INVESTMENT POLICY - ARCHIVED EDITION - RECORD 003

Helioscope Robotics, Inc. - diligence file reference POLICY_HISTORY-003

1. Authority and scope

Investment Authority and Approval Policy, Edition 3.1 was drafted on 2022-05-24 and took effect on 2022-07-01 on the authority of the Managing Partners acting jointly. It governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued. The custodian of record is the Office of the General Counsel, and the schedules to this edition form part of it.

Where a delegate of the Managing Partners acting jointly acts, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. There is no discretion here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, seat schedule with instrument references is assigned the control by Edition 3.1, which sets the cycle at General Counsel. In practice under this edition, applied to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the standard is tested over transactions where a delegate signed and the result is minuted.

IAAP version 3.1 provides, within the scope stated above, that the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. As to consequence, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. On the second reading, signed clearance form with the date of search is the accountable function here, testing Compliance Officer under Edition 3.1. As the instrument is scoped, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is positions carried at a mark older than two quarters, and a test reported without it is void.

On a proper reading of the IAAP schedules, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. As recorded at adoption, non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. For the avoidance of gaps, ageing report with the flagged lines initialled performs the test Fund Controller and reports under Investment Authority and Approval Policy, Edition 3.1. Where it bites, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking positions carried at a mark older than two quarters as the tested set.

Notwithstanding the practice before IAAP version 3.1, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. Should that occur, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. Turning to who answers for it, rate extract with the source and retrieval date bears it in Investment Authority and Approval Policy, Edition 3.1, with a Fund Controller verification. On its own subject matter, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining matters where two source records disagreed at each measurement point.

Subject to the escalation ladder IAAP version 3.1 sets, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The sanction is plain: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For testing purposes, labelled schedule with the instrument list attached is the accountable function here, testing Investment Committee chair under Edition 3.1. In application, the reference population for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued under this edition is positions whose model was rebuilt in the period.

IAAP version 3.1 provides, within the scope stated above, that a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. On the plain words, a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, allocation worksheet and eligibility list performs the test Compliance Officer and reports under Investment Authority and Approval Policy, Edition 3.1. On the population that matters, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and

the approval ladder as it stood before the mandate was reissued by examining matters approved between committee meetings at each measurement point.

Schedule 3.V - version history of Investment Authority and Approval Policy to Edition 3.1

Edition (IAAP version 3.1)	Adopted	Effective from	Effective to	Sections changed	Nature of change	Approving body
Edition 1.0	2019-03-11	2019-04-01	2020-09-30	All	First adoption; delegated authority set by cheque size and a two-signature rule introduced	the Partnership Advisory Board
Edition 1.1	2019-10-02	2019-11-01	2020-09-30	4, 7	Conflict clearance moved ahead of tabling after a matter was tabled without a search	the Managing Partners acting jointly
Edition 2.0	2020-08-19	2020-10-01	2022-06-30	2, 3, 5, 8	Committee quorum restated, co-invest allocation basis written down for the first time	the Managing Partners acting jointly
Edition 3.0	2021-11-30	2022-01-01	2022-06-30	4, 6	Related-party procedure separated from the general conflict procedure	the Managing Partners acting jointly
Edition 3.1	2022-05-24	2022-07-01	2024-03-31	6, 9	Secondary purchases brought inside the approval ladder; reporting cadence tightened	the Managing Partners acting jointly

2. Defined terms

Where the evidence before the Managing Partners acting jointly is incomplete, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. As recorded at adoption, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. In control terms, recomputation sheet with both samples is accountable, under the control of Investment Authority and Approval Policy, Edition 3.1 tested Analytics Standards Group. By way of illustration, applied to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the standard is tested over matters where two source records disagreed and the result is minuted.

the Managing Partners acting jointly requires, before a matter may be tabled, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The remedy is procedural: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. As the schedules allocate it, allocation worksheet and eligibility list is assigned the control by Edition 3.1, which sets the cycle at Compliance Officer. As the instrument is scoped, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches positions with an unclosed monitoring finding and no wider.

IAAP version 3.1 provides, within the scope stated above, that escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The register treats this strictly: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. As the schedules allocate it, labelled schedule with the instrument list attached performs the test Investment Committee chair and reports under Investment Authority and Approval Policy, Edition 3.1. In practice under this edition, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on follow-on commitments above the delegated band and is reported on that basis.

the Managing Partners acting jointly expects, under IAAP version 3.1, that the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The

remedy is procedural: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. For accountability, calendar extract for the quarter of closing is the accountable function here, testing Chief Operating Officer under Edition 3.1. As the scope note records, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking positions with an unclosed monitoring finding as the tested set.

As between the deal team and the Managing Partners acting jointly, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The register treats this strictly: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Turning to who answers for it, reconciliation note signed by the controller bears it in Investment Authority and Approval Policy, Edition 3.1, with a Valuation Committee verification. Read narrowly, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches follow-on commitments above the delegated band and no wider.

Under IAAP version 3.1, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. Practically, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. Turning to who answers for it, seat schedule with instrument references is the accountable function here, testing General Counsel under Edition 3.1. In application, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is matters approved between committee meetings, and a test reported without it is void.

Schedule 3.T - control testing log kept under Edition 3.1

Test ref (IAAP version 3.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
IAAP-T0001	Exception requests state a compensating control and an expiry date	2025-01	Fund Controller	follow-on commitments above the delegated band	46	failed, evidence produced late	open
IAAP-T0002	Board and observer seats are confirmed against the executed voting arrangements	2021-10	Office of the General Counsel	positions carried at a mark older than two quarters	36	passed after remediation	closed
IAAP-T0003	Executed instruments are lodged in the data room within five business days of signing	2023-04	Internal Control Review	matters where two source records disagreed	23	passed, evidence complete	closed
IAAP-T0004	Executed instruments are lodged in the data room within five business days of signing	2025-03	Portfolio Operations	commitments made under an unexpired exception	40	failed, no evidence on file	open
IAAP-T0005	Allocation between the funds and any co-invest vehicle follows the written basis	2022-07	Internal Control Review	commitments made under an unexpired exception	24	passed with an observation recorded	closed

2. Defined terms - part 2 of 3

A further extract of the 2. Defined terms appears here, taken in order from the point at which the previous part ended. Nothing is restated from the earlier part.

Readers should carry the 2. Defined terms's stated conventions across the break, since this part adds no definition of its own. No row is omitted at the join.

Schedule 3.T - control testing log kept under Edition 3.1 (continued, part 2 of 3)

Test ref (IAAP version 3.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
IAAP-T0026	Each capital structure supplied to the committee identifies which view it presents	2025-04	Fund Controller	positions whose model was rebuilt in the period	22	passed, evidence complete	closed
IAAP-T0027	Executed instruments are lodged in the data room within five business days of signing	2024-09	Deal Team self-certification	positions with an unclosed monitoring finding	32	passed, evidence complete	closed
IAAP-T0028	Reserve set at initial investment is recorded before the funding instruction issues	2021-12	Internal Control Review	matters approved between committee meetings	44	passed after remediation	closed

2. Defined terms - part 3 of 3

The 2. Defined terms begun above continues from this point, and its row references run consecutively across the parts rather than restarting. The sequence is unbroken either side of it.

Scope, cut-off and units for the 2. Defined terms were fixed at its first part and are not repeated, being unaltered. The parts are to be read together.

Schedule 3.T - control testing log kept under Edition 3.1 (continued, part 3 of 3)

Test ref (IAAP version 3.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status

3. Mandatory standards

As the Managing Partners acting jointly minuted at adoption, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. The committee minuted the point: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. Within the register, allocation worksheet and eligibility list is accountable, under the control of Investment Authority and Approval Policy, Edition 3.1 tested Compliance Officer. Scoped to this edition, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining positions whose model was rebuilt in the period at each measurement point.

the Managing Partners acting jointly requires, before a matter may be tabled, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. On the plain words, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the assignment of duties, exception form with both fields completed is named as owner of record in Edition 3.1 and tests Compliance Officer. As the instrument is scoped, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on transactions where a delegate signed and is reported on that basis.

Subject to the escalation ladder IAAP version 3.1 sets, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. On the plain words, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. Within the register, labelled schedule with the instrument list attached takes the requirement under Investment Authority and Approval Policy, Edition 3.1, verified Investment Committee chair. Given what this edition governs, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on follow-on commitments above the delegated band and is reported on that basis.

Under IAAP version 3.1, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. The instrument provides that non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. Within the register, model cover tab and the reviewer's checklist holds it for the duration of Edition 3.1, with testing Analytics Standards Group. Given what this edition governs, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is positions carried at a mark older than two quarters, and a test reported without it is void.

Under IAAP version 3.1, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The drafting leaves no room: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. In control terms, room index extract showing lodging dates takes the requirement under Investment Authority and Approval Policy, Edition 3.1, verified General Counsel. By way of illustration, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is all new platform commitments in the period, and a test reported without it is void.

Where two records before the Managing Partners acting jointly disagree, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. There is no discretion here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the second reading, waiver register with expiry column populated is the accountable function here, testing Legal and Compliance Committee under Edition 3.1. On the population that matters, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining positions with an unclosed monitoring finding at each measurement point.

Schedule 3.D - decisions taken under Edition 3.1

Decision ref (IAAP version 3.1)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
IAAP-D0001	co-invest allocation	2024-03-17	General Counsel	Guarantee, indemnity or side letter	referred to counsel	produced late
IAAP-D0002	mark change on an unrealised position	2025-04-25	Two Investment Committee members	Bridge or interim instrument	within band	complete

4. Evidence and owners

By the terms of the IAAP standard, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The remedy is procedural: a failure here is a reportable control breach and is minuted as such. Within the register, rate extract with the source and retrieval date takes the requirement under Investment Authority and Approval Policy, Edition 3.1, verified Fund Controller. In application, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is matters approved between committee meetings, and a test reported without it is void.

In the terms IAAP version 3.1 uses, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. As recorded at adoption, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. On the assignment of duties, rate extract with the source and retrieval date is named as owner of record in Edition 3.1 and tests Fund Controller. As the scope note records, in the context of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued this bears on matters approved between committee meetings, which is why the test names its population.

IAAP version 3.1 provides, within the scope stated above, that a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. The stated effect is that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. By assignment, labelled schedule with the instrument list attached is the accountable function here, testing Investment Committee chair under Edition 3.1. In practice under this edition, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on commitments made under an unexpired exception and is reported on that basis.

Save where the Managing Partners acting jointly grants an exception, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. On failure, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the control map, reserve worksheet countersigned by the deal partner performs the test Fund Controller and reports under Investment Authority and Approval Policy, Edition 3.1. Read narrowly, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining transactions where a delegate signed at each measurement point.

As applied by the IAAP monitoring calendar, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. The instrument provides that the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For

accountability, convergence tab showing iterations and residual owns the point in Investment Authority and Approval Policy, Edition 3.1, and the test runs Analytics Standards Group. Confined to its own field, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining all new platform commitments in the period at each measurement point.

the Managing Partners acting jointly expects, under IAAP version 3.1, that a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Enforcement follows automatically: non-compliance suspends the delegate's authority for the matter in question until the Managing Partners acting jointly restores it. Within the register, arbitration log entry naming both sources retains the duty throughout Edition 3.1, evidenced Deal Operations manager. On the population that matters, applied to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the standard is tested over follow-on commitments above the delegated band and the result is minuted.

Schedule 3.Z - amendment trail behind Edition 3.1

Amendment ref (IAAP version 3.1)	Section affected	Nature	Adopted	Origin	Later treatment
IAAP-A001	section 5.2	typographical	2024-09	counsel direction	reversed at the next adoption

IAAP-A022	section 5.5	typographical	2023-01	counsel direction	superseded without replacement

5. Approval and escalation

Where the evidence before the Managing Partners acting jointly is incomplete, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. The sanction is plain: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the second reading, recomputation sheet with both samples answers for it under Edition 3.1, on a Analytics Standards Group test cycle. Read narrowly, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches co-invest allocations to the parallel vehicle and no wider.

As the IAAP control register records, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. As to consequence, a failure here is a reportable control breach and is minuted as such. For testing purposes, signature page inventory with counterpart status retains the duty throughout Edition 3.1, evidenced General Counsel. On the facts this edition addresses, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches positions with an unclosed monitoring finding and no wider.

Against the IAAP version history, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. Should that occur, a failure here is a reportable control breach and is minuted as such. As the schedules allocate it, recomputation sheet with both samples performs the test Analytics Standards Group and reports under Investment Authority and Approval Policy, Edition 3.1. As the scope note records, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking positions whose model was rebuilt in the period as the tested set.

the Managing Partners acting jointly expects, under IAAP version 3.1, that the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The stated effect is that failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. For the avoidance of gaps, signature page inventory with counterpart status owns the point in Investment Authority and Approval Policy, Edition 3.1, and the test runs General Counsel. On its own subject matter, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches follow-on commitments above the delegated band and no wider.

Under IAAP version 3.1, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Should that occur, the position is added to the watch list and reported at each subsequent meeting until closed. For accountability, seat schedule with instrument references is assigned the control by Edition 3.1, which sets the cycle at General Counsel. On the operative population, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on co-invest allocations to the parallel vehicle and is reported on that basis.

Once a position is held under IAAP version 3.1, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. By way of enforcement, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. Turning to who answers for it, model cover tab and the reviewer's checklist holds it for the duration of Edition 3.1, with testing Analytics Standards Group. Read narrowly, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is positions whose model was rebuilt in the period, and a test reported without it is void.

Schedule 3.C - control register as Edition 3.1 drew it

Control ref (IAAP version 3.1)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
IAAP-C01	Every opportunity presented for approval carries a completed conflict clearance	Compliance confirms the clearance predates the tabling date	Signed clearance form with the date of search	Deal partner	Compliance Officer	Per opportunity	The matter may not be tabled and is struck from the agenda
IAAP-C02	Reserve set at initial investment is recorded before the funding instruction issues	Portfolio Finance ties the reserve line to the approval minute	Reserve worksheet countersigned by the deal partner	Portfolio Finance analyst	Fund Controller	Per investment	Funding instruction is withheld until the reserve line exists
IAAP-C03	Each capital structure	Reviewer checks the	Labelled schedule with	Modeling lead	Investment Committee	Per submission	The submission is

Control ref (IAAP version 3.1)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	supplied to the committee identifies which view it presents	view label against the underlying instruments	the instrument list attached		chair		returned unread and the meeting slot is lost
IAAP-C04	Executed instruments are lodged in the data room within five business days of signing	Deal Operations reconciles the signing log to the room index	Room index extract showing lodging dates	Deal Operations manager	General Counsel	Weekly	The deal partner loses signature authority on new documents
IAAP-C05	Where two sources disagree, both are preserved and the conflict is logged	Reviewer searches the arbitration log for the affected figure	Arbitration log entry naming both sources	Reviewing analyst	Deal Operations manager	Per discrepancy	Any conclusion drawn from the figure is void and must be redone
IAAP-C06	A mark carried for more than two quarters without new evidence is flagged as stale	Fund Controller runs the ageing report against the mark register	Ageing report with the flagged lines initialled	Valuation analyst	Fund Controller	Quarterly	The position is written to the lower of cost and last evidenced value
IAAP-C07	Every model released to the committee has a named preparer and a named reviewer	Analytics confirms both names appear on the cover tab	Model cover tab and the reviewer's checklist	Preparer	Analytics Standards Group	Per release	The model is not circulated and the decision is deferred
IAAP-C08	Exception requests state a compensating control and an expiry date	Compliance rejects any request with either field blank	Exception form with both fields completed	Requesting partner	Compliance Officer	Per request	The request is refused without prejudice to a complete resubmission
IAAP-C09	Board and observer seats are confirmed against the executed voting arrangements	Legal ties each seat to the instrument that creates it	Seat schedule with instrument references	Portfolio Operations	General Counsel	Semi-annually	The seat is treated as unheld until the confirmation is produced
IAAP-C10	Currency translation uses one named rate source for the whole submission	Reviewer checks that a single source is cited on every schedule	Rate extract with the source and retrieval date	Modeling lead	Fund Controller	Per submission	The submission is rejected and the analyst redoes the translation
IAAP-C11	Circular calculations are iterated to a stated tolerance and the residual is disclosed	Reviewer inspects the convergence tab for the residual	Convergence tab showing iterations and residual	Preparer	Analytics Standards Group	Per model	The output may not be quoted in any approval document
IAAP-C12	Post-close reporting obligations are entered in the monitoring calendar at closing	Portfolio Operations reconciles closed deals to calendar entries	Calendar extract for the quarter of closing	Portfolio Operations	Chief Operating Officer	Monthly	The closing is not marked complete and the file stays open
IAAP-C13	Allocation between the funds and any co-invest vehicle follows the written	Compliance recomputes the allocation from the eligibility list	Allocation worksheet and eligibility list	Allocation Officer	Compliance Officer	Per allocation	The allocation is unwound and re-run under supervision

Control ref (IAAP version 3.1)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	basis						
IAAP-C14	Third-party valuation reports are read against the preparer's own conclusion	Fund Controller documents agreement or divergence in writing	Reconciliation note signed by the controller	Valuation analyst	Valuation Committee	Per report	The report may not be relied on and the mark is held at prior basis
IAAP-C15	Rounding and precision follow the stated convention on every derived figure	Reviewer recomputes two sampled figures at full precision	Recomputation sheet with both samples	Reviewing analyst	Analytics Standards Group	Per submission	Derived figures are struck and the schedule is reissued
IAAP-C16	Unsigned counterparts are identified as unsigned wherever the instrument is cited	Legal checks the citation against the signature page inventory	Signature page inventory with counterpart status	Deal Operations manager	General Counsel	Per citation	The instrument is treated as a draft for every purpose in the file
IAAP-C17	A waiver granted once is recorded as expiring rather than as standing	Compliance confirms each register line carries an expiry	Waiver register with expiry column populated	Compliance analyst	Legal and Compliance Committee	Quarterly	The waiver lapses immediately and the underlying rule applies
IAAP-C18	Escalations reach the named recipient within the stated notification window	Compliance samples three escalations and checks the timestamps	Notification record with send and receipt times	Escalating owner	Chief Operating Officer	Quarterly	The owner's escalation authority is suspended pending retraining

6. Exceptions

For the avoidance of doubt under IAAP version 3.1, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The instrument provides that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the second reading, reconciliation note signed by the controller is the accountable function here, testing Valuation Committee under Edition 3.1. As the instrument is scoped, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is all new platform commitments in the period, and a test reported without it is void.

As a mandatory standard of IAAP version 3.1, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. By way of enforcement, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. In the accountability chain, reserve worksheet countersigned by the deal partner holds it for the duration of Edition 3.1, with testing Fund Controller. As the instrument is scoped, in the context of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued this bears on co-invest allocations to the parallel vehicle, which is why the test names its population.

In the terms IAAP version 3.1 uses, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. Failing that, the position is added to the watch list and reported at each subsequent meeting until closed. By assignment, recomputation sheet with both samples takes the requirement under Investment Authority and Approval Policy, Edition 3.1, verified Analytics Standards Group. Read narrowly, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining matters approved between committee meetings at each measurement point.

As between the deal team and the Managing Partners acting jointly, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The edition is explicit here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, notification record with send and receipt times answers for it under Edition 3.1, on a Chief Operating Officer test cycle. On the operative population, the reference population for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued under this edition is co-invest allocations to the parallel vehicle.

Having regard to the effective date of IAAP version 3.1, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. As recorded at adoption, the position is added to the watch list and reported at each subsequent meeting until closed. In control terms, ageing report with the flagged lines initialled is named as owner of record in Edition 3.1 and tests Fund Controller. In application, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining all new platform commitments in the period at each measurement point.

Where the evidence before the Managing Partners acting jointly is incomplete, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. Failing that, a failure here is a reportable control breach and is minuted as such. On the assignment of duties, reconciliation note signed by the controller owns the point in Investment Authority and Approval Policy, Edition 3.1, and the test runs Valuation Committee. Given what this edition governs, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on positions with an unclosed monitoring finding and is reported on that basis.

Schedule 3.E - exceptions granted under Edition 3.1

Ref (IAAP version 3.1)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
IAAP-EX-038	4.6 Co-invest allocation basis	Eligibility list incomplete for a newly admitted vehicle	Allocation deferred and re-run once the list was final	Compliance Officer	2022-11-03	2022-12-15	Re-run allocation reviewed by Compliance	Closed, allocation reissued
IAAP-EX-042	9.4 Escalation notification window	Escalation raised over a public holiday weekend	Written notice sent to two alternates the same day	Chief Operating Officer	2023-02-16	2023-03-31	Timestamps sampled in the quarterly review	Closed, window met on retest
IAAP-EX-045	6.5 Breach request evidence	Re-forecast unavailable while an audit adjustment was open	Approval conditioned on the re-forecast within ten days	Investment Committee	2023-05-09	2023-06-30	Re-forecast filed and condition discharged	Closed, condition met
IAAP-EX-049	2.3 Two-signature requirement	Second signatory unreachable during a same-day closing	Managing Partner countersigned within twenty-four hours	Managing Partners acting jointly	2023-08-22	2023-09-29	Signature page inventory updated and checked	Closed, inventory reconciled
IAAP-EX-053	5.7 Convergence residual disclosed	Legacy model lacked a convergence tab when inherited	Residual computed by hand and attached to the cover	Analytics Standards Group	2023-11-14	2024-01-31	Model rebuilt with a convergence tab	Closed, rebuild released
IAAP-EX-057	7.6 Unsigned counterpart labelling	Summary schedule cited an instrument before counterparts were complete	Schedule relabelled and recirculated the same day	General Counsel	2024-02-27	2024-03-29	Relabelled schedule confirmed in the room	Closed, label corrected
IAAP-EX-061	8.5 Third-party report	Report arrived two	Controller documented	Valuation Committee	2024-05-14	2024-06-28	Note reviewed at	Closed, note accepted

Ref (IAAP version 3.1)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
	reconciliation	days before the reporting deadline	divergence in a short note				the following committee	
IAAP-EX-064	3.8 Rounding convention on derived figures	Inherited schedule carried a different precision convention	Two figures recomputed at full precision and compared	Analytics Standards Group	2024-08-06	2024-09-30	Recomputation sheet retained with the file	Closed, convention applied
IAAP-EX-014	4.2 Conflict clearance timing	Clearance search returned after the agenda closed on a competitive process	Partner recused from the vote and clearance filed within two days	Compliance Officer	2021-03-08	2021-04-30	Compliance confirmed the late filing at month end	Closed, monitoring complete
IAAP-EX-019	6.1 Reserve recorded before funding	Wire released on a Friday ahead of the reserve worksheet countersignature	Fund Controller held the position off the forecast until signed	Fund Controller	2021-06-24	2021-07-15	Worksheet countersigned and forecast reissued	Closed, no recurrence
IAAP-EX-023	3.4 Single rate source per submission	Two rate sources appeared in a submission inherited from a co-lead	Translation redone on one source before the committee read it	Analytics Standards Group	2021-09-02	2021-10-01	Reviewer re-checked the reissued schedules	Closed, control retested
IAAP-EX-027	5.3 Model reviewer named on release	Reviewer on leave during a two-day exclusivity window	Second preparer performed an independent rebuild instead	Analytics Standards Group	2022-01-19	2022-02-28	Rebuild retained and compared line by line	Closed, evidence retained
IAAP-EX-031	7.2 Executed instruments lodged in five days	Counterparty withheld the executed counterpart pending a side letter	Signing log annotated and weekly chase recorded	General Counsel	2022-04-11	2022-05-31	Counterpart lodged and index reconciled	Closed, obligation satisfied
IAAP-EX-034	8.1 Stale mark flagged at two quarters	Third-party report expected within weeks of the ageing run	Position disclosed as awaiting evidence in the pack	Valuation Committee	2022-07-28	2022-09-30	Report received and mark supported	Closed, evidence obtained

7. Monitoring and reporting

Under IAAP version 3.1, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. The edition is explicit here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. In control terms, allocation worksheet and eligibility list holds it for the duration of Edition 3.1, with testing Compliance Officer. As the instrument is scoped, the reference population for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued under this edition is transactions where a delegate signed.

For so long as IAAP version 3.1 is in force, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Practically, the position is added to the watch list and reported at each subsequent meeting until closed. In control terms, seat schedule with instrument references answers for it under Edition 3.1, on a General Counsel test cycle. In application, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is positions with an unclosed monitoring finding, and a test reported without it is void.

Under IAAP version 3.1, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. Should that occur, the position is added to the watch list and reported at each subsequent meeting until closed. For accountability, ageing report with the flagged lines initialled owns the point in Investment Authority and Approval Policy, Edition 3.1, and the test runs Fund Controller. On the population that matters, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches all new platform commitments in the period and no wider.

the Managing Partners acting jointly expects, under IAAP version 3.1, that the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. Practically, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the second reading, signature page inventory with counterpart status is accountable, under the control of Investment Authority and Approval Policy, Edition 3.1 tested General Counsel. Given what this edition governs, in the context of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued this bears on positions carried at a mark older than two quarters, which is why the test names its population.

On the authority of the Managing Partners acting jointly, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. As to consequence, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. As the schedules allocate it, allocation worksheet and eligibility list owns the point in Investment Authority and Approval Policy, Edition 3.1, and the test runs Compliance Officer. On the facts this edition addresses, in the context of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued this bears on commitments made under an unexpired exception, which is why the test names its population.

At each measurement point IAAP version 3.1 fixes, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. The stated effect is that the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. In control terms, reconciliation note signed by the controller retains the duty throughout Edition 3.1, evidenced Valuation Committee. On the operative population, the Managing Partners acting jointly applies this to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued by examining positions whose model was rebuilt in the period at each measurement point.

Schedule 3.M - monitoring calendar attached to Edition 3.1

Obligation (IAAP version 3.1)	Frequency	Owner	Evidence	Last performed	Next due
Delegated authority schedule confirmation with the signatories	Annually	Office of the General Counsel	Signed acknowledgement from each signatory	2023-01-27	2024-01-26
Reserve re-forecast for every active position	Quarterly	Portfolio Finance	Re-forecast pack signed by the Fund Controller	2023-06-30	2023-09-29
Ageing run over the mark register	Quarterly	Valuation analyst	Ageing report with flagged lines initialled	2023-07-14	2023-10-13
Reconciliation of the signing log to the data room index	Weekly	Deal Operations	Index extract with exceptions annotated	2023-08-04	2023-08-11
Conflict register refresh against the firm-wide search	Semi-annually	Compliance	Search output and the reviewed register	2023-04-28	2023-10-31
Board and observer seat confirmation	Semi-annually	Portfolio Operations	Seat schedule with instrument references	2023-03-31	2023-09-29
Exception log review for expiries falling in the next period	Monthly	Compliance analyst	Log extract with the expiry column sorted	2023-08-01	2023-09-01
Model inventory review and reviewer assignment	Semi-annually	Analytics Standards Group	Inventory with preparer and reviewer names	2023-02-24	2023-08-25
Portfolio company reporting receipt	Monthly	Portfolio Operations	Receipt log with chase correspondence	2023-07-31	2023-08-31

Obligation (IAAP version 3.1)	Frequency	Owner	Evidence	Last performed	Next due
check					
Allocation basis retest against the eligibility list	Quarterly	Allocation Officer	Recomputed allocation and the tested list	2023-06-16	2023-09-15
Rate source confirmation for the reporting currency	Monthly	Fund Controller	Rate extract with source and retrieval date	2023-08-02	2023-09-04
Escalation timestamp sampling	Quarterly	Compliance	Three sampled notifications with times	2023-05-19	2023-08-18
Arbitration log review for unresolved discrepancies	Monthly	Deal Operations manager	Log extract with open items listed	2023-07-28	2023-08-31
Third-party valuation engagement independence check	Annually	Fund Controller	Independence confirmations on file	2022-11-30	2023-11-30

8. Version administration

Nothing in this instrument survived 2024-03-31 as a current standard, though its treatment of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued remains the reference for decisions taken while it was in force, and the control testing log records those tests.

the Managing Partners acting jointly expects, under IAAP version 3.1, that a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. Where it is not met, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. As the schedules allocate it, waiver register with expiry column populated is accountable, under the control of Investment Authority and Approval Policy, Edition 3.1 tested Legal and Compliance Committee. Given what this edition governs, because this edition governs conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the requirement reaches positions whose model was rebuilt in the period and no wider.

For so long as IAAP version 3.1 is in force, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The committee minuted the point: a failure here is a reportable control breach and is minuted as such. On the assignment of duties, calendar extract for the quarter of closing performs the test Chief Operating Officer and reports under Investment Authority and Approval Policy, Edition 3.1. Given what this edition governs, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking commitments made under an unexpired exception as the tested set.

In the terms IAAP version 3.1 uses, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. As recorded at adoption, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the assignment of duties, reconciliation note signed by the controller performs the test Valuation Committee and reports under Investment Authority and Approval Policy, Edition 3.1. In application, in the context of conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued this bears on commitments made under an unexpired exception, which is why the test names its population.

Where the evidence before the Managing Partners acting jointly is incomplete, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The stated effect is that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the assignment of duties, allocation worksheet and eligibility list is assigned the control by Edition 3.1, which sets the cycle at Compliance Officer. On the facts this edition addresses, scoped to conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, the control bites on transactions where a delegate signed and is reported on that basis.

Read with the IAAP schedules, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The remedy is procedural: failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. In control terms, allocation worksheet and eligibility list

carries the control in Investment Authority and Approval Policy, Edition 3.1, tested Compliance Officer. On the operative population, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking transactions where a delegate signed as the tested set.

As IAAP version 3.1 was adopted, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. On the plain words, the position is added to the watch list and reported at each subsequent meeting until closed. As the schedules allocate it, reserve worksheet countersigned by the deal partner is named as owner of record in Edition 3.1 and tests Fund Controller. For the tested set, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is positions with an unclosed monitoring finding, and a test reported without it is void.

As a mandatory standard of IAAP version 3.1, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. As to consequence, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the control map, notification record with send and receipt times is named as owner of record in Edition 3.1 and tests Chief Operating Officer. Given what this edition governs, the Office of the General Counsel reads this against conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued, taking all new platform commitments in the period as the tested set.

On a proper reading of the IAAP schedules, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. As to consequence, failure is reported to the Managing Partners acting jointly in the period it is found, not in the period it occurred. In control terms, seat schedule with instrument references performs the test General Counsel and reports under Investment Authority and Approval Policy, Edition 3.1. Where it bites, for conflict clearance, co-invest allocation and the approval ladder as it stood before the mandate was reissued the operative population is commitments made under an unexpired exception, and a test reported without it is void.

Schedule 3.S - signing schedule as Edition 3.1 recorded it

Instrument (IAAP version 3.1)	Authorized signatory	Countersignature	Condition precedent to signature	Where the record is kept
Voting agreement joinder	General Counsel	Deal partner	Seat schedule attached to the joinder	Executed counterpart in the data room
Consent to a post-close amendment	Deal partner	General Counsel	Redline and the impact note	Amendment register entry
Waiver of a pro rata right	Managing Partner off the board seat	Compliance Officer	Waiver rationale and the portfolio impact note	Waiver register with an expiry date
Side letter with a limited partner	Chief Financial Officer	General Counsel	Exposure note and the disclosure schedule	Investor file and the annual disclosure
Engagement letter for a valuation firm	Fund Controller	Valuation Committee chair	Independence confirmation and the scope letter	Valuation service register
Allocation instruction to a co-invest vehicle	Allocation Officer	Compliance Officer	Eligibility list and the allocation worksheet	Allocation file and the investor notice
Disposition or transfer instrument	Managing Partner	Fund Controller	Final mark and the disposition memorandum	Closing set with the transfer confirmation
Subscription agreement for a new commitment	Managing Partner	Fund Controller	Approval minute reference on the signature page	Original retained by Compliance
Funding instruction to the administrator	Fund Controller	Chief Financial Officer	Reserve line reference and the approval date	Treasury log with a scanned instruction
