TIDEWATER FUELS — PRODUCT MIX STATEMENT

Sales of fossil fuel products in state: June 2020 - June 2025

Issued at the request of the Office of the Attorney General. In this statement, the product classification follows the definition of Fossil Fuel Products in the Act.

Product	Share of in-state sales (%)	In-state sales, window ($M)	Basis of measurement
Oil and refined products	95.0	2,517.5	invoiced volume x price
Natural gas	5.0	132.5	metered volume x tariff
Coal	0.0	0.0	no registered coal sales

Across the period the mix was broadly stable; it varied by less than three percentage points. The company makes no coal sales in Arden and holds no coal supply contracts. Deliveries were made through 2 points of receipt.

The volumes are as recorded in the company's billing system. The percentages may not sum exactly owing to rounding.
