MARNE DIVERSIFIED ENERGY — PRODUCT MIX STATEMENT

In-state sales of fossil fuel products, June 2020 - June 2025

Submitted in response to the Office's request of this summer. The product classification follows the definition of Fossil Fuel Products in the Act.

Product	Share of in-state sales (%)	In-state sales, window ($M)	Basis of measurement
Oil and refined products	40.0	232.0	invoiced volume x price
Natural gas	60.0	348.0	metered volume x tariff
Coal	0.0	0.0	no registered coal sales

Over the period the mix has shifted gradually toward gas. Coal is not sold by the company in Arden, and no coal supply contracts are held. Deliveries passed through 8 points of receipt.

All volumes are as recorded in the company's billing system. Percentages may not sum precisely owing to rounding.
