EXECUTED SIGNATURE PAGE (SCANNED)

Re: Engagement as Financial Advisor - Project Kestrel

This scanned attachment reproduces the signature page of the engagement letter between Harborview Securities LLC and the Sponsor, dated 10 February 2026. The typed, unexecuted body of that letter governs for every term other than confirming execution; this page is a citation-of-last-resort record of signature only and is superseded, for all other purposes, by the definitive typed letter filed in the transaction record.

Yours faithfully,

HARBORVIEW SECURITIES LLC

[OCR NOTE: a notarization block, if any, appended to the original fax transmission did not survive scanning legibly and is not reproduced in this text layer; the acknowledgement of signature, if required, is a matter for the typed, executed original rather than this scanned copy.]

Distribution: Deal Team File, Harborview Client Relationship File, Legal (cc). This signature page, once countersigned, is filed with the permanent transaction record.

[SCANNING OPERATOR NOTE: original document received via inter-office fax transmission; resolution and toner condition of the source fax were both below the scanning standard normally used for permanent-record documents. This OCR text layer is provided as a convenience only and has NOT been manually proofread against the original paper record. Where this text layer conflicts with a typed, executed source document elsewhere in the diligence corpus, the typed, executed source document controls without exception.]

[END OCR TEXT LAYER - this scanned attachment is a citation-of-last-resort only; the typed, unexecuted engagement_letter.pdf controls for every term of the engagement other than confirming that it was signed.]
