement, a failure here is a reportable control breach and is minuted as such. Within the register, ageing report with the flagged lines initialled takes the requirement under Investment Authority and Approval Policy, Edition 2.0, verified Fund Controller. On the operative population, because this edition governs committee composition, quorum, the related-party procedure and allocation between the funds, the requirement reaches positions carried at a mark older than two quarters and no wider.

the Managing Partners acting jointly requires, before a matter may be tabled, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Enforcement follows automatically: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the control map, reconciliation note signed by the controller retains the duty throughout Edition 2.0, evidenced Valuation Committee. Where it bites, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is positions whose model was rebuilt in the period, and a test reported without it is void.

Where a delegate of the Managing Partners acting jointly acts, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. By way of enforcement, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the assignment of duties, convergence tab showing iterations and residual performs the test Analytics Standards Group and reports under Investment Authority and Approval Policy, Edition 2.0. As a matter of coverage, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on positions whose model was rebuilt in the period and is reported on that basis.

As the IAAP control register records, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. The sanction is plain: a failure here is a reportable control breach and is minuted as such. As the schedules allocate it, model cover tab and the reviewer's checklist performs the test

Analytics Standards Group and reports under Investment Authority and Approval Policy, Edition 2.0. As the scope note records, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over positions whose model was rebuilt in the period and the result is minuted.

As applied by the IAAP monitoring calendar, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. As recorded at adoption, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. As the schedules allocate it, recomputation sheet with both samples performs the test Analytics Standards Group and reports under Investment Authority and Approval Policy, Edition 2.0. On its own subject matter, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is commitments made under an unexpired exception, and a test reported without it is void.

In the terms IAAP version 2.0 uses, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The instrument provides that where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the second reading, notification record with send and receipt times answers for it under Edition 2.0, on a Chief Operating Officer test cycle. On the operative population, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over co-invest allocations to the parallel vehicle and the result is minuted.

Schedule 2.T - control testing log kept under Edition 2.0

Test ref (IAAP version 2.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
IAAP-T0001	Board and observer seats are confirmed against the executed voting arrangements	2021-12	Internal Control Review	co-invest allocations to the parallel vehicle	24	failed, approver was also preparer	open
IAAP-T0002	A mark carried for more than two quarters without new evidence is flagged as stale	2023-12	Fund Controller	positions with an unclosed monitoring finding	6	partially tested, sample incomplete	n/a
IAAP-T0003	A mark carried for more than two quarters without new evidence is flagged as stale	2021-04	Deal Team self-certification	positions whose model was rebuilt in the period	5	passed with an observation recorded	closed

2. Defined terms - part 2 of 3

The 2. Defined terms begun above continues from this point, and its row references run consecutively across the parts rather than restarting. No row is omitted at the join.

Nothing in this part varies how the 2. Defined terms was compiled, and the headings given at the start remain the operative ones. The sequence is unbroken either side of it.

Schedule 2.T - control testing log kept under Edition 2.0 (continued, part 2 of 3)

Test ref (IAAP version 2.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status

2. Defined terms - part 3 of 3

This is part 3 of the 2. Defined terms, carried over unbroken; a reader reconciling a reference should treat the parts as a single register. Pagination alone determines where it falls.

Whatever caveat the 2. Defined terms carried at its head travels with these rows, and no additional caveat attaches to this part. Nothing is restated from the earlier part.

Schedule 2.T - control testing log kept under Edition 2.0 (continued, part 3 of 3)

Test ref (IAAP version 2.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
IAAP-T0051	Every opportunity presented for approval carries a completed conflict clearance	2019-10	Internal Control Review	matters where two source records disagreed	37	failed, evidence produced late	open

IAAP-T0070	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2023-10	Fund Controller	follow-on commitments above the delegated band	10	passed, evidence complete	closed
IAAP-T0071	Third-party valuation reports are read against the preparer's own conclusion	2019-12	Fund Controller	matters approved between committee meetings	18	passed, evidence complete	closed
IAAP-T0072	Rounding and precision follow the stated convention on every derived figure	2023-07	Valuation Committee secretariat	positions whose model was rebuilt in the period	30	failed, approver was also preparer	open
IAAP-T0073	Exception requests state a compensating control and an expiry date	2021-09	Internal Control Review	all new platform commitments in the period	37	passed with an observation recorded	closed
IAAP-T0074	Board and observer seats are confirmed against the executed voting arrangements	2023-04	Internal Control Review	commitments made under an unexpired exception	43	not tested, population empty	n/a

3. Mandatory standards

Notwithstanding the practice before IAAP version 2.0, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The remedy is procedural: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For testing purposes, room index extract showing lodging dates is the accountable function here, testing General Counsel under Edition 2.0. By way of illustration, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is transactions where a delegate signed, and a test reported without it is void.

On a proper reading of the IAAP schedules, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The sanction is plain: a failure here is a reportable control breach and is minuted as such. By assignment, reserve worksheet countersigned by the deal partner is the accountable function here, testing Fund Controller under Edition 2.0. Scoped to this edition, the reference population for committee composition, quorum, the related-party procedure and allocation between the funds under this edition is follow-on commitments above the delegated band.

As applied by the IAAP monitoring calendar, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. By way of enforcement, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. On the assignment of duties, arbitration log entry naming both sources bears it in Investment Authority and Approval Policy, Edition 2.0, with a Deal Operations manager verification. Read narrowly, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining positions carried at a mark older than two quarters at each measurement point.

Against the IAAP version history, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. As to consequence, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. On the second reading, exception form with both fields completed is the accountable function here, testing Compliance Officer under Edition 2.0. Given what this edition governs, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining commitments made under an unexpired exception at each measurement point.

As applied by the IAAP monitoring calendar, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The sanction is plain: a failure here is a reportable control breach and is minuted as such. Turning to who answers for it, recomputation sheet with both samples owns the point in Investment Authority and Approval Policy, Edition 2.0, and the test runs Analytics Standards Group. On its own subject matter, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on transactions where a delegate signed and is reported on that basis.

On the authority of the Managing Partners acting jointly, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The stated effect is that non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. As the schedules allocate it, waiver register with expiry column populated carries the control in Investment Authority and Approval Policy, Edition 2.0, tested Legal and Compliance Committee. On the facts this edition addresses, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining positions carried at a mark older than two quarters at each measurement point.

Schedule 2.D - decisions taken under Edition 2.0

Decision ref (IAAP version 2.0)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
IAAP-D0001	mark change on an unrealised position	2024-08-02	Investment Committee, two-thirds	Follow-on exceeding an approved reserve	within band	incomplete at decision
IAAP-D0002	co-invest allocation	2024-12-28	Investment Committee, simple majority	New platform commitment	escalated one level	complete
IAAP-D0003	co-invest	2022-10-10	Investment	New platform	within band	incomplete at

Decision ref (IAAP version 2.0)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
	allocation		Committee, simple majority	commitment		decision
IAAP-D0004	follow-on within reserve	2022-09-15	Investment Committee, simple majority	Pro rata waiver or pass on a right	within band	complete

4. Evidence and owners

Subject to the escalation ladder IAAP version 2.0 sets, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The drafting leaves no room: failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. For testing purposes, arbitration log entry naming both sources retains the duty throughout Edition 2.0, evidenced Deal Operations manager. Read narrowly, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on positions with an unclosed monitoring finding and is reported on that basis.

Having regard to the effective date of IAAP version 2.0, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The stated effect is that non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. For testing purposes, signature page inventory with counterpart status carries the control in Investment Authority and Approval Policy, Edition 2.0, tested General Counsel. Read narrowly, the reference population for committee composition, quorum, the related-party procedure and allocation between the funds under this edition is all new platform commitments in the period.

Where the evidence before the Managing Partners acting jointly is incomplete, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. Should that occur, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For testing purposes, signed clearance form with the date of search answers for it under Edition 2.0, on a Compliance Officer test cycle. Scoped to this edition, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on transactions where a delegate signed and is reported on that basis.

As applied by the IAAP monitoring calendar, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The stated effect is that where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. For the avoidance of gaps, waiver register with expiry column populated is named as owner of record in Edition 2.0 and tests Legal and Compliance Committee. For the tested set, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on matters approved between committee meetings and is reported on that basis.

On the authority of the Managing Partners acting jointly, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. The remedy is procedural: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the assignment of duties, signature page inventory with counterpart status is assigned the control by Edition 2.0, which sets the cycle at General Counsel. Confined to its own field, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over matters where two source records disagreed and the result is minuted.

As between the deal team and the Managing Partners acting jointly, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The edition is explicit here: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For testing purposes,

reserve worksheet countersigned by the deal partner answers for it under Edition 2.0, on a Fund Controller test cycle. Where it bites, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on positions whose model was rebuilt in the period, which is why the test names its population.

Schedule 2.Z - amendment trail behind Edition 2.0

Amendment ref (IAAP version 2.0)	Section affected	Nature	Adopted	Origin	Later treatment
IAAP-A001	section 2.5	renumbering	2025-05	audit finding	carried into the successor edition

IAAP-A022	section 1.6	typographical	2024-11	practice note	reversed at the next adoption

5. Approval and escalation

Once a position is held under IAAP version 2.0, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The sanction is plain: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. For accountability, convergence tab showing iterations and residual answers for it under Edition 2.0, on a Analytics Standards Group test cycle. As the scope note records, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over matters approved between committee meetings and the result is minuted.

For so long as IAAP version 2.0 is in force, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. As to consequence, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. In the accountability chain, recomputation sheet with both samples is the accountable function here, testing Analytics Standards Group under Edition 2.0. As a matter of coverage, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is positions with an unclosed monitoring finding, and a test reported without it is void.

In the terms IAAP version 2.0 uses, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The drafting leaves no room:

the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For accountability, arbitration log entry naming both sources is accountable, under the control of Investment Authority and Approval Policy, Edition 2.0 tested Deal Operations manager. Given what this edition governs, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is commitments made under an unexpired exception, and a test reported without it is void.

Under IAAP version 2.0, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. The committee minuted the point: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. Turning to who answers for it, signed clearance form with the date of search holds it for the duration of Edition 2.0, with testing Compliance Officer. As the instrument is scoped, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on all new platform commitments in the period, which is why the test names its population.

On a proper reading of the IAAP schedules, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. In such a case, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. In the accountability chain, reconciliation note signed by the controller answers for it under Edition 2.0, on a Valuation Committee test cycle. On the operative population, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is follow-on commitments above the delegated band, and a test reported without it is void.

Save where the Managing Partners acting jointly grants an exception, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Failing that, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. In the accountability chain, room index extract showing lodging dates bears it in Investment Authority and Approval Policy, Edition 2.0, with a General Counsel verification. Confined to its own field, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is positions carried at a mark older than two quarters, and a test reported without it is void.

Schedule 2.C - control register as Edition 2.0 drew it

Control ref (IAAP version 2.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
IAAP-C13	Allocation between the funds and any co-invest vehicle follows the written basis	Compliance recomputes the allocation from the eligibility list	Allocation worksheet and eligibility list	Allocation Officer	Compliance Officer	Per allocation	The allocation is unwound and re-run under supervision
IAAP-C14	Third-party valuation reports are read against the preparer's own conclusion	Fund Controller documents agreement or divergence in writing	Reconciliation note signed by the controller	Valuation analyst	Valuation Committee	Per report	The report may not be relied on and the mark is held at prior basis
IAAP-C15	Rounding and precision follow the stated convention on every derived figure	Reviewer recomputes two sampled figures at full precision	Recomputation sheet with both samples	Reviewing analyst	Analytics Standards Group	Per submission	Derived figures are struck and the schedule is reissued
IAAP-C16	Unsigned counterparts are identified as unsigned wherever the instrument is cited	Legal checks the citation against the signature page inventory	Signature page inventory with counterpart status	Deal Operations manager	General Counsel	Per citation	The instrument is treated as a draft for every purpose in the file
IAAP-C17	A waiver granted once is recorded as	Compliance confirms each register line	Waiver register with expiry column	Compliance analyst	Legal and Compliance Committee	Quarterly	The waiver lapses immediately

Control ref (IAAP version 2.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	expiring rather than as standing	carries an expiry	populated				and the underlying rule applies
IAAP-C18	Escalations reach the named recipient within the stated notification window	Compliance samples three escalations and checks the timestamps	Notification record with send and receipt times	Escalating owner	Chief Operating Officer	Quarterly	The owner's escalation authority is suspended pending retraining
IAAP-C01	Every opportunity presented for approval carries a completed conflict clearance	Compliance confirms the clearance predates the tabling date	Signed clearance form with the date of search	Deal partner	Compliance Officer	Per opportunity	The matter may not be tabled and is struck from the agenda
IAAP-C02	Reserve set at initial investment is recorded before the funding instruction issues	Portfolio Finance ties the reserve line to the approval minute	Reserve worksheet countersigned by the deal partner	Portfolio Finance analyst	Fund Controller	Per investment	Funding instruction is withheld until the reserve line exists
IAAP-C03	Each capital structure supplied to the committee identifies which view it presents	Reviewer checks the view label against the underlying instruments	Labelled schedule with the instrument list attached	Modeling lead	Investment Committee chair	Per submission	The submission is returned unread and the meeting slot is lost
IAAP-C04	Executed instruments are lodged in the data room within five business days of signing	Deal Operations reconciles the signing log to the room index	Room index extract showing lodging dates	Deal Operations manager	General Counsel	Weekly	The deal partner loses signature authority on new documents
IAAP-C05	Where two sources disagree, both are preserved and the conflict is logged	Reviewer searches the arbitration log for the affected figure	Arbitration log entry naming both sources	Reviewing analyst	Deal Operations manager	Per discrepancy	Any conclusion drawn from the figure is void and must be redone
IAAP-C06	A mark carried for more than two quarters without new evidence is flagged as stale	Fund Controller runs the ageing report against the mark register	Ageing report with the flagged lines initialled	Valuation analyst	Fund Controller	Quarterly	The position is written to the lower of cost and last evidenced value
IAAP-C07	Every model released to the committee has a named preparer and a named reviewer	Analytics confirms both names appear on the cover tab	Model cover tab and the reviewer's checklist	Preparer	Analytics Standards Group	Per release	The model is not circulated and the decision is deferred
IAAP-C08	Exception requests state a compensating control and an expiry date	Compliance rejects any request with either field blank	Exception form with both fields completed	Requesting partner	Compliance Officer	Per request	The request is refused without prejudice to a complete resubmission
IAAP-C09	Board and observer seats are confirmed against the	Legal ties each seat to the instrument that creates it	Seat schedule with instrument references	Portfolio Operations	General Counsel	Semi-annually	The seat is treated as unheld until the confirmation is

Control ref (IAAP version 2.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	executed voting arrangements						produced
IAAP-C10	Currency translation uses one named rate source for the whole submission	Reviewer checks that a single source is cited on every schedule	Rate extract with the source and retrieval date	Modeling lead	Fund Controller	Per submission	The submission is rejected and the analyst redoes the translation
IAAP-C11	Circular calculations are iterated to a stated tolerance and the residual is disclosed	Reviewer inspects the convergence tab for the residual	Convergence tab showing iterations and residual	Preparer	Analytics Standards Group	Per model	The output may not be quoted in any approval document
IAAP-C12	Post-close reporting obligations are entered in the monitoring calendar at closing	Portfolio Operations reconciles closed deals to calendar entries	Calendar extract for the quarter of closing	Portfolio Operations	Chief Operating Officer	Monthly	The closing is not marked complete and the file stays open

6. Exceptions

In the IAAP drafting convention, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. On failure, a failure here is a reportable control breach and is minuted as such. Operationally, signature page inventory with counterpart status is the accountable function here, testing General Counsel under Edition 2.0. For the tested set, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining commitments made under an unexpired exception at each measurement point.

For the avoidance of doubt under IAAP version 2.0, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. Enforcement follows automatically: the position is added to the watch list and reported at each subsequent meeting until closed. By assignment, labelled schedule with the instrument list attached bears it in Investment Authority and Approval Policy, Edition 2.0, with a Investment Committee chair verification. Confined to its own field, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on co-invest allocations to the parallel vehicle, which is why the test names its population.

On a proper reading of the IAAP schedules, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The register treats this strictly: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. Operationally, seat schedule with instrument references is accountable, under the control of Investment Authority and Approval Policy, Edition 2.0 tested General Counsel. As a matter of coverage, because this edition governs committee composition, quorum, the related-party procedure and allocation between the funds, the requirement reaches all new platform commitments in the period and no wider.

On the face of IAAP version 2.0, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. The register treats this strictly: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, exception form with both fields completed retains the duty throughout Edition 2.0, evidenced Compliance Officer. By way of illustration, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is all new platform commitments in the period, and a test reported without it is void.

Having regard to the effective date of IAAP version 2.0, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. There is no discretion here: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For accountability, signature page

inventory with counterpart status bears it in Investment Authority and Approval Policy, Edition 2.0, with a General Counsel verification. By way of illustration, scoped to committee composition, quorum, the related-party procedure and allocation between the funds, the control bites on matters where two source records disagreed and is reported on that basis.

Read with the IAAP schedules, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. On failure, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. Within the register, signed clearance form with the date of search is assigned the control by Edition 2.0, which sets the cycle at Compliance Officer. By way of illustration, because this edition governs committee composition, quorum, the related-party procedure and allocation between the funds, the requirement reaches co-invest allocations to the parallel vehicle and no wider.

Schedule 2.E - exceptions granted under Edition 2.0

Ref (IAAP version 2.0)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
IAAP-EX-019	6.1 Reserve recorded before funding	Wire released on a Friday ahead of the reserve worksheet countersignature	Fund Controller held the position off the forecast until signed	Fund Controller	2021-06-24	2021-07-15	Worksheet countersigned and forecast reissued	Closed, no recurrence
IAAP-EX-023	3.4 Single rate source per submission	Two rate sources appeared in a submission inherited from a co-lead	Translation redone on one source before the committee read it	Analytics Standards Group	2021-09-02	2021-10-01	Reviewer re-checked the reissued schedules	Closed, control retested
IAAP-EX-027	5.3 Model reviewer named on release	Reviewer on leave during a two-day exclusivity window	Second preparer performed an independent rebuild instead	Analytics Standards Group	2022-01-19	2022-02-28	Rebuild retained and compared line by line	Closed, evidence retained
IAAP-EX-031	7.2 Executed instruments lodged in five days	Counterparty withheld the executed counterpart pending a side letter	Signing log annotated and weekly chase recorded	General Counsel	2022-04-11	2022-05-31	Counterpart lodged and index reconciled	Closed, obligation satisfied
IAAP-EX-034	8.1 Stale mark flagged at two quarters	Third-party report expected within weeks of the ageing run	Position disclosed as awaiting evidence in the pack	Valuation Committee	2022-07-28	2022-09-30	Report received and mark supported	Closed, evidence obtained
IAAP-EX-038	4.6 Co-invest allocation basis	Eligibility list incomplete for a newly admitted vehicle	Allocation deferred and re-run once the list was final	Compliance Officer	2022-11-03	2022-12-15	Re-run allocation reviewed by Compliance	Closed, allocation reissued
IAAP-EX-042	9.4 Escalation notification window	Escalation raised over a public holiday weekend	Written notice sent to two alternates the same day	Chief Operating Officer	2023-02-16	2023-03-31	Timestamps sampled in the quarterly review	Closed, window met on retest
IAAP-EX-045	6.5 Breach request evidence	Re-forecast unavailable while an audit adjustment was open	Approval conditioned on the re-forecast within ten days	Investment Committee	2023-05-09	2023-06-30	Re-forecast filed and condition discharged	Closed, condition met
IAAP-EX-049	2.3 Two-signature requirement	Second signatory unreachable during a	Managing Partner countersigned within	Managing Partners acting jointly	2023-08-22	2023-09-29	Signature page inventory updated and	Closed, inventory reconciled

Ref (IAAP version 2.0)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
		same-day closing	twenty-four hours				checked	
IAAP-EX-053	5.7 Convergence residual disclosed	Legacy model lacked a convergence tab when inherited	Residual computed by hand and attached to the cover	Analytics Standards Group	2023-11-14	2024-01-31	Model rebuilt with a convergence tab	Closed, rebuild released
IAAP-EX-057	7.6 Unsigned counterpart labelling	Summary schedule cited an instrument before counterparts were complete	Schedule relabelled and recirculated the same day	General Counsel	2024-02-27	2024-03-29	Relabelled schedule confirmed in the room	Closed, label corrected
IAAP-EX-061	8.5 Third-party report reconciliation	Report arrived two days before the reporting deadline	Controller documented divergence in a short note	Valuation Committee	2024-05-14	2024-06-28	Note reviewed at the following committee	Closed, note accepted
IAAP-EX-064	3.8 Rounding convention on derived figures	Inherited schedule carried a different precision convention	Two figures recomputed at full precision and compared	Analytics Standards Group	2024-08-06	2024-09-30	Recomputation sheet retained with the file	Closed, convention applied
IAAP-EX-014	4.2 Conflict clearance timing	Clearance search returned after the agenda closed on a competitive process	Partner recused from the vote and clearance filed within two days	Compliance Officer	2021-03-08	2021-04-30	Compliance confirmed the late filing at month end	Closed, monitoring complete

7. Monitoring and reporting

In the IAAP drafting convention, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The drafting leaves no room: failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. In the accountability chain, labelled schedule with the instrument list attached is the accountable function here, testing Investment Committee chair under Edition 2.0. On its own subject matter, the Office of the General Counsel reads this against committee composition, quorum, the related-party procedure and allocation between the funds, taking positions with an unclosed monitoring finding as the tested set.

In the IAAP drafting convention, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. As to consequence, a failure here is a reportable control breach and is minuted as such. Operationally, signed clearance form with the date of search is accountable, under the control of Investment Authority and Approval Policy, Edition 2.0 tested Compliance Officer. On the population that matters, the Managing Partners acting jointly applies this to committee composition, quorum, the related-party procedure and allocation between the funds by examining follow-on commitments above the delegated band at each measurement point.

Where two records before the Managing Partners acting jointly disagree, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. Enforcement follows automatically: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. For testing purposes, rate extract with the source and retrieval date performs the test Fund Controller and reports under Investment Authority and Approval Policy, Edition 2.0. As the scope note records, the reference population for committee composition, quorum, the related-party procedure and allocation between the funds under this edition is follow-on commitments above the delegated band.

Under IAAP version 2.0, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. By way of enforcement, a failure here is a reportable control breach and is minuted as such. Turning to who answers for it, waiver register with expiry column populated takes the requirement under Investment Authority and Approval Policy, Edition 2.0, verified Legal and Compliance Committee. As the scope note records, the Office of the General Counsel reads this against committee composition, quorum, the related-party procedure and allocation between the funds, taking positions with an unclosed monitoring finding as the tested set.

For the avoidance of doubt under IAAP version 2.0, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. In such a case, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. As the schedules allocate it, signed clearance form with the date of search retains the duty throughout Edition 2.0, evidenced Compliance Officer. Confined to its own field, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over positions whose model was rebuilt in the period and the result is minuted.

the Managing Partners acting jointly requires, before a matter may be tabled, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. As to consequence, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the assignment of duties, allocation worksheet and eligibility list takes the requirement under Investment Authority and Approval Policy, Edition 2.0, verified Compliance Officer. In application, the Office of the General Counsel reads this against committee composition, quorum, the related-party procedure and allocation between the funds, taking follow-on commitments above the delegated band as the tested set.

Schedule 2.S - signing schedule as Edition 2.0 recorded it

Instrument (IAAP version 2.0)	Authorized signatory	Countersignature	Condition precedent to signature	Where the record is kept
Disposition or transfer instrument	Managing Partner	Fund Controller	Final mark and the disposition memorandum	Closing set with the transfer confirmation
Subscription agreement for a new commitment	Managing Partner	Fund Controller	Approval minute reference on the signature page	Original retained by Compliance
Funding instruction to the administrator	Fund Controller	Chief Financial Officer	Reserve line reference and the approval date	Treasury log with a scanned instruction
Voting agreement joinder	General Counsel	Deal partner	Seat schedule attached to the joinder	Executed counterpart in the data room
Consent to a post-close amendment	Deal partner	General Counsel	Redline and the impact note	Amendment register entry
Waiver of a pro rata right	Managing Partner off the board seat	Compliance Officer	Waiver rationale and the portfolio impact note	Waiver register with an expiry date
Side letter with a limited partner	Chief Financial Officer	General Counsel	Exposure note and the disclosure schedule	Investor file and the annual disclosure
Engagement letter for a valuation firm	Fund Controller	Valuation Committee chair	Independence confirmation and the scope letter	Valuation service register
Allocation instruction to a co-invest vehicle	Allocation Officer	Compliance Officer	Eligibility list and the allocation worksheet	Allocation file and the investor notice

8. Version administration

Nothing in this instrument survived 2022-06-30 as a current standard, though its treatment of committee composition, quorum, the related-party procedure and allocation between the funds remains the reference for decisions taken while it was in force, and the control testing log records those tests.

Once a position is held under IAAP version 2.0, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The sanction is plain: failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. On the assignment of duties, exception form with both fields completed retains the duty throughout Edition 2.0, evidenced Compliance Officer. By way of illustration, applied to committee composition, quorum, the related-party procedure and allocation between the funds, the standard is tested over positions with an unclosed monitoring finding and the result is minuted.

Save where the Managing Partners acting jointly grants an exception, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The committee minuted the point: failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred.

Operationally, recomputation sheet with both samples is accountable, under the control of Investment Authority and Approval Policy, Edition 2.0 tested Analytics Standards Group. For the tested set, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is matters approved between committee meetings, and a test reported without it is void.

As applied by the IAAP monitoring calendar, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. Should that occur, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. For testing purposes, signed clearance form with the date of search is the accountable function here, testing Compliance Officer under Edition 2.0. On the operative population, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on positions carried at a mark older than two quarters, which is why the test names its population.

As between the deal team and the Managing Partners acting jointly, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Failing that, the position is added to the watch list and reported at each subsequent meeting until closed. In control terms, signed clearance form with the date of search is the accountable function here, testing Compliance Officer under Edition 2.0. As the instrument is scoped, because this edition governs committee composition, quorum, the related-party procedure and allocation between the funds, the requirement reaches commitments made under an unexpired exception and no wider.

As a mandatory standard of IAAP version 2.0, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. Enforcement follows automatically: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. Turning to who answers for it, calendar extract for the quarter of closing bears it in Investment Authority and Approval Policy, Edition 2.0, with a Chief Operating Officer verification. On the population that matters, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is all new platform commitments in the period, and a test reported without it is void.

Notwithstanding the practice before IAAP version 2.0, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. Should that occur, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. In control terms, allocation worksheet and eligibility list is accountable, under the control of Investment Authority and Approval Policy, Edition 2.0 tested Compliance Officer. In practice under this edition, in the context of committee composition, quorum, the related-party procedure and allocation between the funds this bears on follow-on commitments above the delegated band, which is why the test names its population.

Having regard to the effective date of IAAP version 2.0, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. On failure, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. Within the register, exception form with both fields completed retains the duty throughout Edition 2.0, evidenced Compliance Officer. Scoped to this edition, the reference population for committee composition, quorum, the related-party procedure and allocation between the funds under this edition is co-invest allocations to the parallel vehicle.

In the terms IAAP version 2.0 uses, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. On failure, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. On the assignment of duties, rate extract with the source and retrieval date retains the duty throughout Edition 2.0, evidenced Fund Controller. Confined to its own field, for committee composition, quorum, the related-party procedure and allocation between the funds the operative population is transactions where a delegate signed, and a test reported without it is void.

Schedule 2.N - measurement conventions under Edition 2.0

Convention (IAAP version 2.0)	Value under this edition	Reason	Test applied on review	Treatment of a departure
Measurement date for a balance figure	The last day of the reporting period, stated on the tab	An implied date cannot be audited afterwards	Confirm the stated date against the source extract	Undated tabs are withheld from circulation
Iteration for a circular	Iterate until the residual	An unconverged	Inspect the convergence	Output may not be quoted

Convention (IAAP version 2.0)	Value under this edition	Reason	Test applied on review	Treatment of a departure
calculation	falls below one unit of the smallest presented figure	circularity moves with recalculation order	tab for the residual	until it converges
Tie-break where two conventions both apply	The more conservative of the two, with the choice stated	A silent tie-break is unreviewable	Reviewer confirms the stated choice on the tab	Unstated tie-breaks are treated as errors
Treatment of a figure sourced from a summary	Marked unverified and excluded from any derived total	A summary is the weakest admissible source	Trace each marked figure back to its source	Derived totals containing it are struck
Version control for a released model	Sequential release number with a dated change note	Two models sharing one name cannot be reconciled	Compare the cover release number to the log	Unversioned releases are not accepted for review
Documentation accompanying a release	Purpose, inputs, conventions applied, and known limitations	A model without stated limitations invites misuse	Reviewer checks all four headings are present	Release is blocked until the note is complete
Day-count for interest on a convertible instrument	Actual over a three hundred and sixty-five day year	Matches the instruments the fund had then signed	Recompute one accrual period by hand	Departure recorded on the model cover tab
Rounding of derived per-unit figures	Carry full precision internally, present to four decimal places	Presentation rounding must not enter a later calculation	Recompute two sampled figures at full precision	Departure requires an Analytics sign-off
Rounding of aggregate currency amounts	Present to the whole unit, never to thousands	Aggregating rounded parts drifts against the true total	Foot the schedule and compare to the unrounded total	Difference disclosed as a footing note
Currency translation basis	One named published source for a whole submission	Mixed sources make two schedules irreconcilable	Check the source citation on every schedule	Submission returned for a single-source rebuild
