INVESTMENT POLICY - ARCHIVED EDITION - RECORD 006

Helioscope Robotics, Inc. - diligence file reference POLICY_HISTORY-006

1. Authority and scope

Follow-On Reserve Framework, Edition 3.0 was drafted on 2023-11-15 and took effect on 2024-01-01 on the authority of the Investment Committee. It governs escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry. The custodian of record is the Portfolio Finance, and the schedules to this edition form part of it.

the Investment Committee requires, before a matter may be tabled, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The stated effect is that where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, signature page inventory with counterpart status is assigned the control by Edition 3.0, which sets the cycle at General Counsel. By way of illustration, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over positions whose model was rebuilt in the period and the result is minuted.

Where two records before the Investment Committee disagree, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. Should that occur, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. By assignment, calendar extract for the quarter of closing carries the control in Follow-On Reserve Framework, Edition 3.0, tested Chief Operating Officer. Given what this edition governs, because this edition governs escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the requirement reaches matters approved between committee meetings and no wider.

Where the evidence before the Investment Committee is incomplete, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. By way of enforcement, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. Within the register, recomputation sheet with both samples is the accountable function here, testing Analytics Standards Group under Edition 3.0. Where it bites, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on all new platform commitments in the period, which is why the test names its population.

As between the deal team and the Investment Committee, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The instrument provides that failure is reported to the Investment Committee in the period it is found, not in the period it occurred. On the assignment of duties, arbitration log entry naming both sources owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Deal Operations manager. On the operative population, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining matters approved between committee meetings at each measurement point.

As the FORF control register records, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. Where it is not met, the position is added to the watch list and reported at each subsequent meeting until closed. In the accountability chain, rate extract with the source and retrieval date owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Fund Controller. On the operative population, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining follow-on commitments above the delegated band at each measurement point.

Where two records before the Investment Committee disagree, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The sanction is plain: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Operationally, seat schedule with instrument references answers for it under Edition 3.0, on a General Counsel test cycle. On the population that matters, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on transactions where a delegate signed, which is why the test names its population.

Schedule 6.V - version history of Follow-On Reserve Framework to Edition 3.0

Edition (FORF version 3.0)	Adopted	Effective from	Effective to	Sections changed	Nature of change	Approving body
Edition 1.0	2019-04-15	2019-05-01	2019-12-31	All	First adoption; reserves set as a multiple of the initial cheque at approval	the Investment Committee
Edition 1.2	2019-11-06	2020-01-01	2021-12-31	2, 4	Re-forecast cadence fixed at quarterly; reserve worksheet made a condition of funding	the Investment Committee
Edition 2.0	2021-10-27	2022-01-01	2023-12-31	3, 5, 6	First-close and fully-funded views defined and separated; release triggers enumerated	the Investment Committee
Edition 2.1	2022-06-30	2022-08-01	2023-12-31	5	Reallocation between positions permitted within a sector band	the Investment Committee
Edition 3.0	2023-11-15	2024-01-01	2025-09-30	6, 7, 8	Breach procedure rewritten to require a re-forecast and a named alternative use	the Investment Committee

2. Defined terms

As the Investment Committee minuted at adoption, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. Practically, non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. On the assignment of duties, signed clearance form with the date of search carries the control in Follow-On Reserve Framework, Edition 3.0, tested Compliance Officer. As the instrument is scoped, scoped to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the control bites on positions carried at a mark older than two quarters and is reported on that basis.

the Investment Committee requires, before a matter may be tabled, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. Should that occur, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Turning to who answers for it, calendar extract for the quarter of closing answers for it under Edition 3.0, on a Chief Operating Officer test cycle. On the population that matters, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over follow-on commitments above the delegated band and the result is minuted.

Notwithstanding the practice before FORF version 3.0, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. On failure, a failure here is a reportable control breach and is minuted as such. By assignment, notification record with send and receipt times holds it for the duration of Edition 3.0, with testing Chief Operating Officer. On its own subject matter, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking co-invest allocations to the parallel vehicle as the tested set.

Subject to the escalation ladder FORF version 3.0 sets, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. On failure, non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. In the accountability chain, signature page inventory with counterpart status carries the control in Follow-On Reserve Framework, Edition 3.0, tested General Counsel. For the tested set, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on follow-on commitments above the delegated band, which is why the test names its population.

Against the FORF version history, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. On the plain words, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For testing purposes, waiver register with expiry column populated owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Legal and Compliance Committee. As the scope note records, scoped to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the control bites on all new platform commitments in the period and is reported on that basis.

Notwithstanding the practice before FORF version 3.0, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. On failure, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. By assignment, labelled schedule with the instrument list attached takes the requirement under Follow-On Reserve Framework, Edition 3.0, verified Investment Committee chair. Given what this edition governs, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining positions whose model was rebuilt in the period at each measurement point.

Schedule 6.T - control testing log kept under Edition 3.0

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
FORF-T0001	Executed instruments are lodged in the data room within five business days of signing	2021-01	Internal Control Review	all new platform commitments in the period	37	partially tested, sample incomplete	n/a
FORF-T0002	Post-close reporting obligations are entered in the monitoring calendar at closing	2021-07	Internal Control Review	follow-on commitments above the delegated band	49	failed, evidence produced late	open
FORF-T0003	Exception requests state a compensating control and an expiry date	2023-11	External compliance reviewer	co-invest allocations to the parallel vehicle	46	partially tested, sample incomplete	n/a
FORF-T0004	Each capital structure supplied to the committee identifies which view it presents	2024-06	Deal Team self-certification	positions with an unclosed monitoring finding	44	partially tested, sample incomplete	n/a
FORF-T0005	Currency translation uses one named rate source for the whole submission	2025-09	Valuation Committee secretariat	matters approved between committee meetings	18	passed after remediation	closed
FORF-T0006	Third-party valuation reports are read against the preparer's own conclusion	2025-10	Deal Team self-certification	positions carried at a mark older than two quarters	10	passed, evidence complete	closed
FORF-T0007	Escalations reach the named recipient within the stated notification window	2022-11	Portfolio Operations	transactions where a delegate signed	14	passed, evidence complete	closed
FORF-T0008	Reserve set at initial	2021-05	Portfolio Operations	positions whose model	5	not tested, population	n/a

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	investment is recorded before the funding instruction issues			was rebuilt in the period		empty	
FORF-T0009	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2024-03	Valuation Committee secretariat	co-invest allocations to the parallel vehicle	48	passed, evidence complete	closed
FORF-T0010	Executed instruments are lodged in the data room within five business days of signing	2023-11	Office of the General Counsel	all new platform commitments in the period	31	failed, evidence produced late	open
FORF-T0011	Escalations reach the named recipient within the stated notification window	2021-05	Internal Control Review	co-invest allocations to the parallel vehicle	11	passed, evidence complete	closed
FORF-T0012	Reserve set at initial investment is recorded before the funding instruction issues	2021-01	Office of the General Counsel	matters approved between committee meetings	18	partially tested, sample incomplete	n/a
FORF-T0013	Post-close reporting obligations are entered in the monitoring calendar at closing	2023-08	Fund Controller	positions carried at a mark older than two quarters	22	partially tested, sample incomplete	n/a
FORF-T0014	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2025-09	Internal Control Review	transactions where a delegate signed	30	failed, evidence produced late	open
FORF-T0015	Reserve set at initial investment is recorded before the funding instruction issues	2019-12	Fund Controller	matters approved between committee meetings	8	passed, evidence complete	closed
FORF-T0016	Third-party valuation reports are read against the preparer's own conclusion	2022-05	Internal Control Review	co-invest allocations to the parallel vehicle	21	failed, approver was also preparer	open
FORF-T0017	Exception requests state a compensating control and an expiry date	2025-06	Valuation Committee secretariat	commitments made under an unexpired exception	47	passed, evidence complete	closed

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
FORF-T0018	Board and observer seats are confirmed against the executed voting arrangements	2022-09	Fund Controller	matters approved between committee meetings	15	failed, approver was also preparer	open
FORF-T0019	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2024-04	Internal Control Review	matters where two source records disagreed	4	passed after remediation	closed
FORF-T0020	Reserve set at initial investment is recorded before the funding instruction issues	2020-05	Office of the General Counsel	co-invest allocations to the parallel vehicle	30	passed with an observation recorded	closed
FORF-T0021	Where two sources disagree, both are preserved and the conflict is logged	2025-06	Deal Team self-certification	positions whose model was rebuilt in the period	20	passed after remediation	closed
FORF-T0022	Rounding and precision follow the stated convention on every derived figure	2024-08	Valuation Committee secretariat	positions with an unclosed monitoring finding	46	passed, evidence complete	closed
FORF-T0023	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2019-04	External compliance reviewer	matters approved between committee meetings	20	passed with an observation recorded	closed
FORF-T0024	Every opportunity presented for approval carries a completed conflict clearance	2022-08	External compliance reviewer	matters where two source records disagreed	10	failed, evidence produced late	open
FORF-T0025	Exception requests state a compensating control and an expiry date	2024-06	Portfolio Operations	matters approved between committee meetings	23	passed with an observation recorded	closed

2. Defined terms - part 2 of 3

Below, the 2. Defined terms continues; nothing separates this part from the last except the page on which it happens to fall.

No basis of compilation changes at this break; whatever the 2. Defined terms recorded about scope and method at its head continues to apply. The break is editorial.

Schedule 6.T - control testing log kept under Edition 3.0 (continued, part 2 of 3)

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
FORF-T0026	Each capital structure supplied to the committee identifies which view it presents	2025-05	External compliance reviewer	matters approved between committee meetings	10	failed, no evidence on file	open
FORF-T0027	Rounding and precision follow the stated convention on every derived figure	2022-08	Office of the General Counsel	follow-on commitments above the delegated band	4	partially tested, sample incomplete	n/a
FORF-T0028	Third-party valuation reports are read against the preparer's own conclusion	2025-11	Portfolio Operations	positions whose model was rebuilt in the period	33	failed, approver was also preparer	open
FORF-T0029	Every model released to the committee has a named preparer and a named reviewer	2022-07	Deal Team self-certification	all new platform commitments in the period	19	failed, evidence produced late	open
FORF-T0030	Currency translation uses one named rate source for the whole submission	2023-11	Deal Team self-certification	positions with an unclosed monitoring finding	26	passed after remediation	closed

FORF-T0049	Each capital structure supplied to the committee identifies which view it presents	2022-06	Portfolio Operations	positions carried at a mark older than two quarters	43	passed with an observation recorded	closed
FORF-T0050	Every opportunity presented for approval carries a completed conflict clearance	2020-03	Office of the General Counsel	co-invest allocations to the parallel vehicle	47	failed, evidence produced late	open

2. Defined terms - part 3 of 3

For length, the 2. Defined terms is presented in 3 parts; this is the next of them, and the rows continue the same sequence. The parts are to be read together.

Qualifications noted at the head of the 2. Defined terms apply to these rows equally, and are not restated for each part. No row is omitted at the join.

Schedule 6.T - control testing log kept under Edition 3.0 (continued, part 3 of 3)

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
FORF-T0051	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2025-10	Internal Control Review	all new platform commitments in the period	19	failed, approver was also preparer	open
FORF-T0052	Reserve set at initial investment is recorded before the funding instruction issues	2021-01	Internal Control Review	positions with an unclosed monitoring finding	44	failed, approver was also preparer	open
FORF-T0053	Currency translation uses one named rate source for the whole submission	2022-03	Internal Control Review	commitments made under an unexpired exception	5	failed, approver was also preparer	open

Test ref (FORF version 3.0)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	preparer and a named reviewer			meetings			

3. Mandatory standards

Read with the FORF schedules, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The instrument provides that failure is reported to the Investment Committee in the period it is found, not in the period it occurred. On the control map, recomputation sheet with both samples is assigned the control by Edition 3.0, which sets the cycle at Analytics Standards Group. In practice under this edition, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over commitments made under an unexpired exception and the result is minuted.

Save where the Investment Committee grants an exception, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. By way of enforcement, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. For the avoidance of gaps, seat schedule with instrument references carries the control in Follow-On Reserve Framework, Edition 3.0, tested General Counsel. Read narrowly, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking commitments made under an unexpired exception as the tested set.

As a mandatory standard of FORF version 3.0, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. There is no discretion here: the position is added to the watch list and reported at each subsequent meeting until closed. For accountability, waiver register with expiry column populated is accountable, under the control of Follow-On Reserve Framework, Edition 3.0 tested Legal and Compliance Committee. For the tested set, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on positions carried at a mark older than two quarters, which is why the test names its population.

As a mandatory standard of FORF version 3.0, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The committee minuted the point: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the control map, ageing report with the flagged lines initialled performs the test Fund Controller and reports under Follow-On Reserve Framework, Edition 3.0. As the instrument is scoped, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is matters approved between committee meetings, and a test reported without it is void.

At each measurement point FORF version 3.0 fixes, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The sanction is plain: failure is reported to the Investment Committee in the period it is found, not in the period it occurred. Turning to who answers for it, reconciliation note signed by the controller holds it for the duration of Edition 3.0, with testing Valuation Committee. On the population that matters, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is all new platform commitments in the period, and a test reported without it is void.

Once a position is held under FORF version 3.0, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. The drafting leaves no room: failure is reported to the Investment Committee in the period it is found, not in the period it occurred. On the assignment of duties, calendar extract for the quarter of closing is assigned the control by Edition 3.0, which sets the cycle at Chief Operating Officer. Scoped to this edition, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on positions whose model was rebuilt in the period, which is why the test names its population.

Schedule 6.D - decisions taken under Edition 3.0

Decision ref (FORF version 3.0)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
FORF-D0001	exception renewal	2023-04-17	Two Investment Committee members	Bridge or interim instrument	within band	complete
FORF-D0002	watch-list escalation	2020-12-03	Allocation Officer	Co-invest allocation to a vehicle	within band	produced late
FORF-D0003	watch-list escalation	2023-04-19	Allocation Officer	Co-invest allocation to a vehicle	escalated one level	complete
FORF-D0004	follow-on breaching reserve	2021-07-06	Investment Committee, simple majority	Secondary purchase of an existing position	within band	incomplete at decision

4. Evidence and owners

As applied by the FORF monitoring calendar, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The drafting leaves no room: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Operationally, rate extract with the source and retrieval date owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Fund Controller. As the instrument is scoped, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on positions carried at a mark older than two quarters, which is why the test names its population.

Once a position is held under FORF version 3.0, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. Where it is not met, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For accountability, calendar extract for the quarter of closing is named as owner of record in Edition 3.0 and tests Chief Operating Officer. By way of illustration, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining transactions where a delegate signed at each measurement point.

For so long as FORF version 3.0 is in force, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The register treats this strictly: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. By assignment, signature page inventory with counterpart status is named as owner of record in Edition 3.0 and tests General Counsel. On the facts this edition addresses, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on co-invest allocations to the parallel vehicle, which is why the test names its population.

As the Investment Committee minuted at adoption, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The instrument provides that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For accountability, ageing report with the flagged lines initialled bears it in Follow-On Reserve Framework, Edition 3.0, with a Fund Controller verification. As the instrument is scoped, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on all new platform commitments in the period, which is why the test names its population.

In the FORF drafting convention, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. Enforcement follows automatically: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. In the accountability chain, calendar extract for the quarter of closing is the accountable function here, testing Chief Operating Officer under Edition 3.0. Confined to its own field, applied to escalation to breach a reserve, the fully-funded view, and

the evidence a breach request must carry, the standard is tested over positions carried at a mark older than two quarters and the result is minuted.

As between the deal team and the Investment Committee, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. Enforcement follows automatically: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. As the schedules allocate it, ageing report with the flagged lines initialled is the accountable function here, testing Fund Controller under Edition 3.0. As the instrument is scoped, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on positions carried at a mark older than two quarters, which is why the test names its population.

Schedule 6.Z - amendment trail behind Edition 3.0

Amendment ref (FORF version 3.0)	Section affected	Nature	Adopted	Origin	Later treatment
FORF-A001	section 7.5	clarifying	2019-12	committee resolution	superseded without replacement
FORF-A002	section 1.6	renumbering	2019-05	practice note	retained unchanged

FORF-A022	section 4.4	substantive	2019-03	regulatory change	carried into the successor edition

5. Approval and escalation

Where the evidence before the Investment Committee is incomplete, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The sanction is plain: the position is added to the watch list and reported at each subsequent meeting until closed. As to ownership, labelled schedule with the instrument list attached owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Investment Committee chair. On the population that matters, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking follow-on commitments above the delegated band as the tested set.

In the FORF drafting convention, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The instrument provides that the position is added to the watch list and reported at each subsequent meeting until closed. In control terms, convergence tab showing iterations and residual is named as owner of record in Edition 3.0 and tests Analytics Standards Group. On the population that matters, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking positions whose model was rebuilt in the period as the tested set.

As the FORF control register records, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. As to consequence, a failure here is a reportable control breach and is minuted as such. Within the register, signature page inventory with counterpart status is the accountable function here, testing General Counsel under Edition 3.0. As a matter of coverage, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over commitments made under an unexpired exception and the result is minuted.

Where the evidence before the Investment Committee is incomplete, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Failing that, a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, convergence tab showing iterations and residual performs the test Analytics Standards Group and reports under Follow-On Reserve Framework, Edition 3.0. On the operative population, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining positions whose model was rebuilt in the period at each measurement point.

On the face of FORF version 3.0, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The remedy is procedural: failure is reported to the Investment Committee in the period it is found, not in the period it occurred. By assignment, model cover tab and the reviewer's checklist takes the requirement under Follow-On Reserve Framework, Edition 3.0, verified Analytics Standards Group. On the facts this edition addresses, because this edition governs escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the requirement reaches all new platform commitments in the period and no wider.

Under FORF version 3.0, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The register treats this strictly: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For the avoidance of gaps, signature page inventory with counterpart status holds it for the duration of Edition 3.0, with testing General Counsel. On the facts this edition addresses, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is positions with an unclosed monitoring finding, and a test reported without it is void.

Schedule 6.C - control register as Edition 3.0 drew it

Control ref (FORF version 3.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
FORF-C16	Unsigned counterparts are identified as unsigned wherever the instrument is cited	Legal checks the citation against the signature page inventory	Signature page inventory with counterpart status	Deal Operations manager	General Counsel	Per citation	The instrument is treated as a draft for every purpose in the file
FORF-C17	A waiver granted once is recorded as expiring rather than as standing	Compliance confirms each register line carries an expiry	Waiver register with expiry column populated	Compliance analyst	Legal and Compliance Committee	Quarterly	The waiver lapses immediately and the underlying rule applies
FORF-C18	Escalations reach the named recipient within the stated notification	Compliance samples three escalations and checks the timestamps	Notification record with send and receipt times	Escalating owner	Chief Operating Officer	Quarterly	The owner's escalation authority is suspended pending retraining

Control ref (FORF version 3.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	window						
FORF-C01	Every opportunity presented for approval carries a completed conflict clearance	Compliance confirms the clearance predates the tabling date	Signed clearance form with the date of search	Deal partner	Compliance Officer	Per opportunity	The matter may not be tabled and is struck from the agenda
FORF-C02	Reserve set at initial investment is recorded before the funding instruction issues	Portfolio Finance ties the reserve line to the approval minute	Reserve worksheet countersigned by the deal partner	Portfolio Finance analyst	Fund Controller	Per investment	Funding instruction is withheld until the reserve line exists
FORF-C03	Each capital structure supplied to the committee identifies which view it presents	Reviewer checks the view label against the underlying instruments	Labelled schedule with the instrument list attached	Modeling lead	Investment Committee chair	Per submission	The submission is returned unread and the meeting slot is lost
FORF-C04	Executed instruments are lodged in the data room within five business days of signing	Deal Operations reconciles the signing log to the room index	Room index extract showing lodging dates	Deal Operations manager	General Counsel	Weekly	The deal partner loses signature authority on new documents
FORF-C05	Where two sources disagree, both are preserved and the conflict is logged	Reviewer searches the arbitration log for the affected figure	Arbitration log entry naming both sources	Reviewing analyst	Deal Operations manager	Per discrepancy	Any conclusion drawn from the figure is void and must be redone
FORF-C06	A mark carried for more than two quarters without new evidence is flagged as stale	Fund Controller runs the ageing report against the mark register	Ageing report with the flagged lines initialled	Valuation analyst	Fund Controller	Quarterly	The position is written to the lower of cost and last evidenced value
FORF-C07	Every model released to the committee has a named preparer and a named reviewer	Analytics confirms both names appear on the cover tab	Model cover tab and the reviewer's checklist	Preparer	Analytics Standards Group	Per release	The model is not circulated and the decision is deferred
FORF-C08	Exception requests state a compensating control and an expiry date	Compliance rejects any request with either field blank	Exception form with both fields completed	Requesting partner	Compliance Officer	Per request	The request is refused without prejudice to a complete resubmission
FORF-C09	Board and observer seats are confirmed against the executed voting arrangements	Legal ties each seat to the instrument that creates it	Seat schedule with instrument references	Portfolio Operations	General Counsel	Semi-annually	The seat is treated as unheld until the confirmation is produced
FORF-C10	Currency translation uses one named rate source for the whole submission	Reviewer checks that a single source is cited on every schedule	Rate extract with the source and retrieval date	Modeling lead	Fund Controller	Per submission	The submission is rejected and the analyst redoes the translation
FORF-C11	Circular	Reviewer	Convergence	Preparer	Analytics	Per model	The output

Control ref (FORF version 3.0)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	calculations are iterated to a stated tolerance and the residual is disclosed	inspects the convergence tab for the residual	tab showing iterations and residual		Standards Group		may not be quoted in any approval document
FORF-C12	Post-close reporting obligations are entered in the monitoring calendar at closing	Portfolio Operations reconciles closed deals to calendar entries	Calendar extract for the quarter of closing	Portfolio Operations	Chief Operating Officer	Monthly	The closing is not marked complete and the file stays open
FORF-C13	Allocation between the funds and any co-invest vehicle follows the written basis	Compliance recomputes the allocation from the eligibility list	Allocation worksheet and eligibility list	Allocation Officer	Compliance Officer	Per allocation	The allocation is unwound and re-run under supervision
FORF-C14	Third-party valuation reports are read against the preparer's own conclusion	Fund Controller documents agreement or divergence in writing	Reconciliation note signed by the controller	Valuation analyst	Valuation Committee	Per report	The report may not be relied on and the mark is held at prior basis
FORF-C15	Rounding and precision follow the stated convention on every derived figure	Reviewer recomputes two sampled figures at full precision	Recomputation sheet with both samples	Reviewing analyst	Analytics Standards Group	Per submission	Derived figures are struck and the schedule is reissued

6. Exceptions

For so long as FORF version 3.0 is in force, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. There is no discretion here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. In control terms, room index extract showing lodging dates carries the control in Follow-On Reserve Framework, Edition 3.0, tested General Counsel. As the instrument is scoped, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking matters where two source records disagreed as the tested set.

As applied by the FORF monitoring calendar, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The committee minuted the point: non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. For testing purposes, waiver register with expiry column populated carries the control in Follow-On Reserve Framework, Edition 3.0, tested Legal and Compliance Committee. On the operative population, because this edition governs escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the requirement reaches all new platform commitments in the period and no wider.

As between the deal team and the Investment Committee, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The instrument provides that a failure here is a reportable control breach and is minuted as such. Within the register, arbitration log entry naming both sources is named as owner of record in Edition 3.0 and tests Deal Operations manager. As a matter of coverage, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is positions carried at a mark older than two quarters, and a test reported without it is void.

Where two records before the Investment Committee disagree, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. In such a case, non-

compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. For the avoidance of gaps, calendar extract for the quarter of closing owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Chief Operating Officer. On the population that matters, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on transactions where a delegate signed, which is why the test names its population.

As between the deal team and the Investment Committee, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. As to consequence, the position is added to the watch list and reported at each subsequent meeting until closed. Operationally, arbitration log entry naming both sources holds it for the duration of Edition 3.0, with testing Deal Operations manager. As the scope note records, because this edition governs escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the requirement reaches all new platform commitments in the period and no wider.

As the Investment Committee minuted at adoption, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. Practically, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. In control terms, seat schedule with instrument references answers for it under Edition 3.0, on a General Counsel test cycle. Given what this edition governs, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining positions carried at a mark older than two quarters at each measurement point.

Schedule 6.E - exceptions granted under Edition 3.0

Ref (FORF version 3.0)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
FORF-EX-061	8.5 Third-party report reconciliation	Report arrived two days before the reporting deadline	Controller documented divergence in a short note	Valuation Committee	2024-05-14	2024-06-28	Note reviewed at the following committee	Closed, note accepted
FORF-EX-064	3.8 Rounding convention on derived figures	Inherited schedule carried a different precision convention	Two figures recomputed at full precision and compared	Analytics Standards Group	2024-08-06	2024-09-30	Recomputation sheet retained with the file	Closed, convention applied
FORF-EX-014	4.2 Conflict clearance timing	Clearance search returned after the agenda closed on a competitive process	Partner recused from the vote and clearance filed within two days	Compliance Officer	2021-03-08	2021-04-30	Compliance confirmed the late filing at month end	Closed, monitoring complete
FORF-EX-019	6.1 Reserve recorded before funding	Wire released on a Friday ahead of the reserve worksheet countersignature	Fund Controller held the position off the forecast until signed	Fund Controller	2021-06-24	2021-07-15	Worksheet countersigned and forecast reissued	Closed, no recurrence
FORF-EX-023	3.4 Single rate source per submission	Two rate sources appeared in a submission inherited from a co-lead	Translation redone on one source before the committee read it	Analytics Standards Group	2021-09-02	2021-10-01	Reviewer re-checked the reissued schedules	Closed, control retested
FORF-EX-027	5.3 Model reviewer named on release	Reviewer on leave during a two-day exclusivity window	Second preparer performed an independent rebuild instead	Analytics Standards Group	2022-01-19	2022-02-28	Rebuild retained and compared line by line	Closed, evidence retained
FORF-EX-031	7.2 Executed instruments lodged in	Counterparty withheld the executed	Signing log annotated and weekly	General Counsel	2022-04-11	2022-05-31	Counterpart lodged and index	Closed, obligation satisfied

Ref (FORF version 3.0)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
	five days	counterpart pending a side letter	chase recorded				reconciled	
FORF-EX-034	8.1 Stale mark flagged at two quarters	Third-party report expected within weeks of the ageing run	Position disclosed as awaiting evidence in the pack	Valuation Committee	2022-07-28	2022-09-30	Report received and mark supported	Closed, evidence obtained
FORF-EX-038	4.6 Co-invest allocation basis	Eligibility list incomplete for a newly admitted vehicle	Allocation deferred and re-run once the list was final	Compliance Officer	2022-11-03	2022-12-15	Re-run allocation reviewed by Compliance	Closed, allocation reissued
FORF-EX-042	9.4 Escalation notification window	Escalation raised over a public holiday weekend	Written notice sent to two alternates the same day	Chief Operating Officer	2023-02-16	2023-03-31	Timestamps sampled in the quarterly review	Closed, window met on retest
FORF-EX-045	6.5 Breach request evidence	Re-forecast unavailable while an audit adjustment was open	Approval conditioned on the re-forecast within ten days	Investment Committee	2023-05-09	2023-06-30	Re-forecast filed and condition discharged	Closed, condition met
FORF-EX-049	2.3 Two-signature requirement	Second signatory unreachable during a same-day closing	Managing Partner countersigned within twenty-four hours	Managing Partners acting jointly	2023-08-22	2023-09-29	Signature page inventory updated and checked	Closed, inventory reconciled
FORF-EX-053	5.7 Convergence residual disclosed	Legacy model lacked a convergence tab when inherited	Residual computed by hand and attached to the cover	Analytics Standards Group	2023-11-14	2024-01-31	Model rebuilt with a convergence tab	Closed, rebuild released
FORF-EX-057	7.6 Unsigned counterpart labelling	Summary schedule cited an instrument before counterparts were complete	Schedule relabelled and recirculated the same day	General Counsel	2024-02-27	2024-03-29	Relabelled schedule confirmed in the room	Closed, label corrected

7. Monitoring and reporting

Where a delegate of the Investment Committee acts, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. The edition is explicit here: non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. On the assignment of duties, seat schedule with instrument references is named as owner of record in Edition 3.0 and tests General Counsel. On the operative population, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over commitments made under an unexpired exception and the result is minuted.

As a mandatory standard of FORF version 3.0, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. Practically, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For accountability, ageing report with the flagged lines initialled answers for it under Edition 3.0, on a Fund Controller test cycle. In practice under this edition, scoped to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the control bites on transactions where a delegate signed and is reported on that basis.

Subject to the escalation ladder FORF version 3.0 sets, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The remedy is procedural: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the second reading, model cover tab and the reviewer's checklist bears it in Follow-On Reserve Framework, Edition 3.0, with a Analytics Standards Group verification. In application, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over positions whose model was rebuilt in the period and the result is minuted.

the Investment Committee requires, before a matter may be tabled, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The edition is explicit here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. On the assignment of duties, room index extract showing lodging dates owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs General Counsel. On the facts this edition addresses, the reference population for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry under this edition is matters approved between committee meetings.

Against the FORF version history, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. There is no discretion here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. By assignment, allocation worksheet and eligibility list takes the requirement under Follow-On Reserve Framework, Edition 3.0, verified Compliance Officer. As a matter of coverage, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is positions whose model was rebuilt in the period, and a test reported without it is void.

As a mandatory standard of FORF version 3.0, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The committee minuted the point: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the assignment of duties, waiver register with expiry column populated carries the control in Follow-On Reserve Framework, Edition 3.0, tested Legal and Compliance Committee. Read narrowly, the reference population for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry under this edition is positions carried at a mark older than two quarters.

Schedule 6.H - evidence hierarchy applied by Edition 3.0

Source type (FORF version 3.0)	Rank	Conditions	Defeats	Defeated by
Filed constitutional document bearing a state stamp	1	The stamped copy, not a conformed copy	Any internal statement of the same provision	A later filed and stamped document
Auditor-signed financial statement	2	Signed opinion attached and period stated	Management accounts covering the same period	A restated statement for the same period
Management accounts or an internal ledger extract	4	Preparer named and the extraction date recorded	A verbal figure or a slide	Any audited or executed source
Third-party valuation or specialist report	3	Scope letter and independence confirmation on file	An unsupported internal estimate	An executed transaction in the same security
Term sheet or letter of intent	5	Marked as non-binding except where stated	Nothing; it evidences intent only	Any definitive instrument on the same subject
Counterparty summary, model or diligence answer	6	Source and author identified	Nothing	Every source at rank five or better
Data room index entry without the underlying file	7	Recorded as a pointer, never as content	Nothing	The file itself, once produced
Executed definitive instrument with all counterparts complete	1	Signature pages inventoried and dated	Every draft, summary and model of the same term	A later executed amendment of the same instrument
Executed amendment or restatement	1	Effective date stated on the face of the instrument	The instrument it amends, from its effective date forward	A subsequent executed amendment
Executed instrument with a counterpart outstanding	3	Treated as a draft until the counterpart is lodged	Nothing; it is cited as incomplete	Any instrument at rank one or two
Board or stockholder consent in final executed form	2	Names the matter approved and the date of approval	A summary of the same approval	The instrument the consent authorizes, once executed

8. Version administration

The Portfolio Finance closed this edition on 2025-09-30. Its rules on escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry continued to govern matters already decided under it, and the successor instrument applied only to matters tabled afterwards.

Where the evidence before the Investment Committee is incomplete, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The remedy is procedural: failure is reported to the Investment Committee in the period it is found, not in the period it occurred. As the schedules allocate it, reconciliation note signed by the controller owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Valuation Committee. As the instrument is scoped, scoped to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the control bites on transactions where a delegate signed and is reported on that basis.

On the authority of the Investment Committee, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. Practically, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the assignment of duties, waiver register with expiry column populated is accountable, under the control of Follow-On Reserve Framework, Edition 3.0 tested Legal and Compliance Committee. As the scope note records, for escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry the operative population is commitments made under an unexpired exception, and a test reported without it is void.

On the face of FORF version 3.0, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The stated effect is that non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. On the control map, rate extract with the source and retrieval date owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Fund Controller. Confined to its own field, the Investment Committee applies this to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry by examining matters where two source records disagreed at each measurement point.

As between the deal team and the Investment Committee, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. As recorded at adoption, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. By assignment, reconciliation note signed by the controller is named as owner of record in Edition 3.0 and tests Valuation Committee. On the population that matters, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on matters where two source records disagreed, which is why the test names its population.

On the face of FORF version 3.0, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. Practically, the position is added to the watch list and reported at each subsequent meeting until closed. On the second reading, convergence tab showing iterations and residual takes the requirement under Follow-On Reserve Framework, Edition 3.0, verified Analytics Standards Group. As the instrument is scoped, in the context of escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry this bears on all new platform commitments in the period, which is why the test names its population.

the Investment Committee requires, before a matter may be tabled, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The remedy is procedural: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For testing purposes, labelled schedule with the instrument list attached performs the test Investment Committee chair and reports under Follow-On Reserve Framework, Edition 3.0. On its own subject matter, scoped to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the control bites on co-invest allocations to the parallel vehicle and is reported on that basis.

In the FORF drafting convention, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. On failure, the position is added to the watch list and reported at each subsequent meeting until closed. For accountability, reconciliation note signed by the controller

bears it in Follow-On Reserve Framework, Edition 3.0, with a Valuation Committee verification. Read narrowly, applied to escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, the standard is tested over matters approved between committee meetings and the result is minuted.

As the Investment Committee minuted at adoption, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. On failure, non-compliance suspends the delegate's authority for the matter in question until the Investment Committee restores it. As to ownership, rate extract with the source and retrieval date owns the point in Follow-On Reserve Framework, Edition 3.0, and the test runs Fund Controller. Where it bites, the Portfolio Finance reads this against escalation to breach a reserve, the fully-funded view, and the evidence a breach request must carry, taking co-invest allocations to the parallel vehicle as the tested set.

Schedule 6.X - escalation ladder in force under Edition 3.0

Trigger (FORF version 3.0)	Severity	Notify within	Escalate to	Decision required	Record
An allocation that departs from the written basis	Grade 1	Same business day	Compliance Officer and Allocation Officer	Whether the allocation is unwound and re-run	Allocation worksheet and the unwind instruction
A post-close reporting obligation missed by a full period	Grade 3	Five business days	Portfolio Operations lead	Whether the position moves to enhanced monitoring	Monitoring calendar annotation and a chase record
An exception that reaches its expiry with monitoring outstanding	Grade 2	Two business days	Original approver and Compliance	Whether the exception lapses or is extended on new evidence	Exception log entry and the extension request
A counterparty request to sign a document outside the review standard	Grade 2	Two business days	General Counsel	Whether the document is signed, amended, or refused	Redline, the reviewer's note and the signing log
A third-party report whose conclusion diverges from the internal mark	Grade 2	Three business days	Fund Controller and Valuation Committee	Which basis is carried and what is disclosed	Reconciliation note and both working papers
A funding instruction issued without a recorded reserve line	Grade 1	Immediately on identification	Fund Controller and Chief Financial Officer	Whether the instruction is recalled or ratified with conditions	Treasury log and the ratification minute
A governing-document amendment that changes an economic term post-close	Grade 2	Two business days	Investment Committee chair	Whether committee approval is required before consent is given	Amendment register entry and the consent record
A discrepancy between two executed instruments affecting an economic term	Grade 1	Same business day	General Counsel and the deal partner	Whether the matter is preserved as open or resolved by amendment	Arbitration log and a dated memorandum
A reserve forecast that cannot be met from uncommitted capital	Grade 1	Same business day	Chief Investment Officer and Fund Controller	Whether to seek a breach approval or to reduce participation	Committee minute with the re-forecast attached
A mark that would move by more than one valuation grade in a quarter	Grade 2	Two business days	Valuation Committee chair	Whether an interim mark is struck before quarter end	Valuation file note and the supporting evidence
A model output that fails to converge within the stated tolerance	Grade 2	Two business days	Analytics Standards Group	Whether the output may be quoted or must be withheld	Convergence tab and the reviewer's rejection note
A conflict identified after an opportunity has been tabled	Grade 1	Immediately on identification	Compliance Officer and the committee chair	Whether the vote stands, is retaken, or the matter is withdrawn	Minute amendment and the clearance file
