REPORT OF THE HOUSE COMMITTEE ON THE JUDICIARY

On amendments adopted to the Climate Resilience Funding Act, 19 July 2025

The Committee reports the bill with the following amendments.

1. Section 7-020(1)(b) — new subsection

The Committee inserted a new subsection directing the Board to promulgate, by 1 May 2026, regulations establishing the methodology for calculating the Producer Assessment based on estimated CO2E generated from the Fossil Fuel Products sold anywhere in the State. The Committee considered that the bill as it came from the Senate did not say how the assessment was to be computed and that the Board required an express direction.

2. Section 7-022(g)

The words 'within the State' were inserted after 'for the purposes'. The Committee considered it appropriate that money raised from charges imposed in Arden be spent in Arden.

3. Section 7-023

Section 7-023 was struck.

4. No further amendments

The Committee adopted no further amendments. Sections not listed above are reported without change.

Filed with the Clerk of the House.
