ANNUAL CONTINUING DISCLOSURE REPORT — FISCAL YEAR 2024

Relating to the Authority's Industrial Development Revenue Bonds (Company Project), Series 2019

Current Rating: Moody's: A3.

Bonds Outstanding and Rating Summary

Item	Value
Fiscal year covered	2024
Outstanding Par Amount	$24,500,000.00
Rating Agency	Moody's
Current Rating	A3
First Optional Redemption Date	2029-06-01
Tax status of interest	Private activity bond; interest remains an item of tax preference for individual holders under the alternative minimum tax (the "AMT")

Serial Maturity Schedule

Maturity Date	Principal Amount	Interest Rate	CUSIP
2027-06-01	2,800,000.00	3.75000%	M0100XAA1
2028-06-01	2,900,000.00	3.85000%	M0100XAB1
2029-06-01	3,000,000.00	3.95000%	M0100XAC1
2030-06-01	3,100,000.00	4.00000%	M0100XAD1
2031-06-01	3,200,000.00	4.05000%	M0100XAE1
2032-06-01	3,300,000.00	4.10000%	M0100XAF1
2033-06-01	3,400,000.00	4.10000%	M0100XAG1
2039-06-01 (Term Bond)	2,800,000.00	4.25000%	M0100XAH1

Mandatory Sinking Fund Schedule (Term Bond)

Sinking Fund Payment Date	Principal Amount
2034-06-01	450,000.00
2035-06-01	460,000.00
2036-06-01	470,000.00
2037-06-01	480,000.00
2038-06-01	490,000.00
2039-06-01	450,000.00

Introduction and Purpose of this Annual Report

This Annual Report for fiscal year two thousand twenty-four is furnished by the Obligor solely to satisfy the Continuing Disclosure Undertaking described in the Official Statement, and it is filed with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system. This Annual Report is not an offering document and does not constitute an offer to sell or a solicitation of an offer to buy any security, and it should not be used for any such purpose. The information presented here is provided for the benefit of bondholders and the municipal securities markets as a continuing disclosure filing, and not as a supplement to, or replacement for, the Official Statement.

This Annual Report is qualified in its entirety by reference to the Official Statement, and capitalized terms used but not defined in this Annual Report have the meanings assigned to them in the Official Statement. Readers should review the Official Statement, together with the Loan Agreement and the Indenture described therein, for the complete terms and conditions under which the Bonds have been issued and are secured. To the extent any statement in this Annual Report conflicts with a statement in the Official Statement, the Official Statement controls for all purposes of the Continuing Disclosure Undertaking.

The Obligor is the Company under the Loan Agreement with the Authority described in the Official Statement, and the Bonds remain outstanding as described in the financial information and operating data divisions later in this report. The Loan Agreement and the related Indenture establish the obligations of the Company and the security provisions applicable to the Bonds, and reference is made to those documents for their complete terms. The tables included in the divisions of this Annual Report identify the outstanding Bonds and the related debt service information required by the Continuing Disclosure Undertaking.

This Annual Report is organized into the divisions whose captions appear throughout this report, and each division is designed to present the annual financial information and operating data required by the Continuing Disclosure Undertaking. The principal divisions are the introduction to this Annual Report, the annual financial information, and the operating data, together with any additional divisions indicated by their captions in the report. Within each division, the relevant information appears either directly or by reference to the Official Statement, the Loan Agreement, or the Indenture, so that a reader may follow the organization of the report in the same sequence as the annual financial information filing.

Annual Financial and Operating Information

This Annual Report is filed by the Obligor pursuant to the Continuing Disclosure Undertaking described in the Official Statement and covers the fiscal year two thousand twenty-four. The Obligor incorporates by reference its audited financial statements for the fiscal year, when and if available, and complete copies of those statements are available upon request from the Obligor. Together with the Official Statement, those financial statements provide the financial information supporting the narrative operating discussion in this Annual Report.

A report of this kind for a single-tenant industrial facility customarily discusses, in narrative terms, facility utilization, production or throughput levels, and any material change in the nature of the Company's operations at the Project. The operating data is pertinent because the Project's continued use and the consistency of the Company's operations affect the Obligor's ability to meet its obligations under the Loan Agreement and the Indenture. The Loan Agreement and the Official Statement describe the Project and the operating covenants that frame the presentation of this information. The narrative operating data is intended to indicate whether the Project has continued to operate as a single-tenant industrial facility during the fiscal year.

Condensed operating data for the fiscal year and the Obligor's covenant compliance for the fiscal year are discussed in the following two divisions of this report. The two divisions that follow present, respectively, the operating data in summary form and the Obligor's compliance status with respect to the covenants contained in the Loan Agreement and the Indenture. The condensed presentation is designed to provide a convenient reference to the material annual financial and operating information without reproducing the full text of the documents incorporated by reference. Readers should consult the Loan Agreement, the Indenture, and the Official Statement for the complete terms governing the information summarized in those divisions.

This Annual Report does not restate the Obligor's complete financial statements and is not intended to be read in isolation from the Official Statement or the Obligor's audited financial statements. The financial and operating information set forth in this Annual Report is qualified in its entirety by the more detailed information contained in those documents, including the notes to the audited financial statements and the description of the Project in the Official Statement. Readers should review this Annual Report together with the Official Statement and the Obligor's audited financial statements to obtain a complete understanding of the Obligor's financial condition. The information provided in this Annual Report is furnished solely to satisfy the annual financial information filing covenant described in the Continuing Disclosure Undertaking.

Operating Results for the Fiscal Year

For the fiscal year twenty twenty-four, the Obligor's operating results reflected a modest softening in facility

utilization during the second half of the fiscal year. The softening was primarily attributable to general demand conditions in the Company's industry, as customer ordering patterns moderated from the levels achieved in the first half of the fiscal year. The effect on the Obligor's financial results was only partially offset by cost discipline exercised across the Company's operating and maintenance programs. A more detailed presentation of the operating results and the related financial statements is included in the audited financial statements accompanying this Annual Report, and the description of the Company's operations and demand sensitivities appears in the Official Statement.

During the fiscal year, similarly situated industrial and manufacturing companies experienced generally uneven market conditions, with demand gradually shifting from expansionary ordering in the early months to more cautious purchaser behavior in the latter half of the year. Customer inventory management, input cost pressures, and a measured approach to capital spending were common characteristics of the period, particularly for companies whose products serve intermediate rather than finished demand. These conditions were consistent with the industry-wide factors described in the Official Statement's risk factors and operating data sections, and they contributed directly to the utilization pattern referenced above.

In response, the Obligor's management implemented a range of operational measures intended to align variable costs with the reduced utilization level while preserving the facility's long-term capability. These measures included adjusting shift schedules, deferring discretionary repair and maintenance work to later periods, and tightening procurement and inventory practices to minimize cash outflows. Management also maintained regular communication with the Authority regarding the facility's operating status, and the facility and the Obligor's operations are more fully described in the Loan Agreement and the Indenture. These actions helped contain the decline in operating margins and left the Company better positioned to respond to further demand changes if they occur.

The operating results described in this Annual Report section are past operating results and are not necessarily indicative of future results. No assurance can be given as to the Obligor's future operating performance, and the Obligor's actual results may differ materially from any expectations or projections expressed in the Official Statement or elsewhere. Although the Obligor believes the operational measures described above were appropriate under the circumstances, future conditions in the Company's industry may require additional adjustments, and the Obligor makes no representation that such measures will be sufficient to achieve any particular operating outcome.

Covenant Compliance for the Fiscal Year

The Obligor, as the Company under the Loan Agreement, has satisfied the minimum debt service coverage covenant set forth in the Loan Agreement for the fiscal year two thousand twenty-four. The actual coverage level, determined under the Loan Agreement, remained above the required minimum; the margin, or headroom, above that minimum was materially reduced relative to the prior fiscal year. That reduced headroom is consistent with the operating and debt service results reported in the financial information and operating data filed with this Annual Report and described in the Official Statement.

The Obligor's determination of compliance with the minimum debt service coverage covenant was made in accordance with the definitions, accounting treatments, and calculation methodology set forth in the Loan Agreement. The calculation that supports that determination is not restated in this Annual Report, and the financial

information on which it is based is presented separately in the financial statements and operating data accompanying this Annual Report. Accordingly, this Annual Report provides narrative confirmation of compliance rather than a substituted computation.

The Obligor is also subject to other customary covenants under the Loan Agreement, including, among others, an additional-indebtedness restriction, an insurance covenant, and a maintenance-of-the-Project covenant. As of the date of this Annual Report, the Obligor was in compliance with each of those covenants. This compliance statement is based on a review of the Obligor's books, records, and operations against the relevant terms of the Loan Agreement and the Indenture.

Under the Loan Agreement, a failure by the Obligor to comply with a covenant, if not cured within any applicable cure period, could constitute an event of default. The Indenture contains corresponding provisions under which such an uncured failure could constitute an event of default with respect to the bonds, with the consequences described in the Indenture available to the bondholders or their designated representative. The Obligor is not aware of any such failure as of the date of this Annual Report.

Significant Events; Compliance History

The Obligor restates, as set forth in this Annual Report, the designation of the Bonds as private-activity bonds and the resulting application of the federal alternative minimum tax to certain taxpayers, all as described in the Tax Matters section of the Official Statement. Specifically, the Bonds retain their status as private-activity bonds under the Internal Revenue Code, and interest on the Bonds remains subject to the corporate alternative minimum tax for corporations that are not excepted from that tax. No rating action was taken on the Bonds during fiscal year two thousand twenty-four, and no optional or mandatory redemption of the Bonds occurred during that same period. This restatement is consistent with the representations made in the Tax Matters section of the Official Statement and with the covenants set forth in the Loan Agreement.

In accordance with the disclosure conventions introduced by the Securities and Exchange Commission’s 2018 amendments to Rule 15c2-12, the Obligor has conducted a review of its compliance, in all material respects, with its continuing disclosure undertakings applicable to the Bonds over the preceding five years. Based on that review, the Obligor states that it knows of no instance of material non-compliance with those undertakings, other than any instances otherwise disclosed in this Annual Report. For purposes of this paragraph, the Obligor has considered each undertaking as originally executed and as supplemented or amended, including the Continuing Disclosure Undertaking described in the Official Statement. The review covered all filings and notices required to be made in accordance with the operative provisions of that undertaking.

This Annual Report for fiscal year two thousand twenty-four covers the second consecutive fiscal year of the five-year compliance-history period that a prospective purchaser of the Bonds is invited to review. The preceding fiscal year, fiscal year two thousand twenty-three, constituted the first year of that period, such that the period currently spans from fiscal year two thousand twenty-three through fiscal year two thousand twenty-seven, with the present report addressing the second year. A prospective purchaser should therefore examine this report together with the prior annual report for fiscal year two thousand twenty-three and any subsequent reports to be filed over the remaining three years of the period. This information is provided to facilitate a complete understanding of the

Obligor’s recent compliance record as contemplated by the Official Statement.

The Obligor is not aware of any pending or threatened material litigation against the Authority or the Obligor relating to the Bonds, defined in the Indenture, as of the date of this report. This statement is made after reasonable inquiry into the records and proceedings of both the Authority and the Obligor, and it encompasses any litigation that could reasonably be expected to affect the security for or payment of the Bonds. The Obligor will continue to monitor for any such litigation, but as of the date of this Annual Report no such matter has been asserted or threatened in writing. No disclosure of litigation is therefore included in the financial information presented elsewhere in this report.

Current Rating

The Bonds currently carry a rating from a single rating agency, as that rating is stated in the credit-rating table presented elsewhere in this Annual Report, which table the reader is directed to consult for the specific rating assigned. Neither the name of that rating agency nor the specific rating letter or notch is repeated in this prose section, because doing so would risk contradicting the actual figure set forth in the table. This Annual Report discloses the rating only as a factual matter under the Continuing Disclosure Undertaking, and the rating is not modified, confirmed, or updated by this filing.

That rating reflects solely the assigning agency’s own opinion as of the date it was issued, based on information then available to that agency, and it is not a recommendation to buy, sell, or hold the Bonds. The rating is not a statement of suitability for any particular investor, nor is it a guaranty of the Bonds’ creditworthiness, payment performance, or market value. The Obligor provides this disclosure for informational purposes only and does not represent that the rating is an assessment of the Bonds’ investment merits independent of the agency’s published criteria.

There is no assurance that the rating will continue for any given period, and the rating agency may revise, suspend, or withdraw the rating at any time in its sole discretion. Such a revision, suspension, or withdrawal could adversely affect the market price of the Bonds or the liquidity of the trading market for the Bonds. The Obligor has no control over the rating agency’s ongoing evaluation, and the rating is subject to change or termination without prior notice to the Obligor or to holders of the Bonds.

As background only, and without restating any specific notch on either scale, a rating assigned to a municipal issuer, such as the Authority or the Company, is based on a rating scale that is not directly comparable to the rating scale used for corporate issuers. The two scales reflect different legal frameworks, revenue sources, and default characteristics, and an investor should not assume that a given municipal rating letter or notch carries the same meaning as the identical letter or notch on a corporate scale. This observation is included solely to assist in interpreting the single rating shown in the table and is not a commentary on the current rating itself.

Continuing Disclosure Undertaking — Annual Report Filing Deadline

This Annual Report is filed in satisfaction of the Obligor's continuing-disclosure obligation under its Continuing Disclosure Undertaking. That Undertaking, as described in the Official Statement, requires each Annual Report to be filed with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system within one hundred eighty days after the end of each fiscal year of the Obligor, and this report is filed within that period for the fiscal year it covers.

Under the Continuing Disclosure Undertaking described in the Official Statement, the Obligor has covenanted to file with the Municipal Securities Rulemaking Board an annual report containing the financial information and operating data specified in the Undertaking for each fiscal year, by the filing deadline set forth elsewhere in this report. This Annual Report is filed for fiscal year twenty twenty-four to satisfy that annual financial-information filing covenant, and this report addresses only that covenant and not any other covenant under the Undertaking. The information contained in this Annual Report updates, and should be read together with, the information in the Official Statement and the provisions of the Loan Agreement and the Indenture.

This Annual Report, together with the Obligor's other EMMA filings, is available on the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system. The system is commonly known as EMMA, and bondholders, securities professionals, and members of the public may access these filings through that system. The availability of this Annual Report and the Obligor's other EMMA filings satisfies the public dissemination requirement of the Continuing Disclosure Undertaking.

Under the Continuing Disclosure Undertaking, a failure by the Obligor to comply with this annual report filing covenant does not itself constitute an event of default under the Loan Agreement or the Indenture. In the event of such a failure, any Bondholder is entitled to seek specific performance of the covenant, and the exclusive remedy for that failure is an action to compel the Obligor to make the required filing. No monetary damages remedy is available for a failure by the Obligor to comply with this filing covenant.

The Continuing Disclosure Undertaking was entered into by the Obligor solely to assist the underwriter of the Bonds in complying with the Securities and Exchange Commission's Rule Fifteen c-two-twelve. The Obligor has no obligation under the Undertaking other than the covenants set forth in the Undertaking and described in the Official Statement. This Annual Report is submitted in accordance with the Undertaking and for the purpose of satisfying the annual financial-information filing covenant addressed in this report.

Additional Indebtedness During the Fiscal Year

During the fiscal year two thousand twenty-four, the Company incurred no new indebtedness that ranks equally with or senior to the guarantee supporting the Bonds. This result was achieved notwithstanding the softened operating conditions discussed in the operating data and financial information sections reported above. The absence of new parity or senior debt is therefore a matter of actual financing activity during the period, not a modification of the terms of the guarantee.

Neither the Loan Agreement nor the Indenture prohibits all additional indebtedness of the Company or its corporate parent. The covenants addressing additional indebtedness permit incurrences that satisfy the conditions and qualifications set forth in those documents, rather than imposing an outright bar. Accordingly, the absence of new indebtedness during the fiscal year is not itself a covenant requirement, but merely the position as of the date of this report.

Any additional indebtedness the Company or its corporate parent incurs in the future could rank equally with, or, in the case of secured indebtedness, ahead of, the guarantee supporting the Bonds. The Official Statement's Bondholders' Risks discussion describes this priority risk and explains how future borrowings could affect the position of the guarantee. Holders of the Bonds should refer to that discussion for a fuller understanding of the

potential intercreditor and payment priority consequences of future debt.

The Obligor will disclose any material change in the position described above in a future Annual Report or, if applicable, in a notice of a material event. Any such disclosure will be made in accordance with the Continuing Disclosure Undertaking and the Official Statement. Until such disclosure is made, the position stated in this section remains the Obligor's representation as of the date of this Annual Report.

Private Activity Bond and Alternative Minimum Tax Status

Consistent with the Tax Matters section of the Official Statement, the Bonds remain private activity bonds within the meaning of Section 141 of the Internal Revenue Code, and interest on the Bonds remains an item of tax preference for purposes of the alternative minimum tax (the "AMT") applicable to individual holders under Section 57(a)(5) of the Code, and is also relevant for purposes of the corporate alternative minimum tax under Section 55 of the Code for applicable corporations to the extent such interest is included in adjusted financial statement income. Prospective purchasers, including any corporate purchaser subject to the corporate alternative minimum tax, should consult their own tax advisors as to the applicability of these provisions.

The Bonds continue to be private activity bonds within the meaning of Section one hundred forty-one of the Internal Revenue Code, and interest on the Bonds continues to be an item of tax preference for purposes of the alternative minimum tax (the "AMT") applicable to individual holders. This classification is restated for the fiscal year covered by this Annual Report in the same manner as it was addressed in the Tax Matters section of the Official Statement. That section described the federal income tax consequences of holding the Bonds, including the private activity bond designation and the individual alternative minimum tax preference item.

This designation remains unchanged from the designation described in the Official Statement, and no event during the fiscal year caused the Authority or the Company to reconsider it. The tax discussion in the Official Statement was prepared in connection with the issuance and delivery of the Bonds under the Indenture and the Loan Agreement, and the facts relevant to that discussion have not changed. The Authority and the Company have not taken any action, and have not entered into any arrangement, that would alter the private activity bond status of the Bonds as of the date of this Annual Report.

Such interest is also relevant for purposes of the corporate alternative minimum tax under Section fifty-five of the Code for applicable corporations, to the extent such interest is included in adjusted financial statement income. This restatement is intended to call attention to that separate federal income tax consideration for corporate holders. Neither the Authority nor the Obligor expresses any view as to whether any particular corporation is subject to the corporate alternative minimum tax or whether any particular holder's adjusted financial statement income includes interest on the Bonds.

Prospective purchasers, including any corporate purchaser subject to the corporate alternative minimum tax, should consult their own tax advisors as to the applicability of these provisions to their particular circumstances. Neither the Authority nor the Obligor is providing tax advice by this restatement, and this Annual Report does not contain tax counsel's opinion. The discussion in this section should be read together with the more complete tax discussion in the Tax Matters section of the Official Statement.

Use of Proceeds Confirmation

(a) The Obligor hereby confirms that the proceeds of the Bonds were fully applied to the purposes described in the Plan of Finance set forth in the Official Statement. As of the date of this Annual Report, no unspent proceeds of the Bonds remain held by the Trustee, and all such proceeds have been expended in accordance with the terms of the Loan Agreement and the Indenture. This confirmation is based on the records of the Obligor and the Trustee's final accounting of the Bond proceeds.

(b) The proceeds of the Bonds were applied to capital improvements at the Project, including construction, equipping, and related site development, as well as to the costs of issuance of the Bonds. These categories of expenditures are described generically in the Plan of Finance and are further specified in the Official Statement's discussion of the sources and uses of funds. No portion of the proceeds was applied to any purpose other than those described in the Official Statement.

(c) Because no proceeds of the Bonds remain unspent as of the date of this Annual Report, the Obligor has no further arbitrage-rebate compliance obligation with respect to unspent proceeds. The Obligor's obligation to compute and pay any applicable arbitrage rebate with respect to the investment of the Bond proceeds has been satisfied upon the full expenditure of such proceeds. Nothing in this paragraph relieves the Obligor of any other continuing obligation under the Tax Matters section of the Official Statement.

(d) For the use-of-proceeds restrictions that continue to apply to the completed Project throughout the term of the Bonds, reference is made to the Tax Matters section of the Official Statement. Those restrictions include requirements governing the use and ownership of the Project and the investment of any funds that may be held under the Indenture after the expenditure of the original proceeds. The Obligor has covenanted in the Continuing Disclosure Undertaking to comply with such restrictions, and this Annual Report confirms that the Project is being operated in a manner consistent with those requirements.

Insurance and Casualty

The Company maintains insurance on the Project of the kinds and in the amounts required by the Loan Agreement, and no material casualty loss affecting the Project occurred during the fiscal year two thousand twenty-four. The Obligor confirms that the coverage in force throughout the fiscal year satisfied the insurance requirements set forth in the Loan Agreement, including the minimum coverages and deductibles specified therein. A review of the available insurance records for the fiscal year indicates that the required policies were continuously in effect with no lapse in coverage for the Project.

The kinds of coverage customarily required of a facility of this type include property insurance, which indemnifies against physical loss of or damage to the Project, including damage to buildings, equipment, and other tangible assets, and commercial general liability insurance, which protects against third-party claims for bodily injury and property damage arising from the operation of the Project. These coverages are standard for comparable facilities and are carried by the Company in the forms and amounts specified in the Loan Agreement. The Loan Agreement's insurance covenant sets forth the perils to be insured against under the property policy and the liability limits to be maintained under the commercial general liability policy.

In the event of a casualty loss, the proceeds of any casualty insurance would be applied in accordance with the Indenture, either to the restoration of the Project or to the redemption of the Bonds, as the Indenture directs. The

Indenture establishes the conditions under which the Trustee or the Company, as applicable, determines whether the Project should be repaired, rebuilt, or restored, or whether the loss is such that the outstanding Bonds should be redeemed from the insurance proceeds. Any determination regarding the application of such proceeds would be made in accordance with the Indenture's provisions and any consents or directions required thereunder.

The Obligor furnished the Trustee with evidence of its continued insurance coverage during the fiscal year as required by the Loan Agreement. Such evidence consisted of certificates of insurance and, where applicable, declarations pages and endorsements confirming that the required policies remained in full force and effect. The Obligor complied with the periodic evidence requirements of the Loan Agreement and will continue to provide such evidence to the Trustee on the schedule set forth therein.

Miscellaneous

This Annual Report is furnished solely pursuant to the Continuing Disclosure Undertaking described in the Official Statement, and no other purpose or obligation is served by its submission. The Undertaking, as set forth in the Official Statement, constitutes a binding commitment of the Obligor to provide annual financial information to the marketplace, and this filing satisfies that annual financial information covenant. Nothing in this report shall be interpreted as expanding or altering the scope of the Undertaking or as creating any additional duty beyond those expressly stated in the Undertaking, the Loan Agreement, or the Indenture.

Any statements of opinion expressed in this Annual Report are the views of the Obligor and are not representations of fact, and such statements speak only as of their respective dates. The Obligor undertakes no obligation to update or revise any such statement to reflect changes in circumstances or subsequent events that may occur after the date of this report. Readers are cautioned to consider all information in this filing together with other public disclosures, and to treat any opinion contained herein as relevant only to the time it was expressed.

The Obligor has authorized the filing of this Annual Report through its duly constituted officers and in accordance with the internal approvals and resolutions that govern its corporate actions. This authorization reflects the Obligor's commitment to comply with the Continuing Disclosure Undertaking and its related covenants under the Loan Agreement and the Indenture, as applicable. The filing of this report represents a valid and binding disclosure on behalf of the Obligor as of the date set forth herein.

Further information concerning the Bonds, the Authority, or the Obligor may be obtained by referring to the Official Statement and the Obligor's other filings on the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system. Those filings include prior annual reports, event notices, and other documents that provide additional context and detail regarding the Obligor's financial condition and operations. Interested parties are encouraged to consult those sources, together with this Annual Report, for a complete understanding of the matters addressed in this disclosure.
