KESTREL PETROLEUM — STATEMENT OF PRODUCT MIX

In-state sales of fossil fuel products for the period June 2020 - June 2025

Prepared at the request of the Office of the Attorney General under the assessment provision. The product classification follows the definition of Fossil Fuel Products in the Act.

Product	Share of in-state sales (%)	In-state sales, window ($M)	Basis of measurement
Oil and refined products	90.0	2,322.0	invoiced volume x price
Natural gas	10.0	258.0	metered volume x tariff
Coal	0.0	0.0	no registered coal sales

The mix has been stable throughout the period. The company does not sell coal in Arden and is not a party to any coal supply contract. The company made deliveries through 20 points of receipt.

Volumes are as recorded by the company's billing system. Percentages may not sum exactly as a result of rounding.
