OFFICE OF THE GOVERNOR — CORRESPONDENCE FILE

Selected items, March to August 2025

4 April 2025 — Governor's counsel to the Senate President

The Governor has asked me to convey that he would prefer the coverage test to be expressed as a fixed sum rather than a proportion. He is advised that a proportionate test may reach smaller sellers while leaving the largest outside it. The Senate is of course free to take its own course.

6 May 2025 — Senate President to the Governor's counsel

The Committee considered the point and preferred the proportionate form, on the view that a fixed sum would require amendment as prices move. The amendment as reported carries the proportion.

22 July 2025 — Environmental Quality Board to the Governor's counsel

The Board notes that the House amendment adds a further rulemaking obligation in section 7-020(1)(b) by 1 May 2026, alongside the rules due under section 7-022(h) by 1 April 2026. The Board will meet both dates but observes that the two rulemakings are related and that the earlier deadline falls on the less developed of them.

26 August 2025 — Governor's counsel to the Attorney General

The Governor's letter of today is sent separately. For your file: the bill was presented at 9.40 this morning and the ten-day period runs from presentation.

Items not bearing on the bill have been omitted from this extract.
