INVESTMENT POLICY - ARCHIVED EDITION - RECORD 007

Helioscope Robotics, Inc. - diligence file reference POLICY_HISTORY-007

1. Authority and scope

Portfolio Valuation Policy, Edition 2.1 was drafted on 2021-02-18 and took effect on 2021-04-01 on the authority of the Valuation Committee. It governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail. The custodian of record is the Fund Controller, and the schedules to this edition form part of it.

Once a position is held under PVP version 2.1, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. The remedy is procedural: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. For the avoidance of gaps, signed clearance form with the date of search carries the control in Portfolio Valuation Policy, Edition 2.1, tested Compliance Officer. As the scope note records, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over matters where two source records disagreed and the result is minuted.

the Valuation Committee expects, under PVP version 2.1, that a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. Failing that, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. Within the register, waiver register with expiry column populated is accountable, under the control of Portfolio Valuation Policy, Edition 2.1 tested Legal and Compliance Committee. On the operative population, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is commitments made under an unexpired exception, and a test reported without it is void.

Where two records before the Valuation Committee disagree, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. The drafting leaves no room: non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. For the avoidance of gaps, reconciliation note signed by the controller owns the point in Portfolio Valuation Policy, Edition 2.1, and the test runs Valuation Committee. As the instrument is scoped, because this edition governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the requirement reaches transactions where a delegate signed and no wider.

the Valuation Committee requires, before a matter may be tabled, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The edition is explicit here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the control map, reserve worksheet countersigned by the deal partner performs the test Fund Controller and reports under Portfolio Valuation Policy, Edition 2.1. Read narrowly, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking all new platform commitments in the period as the tested set.

Under PVP version 2.1, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. The edition is explicit here: failure is reported to the Valuation Committee in the period it is found, not in the period it occurred. By assignment, ageing report with the flagged lines initialled holds it for the duration of Edition 2.1, with testing Fund Controller. Scoped to this edition, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is co-invest allocations to the parallel vehicle, and a test reported without it is void.

On the authority of the Valuation Committee, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. By way of enforcement, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For testing purposes, allocation worksheet and eligibility list answers for it under Edition 2.1, on a Compliance Officer test cycle. Where it bites, scoped to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the control bites on matters approved between committee meetings and is reported on that basis.

Schedule 7.V - version history of Portfolio Valuation Policy to Edition 2.1

Edition (PVP version 2.1)	Adopted	Effective from	Effective to	Sections changed	Nature of change	Approving body
Edition 1.0	2019-06-20	2019-07-01	2020-12-31	All	First adoption; basis by instrument type and an annual external review	the Valuation Committee
Edition 2.0	2020-11-12	2021-01-01	2021-03-31	3, 4, 6	Evidence hierarchy introduced; preparer and approver separated	the Valuation Committee
Edition 2.1	2021-02-18	2021-04-01	2024-06-30	5, 7	Stale-mark test defined in quarters; audit trail requirements enumerated	the Valuation Committee
Edition 3.0	2024-04-24	2024-07-01		3, 5, 8	Third-party report reconciliation made a standing requirement	the Valuation Committee

2. Defined terms

In the terms PVP version 2.1 uses, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The register treats this strictly: a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, labelled schedule with the instrument list attached is accountable, under the control of Portfolio Valuation Policy, Edition 2.1 tested Investment Committee chair. In practice under this edition, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is commitments made under an unexpired exception.

the Valuation Committee expects, under PVP version 2.1, that the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. Practically, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. By assignment, model cover tab and the reviewer's checklist is accountable, under the control of Portfolio Valuation Policy, Edition 2.1 tested Analytics Standards Group. On the population that matters, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over matters approved between committee meetings and the result is minuted.

For the avoidance of doubt under PVP version 2.1, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. Where it is not met, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Turning to who answers for it, reconciliation note signed by the controller is named as owner of record in Edition 2.1 and tests Valuation Committee. On the population that matters, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is all new platform commitments in the period, and a test reported without it is void.

Notwithstanding the practice before PVP version 2.1, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. On failure, the position is added to the watch list and reported at each subsequent meeting until closed. For testing purposes, recomputation sheet with both samples carries the control in Portfolio Valuation Policy, Edition 2.1, tested Analytics Standards Group. On the operative population, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over follow-on commitments above the delegated band and the result is minuted.

As applied by the PVP monitoring calendar, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. Where it is not met, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the second reading, convergence tab showing iterations and residual is assigned the control by Edition 2.1, which sets the cycle at Analytics Standards Group. In practice under this edition, the Fund Controller reads this against valuation basis by instrument type,

the evidence hierarchy, stale marks and the audit trail, taking follow-on commitments above the delegated band as the tested set.

As PVP version 2.1 was adopted, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. The stated effect is that non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. For accountability, reserve worksheet countersigned by the deal partner answers for it under Edition 2.1, on a Fund Controller test cycle. For the tested set, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over transactions where a delegate signed and the result is minuted.

Schedule 7.T - control testing log kept under Edition 2.1

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
PVP-T0001	Where two sources disagree, both are preserved and the conflict is logged	2024-04	Office of the General Counsel	matters where two source records disagreed	46	failed, evidence produced late	open
PVP-T0002	Executed instruments are lodged in the data room within five business days of signing	2023-01	Fund Controller	follow-on commitments above the delegated band	47	failed, no evidence on file	open
PVP-T0003	Board and observer seats are confirmed against the executed voting arrangements	2023-06	Internal Control Review	follow-on commitments above the delegated band	31	failed, approver was also preparer	open
PVP-T0004	Exception requests state a compensating control and an expiry date	2020-05	Deal Team self-certification	positions with an unclosed monitoring finding	43	passed with an observation recorded	closed
PVP-T0005	Currency translation uses one named rate source for the whole submission	2022-08	Valuation Committee secretariat	commitments made under an unexpired exception	41	passed, evidence complete	closed
PVP-T0006	Where two sources disagree, both are preserved and the conflict is logged	2020-04	Fund Controller	transactions where a delegate signed	47	passed, evidence complete	closed
PVP-T0007	Executed instruments are lodged in the data room within five business days of signing	2020-04	Valuation Committee secretariat	matters where two source records disagreed	39	failed, approver was also preparer	open
PVP-T0008	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2019-12	Office of the General Counsel	positions carried at a mark older than two quarters	11	failed, approver was also preparer	open
PVP-T0009	A waiver granted once is recorded as expiring rather than as	2020-04	Internal Control Review	commitments made under an unexpired exception	43	failed, evidence produced late	open

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	standing						
PVP-T0010	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2022-12	External compliance reviewer	co-invest allocations to the parallel vehicle	32	not tested, population empty	n/a
PVP-T0011	Rounding and precision follow the stated convention on every derived figure	2020-11	Fund Controller	all new platform commitments in the period	21	failed, approver was also preparer	open
PVP-T0012	Third-party valuation reports are read against the preparer's own conclusion	2020-04	Office of the General Counsel	positions with an unclosed monitoring finding	6	not tested, population empty	n/a
PVP-T0013	A waiver granted once is recorded as expiring rather than as standing	2022-04	Fund Controller	positions carried at a mark older than two quarters	45	passed with an observation recorded	closed
PVP-T0014	Where two sources disagree, both are preserved and the conflict is logged	2024-07	Deal Team self-certification	matters approved between committee meetings	33	passed, evidence complete	closed
PVP-T0015	A mark carried for more than two quarters without new evidence is flagged as stale	2025-03	Portfolio Operations	all new platform commitments in the period	33	failed, no evidence on file	open
PVP-T0016	Each capital structure supplied to the committee identifies which view it presents	2021-09	External compliance reviewer	matters approved between committee meetings	44	passed after remediation	closed

	vehicle follows the written basis						
PVP-T0021	Every model released to the committee has a named preparer and a named reviewer	2019-12	Office of the General Counsel	commitments made under an unexpired exception	12	passed after remediation	closed
PVP-T0022	A mark carried for more than two quarters without new evidence is flagged as stale	2022-10	Internal Control Review	all new platform commitments in the period	44	passed after remediation	closed
PVP-T0023	Where two sources disagree, both are preserved and the conflict is logged	2021-11	Fund Controller	follow-on commitments above the delegated band	5	partially tested, sample incomplete	n/a
PVP-T0024	Third-party valuation reports are read against the preparer's own conclusion	2019-05	Fund Controller	transactions where a delegate signed	8	failed, evidence produced late	open
PVP-T0025	Currency translation uses one named rate source for the whole submission	2023-10	Internal Control Review	all new platform commitments in the period	9	failed, evidence produced late	open

2. Defined terms - part 2 of 3

Where the 2. Defined terms was interrupted by the page, it picks up again below, and the numbering is continuous throughout the schedule. Pagination alone determines where it falls.

Nothing in this part varies how the 2. Defined terms was compiled, and the headings given at the start remain the operative ones. The break is editorial.

Schedule 7.T - control testing log kept under Edition 2.1 (continued, part 2 of 3)

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
PVP-T0026	Reserve set at initial investment is recorded before the funding instruction issues	2024-08	Internal Control Review	positions with an unclosed monitoring finding	45	passed after remediation	closed
PVP-T0027	Every opportunity presented for approval carries a completed conflict clearance	2025-02	Valuation Committee secretariat	commitments made under an unexpired exception	44	failed, approver was also preparer	open
PVP-T0028	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2019-01	Valuation Committee secretariat	co-invest allocations to the parallel vehicle	29	failed, no evidence on file	open

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
PVP-T0029	Where two sources disagree, both are preserved and the conflict is logged	2020-07	Internal Control Review	matters approved between committee meetings	50	passed, evidence complete	closed
PVP-T0030	Allocation between the funds and any co-invest vehicle follows the written basis	2024-01	Internal Control Review	all new platform commitments in the period	40	passed, evidence complete	closed
PVP-T0031	Allocation between the funds and any co-invest vehicle follows the written basis	2024-06	Office of the General Counsel	follow-on commitments above the delegated band	44	failed, no evidence on file	open
PVP-T0032	Escalations reach the named recipient within the stated notification window	2019-04	External compliance reviewer	positions whose model was rebuilt in the period	35	not tested, population empty	n/a
PVP-T0033	Currency translation uses one named rate source for the whole submission	2021-02	Portfolio Operations	co-invest allocations to the parallel vehicle	42	partially tested, sample incomplete	n/a
PVP-T0034	Post-close reporting obligations are entered in the monitoring calendar at closing	2022-08	Deal Team self-certification	commitments made under an unexpired exception	50	failed, evidence produced late	open
PVP-T0035	Currency translation uses one named rate source for the whole submission	2020-03	Deal Team self-certification	matters where two source records disagreed	46	partially tested, sample incomplete	n/a
PVP-T0036	Third-party valuation reports are read against the preparer's own conclusion	2022-05	Deal Team self-certification	matters approved between committee meetings	26	failed, approver was also preparer	open

PVP-T0044	Rounding and precision follow the stated convention on every derived figure	2021-08	Valuation Committee secretariat	matters approved between committee meetings	40	not tested, population empty	n/a
PVP-T0045	Allocation between the funds and any co-invest vehicle follows the written basis	2021-01	Deal Team self-certification	positions with an unclosed monitoring finding	24	failed, approver was also preparer	open
PVP-T0046	Where two sources disagree, both are preserved and the conflict is logged	2025-08	Internal Control Review	co-invest allocations to the parallel vehicle	5	failed, evidence produced late	open
PVP-T0047	Each capital structure supplied to the committee identifies which view it presents	2023-08	External compliance reviewer	follow-on commitments above the delegated band	20	partially tested, sample incomplete	n/a
PVP-T0048	Escalations reach the named recipient within the stated notification window	2021-10	Valuation Committee secretariat	matters where two source records disagreed	16	failed, approver was also preparer	open
PVP-T0049	Where two sources disagree, both are preserved and the conflict	2019-06	Deal Team self-certification	positions with an unclosed monitoring finding	36	failed, no evidence on file	open

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	is logged						
PVP-T0050	Where two sources disagree, both are preserved and the conflict is logged	2025-10	Fund Controller	follow-on commitments above the delegated band	44	failed, no evidence on file	open

2. Defined terms - part 3 of 3

Because the 2. Defined terms does not fit one page, its remainder is set out below under the same references. No row is omitted at the join.

No basis of compilation changes at this break; whatever the 2. Defined terms recorded about scope and method at its head continues to apply. The parts are to be read together.

Schedule 7.T - control testing log kept under Edition 2.1 (continued, part 3 of 3)

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
PVP-T0051	Every opportunity presented for approval carries a completed conflict clearance	2025-03	Valuation Committee secretariat	follow-on commitments above the delegated band	3	failed, no evidence on file	open
PVP-T0052	Third-party valuation reports are read against the preparer's own conclusion	2025-05	Valuation Committee secretariat	commitments made under an unexpired exception	38	partially tested, sample incomplete	n/a
PVP-T0053	Currency translation uses one named rate source for the whole submission	2022-01	Valuation Committee secretariat	positions carried at a mark older than two quarters	38	not tested, population empty	n/a
PVP-T0054	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2019-08	External compliance reviewer	transactions where a delegate signed	36	passed after remediation	closed
PVP-T0055	Third-party valuation reports are read against the preparer's own conclusion	2019-03	Internal Control Review	commitments made under an unexpired exception	24	passed with an observation recorded	closed
PVP-T0056	Allocation between the funds and any co-invest vehicle follows the written basis	2020-10	Deal Team self-certification	commitments made under an unexpired exception	16	partially tested, sample incomplete	n/a
PVP-T0057	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2019-05	Internal Control Review	positions carried at a mark older than two quarters	8	passed, evidence complete	closed
PVP-T0058	Allocation between the funds and any	2023-06	Fund Controller	positions carried at a mark older	19	failed, no evidence on file	open

Test ref (PVP version 2.1)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	co-invest vehicle follows the written basis			than two quarters			
PVP-T0059	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2019-10	Office of the General Counsel	transactions where a delegate signed	12	failed, approver was also preparer	open

PVP-T0073	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2021-02	Deal Team self-certification	positions with an unclosed monitoring finding	26	passed, evidence complete	closed
PVP-T0074	Post-close reporting obligations are entered in the monitoring calendar at closing	2024-02	Portfolio Operations	follow-on commitments above the delegated band	36	failed, evidence produced late	open

3. Mandatory standards

Under PVP version 2.1, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. As recorded at adoption, the position is added to the watch list and reported at each subsequent meeting until closed. For the avoidance of gaps, waiver register with expiry column populated is the accountable function here, testing Legal and Compliance Committee under Edition 2.1. As the scope note records, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking matters where two source records disagreed as the tested set.

As the Valuation Committee minuted at adoption, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The instrument provides that an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For testing purposes, labelled schedule with the instrument list attached retains the duty throughout Edition 2.1, evidenced Investment Committee chair. Scoped to this edition, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking matters approved between committee meetings as the tested set.

Against the PVP version history, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. The edition is explicit here: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. As to ownership, signature page inventory with counterpart status takes the requirement under Portfolio Valuation Policy, Edition 2.1, verified

General Counsel. In practice under this edition, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is follow-on commitments above the delegated band, and a test reported without it is void.

Subject to the escalation ladder PVP version 2.1 sets, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The committee minuted the point: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. In control terms, allocation worksheet and eligibility list takes the requirement under Portfolio Valuation Policy, Edition 2.1, verified Compliance Officer. Scoped to this edition, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining positions whose model was rebuilt in the period at each measurement point.

As the PVP control register records, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. The edition is explicit here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Operationally, convergence tab showing iterations and residual answers for it under Edition 2.1, on a Analytics Standards Group test cycle. In practice under this edition, in the context of valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail this bears on follow-on commitments above the delegated band, which is why the test names its population.

In the PVP drafting convention, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The instrument provides that a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, notification record with send and receipt times answers for it under Edition 2.1, on a Chief Operating Officer test cycle. On the population that matters, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining positions with an unclosed monitoring finding at each measurement point.

Schedule 7.D - decisions taken under Edition 2.1

Decision ref (PVP version 2.1)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
PVP-D0001	reserve re-forecast	2023-03-17	Investment Committee, simple majority	Disposition or write-off of a position	within band	incomplete at decision
PVP-D0002	watch-list escalation	2023-05-24	Sector Partner	New platform commitment	ratified after the fact	complete
PVP-D0003	watch-list escalation	2024-01-21	Investment Committee, unanimous	New platform commitment	within band	complete
PVP-D0004	follow-on within reserve	2025-11-14	Investment Committee, simple majority	Secondary purchase of an existing position	ratified after the fact	complete
PVP-D0005	reserve re-forecast	2022-06-14	Two Investment Committee members	Bridge or interim instrument	referred to counsel	complete
PVP-D0006	exception renewal	2025-03-20	Sector Partner	New platform commitment	within band	complete
PVP-D0007	reserve re-forecast	2020-04-03	General Counsel	Guarantee, indemnity or side letter	within band	produced late
PVP-D0008	follow-on breaching reserve	2021-03-22	Investment Committee, unanimous	New platform commitment	escalated one level	incomplete at decision
PVP-D0009	co-invest allocation	2025-09-25	Sector Partner	New platform commitment	escalated one level	incomplete at decision
PVP-D0010	follow-on breaching reserve	2023-12-16	Investment Committee, simple majority	Secondary purchase of an existing position	ratified after the fact	incomplete at decision

4. Evidence and owners

PVP version 2.1 provides, within the scope stated above, that a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Failing that, the position is added to the watch list and reported at each subsequent meeting until closed. Within the register, exception form with both fields completed is assigned the control by Edition 2.1, which sets the cycle at Compliance Officer. Read narrowly, because this edition governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the requirement reaches matters where two source records disagreed and no wider.

As the PVP control register records, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. On the plain words, non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. For

accountability, signed clearance form with the date of search holds it for the duration of Edition 2.1, with testing Compliance Officer. Read narrowly, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over all new platform commitments in the period and the result is minuted.

On the face of PVP version 2.1, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. There is no discretion here: non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. Turning to who answers for it, allocation worksheet and eligibility list is assigned the control by Edition 2.1, which sets the cycle at Compliance Officer. On its own subject matter, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is matters approved between committee meetings.

the Valuation Committee requires, before a matter may be tabled, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The edition is explicit here: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. For accountability, reconciliation note signed by the controller is named as owner of record in Edition 2.1 and tests Valuation Committee. On the facts this edition addresses, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is all new platform commitments in the period.

On a proper reading of the PVP schedules, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The sanction is plain: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. Within the register, reconciliation note signed by the controller is assigned the control by Edition 2.1, which sets the cycle at Valuation Committee. In practice under this edition, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is all new platform commitments in the period.

Subject to the escalation ladder PVP version 2.1 sets, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The drafting leaves no room: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, labelled schedule with the instrument list attached carries the control in Portfolio Valuation Policy, Edition 2.1, tested Investment Committee chair. Where it bites, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over positions whose model was rebuilt in the period and the result is minuted.

Schedule 7.Z - amendment trail behind Edition 2.1

5. Approval and escalation

As applied by the PVP monitoring calendar, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. There is no discretion here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the assignment of duties, seat schedule with instrument references performs the test General Counsel and reports under Portfolio Valuation Policy, Edition 2.1. In practice under this edition, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is commitments made under an unexpired exception.

As applied by the PVP monitoring calendar, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. There is no discretion here: the position is added to the watch list and reported at each subsequent meeting until closed. In the accountability chain, notification record with send and receipt times answers for it under Edition 2.1, on a Chief Operating Officer test cycle. In practice under this edition, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over positions carried at a mark older than two quarters and the result is minuted.

At each measurement point PVP version 2.1 fixes, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. The instrument provides that non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. As the schedules allocate it, reserve worksheet countersigned by the deal partner carries the control in Portfolio Valuation Policy, Edition 2.1, tested Fund Controller. Where it bites, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking positions whose model was rebuilt in the period as the tested set.

For so long as PVP version 2.1 is in force, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. On failure, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For testing purposes, room index extract showing lodging dates answers for it under Edition 2.1, on a General Counsel test cycle. On the facts this edition addresses, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over positions with an unclosed monitoring finding and the result is minuted.

Under PVP version 2.1, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The edition is explicit here: non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. On the control map, seat schedule with instrument references is accountable, under the control of Portfolio Valuation Policy, Edition 2.1 tested General Counsel. As the scope note records, because this edition governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the requirement reaches all new platform commitments in the period and no wider.

Where the evidence before the Valuation Committee is incomplete, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The drafting leaves no room: the position is added to the watch list and reported at each subsequent meeting until closed.

On the assignment of duties, arbitration log entry naming both sources is assigned the control by Edition 2.1, which sets the cycle at Deal Operations manager. On the population that matters, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is follow-on commitments above the delegated band, and a test reported without it is void.

Schedule 7.C - control register as Edition 2.1 drew it

Control ref (PVP version 2.1)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
PVP-C13	Allocation between the funds and any co-invest vehicle follows the written basis	Compliance recomputes the allocation from the eligibility list	Allocation worksheet and eligibility list	Allocation Officer	Compliance Officer	Per allocation	The allocation is unwound and re-run under supervision
PVP-C14	Third-party valuation reports are read against the preparer's own conclusion	Fund Controller documents agreement or divergence in writing	Reconciliation note signed by the controller	Valuation analyst	Valuation Committee	Per report	The report may not be relied on and the mark is held at prior basis
PVP-C15	Rounding and precision follow the stated convention on every derived figure	Reviewer recomputes two sampled figures at full precision	Recomputation sheet with both samples	Reviewing analyst	Analytics Standards Group	Per submission	Derived figures are struck and the schedule is reissued
PVP-C16	Unsigned counterparts are identified as unsigned wherever the instrument is cited	Legal checks the citation against the signature page inventory	Signature page inventory with counterpart status	Deal Operations manager	General Counsel	Per citation	The instrument is treated as a draft for every purpose in the file
PVP-C17	A waiver granted once is recorded as expiring rather than as standing	Compliance confirms each register line carries an expiry	Waiver register with expiry column populated	Compliance analyst	Legal and Compliance Committee	Quarterly	The waiver lapses immediately and the underlying rule applies
PVP-C18	Escalations reach the named recipient within the stated notification window	Compliance samples three escalations and checks the timestamps	Notification record with send and receipt times	Escalating owner	Chief Operating Officer	Quarterly	The owner's escalation authority is suspended pending retraining
PVP-C01	Every opportunity presented for approval carries a completed conflict clearance	Compliance confirms the clearance predates the tabling date	Signed clearance form with the date of search	Deal partner	Compliance Officer	Per opportunity	The matter may not be tabled and is struck from the agenda
PVP-C02	Reserve set at initial investment is recorded before the funding instruction issues	Portfolio Finance ties the reserve line to the approval minute	Reserve worksheet countersigned by the deal partner	Portfolio Finance analyst	Fund Controller	Per investment	Funding instruction is withheld until the reserve line exists
PVP-C03	Each capital structure supplied to the committee	Reviewer checks the view label against the	Labelled schedule with the instrument list attached	Modeling lead	Investment Committee chair	Per submission	The submission is returned unread and the

Control ref (PVP version 2.1)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	identifies which view it presents	underlying instruments					meeting slot is lost
PVP-C04	Executed instruments are lodged in the data room within five business days of signing	Deal Operations reconciles the signing log to the room index	Room index extract showing lodging dates	Deal Operations manager	General Counsel	Weekly	The deal partner loses signature authority on new documents
PVP-C05	Where two sources disagree, both are preserved and the conflict is logged	Reviewer searches the arbitration log for the affected figure	Arbitration log entry naming both sources	Reviewing analyst	Deal Operations manager	Per discrepancy	Any conclusion drawn from the figure is void and must be redone
PVP-C06	A mark carried for more than two quarters without new evidence is flagged as stale	Fund Controller runs the ageing report against the mark register	Ageing report with the flagged lines initialled	Valuation analyst	Fund Controller	Quarterly	The position is written to the lower of cost and last evidenced value
PVP-C07	Every model released to the committee has a named preparer and a named reviewer	Analytics confirms both names appear on the cover tab	Model cover tab and the reviewer's checklist	Preparer	Analytics Standards Group	Per release	The model is not circulated and the decision is deferred
PVP-C08	Exception requests state a compensating control and an expiry date	Compliance rejects any request with either field blank	Exception form with both fields completed	Requesting partner	Compliance Officer	Per request	The request is refused without prejudice to a complete resubmission
PVP-C09	Board and observer seats are confirmed against the executed voting arrangements	Legal ties each seat to the instrument that creates it	Seat schedule with instrument references	Portfolio Operations	General Counsel	Semi-annually	The seat is treated as unheld until the confirmation is produced
PVP-C10	Currency translation uses one named rate source for the whole submission	Reviewer checks that a single source is cited on every schedule	Rate extract with the source and retrieval date	Modeling lead	Fund Controller	Per submission	The submission is rejected and the analyst redoes the translation
PVP-C11	Circular calculations are iterated to a stated tolerance and the residual is disclosed	Reviewer inspects the convergence tab for the residual	Convergence tab showing iterations and residual	Preparer	Analytics Standards Group	Per model	The output may not be quoted in any approval document
PVP-C12	Post-close reporting obligations are entered in the monitoring calendar at closing	Portfolio Operations reconciles closed deals to calendar entries	Calendar extract for the quarter of closing	Portfolio Operations	Chief Operating Officer	Monthly	The closing is not marked complete and the file stays open

6. Exceptions

On the authority of the Valuation Committee, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Practically, the position is added to the watch list and reported at each subsequent meeting until closed. By assignment, room index extract showing lodging dates performs the test General Counsel and reports under Portfolio Valuation Policy, Edition 2.1. Confined to its own field, for valuation basis

by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is matters approved between committee meetings, and a test reported without it is void.

As between the deal team and the Valuation Committee, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. As to consequence, non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. For testing purposes, reconciliation note signed by the controller takes the requirement under Portfolio Valuation Policy, Edition 2.1, verified Valuation Committee. Read narrowly, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking commitments made under an unexpired exception as the tested set.

For so long as PVP version 2.1 is in force, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. By way of enforcement, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. For accountability, labelled schedule with the instrument list attached is assigned the control by Edition 2.1, which sets the cycle at Investment Committee chair. Given what this edition governs, because this edition governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the requirement reaches transactions where a delegate signed and no wider.

In the terms PVP version 2.1 uses, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. As recorded at adoption, the position is added to the watch list and reported at each subsequent meeting until closed. In control terms, reserve worksheet countersigned by the deal partner answers for it under Edition 2.1, on a Fund Controller test cycle. For the tested set, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking positions whose model was rebuilt in the period as the tested set.

As applied by the PVP monitoring calendar, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. Failing that, a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, convergence tab showing iterations and residual is named as owner of record in Edition 2.1 and tests Analytics Standards Group. As a matter of coverage, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining commitments made under an unexpired exception at each measurement point.

Where two records before the Valuation Committee disagree, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. As to consequence, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For testing purposes, arbitration log entry naming both sources is named as owner of record in Edition 2.1 and tests Deal Operations manager. Read narrowly, applied to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the standard is tested over co-invest allocations to the parallel vehicle and the result is minuted.

Schedule 7.E - exceptions granted under Edition 2.1

Ref (PVP version 2.1)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
PVP-EX-038	4.6 Co-invest allocation basis	Eligibility list incomplete for a newly admitted vehicle	Allocation deferred and re-run once the list was final	Compliance Officer	2022-11-03	2022-12-15	Re-run allocation reviewed by Compliance	Closed, allocation reissued
PVP-EX-042	9.4 Escalation notification window	Escalation raised over a public holiday weekend	Written notice sent to two alternates the same day	Chief Operating Officer	2023-02-16	2023-03-31	Timestamps sampled in the quarterly review	Closed, window met on retest
PVP-EX-045	6.5 Breach request evidence	Re-forecast unavailable while an audit adjustment was open	Approval conditioned on the re-forecast within ten days	Investment Committee	2023-05-09	2023-06-30	Re-forecast filed and condition discharged	Closed, condition met

Ref (PVP version 2.1)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
PVP-EX-049	2.3 Two-signature requirement	Second signatory unreachable during a same-day closing	Managing Partner countersigned within twenty-four hours	Managing Partners acting jointly	2023-08-22	2023-09-29	Signature page inventory updated and checked	Closed, inventory reconciled
PVP-EX-053	5.7 Convergence residual disclosed	Legacy model lacked a convergence tab when inherited	Residual computed by hand and attached to the cover	Analytics Standards Group	2023-11-14	2024-01-31	Model rebuilt with a convergence tab	Closed, rebuild released
PVP-EX-057	7.6 Unsigned counterpart labelling	Summary schedule cited an instrument before counterparts were complete	Schedule relabelled and recirculated the same day	General Counsel	2024-02-27	2024-03-29	Relabelled schedule confirmed in the room	Closed, label corrected
PVP-EX-061	8.5 Third-party report reconciliation	Report arrived two days before the reporting deadline	Controller documented divergence in a short note	Valuation Committee	2024-05-14	2024-06-28	Note reviewed at the following committee	Closed, note accepted
PVP-EX-064	3.8 Rounding convention on derived figures	Inherited schedule carried a different precision convention	Two figures recomputed at full precision and compared	Analytics Standards Group	2024-08-06	2024-09-30	Recomputation sheet retained with the file	Closed, convention applied
PVP-EX-014	4.2 Conflict clearance timing	Clearance search returned after the agenda closed on a competitive process	Partner recused from the vote and clearance filed within two days	Compliance Officer	2021-03-08	2021-04-30	Compliance confirmed the late filing at month end	Closed, monitoring complete
PVP-EX-019	6.1 Reserve recorded before funding	Wire released on a Friday ahead of the reserve worksheet countersignature	Fund Controller held the position off the forecast until signed	Fund Controller	2021-06-24	2021-07-15	Worksheet countersigned and forecast reissued	Closed, no recurrence
PVP-EX-023	3.4 Single rate source per submission	Two rate sources appeared in a submission inherited from a co-lead	Translation redone on one source before the committee read it	Analytics Standards Group	2021-09-02	2021-10-01	Reviewer re-checked the reissued schedules	Closed, control retested
PVP-EX-027	5.3 Model reviewer named on release	Reviewer on leave during a two-day exclusivity window	Second preparer performed an independent rebuild instead	Analytics Standards Group	2022-01-19	2022-02-28	Rebuild retained and compared line by line	Closed, evidence retained
PVP-EX-031	7.2 Executed instruments lodged in five days	Counterparty withheld the executed counterpart pending a side letter	Signing log annotated and weekly chase recorded	General Counsel	2022-04-11	2022-05-31	Counterpart lodged and index reconciled	Closed, obligation satisfied
PVP-EX-034	8.1 Stale mark flagged at two quarters	Third-party report expected within weeks of the ageing run	Position disclosed as awaiting evidence in the pack	Valuation Committee	2022-07-28	2022-09-30	Report received and mark supported	Closed, evidence obtained

7. Monitoring and reporting

Under PVP version 2.1, the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. There is no discretion here: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the second reading, rate extract with the source and retrieval date carries the control in Portfolio Valuation Policy, Edition 2.1, tested Fund Controller. For the tested set, the Fund Controller reads this against valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, taking positions carried at a mark older than two quarters as the tested set.

At each measurement point PVP version 2.1 fixes, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. As recorded at adoption, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. By assignment, allocation worksheet and eligibility list retains the duty throughout Edition 2.1, evidenced Compliance Officer. By way of illustration, in the context of valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail this bears on positions with an unclosed monitoring finding, which is why the test names its population.

By the terms of the PVP standard, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. The edition is explicit here: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. Turning to who answers for it, allocation worksheet and eligibility list answers for it under Edition 2.1, on a Compliance Officer test cycle. On its own subject matter, in the context of valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail this bears on transactions where a delegate signed, which is why the test names its population.

At each measurement point PVP version 2.1 fixes, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The sanction is plain: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. Turning to who answers for it, arbitration log entry naming both sources is named as owner of record in Edition 2.1 and tests Deal Operations manager. Read narrowly, scoped to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the control bites on transactions where a delegate signed and is reported on that basis.

the Valuation Committee expects, under PVP version 2.1, that a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. The sanction is plain: failure is reported to the Valuation Committee in the period it is found, not in the period it occurred. Within the register, labelled schedule with the instrument list attached is assigned the control by Edition 2.1, which sets the cycle at Investment Committee chair. Confined to its own field, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is positions whose model was rebuilt in the period, and a test reported without it is void.

Save where the Valuation Committee grants an exception, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The edition is explicit here: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. Operationally, ageing report with the flagged lines initialled is named as owner of record in Edition 2.1 and tests Fund Controller. As a matter of coverage, scoped to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the control bites on matters where two source records disagreed and is reported on that basis.

Schedule 7.I - review issues reserved to the Valuation Committee by Edition 2.1

Issue (PVP version 2.1)	Who may clear it	Standard applied	Escalation where the standard is not met
Pro rata and participation rights	Deal partner with Portfolio Finance	The right must be exercisable from the recorded reserve	Fund Controller where the reserve is insufficient
Information and inspection rights	Deal partner	Must support the post-close monitoring obligations	Portfolio Operations lead
Founder vesting and acceleration	General Counsel with the deal partner	Acceleration on a change of control needs express approval	Investment Committee
Registration and transfer restrictions	General Counsel only	Restrictions must fit the exemption being relied on	Legal and Compliance Committee
Redemption or put mechanics	General Counsel only	Any redemption right is a reserved issue in every case	Managing Partners acting jointly
Expense and fee reimbursement	Chief Financial Officer	Reimbursement must be capped	General Counsel where no cap is

Issue (PVP version 2.1)	Who may clear it	Standard applied	Escalation where the standard is not met
		and the cap must be stated	offered
Exclusivity and no-shop covenants	Deal partner	The term may not exceed the period the approval contemplated	General Counsel before signature
Conditions to closing	General Counsel with the deal partner	Each condition must be capable of objective testing	Legal and Compliance Committee
Liquidation preference structure	General Counsel with the deal partner	Must match the structure recorded in the approval minute	Investment Committee chair before signature
Anti-dilution mechanic	General Counsel only	Any mechanic outside the approved form is a reserved issue	Legal and Compliance Committee
Board composition and observer rights	Deal partner	Seats must be creatable by the instruments proposed	General Counsel where an instrument must change
Protective provisions and consent list	General Counsel only	The consent list may not exceed the approved list	Legal and Compliance Committee

8. Version administration

The Fund Controller closed this edition on 2024-06-30. Its rules on valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail continued to govern matters already decided under it, and the successor instrument applied only to matters tabled afterwards.

Having regard to the effective date of PVP version 2.1, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. Should that occur, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. In the accountability chain, calendar extract for the quarter of closing carries the control in Portfolio Valuation Policy, Edition 2.1, tested Chief Operating Officer. Read narrowly, the reference population for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail under this edition is transactions where a delegate signed.

For the avoidance of doubt under PVP version 2.1, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. Where it is not met, a failure here is a reportable control breach and is minuted as such. In control terms, rate extract with the source and retrieval date performs the test Fund Controller and reports under Portfolio Valuation Policy, Edition 2.1. Scoped to this edition, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining matters approved between committee meetings at each measurement point.

On the authority of the Valuation Committee, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. Where it is not met, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For accountability, notification record with send and receipt times retains the duty throughout Edition 2.1, evidenced Chief Operating Officer. For the tested set, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining transactions where a delegate signed at each measurement point.

PVP version 2.1 provides, within the scope stated above, that the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Practically, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. For accountability, recomputation sheet with both samples is assigned the control by Edition 2.1, which sets the cycle at Analytics Standards Group. Scoped to this edition, for valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail the operative population is matters where two source records disagreed, and a test reported without it is void.

For the avoidance of doubt under PVP version 2.1, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. Where it is not met, non-compliance suspends the delegate's authority for the matter in question until the Valuation Committee restores it. In the accountability chain, labelled schedule with the instrument list attached is assigned the control by Edition 2.1, which sets the cycle at Investment Committee chair. On its own subject matter, because this edition governs valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail, the requirement reaches positions whose model was rebuilt in the period and no wider.

Notwithstanding the practice before PVP version 2.1, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The committee minuted the point: an approval given

in breach of this standard is recorded as invalid and the matter is re-tabled. In the accountability chain, labelled schedule with the instrument list attached bears it in Portfolio Valuation Policy, Edition 2.1, with a Investment Committee chair verification. In application, the Valuation Committee applies this to valuation basis by instrument type, the evidence hierarchy, stale marks and the audit trail by examining matters where two source records disagreed at each measurement point.

Schedule 7.A - delegated authority bands under Edition 2.1

Decision type (PVP version 2.1)	Threshold band	Primary approver	Secondary approver	Documentation required	Reporting
New platform commitment	above USD 4,000,000	Investment Committee, unanimous	Managing Partners acting jointly	Full diligence file, model, legal opinion	Reported to the advisory board quarterly
Follow-on within an approved reserve	up to the reserved amount	Deal partner and Portfolio Finance	Fund Controller confirms reserve balance	Reserve worksheet and updated forecast	Listed in the monthly reserve report
Follow-on exceeding an approved reserve	any amount	Investment Committee, two-thirds	Chief Investment Officer	Breach request with re-forecast and rationale	Minuted and reported to the advisory board
Bridge or interim instrument	up to USD 1,250,000	Two Investment Committee members	General Counsel	Bridge memorandum and repayment analysis	Reported at the next committee meeting
Pro rata waiver or pass on a right	any amount	Investment Committee, simple majority	Managing Partner not on the board seat	Waiver rationale and portfolio impact note	Recorded in the waiver register
Co-invest allocation to a vehicle	any amount	Allocation Officer	Compliance review before allocation	Allocation worksheet and eligibility list	Reported to affected limited partners
Secondary purchase of an existing position	up to USD 2,000,000	Investment Committee, simple majority	Fund Controller on pricing basis	Independent pricing evidence and seller file	Minuted with the pricing basis stated
Disposition or write-off of a position	any amount	Investment Committee, simple majority	Valuation Committee on the carrying basis	Disposition memorandum and final mark	Reported in the quarterly valuation pack
Amendment of a governing document post-close	any amount	Deal partner and General Counsel	Investment Committee if economics change	Redline, impact note and consent record	Logged in the post-close amendment register
Guarantee, indemnity or side letter	any amount	General Counsel	Chief Financial Officer	Executed instrument and exposure note	Reported to the advisory board annually
Engagement of a third-party valuation firm	up to USD 200,000 per engagement	Fund Controller	Valuation Committee chair	Scope letter and independence confirmation	Listed in the valuation service register
Expense charged to a portfolio company	any amount	Chief Financial Officer	General Counsel where a conflict exists	Invoice, allocation basis and consent	Disclosed in the annual expense schedule
Extension of an outstanding exception	any amount	Original approver plus one	Compliance confirms monitoring is current	Extension request and monitoring evidence	Reflected in the exception log
New platform commitment	up to USD 750,000	Sector Partner	one Managing Partner	Screening memorandum and reference log	Reported at the next committee meeting
New platform commitment	USD 750,001 to USD 4,000,000	Investment Committee, simple majority	General Counsel sign-off on documents	Full diligence file and draft term sheet	Minuted with dissent recorded
