INVESTMENT POLICY - ARCHIVED EDITION - RECORD 009

Helioscope Robotics, Inc. - diligence file reference POLICY_HISTORY-009

1. Authority and scope

Term Sheet and Definitive Document Review Standard, Edition 3.2 was drafted on 2023-04-19 and took effect on 2023-06-01 on the authority of the Legal and Compliance Committee. It governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone. The custodian of record is the Office of the General Counsel, and the schedules to this edition form part of it.

On the face of TSRS version 3.2, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. There is no discretion here: the position is added to the watch list and reported at each subsequent meeting until closed. On the control map, notification record with send and receipt times is named as owner of record in Edition 3.2 and tests Chief Operating Officer. In application, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over matters where two source records disagreed and the result is minuted.

Read with the TSRS schedules, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. Practically, a failure here is a reportable control breach and is minuted as such. In the accountability chain, exception form with both fields completed carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested Compliance Officer. On the population that matters, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking commitments made under an unexpired exception as the tested set.

Where two records before the Legal and Compliance Committee disagree, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. Failing that, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. In control terms, reserve worksheet countersigned by the deal partner is accountable, under the control of Term Sheet and Definitive Document Review Standard, Edition 3.2 tested Fund Controller. By way of illustration, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining matters approved between committee meetings at each measurement point.

As a mandatory standard of TSRS version 3.2, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The remedy is procedural: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the assignment of duties, labelled schedule with the instrument list attached owns the point in Term Sheet and Definitive Document Review Standard, Edition 3.2, and the test runs Investment Committee chair. For the tested set, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on positions with an unclosed monitoring finding, which is why the test names its population.

Save where the Legal and Compliance Committee grants an exception, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. In such a case, a failure here is a reportable control breach and is minuted as such. Turning to who answers for it, seat schedule with instrument references carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested General Counsel. On the facts this edition addresses, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on transactions where a delegate signed, which is why the test names its population.

As applied by the TSRS monitoring calendar, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. In such a case, the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the control map, rate extract with the source and retrieval date is the accountable function here, testing Fund Controller under Edition 3.2. On the population that matters, the Office of the

General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking co-invest allocations to the parallel vehicle as the tested set.

Schedule 9.V - version history of Term Sheet and Definitive Document Review Standard to Edition 3.2

Edition (TSRS version 3.2)	Adopted	Effective from	Effective to	Sections changed	Nature of change	Approving body
Edition 1.0	2019-08-05	2019-09-01	2021-05-31	All	First adoption; issue list for term sheets and a review sign-off	the Legal and Compliance Committee
Edition 2.0	2021-04-26	2021-06-01	2022-11-30	2, 3, 5	Definitive documents brought into scope; reserved issues listed	the Legal and Compliance Committee
Edition 3.0	2022-10-17	2022-12-01	2023-05-31	4, 6	Deal-team clearance limited to enumerated issues	the Legal and Compliance Committee
Edition 3.2	2023-04-19	2023-06-01	2025-12-31	6, 7	Signing checklist added; counterpart control tied to the review sign-off	the Legal and Compliance Committee

2. Defined terms

For the avoidance of doubt under TSRS version 3.2, a compensating control substitutes for a requirement only where the substitution is approved in advance and recorded against the exception. In such a case, non-compliance suspends the delegate's authority for the matter in question until the Legal and Compliance Committee restores it. In control terms, notification record with send and receipt times is named as owner of record in Edition 3.2 and tests Chief Operating Officer. Confined to its own field, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches matters where two source records disagreed and no wider.

In the TSRS drafting convention, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The stated effect is that failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. On the assignment of duties, notification record with send and receipt times holds it for the duration of Edition 3.2, with testing Chief Operating Officer. Given what this edition governs, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking positions whose model was rebuilt in the period as the tested set.

TSRS version 3.2 provides, within the scope stated above, that escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. As to consequence, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. For testing purposes, labelled schedule with the instrument list attached carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested Investment Committee chair. By way of illustration, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking all new platform commitments in the period as the tested set.

the Legal and Compliance Committee requires, before a matter may be tabled, a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The instrument provides that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. In the accountability chain, reserve worksheet countersigned by the deal partner is the accountable function here, testing Fund Controller under Edition 3.2. As the scope note records, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches transactions where a delegate signed and no wider.

Against the TSRS version history, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The drafting leaves no room: the

finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. For testing purposes, waiver register with expiry column populated performs the test Legal and Compliance Committee and reports under Term Sheet and Definitive Document Review Standard, Edition 3.2. On the operative population, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches all new platform commitments in the period and no wider.

As applied by the TSRS monitoring calendar, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. On the plain words, failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. As the schedules allocate it, convergence tab showing iterations and residual owns the point in Term Sheet and Definitive Document Review Standard, Edition 3.2, and the test runs Analytics Standards Group. By way of illustration, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over matters approved between committee meetings and the result is minuted.

Schedule 9.T - control testing log kept under Edition 3.2

Test ref (TSRS version 3.2)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
TSRS-T0001	Post-close reporting obligations are entered in the monitoring calendar at closing	2019-03	Fund Controller	transactions where a delegate signed	43	failed, approver was also preparer	open
TSRS-T0002	A waiver granted once is recorded as expiring rather than as standing	2024-11	Portfolio Operations	positions carried at a mark older than two quarters	45	passed after remediation	closed
TSRS-T0003	Board and observer seats are confirmed against the executed voting arrangements	2019-10	Deal Team self-certification	follow-on commitments above the delegated band	23	failed, approver was also preparer	open
TSRS-T0004	Rounding and precision follow the stated convention on every derived figure	2024-03	Valuation Committee secretariat	positions with an unclosed monitoring finding	32	not tested, population empty	n/a
TSRS-T0005	Every opportunity presented for approval carries a completed conflict clearance	2023-06	Fund Controller	all new platform commitments in the period	21	failed, approver was also preparer	open
TSRS-T0006	Board and observer seats are confirmed against the executed voting arrangements	2023-01	Internal Control Review	commitments made under an unexpired exception	34	failed, evidence produced late	open
TSRS-T0007	Post-close reporting obligations are entered in the monitoring calendar at closing	2024-03	Fund Controller	commitments made under an unexpired exception	23	passed after remediation	closed

Test ref (TSRS version 3.2)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
TSRS-T0008	Escalations reach the named recipient within the stated notification window	2022-02	Office of the General Counsel	co-invest allocations to the parallel vehicle	20	partially tested, sample incomplete	n/a
TSRS-T0009	Every opportunity presented for approval carries a completed conflict clearance	2022-10	Internal Control Review	transactions where a delegate signed	41	partially tested, sample incomplete	n/a
TSRS-T0010	Every opportunity presented for approval carries a completed conflict clearance	2022-08	Office of the General Counsel	transactions where a delegate signed	29	failed, no evidence on file	open
TSRS-T0011	Allocation between the funds and any co-invest vehicle follows the written basis	2024-12	Internal Control Review	transactions where a delegate signed	12	passed, evidence complete	closed
TSRS-T0012	Third-party valuation reports are read against the preparer's own conclusion	2024-12	Office of the General Counsel	follow-on commitments above the delegated band	31	failed, evidence produced late	open
TSRS-T0013	Every model released to the committee has a named preparer and a named reviewer	2022-01	Portfolio Operations	matters approved between committee meetings	11	failed, approver was also preparer	open
TSRS-T0014	Board and observer seats are confirmed against the executed voting arrangements	2020-10	Portfolio Operations	transactions where a delegate signed	18	failed, approver was also preparer	open
TSRS-T0015	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2023-01	Portfolio Operations	matters where two source records disagreed	6	failed, approver was also preparer	open
TSRS-T0016	A waiver granted once is recorded as expiring rather than as standing	2020-07	Office of the General Counsel	commitments made under an unexpired exception	8	failed, evidence produced late	open
TSRS-T0017	Executed instruments are lodged in the data room within five	2024-12	Portfolio Operations	positions carried at a mark older than two quarters	35	failed, approver was also preparer	open

Test ref (TSRS version 3.2)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
	business days of signing						
TSRS-T0018	Unsigned counterparts are identified as unsigned wherever the instrument is cited	2025-05	Internal Control Review	follow-on commitments above the delegated band	48	failed, approver was also preparer	open
TSRS-T0019	A mark carried for more than two quarters without new evidence is flagged as stale	2019-05	External compliance reviewer	follow-on commitments above the delegated band	32	failed, evidence produced late	open
TSRS-T0020	A mark carried for more than two quarters without new evidence is flagged as stale	2020-12	Internal Control Review	positions whose model was rebuilt in the period	39	failed, approver was also preparer	open
TSRS-T0021	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2024-05	Valuation Committee secretariat	all new platform commitments in the period	4	failed, no evidence on file	open
TSRS-T0022	Every model released to the committee has a named preparer and a named reviewer	2023-01	Internal Control Review	co-invest allocations to the parallel vehicle	34	passed, evidence complete	closed
TSRS-T0023	Escalations reach the named recipient within the stated notification window	2023-02	Office of the General Counsel	matters approved between committee meetings	28	failed, no evidence on file	open
TSRS-T0024	Third-party valuation reports are read against the preparer's own conclusion	2023-08	Office of the General Counsel	matters where two source records disagreed	41	failed, evidence produced late	open
TSRS-T0025	Each capital structure supplied to the committee identifies which view it presents	2019-11	Internal Control Review	commitments made under an unexpired exception	20	failed, approver was also preparer	open

2. Defined terms - part 2 of 3

A further extract of the 2. Defined terms appears here, taken in order from the point at which the previous part ended. No row is omitted at the join.

Qualifications noted at the head of the 2. Defined terms apply to these rows equally, and are not restated for each part. The break is editorial.

Schedule 9.T - control testing log kept under Edition 3.2 (continued, part 2 of 3)

Test ref (TSRS version 3.2)	Control tested	Period	Tester	Population	Items examined	Outcome	Finding status
TSRS-T0026	Post-close reporting obligations are entered in the monitoring calendar at closing	2024-05	Portfolio Operations	positions carried at a mark older than two quarters	48	partially tested, sample incomplete	n/a
TSRS-T0027	Circular calculations are iterated to a stated tolerance and the residual is disclosed	2020-04	Office of the General Counsel	co-invest allocations to the parallel vehicle	14	passed, evidence complete	closed

	whole submission						

3. Mandatory standards

In the terms TSRS version 3.2 uses, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. As to consequence, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. Turning to who answers for it, reconciliation note signed by the controller performs the test Valuation Committee and reports under Term Sheet and Definitive Document Review Standard, Edition 3.2. As a matter of coverage, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining follow-on commitments above the delegated band at each measurement point.

For the avoidance of doubt under TSRS version 3.2, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. On failure, the position is added to the watch list and reported at each subsequent meeting until closed. For the avoidance of gaps, recomputation sheet with both samples performs the test Analytics Standards Group and reports under Term Sheet and Definitive Document Review Standard, Edition 3.2. Where it bites, the reference population for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone under this edition is matters where two source records disagreed.

For the avoidance of doubt under TSRS version 3.2, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. The edition is explicit here: the position is added to the watch list and reported at each subsequent meeting until closed. In the accountability chain, room index extract showing lodging dates carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested General Counsel. On the population that matters, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining matters where two source records disagreed at each measurement point.

Where a delegate of the Legal and Compliance Committee acts, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The remedy is procedural: non-compliance suspends the delegate's authority for the matter in question until the Legal and Compliance Committee restores it. As to ownership, allocation worksheet and eligibility list retains the duty throughout Edition 3.2, evidenced Compliance Officer. On the facts this edition addresses, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining positions carried at a mark older than two quarters at each measurement point.

In the TSRS drafting convention, the reviewer who clears an issue records the basis of clearance, and a cleared issue reopens automatically if the basis is later shown to be wrong. As to consequence, non-compliance suspends the delegate's authority for the matter in question until the Legal and Compliance Committee restores it. In the accountability chain, reconciliation note signed by the controller retains the duty throughout Edition 3.2, evidenced Valuation Committee. For the tested set, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking matters where two source records disagreed as the tested set.

Under TSRS version 3.2, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The edition is explicit here: the position is added to the watch list and reported at each subsequent meeting until closed. For testing purposes, reconciliation note signed by the controller is named as owner of record in Edition 3.2 and tests Valuation Committee. Scoped to this edition, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over co-invest allocations to the parallel vehicle and the result is minuted.

Schedule 9.D - decisions taken under Edition 3.2

Decision ref (TSRS version 3.2)	Decision type	Date	Approver of record	Authority relied on	Disposition	Evidence at decision
TSRS-D0001	follow-on within reserve	2023-07-25	Original approver plus one	Extension of an outstanding exception	within band	complete
TSRS-D0002	co-invest allocation	2024-03-16	Investment Committee, simple majority	New platform commitment	escalated one level	complete
TSRS-D0003	watch-list escalation	2021-12-08	Investment Committee, two-thirds	Follow-on exceeding an approved reserve	escalated one level	incomplete at decision

4. Evidence and owners

the Legal and Compliance Committee requires, before a matter may be tabled, escalation is by severity rather than by seniority of the person raising it, and a severity assessment is itself reviewable. As recorded at adoption, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. In control terms, model cover tab and the reviewer's checklist is assigned the control by Edition 3.2, which sets the cycle at Analytics Standards Group. Confined to its own field, the reference population for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone under this edition is commitments made under an unexpired exception.

the Legal and Compliance Committee expects, under TSRS version 3.2, that a delegate exceeding a band ratifies nothing by acting, and the action stands or falls on the ratification the committee subsequently gives it. The remedy is procedural: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. On the assignment of duties, ageing report with the flagged lines initialled is named as owner of record in Edition 3.2 and tests Fund Controller. Confined to its own field, for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone the operative population is follow-on commitments above the delegated band, and a test reported without it is void.

the Legal and Compliance Committee expects, under TSRS version 3.2, that a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. Practically, non-compliance suspends the delegate's authority for the matter in question until the Legal and Compliance Committee restores it. On the assignment of duties, signature page inventory with counterpart status carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested General Counsel. As the instrument is scoped, scoped to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the control bites on matters where two source records disagreed and is reported on that basis.

TSRS version 3.2 makes the standard testable, so the audit trail for a mark is retained for the life of the position and afterwards, whether or not the position is realised. Where it is not met, the position is added to the watch list and reported at each subsequent meeting until closed. On the assignment of duties, exception form with both fields completed answers for it under Edition 3.2, on a Compliance Officer test cycle. Given what this edition governs, the reference population for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone under this edition is transactions where a delegate signed.

Where two records before the Legal and Compliance Committee disagree, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. Enforcement follows automatically: where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. Operationally, rate extract with the source and retrieval date retains the duty throughout Edition 3.2, evidenced Fund Controller. Read narrowly, the Office of the General Counsel reads this against

the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking positions carried at a mark older than two quarters as the tested set.

Where the evidence before the Legal and Compliance Committee is incomplete, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Where it is not met, a failure here is a reportable control breach and is minuted as such. For the avoidance of gaps, model cover tab and the reviewer's checklist performs the test Analytics Standards Group and reports under Term Sheet and Definitive Document Review Standard, Edition 3.2. On the facts this edition addresses, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on matters where two source records disagreed, which is why the test names its population.

Schedule 9.Z - amendment trail behind Edition 3.2

Amendment ref (TSRS version 3.2)	Section affected	Nature	Adopted	Origin	Later treatment
TSRS-A001	section 3.3	typographical	2022-07	audit finding	reversed at the next adoption

TSRS-A022	section 6.4	consequential	2022-05	counsel direction	carried into the successor edition

5. Approval and escalation

At each measurement point TSRS version 3.2 fixes, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The drafting leaves no room: non-compliance suspends the delegate's authority for the matter in question until the Legal and Compliance Committee restores it. By assignment, arbitration log entry naming both sources holds it for the duration of Edition 3.2, with testing Deal Operations manager. Scoped to this edition, for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone the operative population is all new platform commitments in the period, and a test reported without it is void.

On the authority of the Legal and Compliance Committee, the model owner of record is the person accountable for a figure reaching a recommendation, and that accountability does not pass with the spreadsheet. The remedy is procedural: the position is added to the watch list and reported at each subsequent meeting until closed. On the control map, labelled schedule with the instrument list attached is assigned the control by Edition 3.2, which sets the cycle at Investment Committee chair. On the facts this edition addresses, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining positions carried at a mark older than two quarters at each measurement point.

Once a position is held under TSRS version 3.2, an instrument obtained after a decision is filed against the decision, and where it contradicts the basis of the decision the matter returns to the committee. The stated effect is that a failure here is a reportable control breach and is minuted as such. Within the register, seat schedule with instrument references is the accountable function here, testing General Counsel under Edition 3.2. Given what this edition governs, scoped to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the control bites on co-invest allocations to the parallel vehicle and is reported on that basis.

As applied by the TSRS monitoring calendar, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. On the plain words, the position is added to the watch list and reported at each subsequent meeting until closed. On the assignment of duties, room index extract showing lodging dates answers for it under Edition 3.2, on a General Counsel test cycle. On its own subject matter, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over matters where two source records disagreed and the result is minuted.

Subject to the escalation ladder TSRS version 3.2 sets, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The stated effect is that the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. In control terms, waiver register with expiry column populated is named as owner of record in Edition 3.2 and tests Legal and Compliance Committee. As a matter of coverage, scoped to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the control bites on co-invest allocations to the parallel vehicle and is reported on that basis.

For so long as TSRS version 3.2 is in force, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. The stated effect is that a failure here is a reportable control breach and is minuted as such. By assignment, ageing report with the flagged lines initialled is assigned the control by Edition 3.2, which sets the cycle at Fund Controller. For the tested set, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches follow-on commitments above the delegated band and no wider.

Schedule 9.C - control register as Edition 3.2 drew it

Control ref (TSRS version 3.2)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
TSRS-C08	Exception requests state a compensating control and an expiry date	Compliance rejects any request with either field blank	Exception form with both fields completed	Requesting partner	Compliance Officer	Per request	The request is refused without prejudice to a complete resubmission
TSRS-C09	Board and observer seats are confirmed against the executed voting arrangements	Legal ties each seat to the instrument that creates it	Seat schedule with instrument references	Portfolio Operations	General Counsel	Semi-annually	The seat is treated as unheld until the confirmation is produced
TSRS-C10	Currency translation uses one named rate source for the whole submission	Reviewer checks that a single source is cited on every schedule	Rate extract with the source and retrieval date	Modeling lead	Fund Controller	Per submission	The submission is rejected and the analyst redoes the translation
TSRS-C11	Circular calculations are	Reviewer inspects the	Convergence tab showing	Preparer	Analytics Standards	Per model	The output may not be

Control ref (TSRS version 3.2)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
	iterated to a stated tolerance and the residual is disclosed	convergence tab for the residual	iterations and residual		Group		quoted in any approval document
TSRS-C12	Post-close reporting obligations are entered in the monitoring calendar at closing	Portfolio Operations reconciles closed deals to calendar entries	Calendar extract for the quarter of closing	Portfolio Operations	Chief Operating Officer	Monthly	The closing is not marked complete and the file stays open
TSRS-C13	Allocation between the funds and any co-invest vehicle follows the written basis	Compliance recomputes the allocation from the eligibility list	Allocation worksheet and eligibility list	Allocation Officer	Compliance Officer	Per allocation	The allocation is unwound and re-run under supervision
TSRS-C14	Third-party valuation reports are read against the preparer's own conclusion	Fund Controller documents agreement or divergence in writing	Reconciliation note signed by the controller	Valuation analyst	Valuation Committee	Per report	The report may not be relied on and the mark is held at prior basis
TSRS-C15	Rounding and precision follow the stated convention on every derived figure	Reviewer recomputes two sampled figures at full precision	Recomputation sheet with both samples	Reviewing analyst	Analytics Standards Group	Per submission	Derived figures are struck and the schedule is reissued
TSRS-C16	Unsigned counterparts are identified as unsigned wherever the instrument is cited	Legal checks the citation against the signature page inventory	Signature page inventory with counterpart status	Deal Operations manager	General Counsel	Per citation	The instrument is treated as a draft for every purpose in the file
TSRS-C17	A waiver granted once is recorded as expiring rather than as standing	Compliance confirms each register line carries an expiry	Waiver register with expiry column populated	Compliance analyst	Legal and Compliance Committee	Quarterly	The waiver lapses immediately and the underlying rule applies
TSRS-C18	Escalations reach the named recipient within the stated notification window	Compliance samples three escalations and checks the timestamps	Notification record with send and receipt times	Escalating owner	Chief Operating Officer	Quarterly	The owner's escalation authority is suspended pending retraining
TSRS-C01	Every opportunity presented for approval carries a completed conflict clearance	Compliance confirms the clearance predates the tabling date	Signed clearance form with the date of search	Deal partner	Compliance Officer	Per opportunity	The matter may not be tabled and is struck from the agenda
TSRS-C02	Reserve set at initial investment is recorded before the funding instruction issues	Portfolio Finance ties the reserve line to the approval minute	Reserve worksheet countersigned by the deal partner	Portfolio Finance analyst	Fund Controller	Per investment	Funding instruction is withheld until the reserve line exists

Control ref (TSRS version 3.2)	Requirement	Test	Evidence	Owner	Approver	Frequency	Consequence of failure
TSRS-C03	Each capital structure supplied to the committee identifies which view it presents	Reviewer checks the view label against the underlying instruments	Labelled schedule with the instrument list attached	Modeling lead	Investment Committee chair	Per submission	The submission is returned unread and the meeting slot is lost
TSRS-C04	Executed instruments are lodged in the data room within five business days of signing	Deal Operations reconciles the signing log to the room index	Room index extract showing lodging dates	Deal Operations manager	General Counsel	Weekly	The deal partner loses signature authority on new documents
TSRS-C05	Where two sources disagree, both are preserved and the conflict is logged	Reviewer searches the arbitration log for the affected figure	Arbitration log entry naming both sources	Reviewing analyst	Deal Operations manager	Per discrepancy	Any conclusion drawn from the figure is void and must be redone
TSRS-C06	A mark carried for more than two quarters without new evidence is flagged as stale	Fund Controller runs the ageing report against the mark register	Ageing report with the flagged lines initialled	Valuation analyst	Fund Controller	Quarterly	The position is written to the lower of cost and last evidenced value
TSRS-C07	Every model released to the committee has a named preparer and a named reviewer	Analytics confirms both names appear on the cover tab	Model cover tab and the reviewer's checklist	Preparer	Analytics Standards Group	Per release	The model is not circulated and the decision is deferred

6. Exceptions

As the TSRS control register records, an exception carries a stated expiry, and on expiry the underlying requirement revives without further notice to the holder of the exception. The register treats this strictly: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. On the assignment of duties, allocation worksheet and eligibility list takes the requirement under Term Sheet and Definitive Document Review Standard, Edition 3.2, verified Compliance Officer. On the facts this edition addresses, the reference population for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone under this edition is positions whose model was rebuilt in the period.

For so long as TSRS version 3.2 is in force, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. The remedy is procedural: the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. As the schedules allocate it, room index extract showing lodging dates holds it for the duration of Edition 3.2, with testing General Counsel. As the scope note records, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches positions whose model was rebuilt in the period and no wider.

TSRS version 3.2 makes the standard testable, so a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. On the plain words, a failure here is a reportable control breach and is minuted as such. As to ownership, allocation worksheet and eligibility list answers for it under Edition 3.2, on a Compliance Officer test cycle. Scoped to this edition, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining positions carried at a mark older than two quarters at each measurement point.

For so long as TSRS version 3.2 is in force, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The remedy is procedural: the position is added to the watch list and reported at each subsequent meeting until closed. On the second reading, rate extract with the source and retrieval date is named as owner of record in Edition 3.2 and tests Fund Controller. For the tested set, scoped to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the control bites on all new platform commitments in the period and is reported on that basis.

As the TSRS control register records, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The instrument provides that the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. Turning to who answers for it, signature page inventory with counterpart status is assigned the control by Edition 3.2, which sets the cycle at General Counsel. Where it bites, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over positions carried at a mark older than two quarters and the result is minuted.

Save where the Legal and Compliance Committee grants an exception, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The stated effect is that failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. As to ownership, signed clearance form with the date of search is the accountable function here, testing Compliance Officer under Edition 3.2. As the instrument is scoped, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on follow-on commitments above the delegated band, which is why the test names its population.

Schedule 9.E - exceptions granted under Edition 3.2

Ref (TSRS version 3.2)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
TSRS-EX-061	8.5 Third-party report reconciliation	Report arrived two days before the reporting deadline	Controller documented divergence in a short note	Valuation Committee	2024-05-14	2024-06-28	Note reviewed at the following committee	Closed, note accepted
TSRS-EX-064	3.8 Rounding convention on derived figures	Inherited schedule carried a different precision convention	Two figures recomputed at full precision and compared	Analytics Standards Group	2024-08-06	2024-09-30	Recomputation sheet retained with the file	Closed, convention applied
TSRS-EX-014	4.2 Conflict clearance timing	Clearance search returned after the agenda closed on a competitive process	Partner recused from the vote and clearance filed within two days	Compliance Officer	2021-03-08	2021-04-30	Compliance confirmed the late filing at month end	Closed, monitoring complete
TSRS-EX-019	6.1 Reserve recorded before funding	Wire released on a Friday ahead of the reserve worksheet countersignature	Fund Controller held the position off the forecast until signed	Fund Controller	2021-06-24	2021-07-15	Worksheet countersigned and forecast reissued	Closed, no recurrence
TSRS-EX-023	3.4 Single rate source per submission	Two rate sources appeared in a submission inherited from a co-lead	Translation redone on one source before the committee read it	Analytics Standards Group	2021-09-02	2021-10-01	Reviewer re-checked the reissued schedules	Closed, control retested
TSRS-EX-027	5.3 Model reviewer named on release	Reviewer on leave during a two-day exclusivity window	Second preparer performed an independent rebuild instead	Analytics Standards Group	2022-01-19	2022-02-28	Rebuild retained and compared line by line	Closed, evidence retained
TSRS-	7.2 Executed	Counterparty	Signing log	General	2022-04-11	2022-05-31	Counterpart	Closed,

Ref (TSRS version 3.2)	Policy section	Rationale	Compensating control	Approver	Granted	Expiry	Monitoring	Status
EX-031	instruments lodged in five days	withheld the executed counterpart pending a side letter	annotated and weekly chase recorded	Counsel			lodged and index reconciled	obligation satisfied
TSRS-EX-034	8.1 Stale mark flagged at two quarters	Third-party report expected within weeks of the ageing run	Position disclosed as awaiting evidence in the pack	Valuation Committee	2022-07-28	2022-09-30	Report received and mark supported	Closed, evidence obtained
TSRS-EX-038	4.6 Co-invest allocation basis	Eligibility list incomplete for a newly admitted vehicle	Allocation deferred and re-run once the list was final	Compliance Officer	2022-11-03	2022-12-15	Re-run allocation reviewed by Compliance	Closed, allocation reissued
TSRS-EX-042	9.4 Escalation notification window	Escalation raised over a public holiday weekend	Written notice sent to two alternates the same day	Chief Operating Officer	2023-02-16	2023-03-31	Timestamps sampled in the quarterly review	Closed, window met on retest
TSRS-EX-045	6.5 Breach request evidence	Re-forecast unavailable while an audit adjustment was open	Approval conditioned on the re-forecast within ten days	Investment Committee	2023-05-09	2023-06-30	Re-forecast filed and condition discharged	Closed, condition met
TSRS-EX-049	2.3 Two-signature requirement	Second signatory unreachable during a same-day closing	Managing Partner countersigned within twenty-four hours	Managing Partners acting jointly	2023-08-22	2023-09-29	Signature page inventory updated and checked	Closed, inventory reconciled
TSRS-EX-053	5.7 Convergence residual disclosed	Legacy model lacked a convergence tab when inherited	Residual computed by hand and attached to the cover	Analytics Standards Group	2023-11-14	2024-01-31	Model rebuilt with a convergence tab	Closed, rebuild released
TSRS-EX-057	7.6 Unsigned counterpart labelling	Summary schedule cited an instrument before counterparts were complete	Schedule relabelled and recirculated the same day	General Counsel	2024-02-27	2024-03-29	Relabelled schedule confirmed in the room	Closed, label corrected

7. Monitoring and reporting

In the terms TSRS version 3.2 uses, a prior exception creates no standing waiver, and a request that relies on a prior exception is treated as a fresh request on its own facts. Failing that, a failure here is a reportable control breach and is minuted as such. On the control map, reserve worksheet countersigned by the deal partner owns the point in Term Sheet and Definitive Document Review Standard, Edition 3.2, and the test runs Fund Controller. On the operative population, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking transactions where a delegate signed as the tested set.

Against the TSRS version history, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The instrument provides that failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. In the accountability chain, room index extract showing lodging dates bears it in Term Sheet and Definitive Document Review Standard, Edition 3.2, with a General Counsel verification. Where it bites, scoped to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the control bites on co-invest allocations to the parallel vehicle and is reported on that basis.

In the terms TSRS version 3.2 uses, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. On the plain words, the finding stays open on the register until the evidence is produced, whatever the outcome of the transaction. On the second reading, convergence tab showing iterations and residual answers for it under Edition 3.2, on a Analytics Standards Group test cycle. Confined to its own field, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking matters where two source records disagreed as the tested set.

By the terms of the TSRS standard, a matter within a reserved category may not be approved by a delegate, and an approval given without the reserved-matter check is void rather than merely irregular. Should that occur, where the standard is not met the opportunity is withdrawn from the agenda rather than approved subject to conditions. By assignment, arbitration log entry naming both sources carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested Deal Operations manager. On the population that matters, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining positions whose model was rebuilt in the period at each measurement point.

As the Legal and Compliance Committee minuted at adoption, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. Where it is not met, an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. Within the register, arbitration log entry naming both sources retains the duty throughout Edition 3.2, evidenced Deal Operations manager. As the instrument is scoped, because this edition governs the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the requirement reaches follow-on commitments above the delegated band and no wider.

As between the deal team and the Legal and Compliance Committee, a monitoring obligation not performed within its window is reported as a failure even where it is performed late, and the late performance does not close the finding. Practically, failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. By assignment, allocation worksheet and eligibility list is the accountable function here, testing Compliance Officer under Edition 3.2. Given what this edition governs, applied to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the standard is tested over matters where two source records disagreed and the result is minuted.

Schedule 9.N - measurement conventions under Edition 3.2

Convention (TSRS version 3.2)	Value under this edition	Reason	Test applied on review	Treatment of a departure
Documentation accompanying a release	Purpose, inputs, conventions applied, and known limitations	A model without stated limitations invites misuse	Reviewer checks all four headings are present	Release is blocked until the note is complete
Day-count for interest on a convertible instrument	Actual over a three hundred and sixty-five day year	Matches the instruments the fund had then signed	Recompute one accrual period by hand	Departure recorded on the model cover tab
Rounding of derived per-unit figures	Carry full precision internally, present to four decimal places	Presentation rounding must not enter a later calculation	Recompute two sampled figures at full precision	Departure requires an Analytics sign-off
Rounding of aggregate currency amounts	Present to the whole unit, never to thousands	Aggregating rounded parts drifts against the true total	Foot the schedule and compare to the unrounded total	Difference disclosed as a footing note
Currency translation basis	One named published source for a whole submission	Mixed sources make two schedules irreconcilable	Check the source citation on every schedule	Submission returned for a single-source rebuild
Measurement date for a balance figure	The last day of the reporting period, stated on the tab	An implied date cannot be audited afterwards	Confirm the stated date against the source extract	Undated tabs are withheld from circulation
Iteration for a circular calculation	Iterate until the residual falls below one unit of the smallest presented figure	An unconverged circularity moves with recalculation order	Inspect the convergence tab for the residual	Output may not be quoted until it converges
Tie-break where two conventions both apply	The more conservative of the two, with the choice stated	A silent tie-break is unreviewable	Reviewer confirms the stated choice on the tab	Unstated tie-breaks are treated as errors
Treatment of a figure sourced from a summary	Marked unverified and excluded from any derived total	A summary is the weakest admissible source	Trace each marked figure back to its source	Derived totals containing it are struck
Version control for a	Sequential release number	Two models sharing one	Compare the cover release	Unversioned releases are

Convention (TSRS version 3.2)	Value under this edition	Reason	Test applied on review	Treatment of a departure
released model	with a dated change note	name cannot be reconciled	number to the log	not accepted for review

8. Version administration

the Legal and Compliance Committee adopted the replacement on 2025-12-31. Where this edition and its successor differ on the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, the decision register at Schedule 9.D identifies which of the two a given approval was taken under.

Where the evidence before the Legal and Compliance Committee is incomplete, the approver of a matter may not also be its preparer, and where the two coincide the matter is escalated one level rather than approved. As recorded at adoption, the position is added to the watch list and reported at each subsequent meeting until closed. Turning to who answers for it, calendar extract for the quarter of closing holds it for the duration of Edition 3.2, with testing Chief Operating Officer. Given what this edition governs, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining co-invest allocations to the parallel vehicle at each measurement point.

By the terms of the TSRS standard, a discrepancy between two records is preserved in the file and reported, and it is not resolved by adopting whichever figure the model already used. Should that occur, failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. As to ownership, room index extract showing lodging dates is the accountable function here, testing General Counsel under Edition 3.2. On the operative population, the Legal and Compliance Committee applies this to the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone by examining matters where two source records disagreed at each measurement point.

On the authority of the Legal and Compliance Committee, the effective date of an instrument governs its application, and a later drafting date does not displace an earlier effective date. The committee minuted the point: an approval given in breach of this standard is recorded as invalid and the matter is re-tabled. By assignment, recomputation sheet with both samples is named as owner of record in Edition 3.2 and tests Analytics Standards Group. On the population that matters, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on positions with an unclosed monitoring finding, which is why the test names its population.

TSRS version 3.2 provides, within the scope stated above, that the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The edition is explicit here: the consequence of failure is that the matter may not proceed to a commitment until the gap is closed. By assignment, room index extract showing lodging dates carries the control in Term Sheet and Definitive Document Review Standard, Edition 3.2, tested General Counsel. As the instrument is scoped, for the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone the operative population is transactions where a delegate signed, and a test reported without it is void.

As applied by the TSRS monitoring calendar, the evidence named against a control must be on file before the decision is taken, and a decision recorded without it is reopened at the next committee meeting. The edition is explicit here: failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. On the control map, labelled schedule with the instrument list attached answers for it under Edition 3.2, on a Investment Committee chair test cycle. As the scope note records, the Office of the General Counsel reads this against the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone, taking positions whose model was rebuilt in the period as the tested set.

As between the deal team and the Legal and Compliance Committee, the population a test is measured over is stated with the test, and a test reported without its population is treated as not performed. The drafting leaves no room: failure is reported to the Legal and Compliance Committee in the period it is found, not in the period it occurred. For testing purposes, exception form with both fields completed is assigned the control by Edition 3.2, which sets the cycle at Compliance Officer. Confined to its own field, in the context of the review standard for term sheets and definitive documents, and the issues that may not be cleared by the deal team alone this bears on matters approved between committee meetings, which is why the test names its population.

Schedule 9.R - reserve lifecycle events under Edition 3.2

Position reference (TSRS version 3.2)	View forecast under	Trigger event	Action taken on the reserve	Effective quarter	Recorded by
Position A-07	Fully-funded view	Down round carrying a pay-to-play mechanic	Reserve released in part and the participation reduced	2022-06-30	Investment Committee
Position D-02	First-close view	Position written down below cost	Reserve released in full and reallocated	2022-12-31	Investment Committee
Position B-16	Fully-funded view	Follow-on exceeded the reserved amount	Breach approved on a re-forecast with a named alternative use	2023-03-31	Investment Committee
Position E-05	First-close view	Exit signed and the position moved to proceeds	Reserve released and the uncommitted balance restored	2023-06-30	Fund Controller
Position C-21	Fully-funded view	Co-invest vehicle took part of the allocation	Reserve split between fund and vehicle on the written basis	2023-09-30	Allocation Officer
Position F-01	First-close view	Outstanding instrument converted at a priced round	Reserve re-forecast on the fully-funded view for the first time	2023-12-31	Portfolio Finance
Position D-13	Fully-funded view	Governance change removed the participation right	Reserve released and the release minuted with its reason	2024-03-31	Investment Committee
Position A-19	First-close view	Milestone met ahead of plan	Reserve reduced and the balance returned to the sector band	2021-03-31	Portfolio Finance
Position B-04	Fully-funded view	Round size increased after the term sheet	Reserve increased on a committee approval	2021-09-30	Investment Committee
Position C-11	First-close view	Bridge extended pending a priced round	Reserve held and the forecast date moved one quarter	2022-03-31	Portfolio Finance
