Category 11 ("Rating Changes"), Rule 15c2-12(b)(5)(i)(C), Securities Exchange Act of 1934.

Date of this notice: 2026-06-25.

This notice is filed within ten business days of the occurrence of the event described herein (2026-06-15), the date of the rating action reported below; this notice is filed on 2026-06-25, 7 business day(s) after that occurrence, as the Continuing Disclosure Undertaking requires.

Introduction and Regulatory Basis for this Notice

This notice is filed pursuant to the Continuing Disclosure Undertaking described in the Official Statement for the Bonds issued by the Authority for the benefit of the Company, and reports a rating action under the Rating Changes category of Rule 15c2-12, as stated by number elsewhere in this notice. The obligation to file arises from the Undertaking and the rule, and this filing is intended to satisfy that obligation. No other event or corporate action is the basis for this filing.

The rating agency that issued the rating action has published a separate rating action report describing the same action in greater detail. That report is available directly from the rating agency and contains the analytical basis for the action. This notice is a summary and should be read together with that agency report.

The Official Statement's Rating section provides background on the sole rating agency that rates the Bonds. That section describes the rating methodology, the scope of the rating, and the limited circumstances under which the rating may be changed or withdrawn. Bondholders and market participants should refer to that section for the full context of the rating referenced in this notice.

The guarantee securing the Bonds is unsecured, as described in the Official Statement's Security and Sources of Payment section. Accordingly, the rating action reported in this notice is a rating action on the guarantor's own credit, rather than on any specific collateral or security interest. Because the guarantee is unsecured, the rating action on the guarantor is directly relevant to the credit quality of the Bonds.

Description of the Rating Action

On 2026-04-02, Moody's placed its A3 rating on the Bonds under review, direction uncertain, following the corporate guarantor's own publicly disclosed evaluation of a proposed acquisition. On 2026-06-15, Moody's affirmed the A3 rating on the Bonds and assigned a stable outlook, resolving that review. The rating is unchanged - A3 both before and after this action - and Moody's used only its own municipal rating-scale vocabulary throughout; no other rating agency rates the Bonds.

Placing a rating under review with a direction of uncertain means that the rating agency is monitoring a development that could, depending on the outcome of its analysis, affect the assigned rating. This designation does not itself imply an eventual upgrade or downgrade; the rating agency has made no determination as to the likely direction of any possible rating change. The review may conclude with an upgrade, a downgrade, or an affirmation of the current rating, and the designation merely signals that active evaluation is underway. During the review period, the rating agency will assess all relevant information and documentation before reaching a final determination.

The rating on the Bonds is based entirely on the unconditional guarantee provided by the guarantor, rather than on any project-level cash flow or security interest in the financed facility. As a result, the rating agency's review focused on whether the terms of a proposed transaction would preserve the guarantee's unconditional, full and timely payment obligation to bondholders. The review did not concentrate on project revenues, operating expenses, or other project-specific credit factors. In addition, the review considered the guarantor's own senior unsecured credit quality, because the value of the guarantee ultimately depends on the guarantor's creditworthiness.

The rating agency affirmed the rating based on its conclusion that the guarantee's terms are unaffected by the guarantor's own discussion of its capital structure. That discussion, while relevant to the guarantor's broader

financial planning, does not alter the legal obligation of the guarantor under the unconditional guarantee. The proposed transaction, as structured and evaluated, leaves the guarantee's full and timely payment provisions intact. Accordingly, the affirmation reflects the rating agency's view that no rating change is warranted at this time.

The sinking fund schedule and the Bonds' first optional redemption date, both of which were established at issuance, are unaffected by this rating action. The rating action does not revise or reconsider any payment timing, amortization, or redemption feature set forth in the governing documents. Bondholders may continue to rely on the sinking fund schedule and the first optional redemption date as originally established. The rating agency's review and affirmation have no effect on the structural terms of the Bonds.

Effect on the Bonds and No Assurance as to Future Rating Actions

This rating action does not itself constitute an event of default under the Indenture or the Loan Agreement. The obligation of the Company to make payments due under the Loan Agreement, and the corresponding flow of debt service to the holders of the Bonds, continues unaffected by the rating action. Holders should therefore not regard this rating action as a credit event triggering any remedy or acceleration under the transaction documents.

A change in the corporate guarantor's own senior unsecured rating would be expected to move this rating in the same direction. The rating of the Bonds is derived in substantial part from the unconditional guarantee provided by the guarantor. Any amendment weakening the unconditional nature of that guarantee would likely lead to a downgrade independent of the guarantor's own rating.

If the guarantor's previously-disclosed proposed acquisition proceeds to completion, a further rating action, and a further notice of that action, may follow. The timing and direction of any such action cannot be predicted at this time. Any subsequent rating action would be reported separately, as required by the continuing disclosure undertaking.

Consistent with the Official Statement's Rating section, there is no assurance that the rating will continue for any given period. A downward revision or withdrawal of the rating could adversely affect the market price or liquidity of the Bonds. Accordingly, holders should consider the rating only as one factor in evaluating the credit quality of the Bonds.

Miscellaneous

This notice does not modify, amend or supplement the Bonds, the Indenture or the Loan Agreement in any respect. The filing of this notice is made solely for informational purposes under the continuing disclosure undertaking. No term, condition, covenant or security provision of the Bonds, the Indenture or the Loan Agreement is altered by this notice.

Statements of opinion in this notice are not representations of fact, speak only as of their respective dates, and the Obligor undertakes no obligation to update them. Certain information contained in this notice may reflect judgments or assessments that were current only as of the date made. No reader should rely on any such statement as if it were a guarantee of future circumstances.

The Obligor has authorized the filing of this notice. The Authority and the Company have each reviewed the contents of this notice and confirmed that it is appropriate for submission. This filing is made on behalf of the Obligor in accordance with its continuing disclosure obligations.

Further information may be obtained by referring to the Official Statement and the Obligor's other filings on the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system. Those documents may be accessed by interested parties through that system. This notice is not intended to restate or replace the fuller disclosure contained in the Official Statement or in the Obligor's subsequent filings.
