FERROM GAS — STATEMENT OF FUEL MIX

Sales of fossil fuel products in state, June 2020 - June 2025

The Office of the Attorney General requested this statement, and it is provided accordingly. The product classification follows the definition of Fossil Fuel Products in the Act.

Product	Share of in-state sales (%)	In-state sales, window ($M)	Basis of measurement
Natural gas	100.0	1,880.0	metered volume x tariff
Coal	0.0	0.0	no registered coal sales

Broadly speaking, the mix has been stable, varying by less than three percentage points. The company has no coal sales in Arden and holds no coal supply contracts. Deliveries went through 23 points of receipt.

Volumes are as recorded in the company's own billing system. Percentages may not sum exactly on account of rounding.
